Buildings may be broken open.

23 In the event of a sale of property seized, the Government Agent at whose instance such seizure was made shall, after deducting the amount due by the defaulter, and also the costs and charges payable under section 21, restore the overplus arising from such sale, if any there be, to the owner of the property sold.

CHAPTER VI.

Medical Wants Committee.

25 There shall be established a Committee to be called the Medical Wants Committee, consisting of such members, official and unofficial, as the Governor may from time to time appoint : Provided that three of such members shall be persons whose names are submitted to the Governor by the Planters' Association of Ceylon and three by the Ceylon Estates' Proprietary Association.

Constitution of Medical Wants Committee.

26 The Medical Wants Committee shall have the duties hereinafter specified and shall advise the Governor—

Duties of Medical Wants Committee.

- (a) On the requirements of labourers as regards the construction of Government hospitals and dispensaries ;
- (b) On the financial working of this Ordinance ;
- (c) On the rebates or grants to proprietors authorized by section 27 ;
- (d) On all rules made under this Ordinance ;
- (e) Generally on all such matters relating to the administration of this Ordinance as the Committee may desire to bring to the notice of the Governor, or as the Governor may refer to it for advice.

27 (1) Where the proprietor of an estate or group of estates or the proprietors of adjacent estates have at his or their own cost established an estate hospital and made provision to the satisfaction of the Director of Medical and Sanitary Services for the medical treatment of the labourers employed on such estate or group of estates or adjacent estates, and for the sanitary conditions of the aforesaid estates, the Medical Wants Committee may, at its discretion and subject to rules made under section 32, allow to such proprietor or proprietors a rebate of the whole or part of the duties deemed to have been paid under section 28 of this Ordinance on the exportation of the produce of such estate or group of estates or adjacent estates.

Power to make rebates to certain proprietors.

(2) In the case of any produce not directly exported by the proprietor of the estate, such rules may provide for the calculation as nearly as may be upon such evidence as the

Committee may determine of the amount of export duty paid upon such produce, and any amount so calculated shall for the purpose of the allowance of rebate be deemed to have been paid upon exportation.

(3) Where the proprietor of an estate or group of estates which is in process of development for the production of exportable produce on which an export duty is chargeable has at his own cost established an estate hospital and made provision to the satisfaction of the Director of Medical and Sanitary Services for the medical treatment of the labourers employed on such estate or group of estates, and for the sanitary conditions of the aforesaid estates, the Medical Wants Committee may, at their discretion and subject to rules made under section 32, make an annual grant from the funds at the disposal of the Committee based on the annual expenditure (including salary of staff, but excluding sums payable to the Government for treatment in Government hospitals) incurred by such proprietor in maintaining such estate hospital and in the medical treatment of the labourers on such estate or group of estates: Provided, however, that such annual grant may be diminished or discontinued altogether by the Medical Wants Committee when such Committee is satisfied that such estate or group of estates is producing exportable produce.

CHAPTER VII.

Financial Provisions.

Expenses of Ordinance to be met by export duty on certain products.

28 Of the export duties of Rs. 2·50, Re. 1·50, and Rs. 3 per 100 lb. paid on rubber, cacao, and tea, respectively, under Ordinance No. 17 of 1922, it shall be deemed that 40 cents, 15 cents, and 40 cents, respectively, are raised, levied, and collected for the purpose of meeting the expenses of the administration of this Ordinance, in so far as the same are not herein otherwise provided for.

Annual financial statement.

29 It shall be the duty of the Director of Medical and Sanitary Services to prepare annually for submission to the Legislative Council a financial statement of the expenses of the administration of this Ordinance.

Debit side of statement.

30 The said statement shall contain on the debit side of the account the following expenses:

- (a) Any deficiency brought forward on the working of the account for the period of twelve months anterior to that covered by the statement;
- (b) A *pro rata* share of the actual expenditure (including salaries of staff) during the twelve months immediately preceding the date up to which the statement is made up of all Government hospitals in which immigrant labourers have been treated, based upon the proportion which the number of days passed by the said immigrant labourers in the said hospitals bears to the number of days passed by other patients in the same hospitals;
- (c) A *pro rata* share of the actual expenditure (including salaries of staff) during the same period of twelve months of all Government dispensaries at which immigrant labourers have been treated, based upon the proportion which the number of visits paid by the said immigrant labourers to the said dispensaries bears to the number of visits paid by other patients to the same dispensaries;
- (d) In the case of all expenditure properly chargeable to a capital account in respect of all Government hospital or dispensary buildings declared by the Governor, with the advice of the Medical Wants Committee, to have been primarily constructed or to be primarily maintained for the accommodation of immigrant labourers (including, in the case of buildings completed after the commencement of this Ordinance, the cost of construction), such an annual amount as would be sufficient to liquidate such expenditure, together with interest at four per centum per annum on any unliquidated part thereof, in such equal annual instalments as the Governor, with the like advice, may from time to time determine, until such expenditure is so liquidated, or alternatively, if the

Governor, with the like advice, shall, with reference to any period of twelve months in question, so determine, the amount of any such expenditure, or of any part thereof outstanding, in a lump sum ;

- (e) In the case of any special Government hospital or dispensary building completed after the commencement of this Ordinance, such contribution to the cost of construction, whether by way of annual instalments on the terms aforesaid or otherwise, as the Governor, with the advice of the Medical Wants Committee, may determine ;
- (f) The cost of all drugs supplied to superintendents under section 9 (1) (c) during the aforesaid period of twelve months and the amount refunded to the superintendents under section 9 (2) during the same period ;
- (g) The cost price of all drugs supplied to superintendents under section 9 (1) (d) during the aforesaid period of twelve months ;
- (h) Any expenditure incurred under any general scheme undertaken by the authority of Government for combating any disease prevalent among estate labourers which the Governor, on the recommendation of the Medical Wants Committee, may direct to be so debited ;
- (i) All miscellaneous expenses incidental to the administration of this Ordinance during the same period.

