## PROCLAMATIONS BY THE GOVERNOR.

IN the Name of His Majesty EDWARD THE SEVENTH, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith.

### PROCLAMATION.

By His Excellency Sir HENRY ARTHUR BLAKE, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Island of Ceylon, with the Dependencies thereof.

HENRY A. BLAKE.

“THE VEHICLES ORDINANCE, 1901.”

WHEREAS by sub-section (1) of section 19 of “The Vehicles Ordinance, 1901,” it is enacted that the Governor, with the advice of the Executive Council, may for any town, place, district, or province of this Island from time to time make, and when made revoke, amend, alter, or vary such by-laws as may seem necessary or expedient for the purpose of carrying out the provisions of the said Ordinance:

Now know Ye that We, the said Governor, in exercise of the powers in Us vested by the said sub-section (1) of section 19 of the above-named Ordinance, and with the advice aforesaid, do hereby revoke by-law No. 18 of the by-laws for the Kalutara District in the Western Province, published by Proclamation dated 28th October, 1904, in the *Government Gazette* No. 6,014 of 4th November, 1904.

Given at Colombo, in the said Island of Ceylon, this First day of February, in the year of our Lord One thousand Nine hundred and Six.

By His Excellency's command,

A. M. ASHMORE,  
Colonial Secretary.

GOD SAVE THE KING.

IN the Name of His Majesty EDWARD THE SEVENTH, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith.

PROCLAMATION

By His Excellency Sir HENRY ARTHUR BLAKE, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Island of Ceylon, with the Dependencies thereof.

“THE VEHICLES ORDINANCE, 1901.”

HENRY A. BLAKE.

WHEREAS by sub-section (1) of section 19 of “The Vehicles Ordinance, 1901,” it is enacted that the Governor, with the advice of the Executive Council, may for any town, place, district, or province of this Island from time to time make, and when made revoke, amend, alter, or vary such by-laws as may seem necessary or expedient for the purpose of carrying out the provisions of the said Ordinance :

Now know Ye that We, the said Governor, in exercise of the powers in Us vested by the said sub-section (1) of section 19 of the above-named Ordinance, and with the advice aforesaid, do hereby revoke by-law No. 18 of the by-laws for the revenue district of Galle, excluding the town of Galle within the Municipal limits, published by Proclamation dated the Sixth day of January, 1905, in the *Government Gazette* No. 6,029 of 12th January, 1905.

Given at Colombo, in the said Island of Ceylon, this First day of February, in the year of our Lord One thousand Nine hundred and Six.

By His Excellency's command,

A. M. ASHMORE,  
Colonial Secretary.

GOD SAVE THE KING.

## UNIVERSITY OF LONDON.

### REGULATIONS FOR MATRICULATION.

#### IMPORTANT NOTICES.

The attention of all students who matriculate is directed to the following extract from Statute No. 120:—

“ No student shall be admitted to the Final Examination for a degree until the expiration of at least three years after Matriculation, unless the Senate in special cases otherwise determine.”

#### MATRICULATION.

Candidates for any degree in this University, unless admitted under Statute 113,\* or under the second clause of Statute 116,† must have passed the Matriculation Examination either in its ordinary form or in the form of the School Examination (Matriculation or Higher Standard for the School-Leaving Certificate) at least three years previously to the Final Examination for a First Degree.‡

Students admitted under Statute 113, or under Statute 116, upon a qualification other than the Matriculation Examination, must pay a registration fee of £2 to the appropriate Registrar.

The Matriculation Examination and all other examinations of the University are open to men and women alike.

There shall be three examinations for Matriculation in each year, one commencing on September 15, if that day be a Monday, or if not, on the Monday next preceding the 15th; one on the second Monday on January; and the third on the second Monday in June (or July, as may be hereafter determined.)§

Every candidate entering for the Matriculation Examination must pay a fee of £2. If a candidate withdraws his name before the last day of entry to the examination the fee shall be returned to him. If he fails to present himself at the examination he shall be allowed to enter again within eight months for the Matriculation Examination on payment of a fee of £1. If he retires after the commencement of the examination, or fails to pass it, the full fee of £2 shall be payable upon every re-entry.||

Candidates who have passed the Matriculation Examination will not be admitted to any subsequent Matriculation Examination as a whole; but they can enter any subsequent Matriculation Examination with a view to passing in one or more additional subjects on payment of a fee of £1 for a single subject and of £2 for two or more subjects.

