PART XI. A.

Drainage.

Government or Council to make public drains.

188. The Government or the Council may from time to time cause to be made, altered, or extended such public main or other drains and water-courses as may be judged necessary for the effectual draining of the town, and, if needful, the Government or the Council may carry them through, across, or under any street or any place laid out as or intended for a street, or any cellar or vault which may be under any of the streets, and (after reasonable notice in writing in that behalf) into, through, or under any enclosed or other lands whatsoever, doing as little damage as may be, and making full compensation for any damage done.

Duty of Council to repair, alter, and discontinue drains.

188 A. The Council shall maintain, and from time to time repair, and as they see fit, enlarge, alter, arch over, or otherwise improve all or any of the public drains, culverts, gutters, and water-courses, and may discontinue, close up, or destroy such of them as they may deem useless or unnecessary. Provided always that the discontinuance, closing up, or destruction of any of them shall be so done as not to create a nuisance; and if by reason thereof or of any such alteration as hereinbefore mentioned any person is deprived of the lawful use of any such drain, culvert, gutter, or water-course, the Council shall with due diligence provide some other, as effectual as the one of which he is so deprived.

Power to affix to buildings pipes for ventilation of drains.

188 B. The Chairman may cause such pipes and fittings as he may deem necessary for the proper ventilation of public drains to be fixed to the outside of any building, and such pipes and fittings shall be so constructed and fixed as to occasion the least possible inconvenience in the neighbourhood, and the outlet of any such pipe shall be at least two feet above the eaves of such building and at least ten feet distant from any window.

Cleansing and emptying drains.

188 c. The Council shall cause the public drains, culverts, gutters, and water-courses to be so constructed, maintained, and kept as not to be a nuisance or injurious to health, and to be properly cleared, cleansed, and emptied; and for the purpose of maintaining, flushing, cleansing, and emptying the same, they may construct and place, either above or under ground, such reservoirs, sluices, engines, and other works as may be necessary; and they may also, with the sanction of the Governor, cause all or any such drains, culverts, gutters, and water-courses to communicate with and be emptied into the sea or other fit place; or they may cause the refuse from the same to be conveyed by a proper channel to the most convenient site for its deposit, and may sell the said refuse for any agricultural or other purpose as may be deemed most expedient, but so that it shall not become a nuisance.

Power to prevent filling of swamp, &c., and obstruction of drainage.

188 d. The Council may by resolution determine that any natural water-course, channel, lake, swamp, or any part thereof into which rain water or drainage has heretofore discharged shall remain open for the reception of such rain water or drainage; and no person shall, after notice in writing from the Chairman, fill up or permit to remain filled up any such water-course, channel, lake, or swamp in such a manner as to obstruct or interfere with the free flow of such rain water or drainage.

Provided that—

(a) Such natural water-course, channel, lake, or swamp may be filled up if the owner thereof provide such other channels or drains as may, in the opinion of the Chairman, be sufficient and suitable for the reception and conveyance of such rain water or drainage.

(b) The Council may contribute in part or in whole to the cost of providing such other channels or drains.

Obstructing drains and water-courses.

188 e. No person shall fill up or otherwise obstruct or interfere with the free flow in any public drain or water-course, whether the same be within any private premises or not.

Penalty for making unauthorized drains connecting with any public drain.

188 f. No person shall, without the written consent of the Chairman first obtained, connect or cause to be connected any drain directly or indirectly with any public drain or water-course. The Chairman may cause any connection made without such consent to be demolished, altered, remade, or otherwise dealt with; and all expenses incurred thereby shall be paid by the person who connected or caused such drain to be connected, and shall be recoverable as hereinafter provided.

Erection of building over public drains, &c.

188 g. No person shall newly erect or construct or cause to be erected or constructed any building or works over any public drain, culvert, gutter, or water-course without the written consent of the Chairman first obtained; and the Chairman may cause such building or work to be pulled down or otherwise dealt with as he may think fit, and the expenses thereby incurred shall be paid by the person offending, and be recoverable as hereinafter provided.

Construction, &c., of private drains.

189. All works connected with the construction, fixing, and alteration of drains and drainage appliances, other than public drains and appliances connected therewith, including the connection with any public drain, shall be carried out either by the officers of the Council or by persons approved by the Chairman, at the cost and charges of the owners of the premises drained, and in accordance with any by-laws, and subject to inspection by such officers.

