

SUPPLEMENT

TO THE

Ceylon Government Gazette

No. 7,176 — FRIDAY, MAY 20, 1921.

VITAL STATISTICS OF TOWNS IN CEYLON IN THE MONTH OF MARCH, 1921.

REPORT OF THE REGISTRAR-GENERAL.

THIS report deals with the Vital Statistics of the 33 principal towns in the Island proclaimed under sections 31–36 of the Ordinance No. 1 of 1895.

Births.

2. The number of births registered was 1,628 (834 males and 794 females), and was equivalent to an annual rate of 28·14 per 1,000, against 29·97 in the preceding month, 26·56 in the corresponding month of last year, and 29·75 the average for the corresponding months since 1911. The rate ranged from 10·89 in Nuwara Eliya to 65·06 in Chilaw.

3. In the city of Colombo the births registered numbered 541 (271 males and 270 females), and were equivalent to an annual rate of 20·87 per 1,000, against 22·85 in the preceding month, 22·39 in the corresponding month of last year, and 24·66 the average for the corresponding months since 1911. The rate, exclusive of the Fort and the Pettah Wards, ranged from 7·95 in Kollupitiya to 37·59 in Wellawatta.

Deaths.

4. The total deaths registered during the month numbered 2,282 (1,216 males and 1,066 females). There were 1,788 deaths of residents in towns, equivalent to an annual standardized rate of 33·69 per 1,000, against 37·23 in the preceding month, 28·27 in the corresponding month of last year, and 28·86 the average for the month of March in each year since 1911. The rate ranged from 116·32 in Anuradhapura to 8·53 in Hatton and Dikoya.

5. In the city of Colombo the deaths numbered 714 (384 males and 330 females). There were 617 deaths of residents, equivalent to an annual standardized rate of 27·61 per 1,000, against 32·25 in the preceding month, 22·87 in the corresponding month of last year, and 26·21 the average for the month of March in each year since 1911. Excluding the Fort and the Pettah Wards, the rate ranged from 25·81 in New Bazaar to 6·10 in Kollupitiya.

6. The stillbirths registered numbered 130 (73 males and 57 females), as against 122 in the preceding month.

Infant Mortality.

7. The mortality of infants under one year of age was equal to a rate of 263 per 1,000 births registered during the twelve months ended March 31, 1921. Reckoned on the births registered during the month only the rate was 264 as against 295 in the preceding month, 233 in the corresponding month of last year, and 222 the average for the corresponding months since 1911.

8. In the city of Colombo the mortality of infants was equal to a rate of 258 per 1,000 births registered during the twelve months ended March 31, 1921. Reckoned on the births registered during the month only the rate was 294, as against 318 in the preceding month, 238 in the corresponding month of last year, and 235 the average for the corresponding months since 1911.

Causes of Death.

9. The highest mortality was from *Pneumonia*, to which 12 per cent. of the total deaths was due, *Debility* caused 8 per cent., *Convulsions* 7 per cent., *Malaria* and *Malarial Cachexia* 6 per cent., *Dysentery*, *Enteritis*, *Anchylostomiasis*, *Diarrhoea*, and *Phthisis* 5 per cent. each, *Bright's Disease* and *Nephritis* 4 per cent., *Enteric Fever* 3 per cent., *Prematurity*, *Bronchitis*, *Puerperal Septicæmia*, and *Influenza* 2 per cent. each, and *Pyrexia* 1 per cent.

10. In Colombo too the highest mortality was from *Pneumonia*, which caused 11 per cent. of the deaths, *Convulsions* caused 10 per cent., *Debility*, 9 per cent., *Phthisis*, 7 per cent., *Enteritis*, 5 per cent., *Enteric Fever*, *Bright's Disease* and *Nephritis*, and *Plague*, 4 per cent. each, *Dysentery*, 3 per cent., *Bronchitis*, *Anchylostomiasis*, *Influenza*, and *Diarrhoea*, 2 per cent. each, and *Malaria* and *Malarial Cachexia* and *Puerperal Septicæmia*, 1 per cent. each.

11. Twenty-seven deaths from *Plague* were registered (26 in Colombo and 1 in Moratuwa), as against 53 in the preceding month and 3 in the corresponding month of last year.

12. *Infectious Diseases reported.*—The infectious disease most prevalent during the month was *Chickenpox*, of which 205 cases were reported (149 in Colombo, 18 in Nuwara Eliya, 8 in Kandy, 7 in Galle, 7 in Chilaw), *Phthisis* followed with 126 cases (110 in Colombo, 5 in Galle), *Enteric Fever* 73 (45 in Colombo, 11 in Moratuwa, 6 in Galle, 5 in Batticaloa), *Continued Fever* 49 (31 in Colombo, 12 in Moratuwa), *Measles* 41 (35 in Colombo), *Plague* 28 (in Colombo), *Dysentery* 5 (3 in Weligama), *Diphtheria* 2 (1 in Colombo and 1 in Kandy), *Mumps* 2 (in Colombo), *Whooping Cough* 1 (in Colombo).

Meteorology.

13. *Rainfall.*—Kegalla recorded the highest rainfall (7·29 inches), followed by Ratnapura (6·79 inches). In other towns it ranged from 6·48 inches in Nawalapitiya to 0·06 of an inch in Mullaittivu. Colombo recorded 4·90 inches.

14. *Temperature.*—The mean temperature varied from 57·5° in Nuwara Eliya to 83·6° in Trincomalee, and was 80·9° in Colombo.

15. For detailed statistics, see Tables I. and II. for all towns, and Tables III. and IV. for the city of Colombo, in the Appendix.

Table I.—Number of Births and Deaths registered during March, 1921, their Proportion per 1,000 of the Population per Annum, and the Stillbirths and Deaths of Children under One Year and their Proportion per 1,000 Registered Births, together with the Average Birth- and Death-rates in the corresponding months since 1911, and the Mean Temperature and Rainfall in the Month in each Town of the Island proclaimed under Sections 31–36 of the Ordinance No. 1 of 1895.

^a The standardized death-rates represent the crude death-rates multiplied by the respective standardizing factor in order to make correction for differences of sex- and age-constitution of the several populations in 1911, as compared with that of the Island. ^b Blanks indicate that there are no observatories or rain gauges. ^c Includes population of the Negombo Local Board and registration area. ^d This increase of population is due partly to the extension of the town limits. ^e Estimated, to the end of December, 1920, by natural increase method. ^f Standardized death-rates for Kalpitiya and Lunugala towns are not available, as the population of these towns has not been enumerated at the Census of 1911 by age and sex, while the town of Kalmunai was created a registration division only in January, 1914, and Ambalangoda in January, 1915, the death-rates given for "All Towns" are, therefore, independent of the towns, but are scarcely affected by their rates.

Table II.—Causes of Deaths registered during March, 1921, in each Town of the Island proclaimed under Sections 31–36 of the Ordinance No. 1 of 1895.

* The city-rate is worked differently from the ward-rates, and takes into account events in hospitals, &c., not assignable to wards.

† For explanation of the "standardized death-rate" see note a, Table I. The population of the several wards of the city not being available by age- and sex-constitution, their standardized death-rates cannot be calculated.

‡ The population of these two wards being a fluctuating one, their population cannot be estimated to the middle of 1921. Hence the Census figures are retained.

§ Average for the months of March, 1913-1920.

Table IV.—Causes of Deaths registered during the Month of March, 1921, in each Ward and of each Race in the City of Colombo.