31 The said statement shall contain on the credit side of the account—

- (a) Any surplus brought forward on the working of the account for the period of twelve months anterior to that covered by the statement ;
- (b) The amount of all sums recovered as maintenance fees under section 10 during the twelve months preceding the date up to which the statement is made up ;
- (c) The amount of all fines recovered in respect of all offences against the Ordinance during the same period ;
- (d) The amount of all sums received as the cost price of drugs supplied to superintendents under section 9 (d) during the same period ;
- (e) The amount of the export duty deemed to have been collected during the same period under section 28 ;
- (f) An annual contribution out of moneys provided by the Legislative Council of an amount equal to fifteen per centum of the total expenses of the administration of this Ordinance during the same period, as shown by the debit side of the account.

Credit side of statement.

By His Excellency's command,
Colonial Secretary's Office, R. N. THAINE,
Colombo, November 20, 1925. Acting Colonial Secretary.

Statement of Objects and Reasons.

THE object of the draft Bill is to consolidate and amend in certain particulars the legislation affecting the medical wants of labourers on estates.

2. The main feature of the Bill, as of the legislation which it is intended to replace, is that it imposes upon those who introduce Indian immigrant labourers into the Colony to work upon estates obligations in regard to the medical requirements of such labourers. In effect, the proprietors of the estates are required collectively to repay to Government 85 per cent. of the expenditure which it incurs in supplying medical facilities for labourers on estates, the remaining 15 per cent. of the expenditure being considered as a Government contribution towards these medical requirements. The repayment is made mainly by means of a special export duty on rubber, cacao, and tea, but also in part by means of direct payments to Government for the services of medical officers, apothecaries, &c., the maintenance of patients in hospitals, and supplies of drugs.

3. Sections 29 and 30 of Ordinance No. 9 of 1912 provided for an annual account of receipts (including the Government contribution) and expenditure on account of medical wants in planting districts. The balance of the account is not represented by a separate fund, receipts and payments being merged in general revenue and expenditure, but the account ensures that the relative proportions of Government expenditure and the sums contributed by the estates in the form of export duties, &c., shall be kept under proper observation.

4. Practically no change has been made as regards the methods of preparation of this account, but the opportunity has been taken to redraft section 28 of Ordinance No. 9 of 1912 (section 28 of the present Bill) so as to place on a surer foundation the legal sanction for the recovery of the special export duties and their appropriation for the particular purposes of this Ordinance.

5. While the existing Ordinances and the proposed Bill deal mainly with the provision of medical facilities through the agency of the Ceylon Medical Department, it recognizes the desirability of permitting and indeed encouraging estates to establish their own hospitals and to make their own provision for medical facilities for their labourers. Accordingly, where this has been done to the satisfaction of the Director of Medical and Sanitary Services the Medical Wants Committee created by the Ordinance is empowered to give back the whole or part of the special export duties paid under the Ordinance.

6. This, of course, is no more than a recognition of the fact that if estates make their own provision for medical treatment at their own cost they cannot equitably be called upon to pay for it over again by means of a special export duty. A new and important principle, however, has been introduced by sub-section (3) of section 27 of the present Bill, which provides that the proprietor of an estate or group of estates which is in process of development may receive a grant based on the average annual expenditure incurred by him in maintaining a hospital and in the medical treatment of his labourers, notwithstanding the fact that, owing to the estate not having come into bearing, no export duty has been paid.

7. Both in sub-section (1) of section 27 of the Bill, which corresponds with sub-section (1) of section 27 of the present Ordinance, and in sub-section (3) of the Bill, which is entirely new, it has been provided that provision for the prevention of disease by the maintenance of proper sanitary conditions (healthy lines, good water supply, and proper latrines, &c.,) is a necessary qualification for recovering rebate. In actual practice this requirement is already insisted on, but the actual wording of section 27 of the present Ordinance makes payment of rebate dependent solely upon provision for the treatment of disease. In the Bill both requirements—prevention and treatment—are explicitly laid down.

8. In consequence of the new provision, an important amendment has been made to the definition of "estate" in section 2. At present, only estates which have ten acres

under actual cultivation come within the provisions of the Ordinances now under amendment. In the draft Bill "estate" includes estates on which labourers are employed in development operations.

9. Section 3 (2) is new, and is intended to secure the inclusion of all "estates" in Schedule A of the Ordinance.

10. Sub-section (2) of section 9 is new. It provides that if the Medical Department cannot supply the drugs referred to in section 9 (1) (c), the superintendent should be allowed to buy them and the cost price should be refunded to him by Government.

11. An important change has also been made in section 10, which provides that fees for visits by medical officers to estates shall be paid to them instead of being appropriated by Government. By the same section these fees and also the charges for maintenance of patients from estates in Government hospitals are increased.

12. The remaining alterations to the existing legislation are of a formal character and do not call for special comment.