The examination shall be conducted by means of printed papers; but the Examiners shall not be precluded from putting, for the purpose of ascertaining the competence of the candidate to pass, *vivâ voce* questions to any candidate in the subjects in which they are appointed to examine.

\* See Appendices to these Regulations, No. I.

† See Appendices to these Regulations, No. II.

‡ The Medical and Surgical Degrees of this University are registrable qualifications, and it is not necessary for students to register as Medical Students in order to qualify for the examinations for these degrees. Compliance with the University Regulations is sufficient. For the diplomas of certain other licensing bodies, however, registration as a Medical Student by the General Medical Council is a necessary preliminary, and under the present regulations of the Council, those desiring to use the Matriculation Examination of this University as a qualification for registration must show that they have passed in Latin and in Greek or a modern foreign language.

§ The examinations in January and June (or July), but not that in September, may be held not only at the University, but also under special arrangements in other parts of the United Kingdom or in the Colonies. Neither Botany nor Drawing can be taken in the Colonies.

|| Candidates who entered for the Matriculation Examination in or before January, 1902, will for the present be admitted to subsequent Matriculations upon payment of a fee of £1, provided that they comply with the above Regulations. Colonial Candidates who withdraw their names after having entered for, or who fail to present themselves at, an examination, will be required to pay the full fee of £2 upon every re-entry.

Candidates shall not be approved by the Examiners unless they have shown at one and the same examination a competent knowledge in each of the following five subjects, according to the details specified under the several heads:—

- (1) English. One paper of three hours.
- (2) Elementary Mathematics. Two papers of three hours each.
- (3) Latin, or Elementary Mechanics, or Elementary Physics—Heat, Light, and Sound—or Elementary Chemistry, or Elementary Botany. One paper of three hours in each subject.
- (4) and (5) Two of the following subjects, neither of which has already been taken under section (3) One paper of 3 hours in each subject. If Latin be not taken, one of the other subjects selected must be another Language from the List, either ancient or modern:—

Latin.  
Greek.  
French.  
German.  
Arabic.\*  
Sanskrit.\*  
Spanish.\*  
Portuguese.\*  
Italian.\*  
Hebrew.\*  
Ancient History.  
Modern History.  
Physical and General Geography.  
History and Geography.†  
Logic.‡  
Geometrical and Mechanical Drawing.§  
Mathematics (more advanced).  
Elementary Mechanics.  
Elementary Chemistry.  
Elementary Physics—Heat, Light, and Sound.  
Elementary Physics—Electricity and Magnetism.  
Elementary Biology—Botany.||  
Elementary Biology—Zoology.\*

The following are the particulars of the foregoing subjects of examination:—

#### I.—ENGLISH.¶

The paper will test knowledge and command of English by questions in composition, précis-writing, paraphrase, and analysis of sentences. Some of the questions will involve a knowledge of the most salient facts in English History and General Geography.

#### II.—ELEMENTARY MATHEMATICS.

*Arithmetic.*—The principles and processes of Arithmetic applied to whole numbers and vulgar and decimal fractions.

The Metric System.

Approximation to a specified degree of accuracy.

Contracted methods of multiplication and division of decimals.

Ratio and proportion; percentage. Averages.

Practical applications of Arithmetic.

*Algebra.*—Symbolical expression of general results in Arithmetic.

Algebraic laws and their applications.

Factors of simple binomial or quadratic expressions.

Equations of the first or second degree, and problems leading thereto.

Square root. Graphs of simple rational integral algebraic functions.

Arithmetic and harmonic progression.

Geometric progression.

*Geometry.*—The subjects of Euclid I.-IV., with simple deductions, including easy loci and the areas of triangles and parallelograms of which the bases and altitudes are given commensurable lengths. (Euclid's proofs will not be insisted upon.)

