Passed in Council the Sixteenth day of December, One thousand Eight hundred and Ninety-one.

H. L. CRAWFORD,
Clerk to the Council.

Assented to by His Excellency the Governor the Sixteenth day of December, One thousand Eight hundred and Ninety-one.

E. NOEL WALKER,
Colonial Secretary.

NOTICES TO MARINERS.

HIS EXCELLENCY THE GOVERNOR has been pleased to direct that the following Notices to Mariners be published for general information.

By His Excellency's command,

E. NOEL WALKER,
Colonial Secretary.

Colonial Secretary's Office,
Colombo, December 21, 1891.

QUEENSLAND.—No. 34.

Mary River.—New Leading Marks, Horseshoe Bend.

Notice is hereby given that two white triangular beacons have been erected on the south bank of the river, near Turkey Creek, to lead through the upper part of the Horseshoe bend.

Directions.—After rounding the bend and passing a black buoy, haul up to bring these beacons in line. Steer with them in line until past the red buoy, when proceed as usual. The channel, the centre of which is marked by this line of beacons, is 150 ft. wide, and has a minimum depth of 10 ft. at low-water springs.

T. M. ALMOND,
Portmaster.
Brisbane, November 11, 1891.

QUEENSLAND.—No. 35.

Torres Straits.—Reported Reef in Western Approach to Prince of Wales Channel.

Mr. Frank Jardine reports that he crossed an unknown reef of small extent, with apparently not more than 6 ft. over it at low-water springs, whilst sailing up to Thursday Island in a lugger.

When upon it his estimated position was about 5 miles west by north from Quoin Point, Goode Island. Very shortly after passing over it, whilst steering southerly, the Government Residency on Thursday Island opened clear of Quoin Point. Vessels are therefore cautioned to keep the Residency well open to the southward of Quoin Point when approaching from or leaving for the westward, and to exercise great care whilst in the locality.

T. M. ALMOND,
Portmaster.
Brisbane, November 12, 1891.

QUEENSLAND.—No. 36.

Cairns Harbour, Trinity Bay.—Fairway Buoy.

Notice is hereby given that the black and red checkered buoy, marking the outer end of the dredged channel into Cairns Harbour, has been replaced by a single colour buoy—red.

T. M. ALMOND,
Portmaster.
Brisbane, November 13, 1891.

QUEENSLAND.—No. 37.

Torres Strait—Beacon on Bramble Cay.

Notice is hereby given that the beacon on Bramble Cay has been re-erected, its height now being 45 ft. above high water.

T. M. ALMOND,
Portmaster.
Brisbane, November 23, 1891.

BENGAL.—No. 199.

Bay of Bengal—Orissa Coast.—Certain Beacons and Buoys out of position in False Point Harbour.

The Port Officer, False Point, reports that during the recent cyclone that occurred on the 5th instant, the screw-pile and cross beacons on Reddie Head were washed

away, and that about half a mile of Reddie Head sand spit has entirely disappeared. The fairway buoy has been lost, and all other beacons in and about the harbour have been blown down. The outer western black buoy is in position, but without the basket. The Reddie Head spit buoys are also in position, but without basket; and the water has shoaled at these buoys to 17 ft. reduced; but about 100 ft. north of them 27 ft. of water reduced is to be found.

The anchoring mark for steamers drawing over 20 ft. will now be Hookeytollah flagstaff, or the Refuge Building at Hookeytollah, bearing S. $\frac{1}{2}$ East.

A checkered painted new buoy will be laid in the place of the fairway buoy, and the baskets replaced on the other buoys, as soon as possible.

EATON T. PETLEY,
Port Officer of Calcutta.

Calcutta, November 16, 1891.

BENGAL.—No. 200.

Australia, East Coast—Ulladulla Harbour.—Date of exhibition of two Leading Lights.

The British Admiralty has given notice (No. 468 of 1891) that on September 1, 1891, two leading lights, fixed red and fixed white, would be exhibited from the beach at the head of the bay, which, kept in line bearing W. $\frac{1}{2}$ S., lead into Ulladulla harbour clear of danger until abreast of the pier head.

Approximate position, lat. 35° 22' S., long. 150° 30' E.
Variation 9° Easterly in 1891.

EATON W. PETLEY,
Port Officer of Calcutta.

Calcutta, November 16, 1891.

BENGAL.—No. 201.

China Sea—Carimata Strait.—Reef reported south-east of Cirencester Shoal.

The British Admiralty has given notice (No. 480 of 1891) that Mr. W. Townsend, commanding the steam-vessel Galley of Lorne, reports having passed, at the distance of about 2 cables, a dangerous reef lying about 10 miles south-eastward of Cirencester shoal, near the fairway of Carimata strait.

This reef (Townsend reef), on which the sea broke, appeared to have little water over it, and to extend (in the shape of a crescent) about one cable in a south-east and north-west direction. The weather at the time was too rough to allow a boat being lowered for further examination.

Position as given (to be considered doubtful), lat. 3° 0' 30" S., long. 109° 5' E.

EATON W. PETLEY,
Port Officer of Calcutta.

Calcutta, November 16, 1891.

BENGAL.—No. 202.

Bay of Bengal—Chittagong Coast.—Intended alteration in Kutubdea Light.

It is intended, on and after May 1, 1892, to alter the character of the present light exhibited from the Kutubdea lighthouse from a fixed to a first class dioptric revolving white light having an interval of one minute between the flashes. It will be elevated 121 ft. above high water, and should be seen in clear weather from a distance of 17 miles.

