## REGULATIONS REFERRED TO.

## 1. (1) Every person—

- (a) Who, having been bound over by a Magistrate, attends to give evidence for the prosecution or defence, or who is called to give evidence at the instance of the Court, in a trial before the Supreme Court or a District Court; or
- (b) Who attends to give evidence for the prosecution or defence at an inquiry preliminary to any such trial, and is certified by the Magistrate to be a material witness;

shall, subject to the provisions of rules 4 and 5, be entitled to receive the payments set forth in Schedule A to these rules.

(2) No such person, who attends merely as a witness to character, whether for the prosecution or defence, shall receive any such payment as aforesaid unless the Court or Magistrate shall otherwise order.

2. Jurors summoned to attend a criminal session of the Supreme Court shall, subject to the provisions of rules 4 and 5, be entitled to receive the payments set forth in Schedule B to these rules.

3. Assessors summoned to attend a criminal session of a District Court shall, subject to the provisions of rule 4, be entitled to receive the payments set forth in Schedule C to these rules.

4. (1) No travelling allowance other than the fare shall be payable under Schedules A, B, or C for any portion of the journey to the Courthouse or place where the trial or inquiry is held, which might reasonably have been performed by the railway or any regular motor, coach, steamer, or boat service.

Provided that witnesses, jurors, and assessors in Classes I. and II. of the schedules may draw mileage allowance, instead of tram or bus fare, if they have actually travelled by private or hired car or carriage.

(2) No batta shall be drawn under Schedules A, B, or C by any witness, juror, or assessor going by steamer if travelling in a class in which food is included in the fare payable by a passenger.

(3) Subject to any special direction by the Judge presiding at the trial, the amount payable to a witness shall be paid upon the production of a certificate from the Registrar or the Secretary of the Court that there is no reason why the said amount should be disallowed. Payment of the expenses for attendance at the preliminary inquiry in the Police Court may be made on the certificate of the Magistrate after committal.

(4) Where two or more persons entitled to charge car or carriage hire under these rules use the same car or carriage on a journey, mileage shall be payable only to one person in respect of the conveyance used.

5. Public officers, serving as jurors, or, who attend to give evidence of facts which have come to their knowledge, or of matters with which they had to deal, in their public capacity, shall draw subsistence allowance and transport allowance in accordance with the regulations and rates laid down in Chapter VIII. of the General Orders instead of the amounts payable under Schedules A and B.

6. (1) Payments under the schedules attached to these rules shall be made by the Fiscal at the respective stations to which witnesses, jurors, or assessors were summoned.

(2) Such Fiscal shall prepare the necessary vouchers and head them, as also the list of payments made by him, to the votes of the respective Fiscals from whose Provinces the case was committed, such last named Fiscals being duly advised of the payments directly they have been made.

7. The full batta rates laid down in Schedules A, B, and C are payable only when the witnesses, jurors, or assessors live more than 5 miles from the Court, and in the case of those summoned to a Court in Colombo, outside the limits of the Colombo Municipality. Those living within 5 miles of the Court, or in Colombo within the limits of the Colombo Municipality, shall be entitled to only half the above batta rates.

8. In addition to full batta, mileage may be drawn only on the first and last days of the period required for attendance, and, subject to the provisions of regulation 4, persons entitled only to half batta, may, in addition to half batta on each day of their attendance, draw tram or bus fare reasonably incurred in going to and from their homes, or—subject to regulation 4 (i.)—Rickshaw fare; provided that in no case shall the half batta plus mileage paid for any one day exceed the amount which would be payable as full batta.

9. When witnesses, jurors, or assessors from a distance are detained over a period which includes a Saturday and Sunday or where cases are postponed for a short interval, such witness, juror, or assessor may be paid either batta for the intervening days on which he is so detained, or mileage to and from his home whichever is less.

10. The regulations made under section 253 A of "The Civil Procedure Code, 1898," and published by Notification dated January 28, 1922, in *Government Gazette* No. 7,241 of February 3, 1922, are hereby repealed.

(a) The firewood shall be in lengths of 3 feet to 5 feet and not less than 2 inches in diameter. Straight and sound poles or logs should be cut into the longest available lengths and not cut up into billets.

(b) Any tree pointed out by a Forest Officer, as one to be felled for firewood, shall, without question, be felled, and any tree pointed out or marked by a Forest Officer, as not to be felled, shall not be felled or injured.