Provided that the terms of this provision shall not apply in the case of drains situated solely on private premises, other than underground drains and drains connected to the underground drains.

Power to compel the provision of drains to new buildings.

189 a. Every person who shall erect or cause to be erected any new building, or rebuild or cause to be rebuilt any building, shall cause to be provided such drains and appliances as may, in the opinion of the Chairman, be necessary for the

drainage of such building, and for the collection and removal of any sullage, foul liquids, rain water, or fæcal matter therefrom in accordance with the provisions of this Ordinance and the by-laws thereunder.

Drainage of premises within one hundred feet of public drains.

189 B. Where any premises are within one hundred feet of any public drain or other fit place into which drains may lawfully be discharged, the Chairman may, by notice in writing, require the owner of such premises, within a reasonable time, which shall be specified in such notice, to provide and execute to the satisfaction of the Chairman, in accordance with any by-laws in force under this Ordinance or any regulations made by the Council thereunder, all or any of the following works that the Chairman may deem necessary for the effectual drainage of such premises, that is to say :

- (1) To provide and construct such channels, drains, gullies, manholes, and appliances as may be necessary for the removal and discharge into such drain or other fit place of sullage, foul liquids, and rain water.
- (2) Where a sufficient water supply is available, to provide and construct sufficient and suitable water closets or additional water closets and drains and other appliances in connection therewith, and to convert any earth closet, privy, cesspit closet, or other latrine into a water closet, or abolish any such earth closet, privy, cesspit closet, or other latrine.
- (3) To reconstruct, take up, and remove or fill up any existing drain or appliance (other than any drain or appliance that has been laid with the sanction of the Chairman for the drainage of such premises on the water-carriage system) that may be, in the opinion of the Chairman, unnecessary or insanitary.

Drainage of premises in other cases.

189 C. (1) In the case of any premises which are more than one hundred feet, but less than two hundred feet, from any public drain or other fit place into which drains may lawfully be discharged, the Chairman may, by notice in writing, require the owners of such premises, within a reasonable time, which shall be specified in the notice, to provide and execute all or any of the works included in the aforesaid section ; provided that no such notice shall be issued without the previous sanction of the Council.

(2) If in the opinion of the Chairman there be no suitable public drain or other fit place into which drains may lawfully be discharged within a reasonable distance of such premises, he may require the said owner to provide and execute such other works and undertake such other measures as may in the Chairman's opinion be best or necessary for the proper collection and disposal of the sullage and foul liquids, and the removal of fæcal matter from such premises.

Drainage in combination.

189 D. (1) Where it appears to the Chairman to be more economical or otherwise more advantageous that the drainage of a group of premises, whether contiguous or otherwise, should be undertaken as a whole rather than separately, he may draw up a scheme for the drainage of such group of premises in accordance with the following provisions.

(2) In any such case the Chairman shall cause to be prepared—

- (a) Plans showing the premises affected, and the nature and extent of the necessary works.
- (b) A schedule of the premises and the names of the owners thereof as far as can be ascertained.
- (c) An estimate of the cost of the work that shall, in the opinion of the Chairman, be necessary for carrying such scheme into effect.
- (d) A provisional apportionment of such cost amongst the owners affected in equal shares.

(3) He shall cause written notice in English, Sinhalese, and Tamil to be given to the owners of all the premises to be drained of the intention to cause the proposed works to be done in accordance with the provisions of this section, either by serving it upon them personally, or by leaving it at their respective residences or places of business, or by posting registered letters addressed to them at such residences or places of business.

(4) During one month from the date of service of such notice the above-mentioned particulars or certified copies thereof shall be kept deposited at the offices of the Council, and shall be open to inspection at all reasonable times.

(5) During the said month the owner of any such premises may, by written notice served on the Chairman, object to the proposals on any of the following grounds, that is to say :

- (a) That the proposed works are insufficient or unnecessary or are not required in pursuance of this Ordinance.
- (b) That the estimated cost of the work is excessive.
- (c) That the provisional apportionment of such cost is incorrect in some matter of fact to be specified in the objection.
- (d) That any premises should be excluded from or included in the proposals.
- (e) That there has been some material informality, defect, or error in respect of the notices, plans, or estimates.
- (f) That any compensation to be paid is excessive or insufficient.

(6) The Chairman shall consider and determine the objections, and his decisions thereon shall be final.