#### III.—OPTIONAL LANGUAGES.

*Latin.*—The paper shall contain passages to be translated into English from Latin books not previously prescribed, together with questions on Grammar and simple and easy sentences of English to be translated into Latin.\*\*

Candidates who take Latin may also take an additional paper on Latin Prose if they give notice on their Entry Form. This paper will not be a part of the Matriculation Examination, and marks gained on it will not be credited to the candidate. Two hours will be allowed for this paper, which will be of about the same difficulty as the corresponding paper in Responsions at Oxford.

*Greek.*—The paper shall contain passages to be translated into English from Greek books not previously prescribed, together with questions on Grammar and simple and easy sentences of English to be translated into Greek.\*\*

\* Candidates for examination in these subjects must give notice and pay their fee at least two months before the commencement of the examination.

† Candidates who take the combined paper in History and Geography will not be allowed to take either the Modern History paper or the paper in Physical and General Geography.

‡ Candidates who intend to proceed to a Degree in Divinity are reminded that if they pass in Logic at the Matriculation Examination they will be excused that subject at the Intermediate Examination in Divinity.

§ This subject cannot be taken in the Colonies.

|| In this examination special stress is laid on competence in Drawing. This subject cannot be taken in the Colonies.

¶ For regulations as to certificates in English only see page 111.

\*\* Special stress is laid on accuracy in the answers to the Grammar questions and on the correct rendering of English into Latin and Greek respectively.

*French.*—The paper shall contain (1) passages for translation from French, (2) a piece of easy translation into French, or, as an alternative, an essay of a simple character to be written in French, (3) questions on Grammar limited to Accidence and Elementary Syntax.

*German.*—The paper shall contain (1) passages for translation from German, (2) a piece of easy translation into German, or, as an alternative, an essay of a simple character to be written in German, (3) questions on Grammar limited to Accidence and Elementary Syntax.

*Spanish\* Portuguese\* Italian\*.*—The paper shall contain (1) passages for translation from the language in question, (2) a piece of easy translation into the language in question, or, as an alternative, an essay of a simple character to be written in the language in question, (3) questions on Grammar limited to Accidence and Elementary Syntax.

*Arabic\*.*—The paper shall contain easy passages for translation into English, and questions on Grammar.

*Hebrew\*.*—The paper shall contain easy passages for translation into English, with passages for pointing, and questions on Grammar and easy composition.

*Sanskrit\*.*—The paper shall contain easy passages for translation into English, and questions on Grammar.

#### IV.—HISTORY.

*Ancient.*—The general course of Greek and Roman History, and an outline of the earlier Monarchies.

The questions will be framed to test the general conceptions of history and historical development rather than technical detail.

*Modern.*—The general course of English History from 1485 to the death of Queen Victoria, with some reference to the contemporary history of Europe and Colonial developments.

The questions will be framed to test the general conception of history and historical development rather than technical detail.

#### V.—PHYSICAL AND GENERAL GEOGRAPHY.

The following regions in decreasing detail:—(a) England and Wales, (b) Scotland and Ireland, (c) Europe, the Mediterranean, the North Atlantic, North America, and Greenland, (d) the remaining Continents. Recapitulation from the point of view of the British Empire.

Attention should be directed to the following aspects of the several regions:—The broad contrasts and chief features of the land relief. The chief features of the coastal outline as related to those of the relief. The disposition of the water partings and of the chief river basins. The winds and sea currents, distribution of rainfall, the climatic contrasts, and the resulting agricultural contrasts. The districts of exceptionally dense or rare population considered in relation to their position, natural resources, and industrial activities. The arrangement of the political divisions upon the land relief and with reference to the drainage system. The analysis of the positions of the great towns.

Candidates will be expected to understand the main physical cause of the phenomena they describe, such as variations of atmospheric temperature and pressure, their seasonal and regional distribution; the causes of precipitation, winds—their cause and prevalence in different regions, the interpretation of weather charts, and the meaning of the network and other conventional symbols employed in maps. Time need not be spent in elaborate map drawing. The answers in the examination should be illustrated, where necessary, by simple diagrams, correct in general proportion, but without detail. Candidates may be expected to identify maps without names, to insert upon such maps the position of geographical features, and to work problems as to local time.