(c) Felling will not be permitted in more than two coupes at a time. Fellings will not be permitted in the third coupe before the first is completed and so on. The contractor shall not commence fellings in a fresh coupe without the written permission of the Range Forest Officer, Jaffna.

(d) Felling must proceed steadily and systematically in one direction straight across the area, every tree, except those marked and numbered, being cut, and area stripped clean of all firewood. If for any reason it is considered desirable by the Divisional Forest Officer, that only such trees as are stamped or marked by a Forest Officer in any coupe, shall only be felled, the contractor shall fell no tree which has not been so stamped or marked in such coupe.

(e) The contractor will be responsible for the safety of the firewood stacked on the seashore, in the forest, and in transit, until delivered to the Depôt-keeper, Jaffna.

(f) The contractor may be required at times to increase supplies should the depôt requirements necessitate, and at times also decrease supplies, but the average output will be as described in the schedule.

(g) It must be clearly understood that for failure to deliver monthly supplies as required, a penalty of Rs. 2 for every ton short is liable to be levied.

(h) Payments will be made by the Divisional Forest Officer, Jaffna, for firewood delivered at the Jaffna Dépôt on production of a receipt from the Dépôt-keeper, Jaffna, showing the amount of firewood delivered.

(i) Firewood, if so required, should be weighed and delivered along the parapet wall of the reclamation grounds adjoining the Forest Department Dépôt or along the Jaffna Customs beach. For such firewood a rate of 25 cents per ton will be deducted from the accepted contract rate, while making payment.

(j) No boat loaded with firewood shall leave the shore without obtaining a permit from the Forest Officer stationed here. For every breach of this rule the contractor is liable to be fined a sum not exceeding Rs. 10.

(k) Failure on the part of the contractor to carry out the work efficiently and maintain deliveries as specified above shall render him liable to have his contract closed and to be fined a sum which will not exceed the sum deposited by him as security.

SCHEDULE.

*Kiranchi Area.*

(a) To fell every tree 6 inches from the ground, except those numbered and marked by a Forest Officer, within a block of forest 200 acres in extent, demarcated by cut

lines 25 chains by 10 chains; and bounded on the north by private land belonging to villagers of Kiranchi, south, east, and west by cut lines, or in extension of this block if necessary.

(b) To cut into firewood every tree so felled (excepting those marked) and every other dead or fallen tree whatsoever in the area, so as to yield 3,000 tons of firewood, more or less, with the least amount of wastage. All firewood immediately after conversion to be transported to the seashore and thence by boats to the Jaffna Customs, and taken to the Jaffna Dépôt, weighed and stacked in the Jaffna Dépôt in such a manner as the Dépôt-keeper may direct at a minimum rate of 400 tons per mensem. Deliveries to commence within two weeks of the notice of acceptance of tender. Final delivery in Jaffna Dépôt to be made on or before July 31, 1928, when the balance remaining, if any, out of the total quantity to be supplied should be delivered. Distance of transport by cart to seashore is up to 2 miles, and by boats to the Jaffna Dépôt 30 miles.

2. That the Articles of Association of the Company be altered as follows:—

(a) By deleting the existing Article 130 thereof and substituting therefor the following Article:—

130. (a) *Declaration of Dividend.*—The Company in General Meeting may declare a dividend or bonus to be paid to the Shareholders according to their rights and interests in the profits and may fix the time for payment. Provided always that if shares shall have been issued during the course of a financial year, the holder thereof shall, subject to any arrangement made by the Directors to the contrary only, be entitled to have paid to him in respect of dividends or bonus on such shares, a proportionate part of the dividends or bonus for such financial year calculated on the proportionate part of the year from the date on which such shares were allotted treating such dividends or bonus as earned rateably over the whole year. 133A. *Issue of Bonus out of Reserve.*—The Company in General Meeting may from time to time determine that any moneys, investments, or other assets representing or forming part of its undivided profits, including those standing to the credit of any reserve fund or in the hands of the Company and available for dividend or representing premiums received on any issue of shares or loan capital, or of any profits arising from the sale of property in excess of the value at which such property stands in the capital account, or arising from any other operation creating an excess of assets on capital account and carried to reserve shall be capitalized and may resolve that the same be set free for the purpose of distribution among the Shareholders according to their rights and interests on the footing that they become entitled thereto as capital, and that all or any part of such capital fund be applied in paying up (in full or in