(7) In any case where no such objections have been raised, or in any case where such objections have been raised and have been determined by the Chairman, the Chairman may give orders for the drainage of the premises in accordance with the scheme, and if he considers expedient may—

- (a) Proceed to execute, by contract or otherwise, all or any of the work necessary for carrying into effect the scheme mentioned in sub-section (1) of this section ; or
- (b) By notice in writing, require all or any of the owners to provide and execute, within a reasonable time to be specified in such notice, all or any of the works that may be required to be done in or exclusively for the drainage of the premises.

(8) The Chairman may recover in equal proportions from the owners of all or any of the premises included in any scheme prepared under this section a reasonable sum as expenses for surveys and the preparation of plans.

(9) When the Chairman has completed the execution of any works under this section and the expenses thereof have been ascertained, a final apportionment shall be made in similar manner to the provisional apportionment, and the expenses recovered accordingly as herein provided.

(10) The cost of the maintenance of the system of drainage made under such scheme as aforesaid shall be borne equally by the owners of the premises affected by such scheme.

Right to carry drains through and belonging to other persons.

189 E. (1) If it shall appear to the Chairman that the only or the best practicable means by which a drain required for the drainage of any premises can be emptied into any drain or other fit place into which drains may lawfully be discharged is by carrying the same into, through, or under any land belonging to some person other than the owner of the said premises, the Chairman, after giving the owner of the said land a reasonable opportunity of stating any objection, may, if no objection is raised, or if any objection which is raised appears to him invalid or insufficient, by an order in writing, authorize the owner of the said premises to carry his drain into, through, or under the said land in such manner as he shall think fit to allow.

(2) Every such order bearing the signature of the Chairman shall be complete authority to the person in whose favour it is made, or to any agent or person employed by him for that purpose, after giving to the owner of the land reasonable written notice of his intention so to do, to enter upon the said land with assistants and workmen at any time between sunrise and sunset and to execute the necessary work.

(3) Subject to all other provisions of this Ordinance, the owner or occupier of any premises, or any agent or person employed by him for this purpose, may, after giving the owner of any land, wherein a drain has already been lawfully constructed for the drainage of his said premises, reasonable written notice of his intention to do so, enter upon the said land with assistants and workmen at any time between sunrise and sunset for the purpose of repairing or cleansing such drain.

(4) In executing any work under this section as little damage as possible shall be done; and the owner or occupier of premises for the benefit of which the work is done shall—

- (a) Cause the work to be executed with the least practicable delay.
- (b) Fill in, reinstate, and make good at his own cost the land broken up for the purpose of executing the said work.
- (c) Pay compensation to any person who sustains damage by the execution of the said work.

(5) If any owner of any said land shall refuse to permit or shall prevent without reasonable cause the execution of any work in accordance with the provisions of this section, he shall be guilty of an offence, and shall on conviction be liable to the penalty hereinafter provided.

(6) If the owner of any land into, through, or under which a drain has been carried under this section while such land is unbuilt upon shall at any time afterwards desire to erect a building on such land, the Chairman shall, by written notice, require the owner or occupier of the premises for the benefit of which such drain was constructed to close, remove, divert, reconstruct, or protect the same in such a manner as shall be approved by the Chairman, and to fill in, make good, and reinstate the land; provided that no such requisition shall be made unless, in the opinion of the Chairman, it is necessary or expedient, in order to admit of the construction of the proposed building or the safe enjoyment of the same, that the drain be closed, removed, diverted, reconstructed, or protected. And if any such owner or occupier shall refuse to comply with the requirements of the Chairman within a reasonable time, he shall be guilty of an offence, and on conviction shall be liable to the penalty hereinafter provided.

Right of
owners to joint
use of drains.

189 F. (1) If it shall appear to the Chairman that the only or the best practicable means by which a drain required for the drainage of any premises can be emptied into any drain or other fit place into which drains may lawfully be discharged is through a drain belonging to some person or persons other than the owner of the said premises, the Chairman, after giving the said person or persons a reasonable opportunity of stating any objection thereto, may, if no objection is raised, or if any objection which is raised appears to him invalid or insufficient, by an order in writing, authorize the said owner to use the last-mentioned drain, or declare him to be a joint owner or one of the joint owners thereof, on such conditions as to the payment of rent or compensation, and as to the connecting the drain of the said premises with such other drain as aforesaid, and as to the respective responsibilities of the parties for maintaining, flushing, cleansing, and emptying such last-mentioned drain or otherwise as may appear to him equitable.