#### VI.—HISTORY AND GEOGRAPHY.

Candidates who take the combined paper in History and Geography will not be allowed to take either the Modern History paper or the paper in Physical and General Geography.

*History.*—The general course of English History from 1688 to the death of Queen Victoria, with some reference to the contemporary history of Europe and Colonial developments.

The questions will be framed to test the general conceptions of history and historical development rather than technical detail.

*Geography.*—The British Isles and (in outline) the rest of the World.

Attention should be directed to the following aspects of the several regions:—The broad contrasts and chief features of the land relief. The chief features of the coastal outline as related to those of the relief. The disposition of the water partings and of the chief river basins. The winds and sea currents, distribution of rainfall, the climatic contrasts, and the resulting agricultural contrasts. The districts of exceptionally dense or rare population considered in relation to their position, natural resources, and industrial activities. The arrangement of the political divisions upon the land relief and with reference to the drainage system. The analysis of the positions of the great towns.

Candidates will be expected to understand the main physical causes of the phenomena they describe, such as variations of atmospheric temperature and pressure, their seasonal and regional distribution; the causes of precipitation, winds—their cause and prevalence in different regions, the interpretation of weather charts, and the meaning of the network and other conventional symbols employed in maps. Time need not be spent in elaborate map drawing. The answers in the examination should be illustrated, where necessary, by simple diagrams, correct in general proportion, but without detail. Candidates may be expected to identify maps without names, to insert upon such maps the position of geographical features, and to work problems as to local time.

Candidates will be required to pass in each division of the paper. Six questions will be set in each subject by the Examiners in that subject, of which, in each subject, three, but not more than three, are to be answered.

#### VII.—LOGIC. †

The Term: Classification of Terms, Denotation and Connotation.

Division, Definition, the Predicables.

The Proposition: Classification of Propositions, Reduction of Sentences to Logical Form.

Laws of Thought, Opposition of Propositions, Immediate Inference.

\* See note \* on page 107.

† Candidates who intend to proceed to a Degree in Divinity are reminded that if they pass in Logic at the Matriculation Examination they will be excused that subject at the Intermediate Examination in Divinity.

The Syllogism: Moods and Figurés, the Expression of Arguments in Syllogistic Form.

Hypothetical and Disjunctive Propositions and Arguments.

Inductive reasoning in its various forms.

Observation and Experiment: Canons of Scientific Induction.

Combination of Induction and Deduction: Hypothesis and Explanation. } These three subjects will be  
Fallacies. } treated in a specially elementary manner.

#### VIII.—GEOMETRICAL AND MECHANICAL DRAWING.

*Plane Geometry.*—Constructions of scales, triangles, quadrilaterals, and polygons. Problems on circles and tangents and on areas of plane figures. Simple problems on loci, including paths of points in elementary linkwork. Construction of Archimedean spiral, ellipse, cycloid, and involute of circle, with their tangents and normals.

*Solid Geometry.*—Elementary projections of points, lines, planes, inclined surfaces, and solids, including the cylinder, cone, and sphere. Simple sections. Projection of additional plans and elevations.

Isometric or oblique projection, without using "isometric scale," of simple plain surfaces and solids.

Developments of the surfaces of simple solids; elementary problems in interpenetration of prisms, cylinders, and cones, and developments of penetrated surfaces.

Projection of simple helix and square-threaded screw.

*Machine Drawing.*—Making scale drawings, two or more views, with simple sections of elementary machine parts from rough partly-dimensioned sketches.

#### IX.—MATHEMATICS (MORE ADVANCED).

*Algebra.*—Theory of indices; logarithms and the use of the logarithmic tables.

Binomial Theorem for a positive integral index.

*Geometry.*—Similar figures. Mensuration of the circle.

Elementary Co-ordinate Geometry of the straight line and circle.

*Trigonometry.*—Up to and including the solution of triangles, together with the practical solutions of triangles and applications, and numerical examples involving the use of logarithmic and other tables.

