## FINAL ORDERS.

## Hambantota S. O. No. 1,545.

Order under Section 4, Sub-section (1), of "The Waste Lands Ordinances of 1897, 1899, 1900, and 1903," admitting Land to be Private Property.

In the matter of the land commonly called or known as Indiketiyehena, situate in the village of Pahala Bukandeyaya, in the West Giruwa pattu of the Hambantota District, in the Southern Province, and of "The Waste Lands Ordinances of 1897, 1899, 1900, and 1903."

WHEREAS in pursuance of section 1 of the said Ordinances it was duly notified on the 23rd day of November, 1906, that if no claim to the land commonly called or known as Indiketiyehena, situate in the village of Pahala Bukandeyaya, in the West Giruwa pattu of the Hambantota District, in the Southern Province, containing in extent 15 acres and 22 perches, and shown as lot 55D in preliminary plan 211 and in the annexed diagram, was made to Howard Orme Fox, Special Officer appointed under section 28 of the said Ordinances, within the period of three months from the date specified in such notice, such land would be declared the property of the Crown, and dealt with on account of the Crown (*vide* Notice No. 2,611):

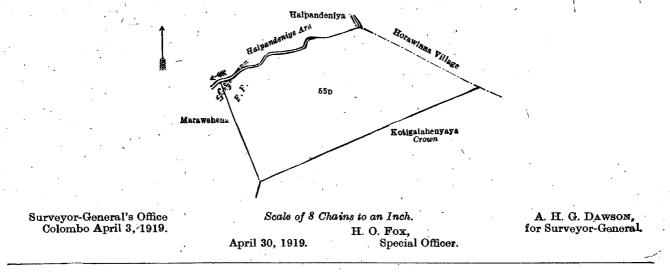

And whereas Don Andris Abewickrama Gunaratna Appuhami made claim thereto, and John George Fraser and Walter Ernest Wait, Special Officers appointed under section 28 of the said Ordinances, made due inquiry into such claim, and whereas the said claimant having died during the pendency of the inquiry, his heirs (a) Walpolage Punchihamy, (b) Abewickrama Gunaratna Podihamy (minor), (c) ditto Don Elias *alias* Mahatun (minor), (d) ditto Don Samel *alias* Kurulle (minor), (e) ditto Banchohamy (minor), and (f) ditto Don Nikulas (minor) were substituted as claimants; and whereas the said (a) Walpolage Punchihamy and Walpolage Don Siman, as duly appointed representative of the said (b) to (f) claimants (minors), came to an agreement in writing dated the 25th day of May, 1912, with the said Walter Ernest Wait, Special Officer, whereby it was agreed that the said (a) to (f) claimants should be declared, as an act of grace, in due proportion, as the heirs of the said claimant (deceased), the owners of the said land, I, Howard Orme Fox, the aforesaid Special Officer, with the consent of His Excellency the Governor, do hereby, as an act of grace, admit the said (a) to (f) claimants to be the owners, in the above-mentioned proportion, of the said land, as more fully described herein below, under section 4, sub-section (1), of the said Ordinances.

## Description of the Land referred to.

The following lot situated in the village of Pahala Bukandeyaya, in the West Giruwa pattu of the Hambantota. District, in the Southern Province, as described in the annexed diagram :----

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | of Alu                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |   

                       

 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |          THE Government Agent of the Central Province is prepared to receive on or before Wednesday, October 1, 1919, at the Kandy Kachcheri, written applications for the lease in perpetuity, subject to the provision that rent shall be revised at every interval of thirty years, counting from the date of the commencement of the lease, from December 1, 1919, the under-mentioned portions of Crown land, to be planted with rubber or tea. No such applications will be entertained unless the applicant gives his full name and address, and until he makes with the Government Agent a deposit of survey fees as noted against each lot. Such deposit will not be returned until the lease of the land has been sold, or until it has been decided by the Government Agent that it will not be sold. On Friday, October 24, 1919, at 1.30 P.M., at the Kandy Kachcheri, the sale of the lease will be put up to auction in accordance with the regulations of Government regarding the lease of Crown lands. The highest bidder for the premium shall be the purchaser of the lease, but the bidding shall be confined to the original applicant and those other applicants whose applications shall have been made in the marner above specified.

ì

The conditions of lease are obtainable from the Government Agent, and plans from the Surveyor-General.

Sixteen allotments of Crown land situated in the Uda palata division of the Kandy District of the Central Province. Preliminary plan 6,655. Village—Mulgama in Kandukara Pahala korale. Applicant—Pananwalagedera Pina of Mulgama.

THE Government Agent, Southern Province, Galle, is prepared to receive on or before September 12, 1919, at the Galle Kachcheri, written e pplications for the lease in perpetuity from October 16, 1919, of the under-mentioned portions of Crown land to be planted with coconuts, rubber, tea, or cinnamon. No such application will be entertained unless the applicant gives his full name and address and until he makes with the Government Agent a deposit of survey fees as noted age inst each lot. Such deposit will not be returned until the lease of the land has been sold or until it has been decided by the Government Agent that it will not be sold.

On Tuesday, September 16, 1919, at 1 P.M., at Galle Kachcheri, the sale of the lease will be put up to auction in accordance with the regulations of Government regarding the lease of Crown lands; but the bidding shall be confined to the original applicant and those other applicants whose applications shall have been made in the manner above specified.

The conditions of the lease of these lots are obtainable on application from the Government Agent, and their plans from the Surveyor-General.

Twenty-six allotments of land situated in the villages noted below in Gangaboda pattu of the Galle District, Southern Province.

Preliminary plan 10,991. Village—Diviture. Applicant—Dedimuni Fredrick Perera of Balapitiya. Nature of products—Coconuts, rubber, tea, or cinnamon.

## LAND SALES IN THE PROVINCE OF SABARAGAMUWA.

THE Assistant Government Agent of the Kegalla District, Province of Sabaragamuwa, is prepared to receive on or before Tuesday, August 26, 1919, at the Kegalla Kachcheri, written applications for the lease in perpetuity, subject to the provision that rent should be revised at every interval of 30 years, counting from the date of commencement of the lease, from September 1, 1919, the under-mentioned portions of Crown land to be planted with coccnuts, rubber, tea, and other produce. No such applications will be entertained unless the applicant gives his full name and address and until he makes with the Assistant Government Agent a deposit of survey fees as noted against each lot. Such deposit will not be returned until the lease of the land has been sold or until it has been decided by the Assistant Government Agent that it will not be sold.

On Monday, September 1, 1919, at 2 PM., at the Kegalla Kachcheri, the sale of the lease will be put up to auction in accordance with the regulations of Government regarding the lease of Crown lands. The highest bidder for the premium shall be the purchaser of the lease, but the bidding shall be confined to the original applicant and those other applicants whose applications shall have been made in the manner above specified.

The conditions of lease are obtainable from the Assistant Government Agent, Kegalla, and their plans from the Surveyor-General.

Twenty allotments of land situated in the Kinigoda, Galboda, Paranakuru, Beligal, Panawal, and Dehigampal korales of the Kegalla District of the Province of Sabaragamuwa.