(2) Every such order bearing the signature of the Chairman shall be a complete authority to the person in whose favour it is made, or to any agent or person employed by

him for this purpose, after fulfilling the conditions of the said order, and after giving to the owner or owners of the drain reasonable notice in writing of his intention to do so, to enter upon the land in which such drain is situate with assistants and workmen at any time between sunrise and sunset and, subject to all the provisions of this Ordinance, to do all such things as may be necessary for—

- (a) Connecting the two drains.
- (b) Renewing, altering, or repairing the connection.
- (c) Discharging any responsibility attaching to the person in whose favour the Chairman's order is made for maintaining, flushing, cleansing, or emptying the drain or any part thereof.

(3) In executing any work under this section as little damage as possible shall be done, and the person in whose favour the Chairman's order is made shall—

- (a) Cause the work to be executed with the least practicable delay.
- (b) Fill in, reinstate, and make good at his own cost the land broken up, or repair and make good any damage to buildings occasioned by the execution of the said works.
- (c) Pay compensation to any persons who sustain damage by the execution of the said works.

(4) If the owner or occupier of any premises shall refuse, without reasonable cause, to permit, or shall prevent the execution of any works in accordance with the provisions of this section, he shall be guilty of an offence, and on conviction shall be liable to the penalty hereinafter provided.

Construction of additional privies.

190. In case the Chairman shall be of opinion that any privy or water closet or additional privy or water closet shall be necessary to be attached to, or provided for, any house or building or land, the owner of such house or building or land shall, within thirty days after notice in this behalf by the Chairman, cause such privy or water closet to be constructed in accordance with the requisition contained in such notice; and in case such requisition shall not have been complied with to the satisfaction of the Chairman by such owner within the period aforesaid, the Chairman shall be at liberty to cause such privy or water closet to be constructed, and the expenses incurred in such construction shall be payable by such owner, and shall be recoverable as hereinafter provided.

Duty of employers of labour to provide privies.

190 A. It shall be lawful to the Chairman to compel all persons employing large bodies of workmen or labourers to provide and maintain such privies, water closets, and urinals as may to him seem fit, and also, where persons of both sexes are employed or intended to be employed or are in attendance, proper separate accommodation for persons of each sex, and to cause the same to be kept clean and in proper order. And should such person neglect to provide and maintain such privies, water closets, and urinals, or to keep the same clean and in proper order, the Chairman may construct such privies, water closets, and urinals, and cause them to be kept clean and in proper order, and the expense incurred by the Chairman in respect thereof shall be paid by the person aforesaid, and shall be recoverable as hereinafter provided.

Neglecting to close cesspool.

190 B. The Chairman may, by notice in writing, require the owner or occupier of any house or building or land having a cesspool on his premises to close such cesspool and to substitute a privy or water closet therefor, and if the owner or occupier neglects for a period of thirty days after notice in writing for that purpose to close such cesspool and to substitute a privy or water closet therefor, the Chairman may cause such cesspool to be closed and a privy or water closet to be substituted therefor, and the expense incurred by the Chairman in respect thereof shall be paid by the owner or occupier, and shall be recoverable as hereinafter provided.

Offences.

191. (1) No person shall discharge or cause to be discharged, without the sanction in writing of the Chairman, any sullage, foul liquids, or fæcal matter into any drain or other place which is not suitable or intended to receive such discharge, or into any land or place in such a manner as to cause a nuisance, or wilfully discharge or cause to be discharged any rain water into any drain which is intended to carry foul water.

(2) No person shall discharge or cause or suffer to be discharged into any drain any hot water, steam, or any liquid which would prejudicially affect the drain or the flow or the disposal of the sewage or water conveyed therein, or which would from its nature, temperature, or otherwise be likely to create a nuisance.

(3) No person shall drop, pass, or place, or cause or suffer to be dropped, passed, or placed, into or in any drain any brick, stone, earth, ashes, or any substance or matter which such drain is not intended to receive, or which by reason of its amount or nature may be likely to cause such drain or any other drain connected therewith to be obstructed, or which may prejudicially affect any such drain or the flow therein or may be likely to create a nuisance.