#### X.—OPTIONAL SCIENCES.

The examinations in Science shall aim at ascertaining whether candidates possess a knowledge of fundamental scientific methods, acquired by observation of nature or by a simple course of experiment in physical measurement, or by the investigation of simple problems and commonly occurring phenomena illustrating natural laws.

##### *Elementary Mechanics.*

Elementary notions of Velocity and Acceleration.

Motion of a body with constant Acceleration.

Resolution and Composition of Velocities, Accelerations, &c.

Elementary notions of Mass and Momentum.

Elementary notions of Force as measured by rate of change of Momentum.

Newton's Laws of Motion.

Kinetic Energy and Work.

Units of Force and Measurement.

Balancing of Forces.

Torques or Moments.

Conditions for the equilibrium of Three Parallel Forces.

Resolution and Composition of Parallel Forces in one Plane. Centre of Parallel Forces. Centre of

Gravity. Mass Centre. Stable, Unstable, and Neutral Equilibrium.

Conditions for the equilibrium of Three Forces not parallel. Triangle and Parallelogram of Forces. Moments. Simple illustrations of conditions of Equilibrium and of the Principle of Works, as in levers, pulleys, the inclined plane, &c.

Pressure in Liquids; variations with depth.

Transmission of Liquid Pressure; Hydraulic Press.

Pressures on immersed and floating bodies.

Density; methods of determining Relative Densities.

Relation between volume and pressure in Gases.

Atmospheric Pressure.

##### *Elementary Chemistry.*

Examples of chemical change as distinguished from physical or mechanical change. Evidence of the indestructibility of matter.

Composition and chief chemical and physical properties of atmospheric air and water.

Characteristics of definite chemical compounds as distinguished from mixtures.

Chief sources and properties of oxygen, hydrogen, carbon, sulphur, phosphorus, nitrogen, chlorine, and their chief compounds. Composition and properties of silica.

Combining proportions by weight and volume. Atomic Theory. Symbols and their use. Nomenclature. General characteristics of metals as a class. Interaction of metals, acids, and bases. The more obvious phenomena of electrolysis. Nature of salts.

Facts relating to the Chemistry of daily life:—Combustion, flame, incandescence. Coal, coke, wood, charcoal, and action of heat on these substances. Causes of hardness in natural waters. Lime, chalk, and washing soda, and their uses. Chemical nature of oil and fat, soap, mineral oil, sugar, starch, alcohol. Common vegetable acids—acetic, oxalic, tartaric. Recognition of carbon, hydrogen, and nitrogen in organic substances. Glass, clay, and pottery.

Candidates will be required to give evidence by their answers that they have seen experiments illustrative of all the subjects included in the Syllabus, and that they have themselves performed a variety of simple qualitative and quantitative experiments.

The questions set will have regard to the conditions under which the subject may best be experimentally taught in schools.

*Elementary Physics—Heat, Light and Sound.*

*Heat.*—Temperature. Construction and use of instruments for the measurement of Temperature. Expansion of solids and Liquids, with rise of Temperature. Effect of change of Temperature on the Volume and Pressure of Gases. Convection in Fluids. Quantity of Heat. Specific Heat. Change of State. Latent Heat. Vapour Pressure. Boiling-point. Dew-point. Formation of Cloud. Fog and Dew. Conduction. Definition of Thermal Conductivity. Radiation: its emission, propagation, reflection, refraction, and absorption; its relation to Light. The mechanical equivalent of Heat and modes of determination. The Conservation of Energy. *Light.*—Propagation of Light. Measurement of Velocity. Laws of Reflexion and Refraction. Photometry. Reflexion of Plane and Spherical Surfaces, and the formation of Images. Refraction at Plane Surfaces and by Prisms. Minimum deviation. Chromatic dispersion. The formation of Images by single Lenses. Long and Short Sight and their correction by Lenses. The combination of two Lenses to form a simple Telescope or Microscope. *Sound.*—The production and propagation of Sound. Nature of Wave-motion. Amplitude, Wave-length, Frequency. Experimental determination of the Velocity of Sound in Air Echoes. Effect of change of Temperature on the velocity. Determination of Frequency by simple methods. Experimental investigation of the modes of Vibration of Strings by means of the Sonometer. Experimental investigation of the Vibrations of Air in Pipes by resonance to tuning forks. Organ Pipes. Position of nodes and antinodes. The questions set will have regard to the conditions under which these subjects may best be experimentally taught in schools.

