Health Officer's Report for the Month of February, 1903.

Scavenging.—The scavenging of the town was fairly satisfactorily carried out during this month. I would ask that the scavenger be told to pay more attention to the gratings in the side drains, which I have frequently found blocked with rubbish from the boutiques.

Drains.—As they have been for years. In spite of my many reports nothing has been done.

Water Supply.—Very good.

Alleys.—Can I say more than I have said in my many reports. Nothing has been done; nothing will be done until we get some epidemic to make us alive to the filthy state that half of our population live in.

What exactly is wrong with the alleys from a sanitary point of view? If they are kept in a filthy state, the Inspector should prosecute.

J. P. L.

The alleys are ill-built and overcrowded with a dirty lot of people. I would rather say with a lot of people with dirty habits. Please see my many reports and suggestions. Would the Chairman or any of the Council visit with me?

A. S.

Laundries.—Generally well kept.

Dairies.—Well kept.

Bakeries.—All kept fairly clean.

Market.—Well kept.

Cattle passed this Month.—Cattle, 415 ; buffaloes, 80 ; sheep, 105 ; goats, 188.

Slaughter House and Exposing Shed.—Well kept.

Cooly Lines.—Fairly well kept.

Boutiques.—Generally well kept.

Night Soil Depôt.—Well kept. February 1, 1903, inspected night soil carts and bulls, with the exception of one pair, which were not passed. I found all in good condition, but I consider the animals too small for the work.

Latrines.—Generally well kept.

Health.—No infectious diseases have been prevalent during the month. One case of chickenpox has been reported.

Kandy, March 11, 1903.

Health Officer.