The works in connection with this alteration will be commenced on February 1, 1892, after which date the existing light will, during their progress, be shown 30 ft. lower down on the lighthouse; and a blue light will

be burnt every quarter of an hour between February 1 and April 30, 1892.

On the exhibition of the new revolving light the blue light now shown from August 1 to December 31, inclusive, will be discontinued.

Position : Lat. 21° 52' 30" N. ; long. 91° 49' 58" E.

EATON W. PETLEY,
Port Officer of Calcutta.

Calcutta, November 17, 1891.

BENGAL.—No. 203.

India, East Coast—Bay of Bengal.—A Buoy adrift.

Caution.—The Commander of the British India Steam Navigation Company's ss. Warora reports that while on the passage up the Bay of Bengal at 6.50 A.M. of November 19, lat. 14° 43' N., long. 85° 7' E., he passed a white conical buoy with a staff and round basket cage painted red, resembling the one near the intermediate light-vessel station, which has gone adrift. Navigators are accordingly warned.

EATON W. PETLEY,
Port Officer of Calcutta.

Calcutta, November 23, 1891.

BENGAL.—No. 204.

China Sea—Macclesfield Bank.—Shoal Water reported near the north-west edge.

The British Admiralty has given notice (No. 497 of 1891) that Mr. A. Symons, commanding the P. & O. ss. Cathay, reports having obtained a sounding of 5½ fathoms, over rock or coral, near the north-west edge of Macclesfield Bank, in lat. 15° 55' N., long. 114° 0' E. As the ship passed over the shoal, the bottom, composed of dark black rock and white coral patches, was seen. Immediately after passing over it the sea became dark blue, with a sign of shoal water.

Caution.—In 1857 a depth of 4 fathoms was reported to exist near the north-west edge of Macclesfield Bank, in approximately lat. 16° 3' N., long. 114° 10' E., and as from the nature of a coral atoll the depth of the submerged rim is very irregular, it is highly desirable to avoid passing over such banks, even when the depths known give no indication of absolute danger.

EATON W. PETLEY,
Port Officer of Calcutta.

Calcutta, November 23, 1891.

BENGAL.—No. 205.

China Sea—Borneo, North Coast.—Banguay South channel.—Particulars of Rocky Shoal in Fairway.

In continuation of Notice to Mariners No. 127, dated July 20, 1891, issued by this office, the following British Admiralty Notice (No. 498 of 1891) is republished—

The following particulars have been received from Commander A. M. Field, H. M. surveying ship Egeria, dated September 9, 1891, concerning the rocky shoal (Petrel rock) lying in the fairway of Banguay south channel, originally reported by the Commander of the steamvessel Petrel :—

Petrel rock, a narrow ridge of coral about 40 yards in length in an E.N.E. and W.S.W. direction, and 10 yards in width, is plainly visible, and has 14 ft. on it at low water spring tides, with 12 fathoms close around. It lies with the south extreme of Molleangan island bearing N. 84° W., and the peak (663 ft. in height) on the south coast of Banguay island, west of Pagassan island, N. 3° W., distant 4½ miles.

Approximate position : lat. 7° 4' 20" N., long. 117° 6' 30" E.

Marchesa Bay—Beacon on Leonan Reef.

Municipal Office,

H. BYRDE,
Secretary.

Sanitary Report of the Town of Kandy for the Month of October, 1891.

General Health.—The general health of the town during the month of October was very satisfactory. There was only one case of chickenpox reported on the 10th instant. The patient, a Sinhalese man, who lived in King street, was isolated in the premises.

Vaccination.—The number vaccinated during the month is shown in the following table:—

Number vaccinated	201
Successful	136
Failed	3
Absent	62
Number Re-vaccinated	42
Successful	3
Failed	1
Absent	38

It will be observed that the number of re-vaccinated absentees is large, and that only three "successful" cases are recorded. This is owing to the operation being performed, chiefly on adult villagers and estate coolies, who in consequence of the distance they have to travel fail to present themselves for examination on the appointed day.

Drains.—The drains in the town are in a satisfactory state, excepting the one opposite the Maligawa. The water has accumulated here and become stagnant. The connected drains, through the Land Registrar's premises, is blocked up, and the stagnant water is likely to prove prejudicial to the health of the people living there. There should be no delay in repairing this drain and affording a free outlet to the water.

Slaughter House.—The black cattle inspected daily by me at the slaughter house were, as a rule, in good condition. A large number of buffaloes, out of all proportion to the number of black cattle, are brought for examination. I have hitherto allowed one buffalo to every three black cattle to be slaughtered.

Market.—The market is found clean on my daily inspection visit. Two stall keepers were fined Re. 1 each during the month for dirty stalls.

Latrines.—All the Municipal latrines were found clean as a rule. I find no improvement in the latrine attached to the De Soysa building since my last report. The passage is still made use of by the children in the premises, and the smell is in consequence very offensive. Only one latrine cooly is occupied for one hour daily in the duty

of cleaning out the latrine. This man has three latrines under his charge, and he finds it impossible to attend to the perfect cleanliness of this one, which is frequented by a large number of children. I would suggest that the police authorities be requested to place a cooly in special charge of this latrine, considering that it is used by a larger number of people than the two others. I would further suggest that the residents of the place be called upon to furnish a seat and bucket for the use of their children, with a view to prevent the passage being used by them.

Health Officer.