*Elementary Physics—Electricity and Magnetism.*

Properties of Magnets. Simple Phenomena of Magnetism and of Magnetic Induction (Influence). Magnetic Moment. The Magnetic Field: Line of Force. The Law of Magnetic Force. The Earth as a Magnet. The Simple Phenomena of Electrified Bodies. Conduction and Insulation. Electrification by Friction and by Induction (Influence). Quantity of Electrification. Distribution of Electrification on Conductors. Electric Field: Strength of Field. The Law of Electric Force. Potential. Capacity. Energy of Charge. Electric Discharge and Electric Current. Primary and Secondary Batteries. Magnetic Field of Current. Current Circuits in a Magnetic Field. Magnetic Measurement of Current. Galvanometers. Work done by an Electric Current. Electromotive Force. Resistance. Ohm's Law: Volt: Ohm; Ampere; Joule; Watt. Heating Effects of Currents. Elementary Phenomena of Electrolysis; Faraday's Law. Electromagnetic Induction: Faraday's Law; Lenz's Law. Induction Coil. The questions set will have regard to the conditions under which these subjects may best be experimentally taught in schools.

*Elementary Biology—Botany.\**

- (1) The members of the plant body—stems, leaves, and roots. The form (including branching) and principal modifications of these members. The bud. The inflorescence; its chief types. The structure of the flower and the functions of its parts. Pollination. Fruits and seeds. Adaptations from seed dispersal. Germination. The description of a flowering plant (not necessarily belonging to one of the Natural Orders enumerated below), and a knowledge of the following Natural Orders, as illustrated by wild or commonly cultivated plants:—Ranunculaceæ, Cruciferae, Caryophyllaceæ, Leguminosæ, Rosaceæ, Compositæ, Primulaceæ, Scrophulariaceæ, Salicaceæ, Iridaceæ, Liliaceæ, Gramineæ. (The examination, so far as it relates to the above will be restricted to the elementary facts in the morphology and physiology of angiosperms, so far as they can be observed with the naked eye or with a hand lens. Special stress is laid on competence in drawing.)
- (2) The outlines of the cellular structure of the living plant, as shown, for example, in simple fresh-water algae.
- (3) An elementary knowledge of the nutrition of plants and of the simpler experiments on which such knowledge rests. Water-cultures, Transpirations, Photo-synthesis, Respirations. Simple methods of measuring growth in shoots and roots. (An elementary knowledge will be assumed on the part of candidates of the chemical and physical properties of the atmosphere and of water, together with some acquaintance with the use of the barometer and thermometer.)
- (4) Candidates may be expected to show some familiarity with the vegetation characteristic of such localities as a hedge bank, marsh, moor, &c.

\* Candidates should bring a hand lens, a sharp knife, drawing pencil, and indiarubber.

*Elementary Biology—Zoology.\**

Candidates will be expected to be acquainted with—

- (1) The definition and scope of Zoology.
- (2) The recognition of the commoner types of animals, with an elementary knowledge of their distinctive characters, habits, and modes of life.
- (3) The general principles of animal life as exemplified by the structure and functions of the vertebrate body, so far as they can be studied by the aid of the simplest appliances.
- (4) The zoological nature of the most familiar types of invertebrate fossils.

