Forward

A number of attempts have been made in the past to record the bibliographic details of postgraduate theses/dissertations of Sri Lankan scholars. The Peradeniya University library and the National Library and Documentation Services Board (NLDSB) (then Sri Lanka National Library Services Board (SLNLSB)) were pioneers in this endeavour. The Peradeniya University library being the holder of the largest theses collection in the country has the honour of initiating the project by compiling the under-mentioned 4 indexes on the subject.

- Theses presented for higher degrees of the University of Ceylon (1942-1971), compiled by N Amarasinghe (listing 114 items): 1971
- Theses presented for higher degrees of the University of Sri Lanka (Ceylon), Peradeniya Supplement (1971-1976) compiled by Upali Amarasiri (listing 46 items), 1977.
- Theses presented for higher degrees of the University of Peradeniya, Sri Lanka Supplement (1976-1981) compiled by M A Gunapala (listing 97 items): 1983
- University of Peradeniya Index to Theses 1942-1992, compiled by N A W A T Alwis (listing 920 items): 1993

As indicated by the titles these indexes covered the theses deposited in the Peradeniya University library, which were those presented by the teachers of the university to various universities throughout the world as part of their postgraduate studies.

The National Library and Documentation Services Board (NLDSB) pioneered the national coverage of the subject by publishing the following.

- A Catalogue of Postgraduate Theses available in the University and Research Libraries of Sri Lanka, compiled by N Amarasinghe and P Wickremasinghe (listing 400 items): 1978
- A Catalogue of Postgraduate Theses available in the University and Research Libraries of Sri Lanka (second edition), compiled by N Amarasinghe and P Wickremasinghe (listing 506 items): 1980

Mr Amarasinghe was the Director of the SLNLSB (1976-1988) and during this period Ms Wickramasinghe served as the Documentation Officer of the SLNLSB. Both of them had earlier worked at the Peradeniya University library and Mr Amarasinghe had the distinction of compiling the first theses index while working there in 1971. I also made a small contribution to the project while working in the Peradeniya University library as a temporary Assistant Librarian in 1977 by compiling the first supplement under the able supervision of Mr H A I Goonatilleke, then Librarian of the Peradeniya University. Therefore, one can see that both the NLDSB and the Peradeniya University library have shown a great interest in the project and have worked in close cooperation at the initial stage.

Two state sector organisations, namely, the Materials and Manpower Resources Division of the Ministry of Finance and Planning and Natural Resources, Energy and Science Authority (NARESA) also compiled the two under-mentioned indexes on the subject.

- Catalogue of Postgraduate Theses and Dissertations by University and State Sector Personnel, compiled by D G P Seneviratne and K Samaraweera for the Ministry of Finance and Planning (listing 1,407 items): 1984
- A Directory of Theses and Dissertations (1965-1983), compiled by the Natural Resources, Energy and Science Authority (listing 437 items): (undated)

This current work titled Index to Postgraduate Theses 1981-2000: Volume I, covering postgraduate theses of Sri Lankan academics during the past two decades is long overdue. Especially with the inauguration of the National Library in 1990, one would expect the project to continue uninterrupted. However, the National Library, constrained by its limited resources, was compelled to prioritise its activities. Hence, the National Union Catalogue, Newspaper Article Index, Periodical Article Index, Conference Index, current and retrospective national bibliographies and a number of other special bibliographies received priority and as a result the work on the theses index was delayed.

In early 2001 we decided to recommence the project and cover the remaining period of 1981-2000. Resulting from the expansion of universities and postgraduate research, the last two decades produced the largest number of theses in the country. Identifying and indexing all the theses in a single volume has become a significant challenge. Therefore, we decided to produce two volumes to cover the period. The present volume includes the major portion of theses deposited in the university libraries in Sri Lanka. The forthcoming second volume will cover theses deposited in other libraries and institutions and also those in university libraries that we may have missed in the present volume.

In compiling the index we were fortunate to receive assistance from our professional colleagues of university libraries in Sri Lanka. Responding to our request most of them forwarded us the list of theses in their respective libraries. Special mention should be made of the contributions received from the university libraries of Peradeniya, Moratuwa, Colombo, Sri Jayawardenapura, Kelaniya, Rajarata, Ruhuna, Eastern and the Open University. All of them had already compiled their own indexes or lists of the theses in their respective libraries. Head, Department of Library Studies of Kelaniya University also furnished valuable data on the subject. We received the information in different formats, e.g. booklets, lists and diskettes. We thank the librarians and other colleagues in these libraries for the cooperation extended.

Staff of the Documentation Services Division of the National Library also visited a number of university libraries for purposes of collecting information. In addition the under-mentioned publications deposited in the National Library furnished valuable information on the subject.

- ශ්‍රී ජයවර්ධනපුර විශ්ව විද්‍යාලයේ පශ්චාත් උපාධි නිබන්ධන පිළිබඳ ග්‍රන්ථ නාමාවලිය (1981-1989) සම්පාදනය කේ.සෝමලතා (සංලේඛ 72) : 1990
- Index to Theses available in the University of Colombo on Laws in Sri Lanka, compiled by K L Dayalatha (listing 81 items): 1990
- An Index to dissertations and theses submitted by undergraduate and postgraduate computer science students of the University of Colombo (1992-1995), by R L A Rajapakse (listing 117 items): 1996

This index consists of three parts. Part I is the Title List with full bibliographic description of the work including the degree, the awarding institution, year of award, language of the text and the location. The Title List is arranged in alphabetical order and non-English titles are transliterated. Part II is the Title Keyword Index and part III consists of the Author Index.

I thank Ms Janaki Fernando, Deputy Director (National Library); Ms Nalini Mallawaarachchi, Librarian and Head, Documentation Services Division; Mr Weerasinghe Muthugala, Assistant Librarian and Ms Sunethra Kariyawasam, Library Assistant Grade I for gathering information and compilation of this index. Mr U P Alahakoon, Head, Bibliographic Services Division and Mr C H De Silva, Head, Information Technology Division of the National Library assisted the project in many ways. Once again I record my gratitude and appreciation to the above-mentioned university librarians and others for providing the bulk of information for the index. Finally I thank the Publication Division of NLDSB for printing and publishing the index.
