Foreword

The first volume of Index to postgraduate theses 1981-2000 was published in August 2002. It includes information on 1,359 theses deposited in the university libraries in Sri Lanka during the period 1981-2000.

The second volume of the Index was published in April 2003. It provides information on 951 theses deposited in research institutions, postgraduate institutes, special libraries, government departmental libraries and also those in university libraries that were missed in volume I.

This third volume furnishes information on 816 theses deposited in above mentioned libraries.

In compiling this index we were fortunate to receive assistance and co-operation from the heads of institutions and librarians and other professional colleagues of the respective institutions/departments. Responding to our request most of them forwarded information of theses deposited in their libraries. In addition, staff of the Documentation Services Division of the National Library also visited a large number of libraries for the purposes of collecting and verifying information.

This index consists of three parts. Part I is the Title List with full bibliographic description of the work including the degree, the awarding institution, year of award, language of the text and the location. The Title List is arranged in alphabetical order and non-English titles are transliterated. Part II is the Title Keyword Index and Part III consists of the Author Index.

I thank Ms Nalini Mallawa Arachchi, Deputy Director and Head, Documentation Services Division and Ms Sunethra Kariyawasam, Library Assistant (Grade I) for shouldering the major share of responsibility in compiling the index. Thanks are also due to Mr G D Amarasiri, Deputy Director, Mr Sunil Premaratna, Assistant Librarian, Documentation Services Division, Mr C H De Silva, Head, Information Technology Division, Ms Muditha Wevalaarachchi, Head, Publication Division who assisted the project in many ways. Finally I thank Professor Tissa Kariyawasm, Chairman, NLDSB for the enthusiasm shown in the project and for assisting it in numerous ways.
