RULES made by the Government Agent of the Northern Province for the encouragement and extension of Paddy Cultivation and the better enforcement of Ancient Customs with regard to the Irrigation and Cultivation of Paddy Lands in certain Districts in the Northern Province.

WHEREAS owing to the sparseness of the population and the circumstances of the inhabitants of the districts named in the schedule to these rules, the public meetings of proprietors provided for by chapter III. of "The Irrigation and Paddy Cultivation Ordinance, 1889," cannot be convened, the Government Agent of the said Province, in exercise of the powers vested in him by section 16 of the said Ordinance, has made the following rules for the purposes of the said section.

These rules are applicable only in the districts specified in the said schedule, and in those districts these rules shall be substituted for the rules published on August 24, 1875.

Colonial Secretary's Office,
Colombo, October 24, 1902.

By His Excellency's command,
R. W. IEVERS,
Acting Colonial Secretary.

Proposed amended Rules.

1. The tank is the property of Government ; but so long as the tract of fields attached to it is occupied, it shall, for agricultural purposes, be considered to be the joint property of the proprietors of the fields in proportion to the shares held by them.
2. Every proprietor of land irrigated from a tank shall contribute annually either in labour or money in the following proportion towards any work of construction, repair, restoration, improvement, or upkeep of the tank or channel or water-courses connected with it in such manner as the Government Agent after due inquiry shall consider necessary and shall order to be carried out, viz., six days' labour or its equivalent in money paid in advance at the rate of fifty cents a day for one bushel sowing extent of land or any less extent owned by him, and one day's labour or its equivalent in money for each additional bushel sowing extent.
3. In any case however when Government supplies a sluice free of cost each proprietor of land benefited shall furnish labour annually at the rate of ten days for one bushel sowing extent or any less extent and two days' labour for each additional bushel sowing extent owned by him. A fair day's labour shall be considered to be nine hours a day, viz., from 6 A.M. to 11 A.M. and 1 P.M. to 5 P.M.
4. In addition to the ordinary annual labour contributed under the above sections 2 and 3, the shareholders are hereby required to keep the tanks, bunds, spills, and channels clear of vegetation, and in addition to the ordinary labour of the year, as above provided for, whenever the Government Agent, Assistant Agent, or person acting under their orders, shall find it necessary to call out the labour of a village to perform an urgent work of repair or of prevention of inevitable damage, uncommuted labour, either in person or by substitute, shall at once be furnished by every shareholder and continued daily until the completion of the work.
5. Notice shall be given by the Government Agent, Assistant Government Agent or by the officers deputed by them in the village, not less than twenty days beforehand, of the intention to call out the labour of a village provided for in the 2nd and 3rd clauses, and of the proportion of labour required.
6. By the tenth day from the commencement of the notice by beat of tom-tom, proprietors intending to commute shall make their intention known, and shall pay in, before the day fixed for the commencement of the work, the full sum of commutation due by them. Each proprietor electing to work shall attend at the appointed place for work at 6 A.M., continue to work to 11 A.M., and again from 1 to 5 P.M., and shall carefully carry out the work assigned to him by the officer in charge of the work.
7. The construction or improvement of water-courses and channels inside the fields shall be considered to belong to the description of work provided for by clause 2. The mere upkeep, however, of water-courses and channels inside the fields shall be maintained by the proprietors of the shares through which they lead, whether such shares be cultivated or not.
8. Each proprietor shall be allowed water from the tank for his paddy cultivation in proportion to his share ; and water shall be taken from the tank at such intervals as the majority of the proprietors shall decide on ; and no proprietor shall be allowed to take water for any other purpose without the consent of all the proprietors. Water shall be taken first to the high lands and then to the low lands. In the event of an irrigation headman being appointed, water shall only be given from the tank under the direction and superintendence of such headman.
9. At the commencement of the sowing season it shall be decided by a majority of the proprietors of any tank and fields, whether or not the tank or any portion of it shall be cultivated ; and if it be decided to cultivate any portion of it, each proprietor shall be entitled to a share of the extent it is proposed to cultivate, in proportion to his share of the fields ; and no proprietor shall be allowed to cultivate any portion of the tank, if it be decided by a majority of the proprietors not to carry on any cultivation in the bed of the tank. An appeal from a decision in this case may be made to the Government Agent or the Assistant Agent of the District, whose decision shall be final.
10. Before the commencement of the sowing season, the proprietors of each tract of field intending to cultivate for the season shall decide on the description of paddy that shall be sown for that season ; and any proprietor sowing any other description of paddy than that agreed on by the majority shall do so on his own responsibility and risk, and shall continue to watch, fence, and perform all the duties as hereinafter mentioned until all the paddy in the field is reaped. For instance, if it be decided to sow five months' paddy, and a proprietor chooses to sow three months' paddy, he shall nevertheless, continue to watch the fields till the whole of the five months' paddy is reaped. But whereas in some fields it is not possible to sow the same description of paddy over the whole extent, in consequence of the varieties of the soil, a majority of the proprietors intending to cultivate for the season shall decide on the description of paddy that shall be sown, and all the proprietors shall watch, keep up the fence, &c., until all the paddy is reaped.
11. Whereas in these districts the sowing season for the Kalapokam commences long before the tanks are full, and it cannot possibly be known until after the heavy rains how much water will be available, and whether there will be sufficient for the full extent of the fields sown, if, after the rains, it be found that the supply of water is insufficient for all the fields sown, a majority of the proprietors of the fields sown for the season shall decide on what fields shall be abandoned. In the event of the proprietors not coming to a decision, it shall be open to the Government Agent or the Assistant Government Agent to decide what fields shall be abandoned ; and in the event of a proprietor being aggrieved

