Introduction

The Index to postgraduate theses 1981-2000 was published few years ago. It consists of three volumes. These three volumes consist of 3126 entries. This is the first volume of the Postgraduate Theses Index 2001-2006. This index provides information on 1000 theses deposited in universities, postgraduate institutes, research institutes and special libraries in Sri Lanka.

In compiling this index we received the assistance and co-operation from heads of the institutions, librarians and other relevant officials of these institutions. In collecting information for this index we had to visit most of the institutions mentioned above. The information for the Part II of this index is being collected and will be published next year.

This index consists of three Parts. Part I is the title list with full bibliographic description of the work including the degree, the awarding institution, year of award, language of the text and the location. The title list is arranged in alphabetical order and non-English titles are transliterated. Part II is the title keyword index and Part III consists of the Author Index.

I thank Mr. G. D. Amarasiri, Deputy Director and Head of the Documentation Services Division and Mrs Kusum Ekanayake, Library Assistant (Grade I) for compiling the Index. I also thank Mrs K G Sudarma, Library Assistant, Mr Sandaruwan Liyanarachchi, Library Assistant and Miss D P M T Gamage, Typist of the Documentation Services Division and Mr Chaminda Himesh De Silva, Head, Information Technology Division who extended their support in numerous ways in compiling this index.