part) any unissued shares of the Company or any debentures, debenture stock, bonds, or other obligations of the Company, and that the said shares, debentures, debenture stock, bonds, or other obligations fully or partly paid be distributed among the Shareholders as aforesaid and be accepted by them in full satisfaction of their interest in the capitalized sum. For the purpose of giving effect to any resolution under this Article, the Directors may settle any difficulty which may arise in regard to the distribution as they think expedient and in particular may issue fractional certificates and may fix the value for distribution of any specific assets and may determine that cash payments shall be made to any Shareholders upon the footing of the value so fixed or that fractions of less value than Rs. 100, may be disregarded in order to adjust the rights of all parties and may vest any such cash or specific assets in trustees upon such trusts for the persons entitled to the capitalized fund as may seem expedient to the Directors. Provided that no such distribution shall be made unless recommended by the Directors.

Should the above resolutions be passed by the requisite majority, they will be submitted for confirmation as special resolutions to a further Extraordinary General Meeting, which will be subsequently convened for the purpose.

6. Should any person to whom a lot is knocked down refuse to take it over at the full price bid, or refuse or fail to sign the sale book and pay 25 per cent. of his bid when so required, or refuse or fail to pay the full purchase amount or balance thereof, as the case may be, and to remove the timber within the time specified in clause 5 above, the lot will again be put up for auction, and the original purchaser or bidder will be held liable for any loss to Government owing to a lower price being realized at the resale, while, if an enhanced price is realized at such resale, he shall, however, have no claim to the profit, which shall accrue to Government.
7. Agents bidding for others will be required to produce a written authority from the firm or persons for whom they bid, such authority will be retained by the Assistant Conservator of Forests, and will hold good only at the particular sale at which it is produced.

Resolved that the Minutes of the General Meeting of August 3, 1927, be confirmed.

2. Pursuant to notice, Mr. M. L. M. Reyal presented a petition from the workmen of the Council belonging to the Ceylon Labour Union, praying that they be granted "their usual increments".

3. Pursuant to notice, Mr. T. G. Jayewardene asked the Chairman the following questions :—(1) Will the Chairman be pleased to state if he has now received a reply from Government in regard to my question of December, 1925, that as a very large area of land protected from floods is too low for building purposes and as earth for reclaiming such lands is unobtainable in the town or its vicinity except at a prohibitive cost, the Chairman be pleased to inquire if Government, now that a large quantity of rolling stock will soon be available on the completion of the duplication of the Main line, will consider favourably a request from this Council to transport earth from Crown land in the vicinity, of the Railway and unload same at convenient places on payment so that such earth may be sold to the public by this Council at cost price ? (2) Will the Chairman be pleased to say what the position is in regard to the claim of this Council against Government for certain repairs to the Sewer in Norris road ? (3) Will the Chairman be pleased to say if Government has decided to finance the continuation of the widening of Colombo-Galle road ? If so, will he cause timely preparations to be made to commence work at both ends of the road as soon as funds are available ?

The Chairman replied as follows :—(1) Yes ; the reply was sent to the questioner on receipt. (2) On August 30, Government informed the Chairman that the Council's proposal that the matter be referred to arbitration was accepted. It has been suggested that Major Day of the Royal Engineers should be requested to arbitrate and it has been ascertained that he is willing to consider so doing if application for his services is made through the proper channels. Council's approval to this proposal is sought. (3) It is understood that Government has voted Rs. 700,000 for this work. Application for the survey of certain temple properties on which the final trace will, in some degree, depend was made several months ago, but has only just now been sanctioned by Government. After the survey the acquisition will be undertaken. Thereafter it will be possible to proceed to the construction, but it will probably not be practicable to begin the work simultaneously at both ends.

With regard to the reply of the Chairman in connection with (1), at the request of Mr. Jayewardene the reply from Government referred to was read to the Meeting by the Chairman. (The reply from Government is annexed.)

With regard to item (2), the Chairman moved that the Council approve that Major A. F. Day, R.E., be requested to arbitrate. Mr. T. G. Jayewardene seconded.—Carried.

4. Pursuant to notice, Dr. S. Muttiah asked the Chairman the following questions :—(1) Is the Chairman aware of the fact that there are several pools of stagnant water still found on the site of the Motor Show held last January ? (2) Have not there been several complaints from residents around this site ? (3) Has the Chairman taken any action in regard to this matter ? (4) What does the Chairman propose to do to remove this public nuisance ?