The examination shall be conducted in the following order† :—

First day	..	Afternoon, 2 to 5	..	English (1).
Second day	..	{ Morning, 10 to 1	..	{ Elementary Mathematics (2).
		{ Afternoon, 2 to 5		{ Latin (3)

Except in the case of Elementary Mathematics, candidates will only be allowed to take one paper in each subject. Two papers will be set in many other subjects in order to compress the examination into as short a period as possible, but no candidate will be allowed to take more than one of these papers. No option is allowed as to the order in which they are taken, and if the candidate does not present himself for examination in a given subject at the right time, he will on no account whatever be allowed to take a paper which may be set later on the same subject. It is, therefore, of the greatest importance that candidates should attend to the following rule :—

**Candidates, having selected their subjects in accordance with the regulations, will be examined in these subjects in the numerical order in which they occur in the above list, and must take each subject on the first possible occasion accordingly.**

Thus a candidate who offers, in addition to English and Mathematics (Elementary), Botany, Mechanics, and French, must take Botany (No 5) on the afternoon of the third day, Mechanics (No. 7) on the morning of the fourth day, and French (No. 9) on the afternoon of the fourth day. Again a candidate who offers Latin, German (10), and Greek (11), must take German in the morning and Greek in the afternoon of the fourth day.

Candidates who take any of the subjects for which two months' notice is required will be informed when the examinations in these subjects will take place.

A Pass Certificate, signed by the Principal and setting forth the subjects of examination taken by the candidate, shall be delivered to each successful candidate after the report of the Examiners shall have been approved by the Senate.‡

## CERTIFICATES IN ENGLISH.

Any person will be admitted to take the English paper and *viva voce* test at the Matriculation Examination on payment of a fee of £2 for each entry, and subject to the General Regulations affecting that examination.

A certificate will be issued to each successful candidate stating that he has submitted himself to an oral and written test in English and has shown an adequate knowledge of the subject.\*

Any person who has obtained the foregoing certificate will be admitted to take the English papers at the Intermediate Examination in Arts (Pass) for External Students and a *viva voce* test on payment of a fee of £3, and subject to the General Regulations affecting that examination.

A certificate will be issued to each successful candidate stating that he has shown an adequate knowledge of the English Language, and of the period of English literature and of the texts prescribed for that examination.

Colombo, January 31, 1906.

J. HARWARD,  
Director of Public Instruction.

\* See note \* on page 107.

† Changes in the details of this order may be found necessary from time to time, but in all such cases due notice will be given to candidates.

‡ Certificates are generally ready for issue about a month after the publication of the Pass List, and, in the absence of any request to the contrary, will be posted to the addresses given by the candidates on their Forms of Entry.

**NOTICE** is hereby given that an application has been received from Mr. D. B. Jayatilaka, Manager of Buddhist Schools, for a grant in aid of his Halugama Vernacular Mixed School, which is situated in Hapitigam korale in the Western Province.

Observations will be received not later than March 7, 1906.

J. HARWARD,  
Director.  
Office of Public Instruction,  
Colombo, February 7, 1906.

**NOTICE** is hereby given that in the application for the registration of the Yatiyana school, in the Gangaboda pattu of the Matara District, the school should have been described as a Mixed School, and not as a "Boys' School."

Observations will be received on the application for a Mixed School not later than February 23.

J. HARWARD,  
Director of Public Instruction.  
Office of the Director of Public Instruction.  
Colombo, February 3, 1906.

**IT** is hereby notified by the Directors of the Ceylon Savings Bank that the rate of interest to be paid to depositors under rule 3 for the year 1906 be 4 per cent. on accounts under Rs. 1,000, and 3 per cent. on accounts of Rs. 1,000 and upwards.

F. W. VANE,  
Secretary.  
Ceylon Savings Bank,  
Colombo, January 27, 1906.

**EIGHT** vaccinated heifers, more or less, will be put up for sale by auction on Saturday, the 10th instant, at 2 P.M., at the Calf Vaccine Depot, Kanatta.

Colonial Surgeon, Western Province  
Colombo, February 6, 1906.

#### The Ceylon Medical College.

##### MEDICAL AND APOTHECARY EXAMINATIONS.

**THE** Medical and Apothecary Examinations of the Ceylon Medical College will commence on Monday, March 19, 1906.

All candidates are requested to forward their written applications, certificates, and fees to the Registrar on or before March 10, 1906.

S. C. PAUL,  
Acting Registrar.  
Medical College,  
January 11, 1906.

#### The Ceylon Medical College.

##### PRELIMINARY EXAMINATION.

**THE** Medical and Apothecary Preliminary Examinations of the Ceylon Medical College will be held in the College on Monday, March 19, 1906.

