PART I.

No. 6,587 — FRIDAY, OCTOBER 24, 1913.

## VITAL STATISTICS OF TOWNS IN CEYLON IN THE MONTH OF SEPTEMBER, 1913.

### REPORT OF THE REGISTRAR-GENERAL.

This report deals with the Vital Statistics of the 31 principal towns in the Island proclaimed under sections 31-36 of the Ordinance No. 1 of 1895.

#### Births.

2. The births numbered 1,247 (675 males and 572 females), and were equal to an annual rate of 27·84 per 1,000, against 25·28 during the preceding month, 27·01 in the corresponding month of last year, and 29·33 the monthly average since July, 1907. The rate ranged from 61·71 in Hambantota to 7·77 in Panadure.

3. In the city of Colombo\* the births numbered 453 (251 males and 202 females), and were equal to an annual rate† of 23·37 per 1,000, against 20·92 in the preceding month, 22·74 in the corresponding month of last year, and 24·98 the monthly average. The rate ranged from 26·26 in New Bazaar to 12·66 in Kollupitiya.

#### Deaths.

4. The total deaths amounted to 1,383 (762 males and 621 females), and were equal to an annual rate of 26·94 per 1,000, against 26·44 in the preceding month, 27·40 in the corresponding month of last year, and 30·65 the monthly average. The rate ranged from 51·28 in Trincomalee to 14·66 in Puttalam.

5. In the city of Colombo\* the deaths numbered 537 (302 males and 235 females), and were equal to an annual rate† of 27·35 per 1,000, against 24·62 in the preceding month, 26·74 in the corresponding month of last year, and 31·50 the monthly average. The rate rose from 8·02 in Kollupitiya to 28·30 in Wellawatta.

6. Stillbirths numbered 76 (44 males and 32 females), against 74 in the preceding month.

#### Infantile Mortality.

7. The infantile mortality was equal to a rate of 279 per 1,000 births registered, against 292 in the preceding month, 261 in the corresponding month of last year, and 262 the monthly average. The rate ranged from 556 in Badulla to 65 in Matara.

8. The infantile mortality in the city of Colombo was 340 per 1,000 births registered, against 341 in the preceding month, 265 in the corresponding month of last year, and 317 the monthly average, and ranged from 526 in St. Paul's to 100 in Kollupitiya.

#### Causes of Death.

9. The highest mortality was from *Pneumonia* (10 per cent.), followed by *Diarrhoea* and *Phthisis* (9 per cent. each), *Infantile Convulsions* (7 per cent.), *Debility* (6 per cent.), *Dysentery* (5 per cent.), and *Bronchitis* (3 per cent.).

10. In the city of Colombo the highest mortality was from *Pneumonia* (12 per cent.), followed by *Phthisis* (11 per cent.), *Enteritis* (8 per cent.), *Bronchitis* (5 per cent.), *Dysentery* (3 per cent.), *Bright's Disease* and *Nephritis* (3 per cent.), and *Enteric Fever* (2 per cent.).

11. *Infectious Diseases reported.*—The most prevalent infectious disease during the month was *Phthisis*, of which 82 cases were reported (78 in Colombo, 2 in Matara, 1 each in Galle and Weligama), followed by *Chickenpox* 68 (24 in Kandy, 18 in Colombo, 5 in Nuwara Eliya), *Enteric Fever* 57 (40 in Colombo, 8 in Moratuwa), *Continued Fever* 23 (17 in Colombo, 4 in Galle), *Measles* 16 (6 in Colombo, 4 in Nuwara Eliya), *Mumps* 8 (7 in Colombo, 1 in Jaffna), *Acute Diarrhoea* 6 (in Colombo), *Dysentery* 4 (3 in Moratuwa, 1 in Weligama), *Cholera* 2 (in Colombo), *Diphtheria* 1 (in Colombo).

#### Meteorology.

12. *Rainfall.*—“Hatton and Dikoya” recorded the highest rainfall (9·48 inches), followed by Galle (5·53 inches). The next highest records (4·82 inches and 4·07 inches) were in Jaffna and Kalutara, while in the other towns the rainfall ranged from 3·68 inches in Mullaittivu to 0·20 inch both in Kalpitiya and Batticaloa. In Mannar there was no rainfall at all.

13. *Temperature.*—The mean temperature varied from 60·1° in Nuwara Eliya to 85·7° in Trincomalee, and was 80·7° in Colombo and 76·1° in Kandy.

14. For detailed information see Tables I. and II. for all towns, and Tables III. and IV. for the city of Colombo, in the Appendix.

Registrar-General's Office,  
Colombo, October 16, 1913.

BERTRAM HILL,  
Registrar-General.

\* Consequent on the extension of the Municipal limits of the Colombo town on November 9, 1911, by the addition of Wellawatta, the limits of the registration division of Kollupitiya Ward were altered with effect from January 1, 1912, by Proclamation of December 18, 1911.

† The city-rate is worked out differently from the ward-rates, and takes into account hospital events, &c., not assignable to wards.

Table I.—Number of Births and Deaths registered during September, 1913, their Proportion per 1,000 of the Population per Annum, and the Stillbirths and the Deaths of Children under One Year and their Proportion per 1,000 Registered Births, together with the Average Birth- and Death-rates and Infantile Mortality from July, 1907, to June, 1913, and the Mean Temperature and Rainfall in the month in each Town of the Island proclaimed under Sections 31-36 of the Ordinance No. 1 of 1895.

\* I.e., rate calculated on the basis that the age- and sex-constitution of the population of each town is the same as for the whole island, and also (as in crude rate) excluding non-residents. † Infantile death-rate omitted where the number of births is less than five. ‡ Blanks indicate that there are no observatories or rain-gauges. § This includes the population as ascertained on the 1st of January, 1911, and the population as ascertained on the 1st of January, 1913. ¶ Estimated to the end of June, 1913, by natural increase method owing to the inability of applying the intercensal method, as the limits of the registration districts of Batticaloa town have been extended in order to make them co-terminous with the Local Board area. Hence the rates in previous reports cannot be strictly compared with those of subsequent years. †† Corrected death-rates for Kalpitiya and Lunugala towns not available, as the population of these towns has not been enumerated at the Census of 1911 by age and sex. The death-rates given for "All Towns" is therefore independent of these towns, but is necessarily affected by their rates.

Table II.—Causes of Deaths registered during September, 1913, in each Town of the Island proclaimed under Sections 31-36 of the Ordinance No. 1 of 1895.

\* For explanation of "corrected death-rate" see note \*, Table I. The population of the several wards of the city not being available by age- and sex-constitution, their corrected death-rates cannot be calculated.

† Infantile death-rates omitted where number of births is less than five.

‡ Estimated partly on the intercensal increase method and partly on the natural increase method, i.e., population exclusive of Wellawatta Ward on the former method and that of Wellawatta added to the town on January 1, 1912, on the latter method (as it was not a separate division at the Census of 1901).

§ The population of these two wards being a fluctuating one, their population cannot be estimated to the middle of 1913. Hence the Census figures are retained.

|| This population is estimated partly on the natural increase method and partly on the intercensal increase method, i.e., population of Wellawatta on the former method (as it was not a separate division at the Census of 1901) and that of the part of Kollupitiya taken over to Wellawatta on the latter method.

¶ For the eighteen months, January, 1912, to June, 1913.

Table IV.—Causes of Deaths registered during the Month of September, 1913, in each Ward and of each Race in the City of Colombo.

Causes of Deaths.	City of Colombo.	Ward.										Deaths among all Races.