The Chairman replied as follows :—(1) There are reported to be 2 such pools. (2) The last complaint received was dated April 25, 1927. (3) The land belongs to the Crown. The appropriate Government Departments have been addressed from April 7, 1927, onwards and a certain amount of filling has been done. Meanwhile, the pools have been regularly sprayed to prevent mosquitoes breeding. (4) The Chairman proposes to continue to press the matter on the attention of Government.

5. Pursuant to notice, Dr. E. A. Coorey asked the Chairman the following questions :—Will the Chairman be pleased to state—(1) Whether the building of the market at Wellawatta will be started in September, as stated in a reply to a previous question of mine ? (2) Whether the Works Department has taken possession of the land, if not (3) What the cause of the delay is, especially in view of the fact that the owner offered, several months ago, to hand over the land pending settlement of other questions ? (4) Whether the Chairman will take steps without any further delay to make a start with the building of this market which is very urgently required ? (5) Whether the Chairman will take steps to prevent as far as possible delay in urgent and important matters affecting the rate-payers, whether such delay is due to fault of the Council's lawyers or of the Executive Officers of the Council ?

The Chairman replied as follows :—(1) Yes. (2) Yes, of the actual land required for the market building. (3) There has not been any undue delay. Though the owner had offered to make the land available, it was no use taking possession of it till the Department was able to start the work of construction. It is manifestly impossible to start every work directly it is sanctioned, and works are taken up in order, as circumstances permit. The Municipal Engineer undertook to start this work in September and will fulfill his undertaking. (4) The reply to this question will be found in the preceding replies. (5) Yes, as usual. In this case the Chairman does not admit that there has been any avoidable delay.

6. Pursuant to notice, Mr. T. G. Jayewardene moved that the Committee now known as the Special Building Committee be in future called the Special Building and Town Improvement Committee, so that all questions of improvements and Town Planning of this city, may, in the first instance, be dealt with by that Committee. The Hon. Mr. C. H. Z. Fernando seconded.

Dr. E. V. Ratnam and Dr. E. A. Coorey spoke to the motion.

Mr. S. W. R. Dias Bandaranaike spoke against the motion.

Mr. R. L. Pereira moved, as an amendment, that this motion be referred to the Law Committee on the question of its legality. The Hon. Mr. N. H. M. Abdul Cader seconded.—Carried.

7. The Hon. Mr. N. H. M. Abdul Cader moved that, in terms of section 102 of Ordinance No. 6 of 1910, the Chairman's Administration Report for the Financial Year, 1926, be as usual, submitted to His Excellency the Governor. Dr. E. V. Ratnam seconded.—Carried.

With the leave of Council the Chairman referred to the great loss sustained by this Council and the town through the death of Mr. D. G. Goonewardene, who had, for over thirty years, been a steadfast Member of the Council, and showed complete ability in ministering to the needs of the Municipality, and grasp of the Council's business; and moved—"That a minute of the Council's deep appreciation of his services as a Member of the Council, and sense of the great loss sustained by his death be placed on record; and that Council do tender to his family its sincere sympathy and condolence."

Mr. D. W. Subasinghe seconded the motion, which was passed in silence, all standing.

2. Mr. D. W. Subasinghe asked leave of Council to defer the motion standing in his name to the next meeting, and he was not well enough to move it at this meeting. The Council allowed the motion to stand over to the next meeting.

1. A process for producing an aqueous bituminous emulsion which consists in mixing together molten or liquid bituminous material and a small proportion (about 2-10 per cent.) of an emulsifying agent comprising a sulphonated fatty oil or a mixture of sulphonated fatty oils and adding hot water or a hot dilute solution of alkali or both to this mixture.
2. A process according to claim 1 wherein the emulsifying agent consists of or comprises sulphonated cod oil, sulphonated castor oil, or alizarine oil.
3. A process according to claim 1 or claim 2 wherein the sulphonated oil employed as the emulsifying agent is acid in reaction.
4. A process according to any one of the foregoing claims wherein in place of a portion of the aforesaid sulphonated emulsifying agent, a fatty acid such as oleic acid or other known emulsifier such as casein is employed.
5. A process for producing an aqueous bituminous emulsion which consists in melting bitumen of the type artificially prepared from petroleum (*e.g.*, Mexican asphalt), adding thereto with agitation first a small proportion (2-10 per cent.) of a sulphonated fatty oil or a mixture of sulphonated fatty oils, and then a hot dilute solution of alkali (say, a 1-2 per cent. aqueous solution), with or without a final addition of hot water, and maintaining the heating and agitation of the mixture until emulsification has taken place.
6. A process for producing an aqueous bituminous emulsion substantially as herein described.
7. A bituminous emulsion when prepared according to the process set out in any one of the foregoing claims.