by the decision of the majority, it shall be open to him to appeal to the Government Agent or the Assistant Government Agent, whose decision shall be final.

12. If a proprietor absent himself at the sowing season, or neglect to cultivate his share, it may be cultivated by the other proprietors or by one of them, as the majority may decide, free of rent for that season, all the duties required of the owner being performed by the person cultivating for that season. It must be understood that such duties do not include services required of the proprietors by the 2nd and 3rd clauses. In the event of the share of an absentee not being cultivated by the other shareholders, the proprietor himself shall perform all the duties required of a proprietor, whether he cultivates the land or not. The cases of proprietors unable to cultivate their shares for any year from ill-health or some unavoidable cause, will be specially considered by the Government Agent, who may, if he thinks fit so to do, remit the commutation for service due for that year under the 2nd and 3rd clauses.

13. A proprietor, if unable to attend personally, may provide for the cultivation of his share by substitute or "varakkudi" in the performance of the duties required. No proprietor shall employ any substitute or "varakkudi," who is in the service of another proprietor as "varakkudi, without the consent of such other proprietor.

14. Each proprietor shall erect a proper watch-hut in his share, and shall watch his share until all the paddy in the field is reaped, whether his own paddy has been reaped or not.

15. Each proprietor shall assist in fencing the field in proportion to his share in the field; the fence shall be made sufficiently strong to keep out cattle, and all cultivators shall put up their fences before commencing to cultivate; and each proprietor shall see that his portion of the fence is kept in proper order throughout the Kalapokam season, until the crop is finally reaped, whether he cultivates his share or not, unless his share be cultivated by some other proprietor.

16. Each proprietor shall be allowed a share in one of the threshing-floors, in which to stack his paddy till it is threshed; and all the shareholders of each threshing-floor shall put up a strong stake fence round it, and keep up the fence till all the paddy is threshed. Each proprietor shall watch the threshing-floor, though his own paddy shall have been threshed, for at least fourteen days after his paddy has been threshed.

17. Whereas in these districts there is in general very little water available for Idaipokam and Sirupokam cultivation, when the sowing season for these crops arrives a majority of the proprietors of each field shall decide on the extent and portion of the field to be cultivated, and all such proprietors as are desirous of sowing for the Idaipokam or Sirupokam shall have a share in such extent in proportion to their shares in the field. But no shareholder shall be bound to cultivate for the Idaipokam or Sirupokam, and all the duties regarding the watching and fencing the Idaipokam and Sirupokam shall be performed by those proprietors alone who have undertaken to cultivate for these harvests; and any shareholder sowing for the Idaipokam or Sirupokam shall perform all such duties until the whole of the Iddaipokam or Sirupokam is reaped, whether his own share succeed or not.

18. All buffaloes shall be driven to a distance from the field during the cultivation season, and shall have wooden bells attached to their necks, and all known fence-breakers or dangerous animals shall be yoked with others.

All black cattle, goats, and sheep shall be hearded during the day and folded during the night outside the fields, and when in any village a place has been fixed on, after due inquiry by the Government Agent or Assistant Government Agent, as the place in which buffaloes, black cattle, goats, and sheep shall be folded during the cultivation season, no proprietor shall fold his buffaloes, cattle, goats, or sheep in any place nearer, than the one fixed on, to the tank field, or village.

