APPENDIX to Minutes of Proceedings of Meeting held on December 18, 1909.

Memorandum of Dissent by Mr. E. Beven.

I BEG to record the reason of my dissent from the ruling of the Chairman and the opinion of the majority in regard to the procedure adopted, and the resolution carried, at the last Meeting with reference to the dissent sent to the Council by Messrs. Wijagoonawardana, Saravanamuttu, and myself.

The ruling of the Chairman which allowed a discussion on the dissent and the carrying of a resoultion on it were highly irregular and improper. The dissent was a protest by the minority expressive of their disagreement with the conclusion arrived at by the majority. They only were responsible for it and it in no way bound the Council. To base a resolution on the protest therefore, and to express an opinion on it, were to reiterate the conclusion before arrived at by the majority. The result of the resolution was inevitable. I trust the majority will never again in this Council be allowed to tyranize over the minority, as nothing could be more unfair.

The Municipal Council By-laws (28th clause) allow a dissent to be filed by the minority. The word "filed " has been constructed hitherto by the Municipal Council of Kandy to mean that it be embodied in the proceedings of the Meeting which passed the resolution dissented from by the minority. To put any other meaning on the word "filed" would be to render the object of a dissent nugatory. The majority would know nothing of it and would not have before them the reasons which moved the minority to vote against them. At the last Meeting the Council by a majority of 5 to 3 decided not to embody the dissent in the proceedings but only "to file" it, whatever that meay mean. This was in direct violation of the recognized procedure. The reason given for this extraordinary act of tyrany (I am sorry to use the word) was that there was objection-able matter in the dissent, as it imputed improper motives to Members. In proof of the complaint two passages were quoted. One was the following: "The consideration of this letter was not on the agenda when, possibly because, a Member whose opposition was apprehended was absent." These words could not possibly reflect on any Member, because Members do not prepare the agenda. The remark was, however, justifiable in right for a seried out the two prepares the recommendation in it has available. in view of a resolution having been suppressed and the recommendation in it not carried out. The Council ought to be careful not to interfere with a time-honoured procedure that has been adopted ever since the formation of this Council. What is now laid down will be followed in the future, and will be a precedent in times to come. The other passage is to this effect : "As regards the Health Officer's opinion it was his duty to loyally carry out the orders of the Committee, but, he evidently expected, and rightly as the sequel showed, that the obligation was on the Council to carry out his "orders." I wrote these words under the following circumstances : An application by the Health Officer for clerical help was considered by the Standing Committee, We decided to tell off a junior clerk from the office for two hours every day. of which I am a Member, in April. I was under the impression that this order was being carried out. But it appears that it was ignored. The official explanation why no notice was taken of a resolution of the Standing Committee is as follows : "It was found to be impracticable, and also because the Health Officer was of opinion that the arrangement would not answer the needs of his department." Thus the Health Officer, associated by others in the office, decided to set aside the resolution, and to pay no heed to it. If it was impracticable or the relief suggested insufficient the matter ought to have been brought before the Standing Committee. Five months after the resolution was passed, and when I was absent from the Meeting, a letter from the Health Officer, though the subject was not on the agenda, asking for the exclusive services of a clerk came before the Standing Committee. The proper and dignified course to have been adopted was to refer him to the former resoultion and insist on his obeying the orders of the Council or giving them a trial. This was not done, but his application was allowed; and this, under the influence of personal interviews of the Members, was confirmed by the Council. A defiance of an order of the Council was thus condoned and the Health Officer's wishes complied with. I cannot but think that the language used by me is not strong enough for this betrayal of the rights of the Council by some of its Members. However, in what I wrote I cannot see that I have imputed improper or any motives to the Members as has been suggested. I regret if I have written intemperately. I feel very strongly in this matter, as the position taken by the Council must lead to its resolutions being regarded with contempt, and will be subversive of all discipline.