Improvements in or relating to bituminous emulsions.

*Abstract.*—Solid bitumen is melted and mixed with a dilute aqueous solution of alkali and up to 10 per cent. of an emulsifying agent comprising a resin, resin acid, or resin oil.

The claims are :—

1. A process for producing an aqueous bituminous emulsion which consists in melting solid bitumen of the type artificially prepared from petroleum (*e.g.*, Mexican asphalt) and mixing together the molten bitumen, a dilute aqueous solution of alkali, and a proportion up to about 10 per cent. (reckoned by weight on the bitumen) of an emulsifying agent comprising a resin, resin acid, or resin oil.
2. A process for producing an aqueous bituminous emulsion which consists in melting solid bitumen of the type artificially prepared from petroleum (*e.g.*, Mexican asphalt), adding thereto with agitation first a proportion up to about 10 per cent. (reckoned by weight on the bitumen) of an emulsifying agent comprising a resin, resin acid, or resin oil, and then a dilute (and preferably hot) aqueous solution of alkali, and maintaining the heating and agitation of the mixture until emulsification has been effected.
3. A form of the process according to claim 1, wherein the molten bitumen is first mixed with a dilute aqueous solution of alkali (the alkali being poured into the bitumen or the bitumen into the alkali) and the emulsifying agent, with or without further alkali and/or water thereafter incorporated.

4. A process according to any of the foregoing claims wherein the emulsifying agent consists of a mixture of a resin, resin acid, or resin oil and a fatty acid or other known emulsifier such as casein.
  5. A process according to any of the foregoing claims wherein the emulsifying agent consists of or comprises the sulphite-liquor by-product referred to herein.
  6. A form of the process according to claim 1, wherein the emulsifying agent (*e.g.*, Shellac) is first mixed with the alkali solution and this mixture then incorporated with the molten bitumen.
  7. A modification in the process according to claim 1, wherein the emulsifying agent consists of a resin (*e.g.*, copal resin) which is first dissolved in a solvent (*e.g.*, turpentine) and this solution then mixed with the molten bitumen, the addition of alkali being omitted according to this modification.
  8. A process for producing an aqueous bituminous emulsion substantially as described in any one of the examples given herein.
  9. Bituminous emulsions when prepared by special processes described and claimed herein.

Improvements relating to fibrous paint material.

*Abstract.*—Fibrous material is subjected to an initial disintegration and then to further disintegration in a high speed colloidal grinding machine or in a high speed impact beater and incorporated therewith is a binding medium or a mineral lubricant-filler which is added prior to or during either stage of the process.