All candidates are required to present their applications, certificates, and fees to the Registrar on or before March 10, 1906.

S. C. PAUL,  
Acting Registrar.  
Medical College,  
January 11, 1906.

#### The Ceylon Medical College.

**EXAMINERS** are required for the Medical and Apothecary Preliminary Examinations to be held on the 19th of March next. They are required for the following subjects:—

Medical Preliminary.	French.
English Language.	Greek.
Latin.	Sinhalese.
Mathematics.	Tamil.

They are also required for the following subjects in the—

Apothecary Preliminary.	Arithmetic.
English Language.	Tamil.
Latin (Elementary).	Sinhalese.

The remuneration is at the following rates:—

	Rs.	c.
English Language: both examinations	80	0
Latin with Greek: Latin both examinations and Greek for Medical Preliminary	80	0
French: Medical Preliminary	45	0
Mathematics: Arithmetic for Apothecaries' Preliminary and Algebra for Medical Preliminary	50	0
Arithmetic and Euclid for Medical Preliminary	50	0
Sinhalese: both examinations	35	0
Tamil: both examinations	10	0

Applications to be sent to the Registrar, from whom information can be obtained, on or before February 11, 1906.

Question papers in Tamil and Sinhalese will only be required if there are candidates in those subjects.

S. C. PAUL,  
Acting Registrar.  
Medical College,  
January 11, 1906.

## NOTICES CALLING FOR TENDERS.

**SEALED** Tenders, marked on the envelopes "Tender for Lease of Hospital Grounds," will be received up to 12 o'clock on Wednesday, February 21, 1906, from persons willing to tender for lease of the cocoanut plantation and other produce in the grounds attached to the General Hospital and the Civil Medical Stores in Colombo, for a period of two years from March 1, 1906, or from the date of acceptance of the tender.

2. Tenders should be submitted in duplicate, the original being forwarded to the Principal Civil Medical

Officer and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

3. The tenders are to be made upon forms which will be supplied upon application to the Principal Civil Medical Officer and Inspector-General of Hospitals, and no tender will be considered unless it is furnished on the recognized form.

4. Every tenderer will be required to make a deposit (on applying for forms) of Rs. 25; and should any person decline to enter into the contract and bond

after he has tendered, such deposit will be forfeited to the Crown. All other deposits will be returned after the contract has been signed. The deposit must be made at the Treasury or Kachcheri, and the deposit receipt must be produced to the officer issuing the form as his authority for making the issue.

3. Highest offer will probably be accepted, provided the rent is paid in advance quarterly in eight instalments. The lessee shall not during the above term sub-rent the plantation or any portion of it, and shall not construct any buildings or open paths upon the same grounds.

4. The lessee shall maintain and keep up the said plantation, shall thoroughly weed and clean the premises, and shall keep the roads free from grass, and the Surgeon in charge of the General Hospital and the Medical Superintendent of the Civil Medical Stores are empowered to stop the plucking of nuts and other fruits until these works are carried out to his entire satisfaction.

5. The lessee shall not allow any cattle or other beasts to trespass and graze about the premises, nor shall he send servants or agents to the premises except at times approved of by the said officer.

6. In case of default of the above stipulations the Principal Civil Medical Officer and Inspector-General of Hospitals shall have the power to take over the lease and re-let it at the risk of the lessee, who shall forfeit to the Government the payment that he shall have made in advance.

7. The lessee shall be allowed to make a deduction from amount for every cocoanut tree felled and removed from the grounds, whenever the removal of such tree is considered necessary for the convenience of the hospital establishment, at Rs. 5 per annum.

8. In case any person makes any alterations in his tender before forwarding it, such alteration should invariably bear his initials, otherwise the tender will be treated as informal and rejected.

9. Any further information can be obtained on application to the Principal Civil Medical Officer and Inspector-General of Hospitals.

10. The Government reserves to itself the right, without question, of rejecting any or all tenders, and the right of accepting any portion of a tender.

C. T. GRIFFIN,
