By His Excellency's command,

Colonial Secretary's Office,

Acting Colonial Secretary.

Statement of Objects and Reasons.

It was felt for a long time that the law relating to weights and measures, namely, Ordinances No. 8 of 1876 and No. 14 of 1878, was archaic and required amendment. For instance, it will be noticed that section 6 of Ordinance No. 8 of 1876 only applies to weights and measures mentioned in the schedule to that Ordinance, “which shall be made after this Ordinance comes into operation.” As a result in several cases the accused pleaded that the weights and measures in question were manufactured before the passing of the Ordinance, and, as the prosecution were unable to lead evidence in rebuttal, they were acquitted. Again, under the last proviso to section 9 thereof, the Ordinance is not to apply to weights and measures constructed in England and bearing the imperial stamp as provided by the 21st section of the Imperial Statute, 5 and 6 William IV., c. 63. In several cases the accused were able to secure their acquittal by pointing to some mark or other on the weight or measure in question and by contending that the same was the imperial stamp referred to in the proviso.

2. Ordinance No. 8 of 1876 was amended by Ordinance No. 14 of 1878 and was further amended by Ordinances Nos. 9 of 1914 and 14 of 1915. In 1919 it was again further amended by Ordinance No. 4 of 1919, and by this amending Ordinance the last proviso to section 9 referred to in the preceding paragraph and Ordinance No. 9 of 1914 were repealed. This meant that all weights and measures had to be stamped before they could be used; but in the Ordinance itself there was no provision for compelling the periodical stamping of all weights and measures. The whole law on the subject has therefore been revised.

3. The provisions of the Bill have been approved of by the leading dealers in weights and measures in the town of Colombo.

4. The principal provision in the Bill is the provision for the periodical stamping of all weights and measures in conformity with the English practice and the prohibition of the use of any weight or measure which has not been so stamped by the Inspectors appointed under the Bill. Provision is also made for the appointment of a Chief Inspector stationed in the various localities in the Island. Power is given to the Governor to prescribe a table of fees to be levied by the Inspectors for the stamping or marking of weights and measures. It is hoped that the fees thus collected will be enough to pay the Chief Inspector and the other Inspectors appointed under the Bill.

5. The Bill is divided into eight Parts.

Part I. contains definitions. Attention is invited to the definition of the term "striker" in section 2 of the Bill.

Part II. deals with the standards of weights and measures, particularly, with the custody of standards, and makes provision for secondary standards.

Part III. deals with the appointment of Inspectors of Weights and Measures.

Part IV. contains the principal measures of the Bill under which the use of weights or measures which have not been stamped or marked by the Inspectors is prohibited.

Part V. prohibits the manufacture or repair of any weights or measures except on a license containing conditions to be settled by the local authority.

Part VI. prescribes various penalties for breaches of the provisions of the Bill. It also incidentally prohibits the use of a spring balance for the purpose of any sale, contract, or dealing.

Part VII. gives certain rule-making powers to the Governor in Executive Council.