The claims are :—

1. A method of producing finely disintegrated fibrous paint material, especially a mixture containing finely disintegrated paper consisting in subjecting said material first to an initial disintegration and subsequently to further disintegration in a high speed colloidal grinding machine or in a high speed impact beater and incorporated therewith of a binding medium and a mineral lubricant-filler until the fibres of said material are so broken and said broken fibres are so separated by said mineral lubricant-filler as to produce a finely spreading non-felting mixture, the binding medium and filler being added prior to or during either disintegration stage.
  2. A method of producing finely disintegrated fibrous paint material, especially a mixture containing finely disintegrated paper, consisting in subjecting said material first to an initial disintegration in the wet condition and subsequently to further disintegration in a high speed colloidal grinding machine or in a high speed impact beater and incorporation therewith of a binding medium and a mineral lubricant-filler until the fibres of said material are so broken and said broken fibres are so separated by said mineral lubricant-filler as to produce a finely spreading non-felting mixture, the binding medium and filler being added prior to or during either disintegration stage.
  3. A method of producing finely disintegrated fibrous paint material especially a mixture containing finely disintegrated paper, as set forth in claim 2, consisting in beating said material in a liquid, and subsequently wet grinding and incorporating with said beaten material a binding medium and a mineral lubricant-filler in a high speed colloidal grinding machine.
  4. A method of producing finely disintegrated fibrous paint material as set forth in claim 3, in which the material is beaten in water.
  5. A method of producing finely disintegrated fibrous paint materials as set forth in claim 3, in which the material is beaten in oil.
  6. A method of producing finely disintegrated fibrous paint material, especially a mixture containing finely disintegrated paper, as set forth in claim 2, consisting in beating said material in a liquid, pressing and drying said beaten material, and subsequently dry grinding and incorporating with said pressed and dried material a dry binding medium and a mineral lubricant-filler in a high speed impact beater.
  7. A method of producing finely disintegrated fibrous paint material as set forth in claim 6, in which the material is initially beaten in water.
  8. A method of producing finely disintegrated fibrous paint material, especially a mixture containing finely disintegrated paper, as set forth in claim 2, consisting in beating said material in oil and water, drying out said water, and subsequently wet grinding and incorporating with said beaten material said oil and a mineral lubricant-filler in a high speed colloidal grinding machine.
  9. A method of producing finely disintegrated fibrous paint material, especially a mixture containing finely disintegrated paper, as set forth in claim 1, consisting in dry grinding said material by high speed impact, and subsequently wet grinding and incorporating with said dry ground material a binding medium and a mineral lubricant-filler by high speed impact.
  10. A method of producing finely disintegrated fibrous paint material as set forth in any of the preceding claims, in which colouring matter is incorporated with the fibrous material.

Improvements in or relating to the collection of latex from rubber trees.

*Abstract.*—A water repelling substance such as vaseline is applied to the bark of the tree so as to prevent latex flowing over the bark of the tree and to prevent water flowing into the tapping cut.

The claims are :—

1. A process for improving the yield of latex collected from tapped rubber trees wetted by rain, which consists in so applying a wet-repelling substance to the bark of the tree adjacent to the tapping cut that the latex is prevented from flowing wastefully over the bark and the tapping cut thereby made effective to guide the latex into its collecting receptacle.

2. A process for improving the yield of latex collected from tapped rubber trees wetted by rain, in which the bark immediately below the tapping cut is treated with a wet-repelling substance, whereby the latex is checked from leaving the cut at the edge.

3. A process for improving the yield of latex collected from tapped rubber trees wetted by rain in which rain water flowing down the bark above the tapping cut is prevented from reaching the latex being tapped by so applying a wet-repelling substance to the bark above the tapping cut that the rain water is deflected away from the cut which is thereby made effective to guide the latex into its collecting receptacle.

4. A process for improving the yield of latex collected from tapped rubber trees wetted by rain, in which the rain water flowing down the bark above the tapping cut is deflected away from the tapping cut by the aid of a deflecting cut in the bark, at the lower edge of which cut a wet-repelling substance is applied to the bark, and the tapping is thereby made effective to guide the latex into its collecting receptacle.

3. Tenders should either be deposited in the tender box in the Office of the Conservator of Forests, Kandy, or be sent by registered post.

4. Tenders should be marked "Tender for the Purchase of Timber, Southern Division East," in the left hand top corner of the envelope, and should reach the office of the Conservator of Forests, Kandy, not later than midday on Friday, November 18, 1927.

5. The tenders are to be made upon forms which will be supplied upon application at the Divisional Forest Office, Matara. No tender will be considered unless it is on the recognized form. Alterations must be initialled, otherwise the tenders may be treated as informal and rejected.

6. A tender deposit of Rs. 20 will be required to be made either at the Treasury or any Kachcheri, and a receipt produced for same before any form of the tender issued.

7. Tenderers should satisfy themselves by inspection before tendering as to the acreage and contents of the demarcated block referred to in the annexed schedule, as the figures given therein are estimated only and their correctness is in no way guaranteed. The boundaries of the block will be pointed out by the Range Forest Officer, Morawaka.

8. The successful tenderer will be required to execute a purchase agreement and all tenderers should read and initial a copy of this agreement at the Office of the Divisional Forest Officer, Southern Division East, Matara, at the time of obtaining forms for tendering.

