AN auction sale of the under-mentioned ebony will be held at the Central Timber Depôt, Kew road, Slave Island, Colombo, on Saturday, May 7, 1921, at 10 A.M., subject to the following conditions:—

- The timber will be put up in lots to suit buyers at a rate per lot, and no advance of less than Re. 5 per lot will be accepted.
- The highest bid will be accepted, subject to the approval or disapproval of the Conservator of Forests. The highest bidder will be required by the officer conducting the sale to sign the sale book kept for the purpose directly a lot has been knocked down to him.
- Payment of 25 per cent. of the successful bid to be made at time of sale if so required.
- Depôt weights must be accepted, but buyers can have the right of giving notice, before the expiration of the date of payment, of having the actual weight ascertained. Should the difference between the depôt weight and the weight ascertained after re-weighing be more than 1½ per cent., the cost of re-weighing is to be borne by the Forest Department, and if within 1½ per cent. by the purchaser; any difference between the depôt weight and the weight ascertained after re-weighing is to be paid or allowed for, as the case may be. Should two or more purchasers desire to re-weigh their timber on the same day, precedence will be given to the buyer whose notification of intention to re-weigh reaches the Assistant Conservator of Forests first.

6. Should any person to whom a lot is knocked down refuse to take it over at the full price bid, or refuse or fail to sign the sale book and pay 25 per cent. of his bid when so required, or refuse or fail to pay the full purchase amount or balance thereof, as the case may be, and to remove the timber within the time specified in clause 5 above, the lot will again be put up for auction, and the original purchaser or bidder will be held liable for any loss to Government owing to a lower price being realized at the re-sale, while if an enhanced price is realized at such re-sale, he shall, however, have no claim to the profit which shall accrue to Government.

7. Agents bidding for others will be required to produce a written authority from the firm or persons for whom they bid, such authority will be retained by the Assistant Conservator of Forests, and will hold good only at the particular sale at which it is produced.

## MUNICIPALITY OF GALLE.

Minutes of Proceedings of a General Meeting of the Municipal Council of Galle held in the Municipal Office on February 19, 1921, at 2 p.m., pursuant to notice dated February 14, 1921.

Present: The Hon. Mr. R. B. Hellings, Chairman; Mr. D. G. Goonewardene; Mr. D. W. Subasinghe; Dr. C. B. Lourensz; Mr. C. E. de Vos; Mr. G. E. Abeywardene; Mr. J. E. Perera; Mr. D. I. Durham; and Mr. E. W. Cade.

1. The Minutes of Proceedings of the General Meeting of January 15, 1921, a copy thereof having been furnished to each Councillor, were taken as read and confirmed.

2. Pursuant to notice, Mr. J. E. Perera asked—(1) What steps are contemplated in order to reduce the chances of plague spreading in the town?

The Chairman replied—It is intended to continue the campaign against rats. I am in communication with Government about rat-proof grain stores, but whether it will be a Government or Municipal measure I cannot say.

(2) What steps are being taken to preserve the grain stores of the town from contamination by plague rats?

Reply—Rat destruction by means of rat traps and poisoned baits is being carried on at the grain stores and elsewhere. The member is referred to my reply to his first question.

(3) What progress has been made with regard to the drainage scheme of the town?

Reply—In my reply, on March 13, 1920, to a similar question I gave all the available information regarding the drainage scheme. No progress has been made; but I have been in correspondence with Government, and in his letter of November 16, 1920, the Colonial Secretary informed me that the matter is still under consideration. I understand that an officer will be detailed for this work by the end of this month.

3. Mr. J. E. Perera asked permission to withdraw the motion of which he had given due notice, and to move it at the next meeting, if necessary. Permission having been given, the motion was withdrawn, viz.:—That the Drainage Committee do consider the advisability of inviting unofficial opinion regarding the drainage of the town, and, if necessary, of calling for tenders for a drainage survey.

4. Pursuant to notice, Mr. G. E. Abeywardene moved—That the contract for the supply of cattle for scavenging and other carts be cancelled as the contractor has assigned his contract to a third party contrary to the terms of his contract with the Council.

The Chairman pointed out that it was not a breach of the terms of the contract, and suggested the deletion of the words, "contrary to the terms of his contract with the Council." This was agreed to by the mover, and the motion, as amended, was seconded by Mr. C. E. de Vos.

The Chairman read the opinion expressed by the Council's lawyer, and stated that he was not prepared to say that the contractor has proved himself unable satisfactorily to carry out his contract, and declined to take the responsibility of cancelling the contract.