(4) No person shall in any way alter the fixing, disposition, or position of, or obstruct, remove, stop up, or change, any drain, ventilation pipe, closet, or other fitting or appliance connected therewith without the written permission of the Chairman.

(5) No person shall erect, re-erect, or alter any building in such a manner as to cause any drain, closet, or appliance provided in or for the benefit of such building or of any other building within the same premises to contravene the provisions of this Ordinance or of any by-laws made thereunder.

(6) No person being the occupier of any premises in which works are being carried on in pursuance of the provisions of this Ordinance shall obstruct or cause to be obstructed the due execution of such works, or prevent or cause to be prevented the commencement or completion of such works without reasonable cause.

(7) (a) No person shall injure or improperly foul, or suffer to be in a foul condition for want of proper cleansing, any privy, water closet, or urinal, or the approaches thereto, used in common by the occupiers of two or more separate dwelling houses, or by any other person or persons.

(b) Every person offending against the provisions of this sub-section, or in the absence of proof satisfactory to the court as to which of the persons having the use in common of such privy, or urinal, or the approaches thereto as aforesaid is in default, each of such last-mentioned persons shall be deemed to have contravened the provisions of this sub-section.

(8) Any person who contravenes any of the above-mentioned provisions shall be guilty of an offence, and shall be liable on conviction to the penalty hereinafter provided.

192. (1) Every drain and every fixture or appliance connected therewith shall from time to time be repaired, flushed, cleansed, and cleared by the owner or occupier of such premises.

(2) The Chairman may, by written notice, require the owner or occupier of such premises, within a reasonable time to be specified in the notice, to repair, flush, cleanse, or clear such drain, fixture, or appliance.

(3) The Chairman may, if such notice be not complied with, or if he receive an application from the said owner or occupier so to do, or if he deem immediate action necessary, repair, flush, cleanse, or clear such drain, fixture, or appliance, and may recover the cost of so doing from the said owner or occupier.

(4) If any owner or occupier neglect to comply with any such notice within a reasonable time, he shall be guilty of an offence, and on conviction be liable to the penalty hereinafter provided.

Maintenance
and repair of
drains, &c.

(5) The owner of any premises in which drains, fixtures, and appliances connected therewith are provided for the common use of the occupiers of such premises shall make such provision and take such measures as shall be necessary for keeping such drains, fixtures, and appliances in a proper sanitary condition, and if, after due notice in writing from the Chairman, such owner fail to make such provision, or take such necessary measures as the Chairman may think fit, he shall be guilty of an offence, and on conviction be liable to the penalty hereinafter provided.

(6) Provided that, in pursuance of this section, where any drain, not being a drain vested in the Municipal Council, or fixture or appliance is provided for the benefit of more premises than one, the Chairman may, by notice in writing, require the owners or occupiers of such premises, within a reasonable time to be specified in such notice, to execute all or any of the aforesaid works, and he may, either in default of compliance with such notice, or without such notice if he deem necessary, execute all or any of such works, and recover the expenses of so doing from the said owners or occupiers in such proportions as he may deem just.

Reconstruction
of defective

the Chairman may, by notice in writing, require the owner or occupier of such premises, within a reasonable time to be specified in the notice, to relay, reconstruct, make good, disconnect, or abolish such defective or improper drains, connections, fixtures, and appliances, and provide sufficient and suitable drains, connections, fixtures, and appliances in accordance with the provisions of this Ordinance or of any by-laws made thereunder.

(2) If any such owner or occupier neglect to comply with any such notice he shall be guilty of an offence, and on conviction shall be liable to the penalty hereinafter provided.

(3) For the purpose of determining whether any such drains, connections, fixtures, or appliances are defective or injurious to health or improperly connected to any public or other drain, the Chairman may order an inspection of the premises at any reasonable time, and the inspecting officer may enter the premises at any reasonable time (after giving due notice to the occupant), and, if necessary for the purpose of such inspection, may cause the ground to be opened wherever he may deem fit, doing as little damage as may be ; and should such drains, connections, fixtures, or appliances be found to be in a satisfactory condition, they shall forthwith be reinstated, and the ground made good at the expense of the Council.

Drains or
appliances
laid in streets.

192 B. The Chairman may permit any drain, manhole, inspection chamber, gully, ventilating shaft, or similar appliances required in pursuance of this Ordinance for the drainage of any premises to be constructed, laid, or fixed over, through, or under any street or public place.