9. Before execution of the agreement the purchaser will be required (a) to pay either the full purchase amount, or if payments by instalments 40 per cent. thereof; (b) to deposit as security for efficient and punctual fulfilment of the agreement 25 per cent. of the full purchase amount tendered by him or Rs. 250 whichever is greater. If paying

by instalments the balance 60 per cent. of the full purchase price shall be paid by the purchaser in two equal instalments in accordance with clause 2 and 3 of the special conditions set out below in this notice.

10. After payment of the first instalment of the purchase price, deposit of the security and execution of the agreement, the purchaser will be entitled on application to a refund of the sum of Rs. 20 deposited by him prior to tendering.

11. Tenderers should make an offer written both in words and figures for the timber contained in the block described in the annexed schedule.

12. No tender will be considered unless the procedure laid down above has been strictly complied with. The Conservator of Forests reserves to himself the right, without question, of rejecting any or all tenders and of accepting any tender not necessarily the highest tender.

13. The special rules for felling, conversion, and removal, which the purchaser will be required to observe are specified in the special conditions advertised below. Nothing in these special conditions shall render the purchaser in any way exempt from liability for punishment, under the Forest Ordinance of 1907, should he or any of the workmen in his employ be responsible for the commission of a forest offence outside the boundaries of his purchased block.

#### SPECIAL CONDITIONS.

(1) On payment of the full purchase amount the purchaser shall be entitled to fell and remove on or before August 30, 1928, in the manner specified below, all the timber (enumerated and unenumerated trees) contained in the purchased block. No extension of the time limit fixed for felling and removal under any circumstances will be granted, and all timber not removed by the date of expiry of agreement *i.e.*, August 30, 1928, shall *ipso facto* revert to the Crown.

(2) If the purchaser desires to pay by instalments, payment of a first instalment of 40 per cent. of the full purchase price of the block shall entitle him to fell and remove all the trees in an area not exceeding one-third of the total area of the block, or one-third of the total number of trees enumerated. Payment of 70 per cent. of the full purchase price by means of a second instalment of 30 per cent. shall entitle the purchaser to fell and remove all the trees in an area not exceeding two-thirds of the total area of the block or two-third of the total number of trees enumerated.

(3) If paying by instalments, the purchaser shall pay the second instalment or in all 70 per cent. of the full purchase price, within three months, and the third and final instalment within five months of the date of execution of the agreement. Should the purchaser fail to pay either instalment when due, it shall be within the discretion of the Divisional Forest Officer to cancel the agreement as from the date of such default and to declare same to be null and void. Any unremoved or unfelled timber lying or standing in the block shall unconditionally revert to the Crown as from the date of such cancellation, and the purchaser shall have no further claim thereto. On no account shall any postponement of the date of such payment be made.

(4) Should the purchaser fell or remove trees from any area he has not paid for or from any area or forest outside the demarcated boundaries of his block, nothing in the agreement shall exempt him from liability to punishment for illicit felling and removal under the provisions of the Forest Ordinance, No. 16 of 1907, and the rules framed thereunder.

(5) The purchaser shall further agree to compensate the Crown for any damage to produce caused by himself, his employees, his animals, his machinery, or his material in transit over any area of forest not paid for by him at rates to be assessed by the Divisional Forest Officer, Matara.

(6) Daily removal notes must be obtained from the Overseer in charge of timber exploitation, in respect of all forest produce before removal of any such produce to depôts outside the area of the block, and any removal of any forest produce without the authority of such notes will be considered an infringement of this rule and punished as provided hereunder. All such notes must be retained to be produced before Range Forest Officer concerned, before removal permits can be issued for removal of such produce from such depôt to any final destination. For the purpose of this clause the purchaser shall select for

his purpose, with the approval of the Range Forest Officer concerned, a plot of ground outside the limits of the block for a depôt. The site of such depôt shall not be changed without permission.

(7) In the depôt selected above the timber and other forest produce shall be stacked separately, in order to facilitate check.

(8) The purchaser shall agree that for each and every infringement of the above conditions he shall become liable to a fine of an amount not exceeding Rs. 50, to be imposed in writing by and at the discretion of the Divisional Forest Officer, Matara, and that this fine should be paid within 7 days, otherwise the agreement will be cancelled.

(9) The purchaser shall have the right of appeal to the Conservator of Forests in the event of the enforcement on any of the penalties specified in these conditions, and the purchaser shall agree to accept the Conservator's decision as final and binding.

(10) The purchaser will be required to spread the branchwood evenly over the block immediately after conversion so as to leave no bare patches exposed to soil erosion.