Proprietors of buffaloes, black cattle, goats, and sheep, shall not suffer their cattle, goats, or sheep to trespass on the cultivation of any neighbouring village, nor shall they fold their cattle or drive them to pasture near the cultivation of or within the limits of any neighbouring village.

And whereas it is the practice to pasture cattle from Jaffna and other places, near the cultivated fields in the Mannar, Vavuniya and Mullaittivu Districts, all persons owning, possessing, and tending such cattle, whether they be villagers or not, shall obtain from the Government Agent authority to pasture their cattle in either district, only under a license, indicating the name of the owner and the person in whose charge they are to be left, and the number and description and brand-marks of the cattle.

Such license shall be in force only for the period named in it.

All persons so licensed shall be subject to these rules, and liable to the same penalties as the cultivators, for breach of them.

19. All adult male inhabitants of a village, and all proprietors, whether male or female, of fields in the village shall keep the paths leading from their village to the neighbouring villages clear of obstruction, bushes, &c., to a width not less than six feet half-way between their villages and the neighbouring villages; and shall keep, free of jungle, a space round the outermost fences of the inhabited portion of the village, of a width proportionate to the number of the inhabitants, viz., villages containing 50 inhabitants and 5 valavus, 200 yards; under 50 inhabitants and over 25, 100 yards; containing 25 and under, 50 yards.

Any neglect to comply with the above rules, or any act committed in breach of them, will subject the offender to the penalties provided for by the 21st section of the Ordinance No. 21 of 1867, and by the Ordinance No. 2 of 1874.

Tenderers are required to state in the schedule to be attached to the tender, and which will be furnished with the tender form the price per cube of screened gravel for each road or section of road. The name of road to be quoted in accordance with the above list, and section to be defined by giving the numbers of the milepost between which the section lies.

4. Tenders must be submitted in duplicate, the original being forwarded to the Provincial Engineer, Eastern Province, and the duplicate direct to the Hon. the Auditor-General, both being required to be forwarded at the same time.

5. Tenders must be on forms which may be obtained at the office of the Provincial Engineer, Eastern Province, and no tender will be considered unless it is furnished on the recognized form thus obtained.

6. Parties applying for form of tender will be required to deposit the sum of Rs. 50 either at the Treasury or the Kachcheri and produce a receipt for the same. Should the party fail to submit in accordance with the terms of the specification a *bona fide* tender, or to enter into the necessary contract, the sum of Rs. 50 deposited will be forfeited by way of ascertained and liquidated damages.

7. Any further information required may be obtained on application at the Provincial Engineer's office at Batticaloa, or at the District Engineer's office, Trincomalee.

8. Before any tender is accepted the contractor will be required to sign a contract to execute and perform the works in accordance with the specification and the general conditions therein set forth, and to deposit a sum of Rs. 500 for the due and faithful performance of the contract within ten days of receiving notice in writing signed by the Provincial Engineer of the Eastern Province that the Government is prepared to accept his tender.

9. The Government does not bind itself to accept the lowest or any tender.

Tenders are invited for the purchase of all the trees stamped in the above said three compartments as they stand in the forest.

Tenders will be received for one or more blocks. Offers may be made of lump sums, or rates per tree or per cubic foot, written both in figures and words. It should be stated in each tender how payment of the purchase money will be made, and within what time the trees purchased will be felled and removed from the forest.

In the event of a rate per cubic foot being accepted, 10 per cent. will be allowed for bark, &c., off cubic contents calculated from actual measurements of felled logs.

No tender will be accepted unless a deposit of Rs. 50 is made at time of tendering at the Batticaloa Kachcheri.

Sketch maps showing extent and position of the blocks and routes by which the timber may be carted to the shipping port may be obtained at Rs. 2 each on application to the Assistant Conservator of Forests, Batticaloa, who will furnish any further information which may be required.

Any person wishing to tender to purchase the above-mentioned standing trees should produce to the Assistant Conservator of Forests, Batticaloa, the Kachcheri receipt for the deposit of Rs. 50 made, who will thereupon issue to him the form on which the tender must be made.

The original tender must be sent to the Assistant Conservator of Forests, Eastern Circle, and the duplicate of it to the Hon. the Auditor-General, both being despatched at the same time.

Should the person tendering decline to enter into the contract and bond, or fail to furnish security, such deposit will be forfeited to the Crown.

All alterations in any tender should be initialled by the person signing it. All tenders containing alterations not so initialled will be treated as informal and rejected.

Five per cent. of the total sum, which under this contract will have to be paid by the contractor, must be deposited as security for the due fulfilment of the contract before it is signed.

The Government reserves to itself the right, without question, of rejecting any or all tenders.