Mr. D. G. Goonewardene thought that the assignment to a third party was a breach of contract, and that it was a proof that he was unable to carry out the contract.

Mr. D. W. Subasinghe moved, as an amendment, that the consideration of the question be deferred, and that the papers be circulated. Dr. C. B. Lourensz seconded.

The amendment was put to the Meeting and carried.

5. Papers *re* houses sold for default of assessment rates, and purchased on behalf of the Council—Resolved that six houses in each ward be demolished.

6. Papers *re* temporary increases of pensions and long service allowances—Resolved that the temporary increases be continued to the end of the current year.

7. The Chairman mentioned the watering of streets, in view of the present loss of the water pressure. It was agreed that, after the road sweeper had been used, the streets should be watered every other day during the continuance of the drought.

It was also resolved, that a sum of Rs. 500 be voted for the tarring of a portion of the Colombo-Galle road, between the railway station and the bazaar; the Provincial Engineer having agreed to carry out the work.

8. With the permission of Council, Mr. D. G. Goonewardene moved.—That this Council desires to place on record its appreciation of the services of the Chairman, the Hon. Mr. R. B. Hellings, for the eight years during which he has been associated with the Council. Mr. C. E. de Vos seconded.—The motion was put to the meeting and carried unanimously.

The Chairman returned thanks.

## NOTIFICATIONS UNDER "THE PATENTS ORDINANCE, 1906."

THE following Specifications have been accepted:—

No. 1,762 of August 28, 1920 (date applied for under section 48 of the British Patent, May 30, 1918).

The Scarab Oil Burning Company, Limited.

"Improvements in or relating to oil fuel burners."

Abstract:—

An oil fuel burner adapted for burning (mazout) of crude oil and the like is constructed so that the air or other atomizing fluid is deflected and diffused by contact with the under surface of the burner before coming into contact with the fuel. The burner is designed for use with furnaces and stoves, particularly kitchen ranges.

The claims are:—

1. A liquid fuel burner characterized in that the atomizing fluid, after leaving the orifice from which it issues is deflected and diffused, by contact with the under surface of the burner before coming in contact with the fuel.

2. A burner as claimed in claim 1, comprising a weir, a dripping edge to the same, means for discharging liquid fuel on to the weir, means for directing the air of atomizing agent to a surface below the weir.

3. A burner as claimed in claim 2, characterized in that the fuel is conducted by a pipe or wire on to the weir.
  4. A burner as claimed in claims 2 and 3, characterized in that the surface of the weir is dished so that the oil fuel flows in a single film over a greater or lesser surface according to the volume delivered.
  5. A liquid fuel burner as claimed in claim 1, in which the orifices from which issues the atomizing fluid is controlled by a valve opening and closing a series of ports so disposed that the atomizing fluid issues at full pressure.
  6. A burner as claimed in claims 2 and 3, characterized in that the fuel supply pipe is relatively large.
  7. A liquid fuel burner as claimed in the preceding claims, hinged to a kitchen range, substantially as described.
  8. An atomizer liquid fuel burner as claimed in the preceding claims, applied to a furnace and operated as described, in which the fuel oil and the atomizing fluid are regulated and controlled, substantially as set out.
  9. A burner for liquid fuel constructed, arranged, and adapted for use, substantially as described with reference to Figs. 1 to 12 and to Figs. 13 to 17, and to Figs. 18 to 22.

"Improved holders for blades of knives or other instruments used for tapping rubber trees and the like."

*Abstract.*—The inventors state:—

"Our invention consists of an apparatus, hereinafter referred to as the holder, for holding the blade of a knife or other instrument used for tapping rubber trees and the like. It is intended only for use on trees where tapping cuts have previously been made.

"The holder may be of wood, metal, or other suitable substances, and is shaped in the form shown in the sheet of drawings hereto annexed, and the novelty of the invention consists in the construction of the holder with two projections slightly flattened or rounded with an intervening hollow or recess between them."

The holder is shown in the drawings fitted with a blade of the plane iron type. The nose of the plane and the projection on the side of it are made to contact with the cambium of the tree, and the plane iron cuts a shaving along the tapping cut without injuring the cambium.

The claim is:—

An improved holder for blades of knives or other cutting instruments used on former tapping cuts for tapping rubber trees and the like, such holder being constructed with two projections flattened or rounded, substantially as shown at E1 and E2 of Figure 1 of the drawings, with a hollow intervening between them, substantially as shown at F in Figure 1 of the drawings.
