5. (a) The sale or transport of liquor or intoxicating drugs by the following persons is prohibited:—

- (i.) Those suffering from leprosy or any infectious or contagious disease.
- (ii.) Those under the age of sixteen.

6. The rules regarding the hours of opening and closing places licensed for the sale of liquor are as follows:—

Toddy Taverns.—Toddy taverns shall remain open between the hours of 8 A.M. and 6.30 P.M., and shall be kept closed at all other hours, provided that the Government Agent may, after consulting the Advisory Committee, restrict the hours during which any particular tavern shall remain open by fixing a later hour of opening, an earlier hour of closing, or by directing that the tavern shall be kept closed for certain hours between the opening and the closing hour. The Government Agent may, after consulting the Advisory Committee, fix the opening hour of toddy taverns as early as 7 A.M., where local circumstances are found to require it, and may, in towns and, for special reasons, outside towns, extend the hour of closing any tavern therein situated to such hour as he may fix, not being later than the closing hour of arrack taverns in the same area, and shall enter such hours of opening and closing in the licence. No sale shall take place between the time at which the tavern is required to be closed at night and the time fixed for opening.

Arrack Taverns.—Arrack taverns shall remain open between the hours of 8 A.M. and 6.30 P.M., and shall be kept closed at all other hours. The Government Agent may, after consulting the Advisory Committee, either extend the hour of closing of any such taverns in towns and, for special reasons, outside towns, to such hour as he may fix, not being later than the closing hour of such taverns in April, 1917, and in no case later than 9 P.M., or restrict the hours during which a tavern shall remain open by directing that the tavern shall be kept closed for certain hours between the opening and the closing hours. The hours during which a tavern may remain open shall be entered in the licence. No sale shall take place except during such hours.

Places licensed for the Sale of Foreign Liquor.—The hours for opening and closing will be noted on the licence by the Government Agent, provided, however, that in cases for which Excise Notification No. 76 published in the *Ceylon Government Gazette* No. 6,953 of June 28, 1918, has prescribed hours, such prescription of hours shall hold good. No sale of liquor shall take place between the hour at which the premises are required to be closed and the hour fixed for opening. Taverns (including places licensed for the sale of beer and porter only) and bars shall remain closed between the hours fixed for closing and the hour fixed for opening. The closing hour of foreign liquor taverns (including places licensed for the sale of beer and porter only) shall not be later than the closing hour of arrack taverns in the same area.

* In taverns which are clearly of a superior character private bars may be sparingly allowed by the Government Agent under a special licence to be granted by him, free of fee; provided that the interior of the bar is wholly visible from the doorway, and that the entrance to it is either through the main door of the shop, or through a separate door clearly labelled or provided with a proper signboard to show its nature.

The licensing authority may, however, in special cases authorize licensed premises, other than taverns and places licensed for the sale of beer and porter, to be kept open to such later hour as may be fixed by him, provided that no liquor shall be sold between the hours of closing and opening appearing in the liquor licence.

7. No drunkenness, disorder, or gaming shall be permitted in taverns and other licensed premises. Every person licensed to sell liquor and every keeper of any licensed premises shall refuse to admit to, and shall turn out of, the premises in respect of which the licence is granted any person who is drunk, violent, quarrelsome, or disorderly, and any person whose presence on the premises would subject him to a penalty under any Ordinance for the time being in force.

8. No robbers, thieves, habitual criminals, or disorderly or riotous persons or reputed prostitutes shall be harboured in any licensed premises. Intimation of their resort thereto shall be given to the nearest Magistrate or Police Officer by the licensee.

9. No person shall be harboured in any licensed premises between the hours of closing and opening such premises, and no constable shall be harboured in such premises during his time of duty.

10. Taverns situated on or adjacent to the line of march must be closed, if the Government Agent so orders, while a regiment or detachment of European or Ceylonese soldiers is passing, or is encamped in the vicinity; and if the Government Agent so orders, any licensed premises must be temporarily closed in times of religious excitement, or when a disturbance exists or is apprehended. Every Excise licensee shall of his own motion close his licensed premises when there is a riot or disturbance in the neighbourhood.

10. (a) The Government Agent may order, at his discretion, the closure of all or any licensed premises on days of polling.

11. The right is reserved to the Government Agent to grant "Occasional licences" for the sale of liquor on the occurrence of fairs, festivals, &c. Such licences shall ordinarily be granted to the tavern-keepers who usually supply the locality, or to the representative of the renter. Their period shall not exceed ten days, and the fees to be paid therefor shall be fixed at the discretion of the officer issuing the licences.

12. No liquor shall be sold or given—

(a) Except at licensed premises specially approved by the Naval Commander-in-Chief or Senior Naval Officer or the Officer Commanding the Troops in the Colony or the Officer Commanding the Station or Camp, and then only in respect to such liquors as shall be approved by the same authority in consultation with the Excise authorities and specified in the licence—

- (1) To sailors in the Royal Navy, soldiers, and the members of their families; or
- (2) To any other person living in barracks.

(b) Whilst on duty to any—

- (1) Member of the Police Force or Officer of the Excise Department; or
- (2) Railway servant; or

(c) To a woman for consumption within the premises of a tavern.

(d) In any circumstances to any—

- (1) Person under sixteen years of age; or
- (2) Insane person; or
- (3) Person known or believed to be intoxicated.

13. No privilege of manufacture, supply, or sale, or any interest therein shall be sold, transferred, or sub-rented without the Government Agent's previous permission; nor, if the Government Agent so orders, shall any agent be appointed for the management of any such privilege without his previous approval.

14. Taverns must be kept open, unless their temporary closure is authorized under condition 10 *supra*, and such supply of liquor as the Government Agent may consider sufficient to meet local requirements must be maintained therein. Taverns not opened by dates to be fixed by the Government Agent shall be liable to be resold at the risk of the licensees.

15. No liquor shall be sold in taverns except for cash. All licensees shall, subject to any special condition limiting the quantity that may be sold, be bound to supply liquor on demand and on tender of cash to any person entitled to demand it.

16. No liquor or intoxicating drug shall be sold either below the minimum or above the maximum prices fixed for sale of the same in accordance with the law for the time being in force.

17. No liquor or intoxicating drug in excess of the quantity prescribed for possession without a licence shall be permitted to be removed by any person at any one time from any licensed premises without a valid permit; nor shall liquor or intoxicating drugs be sold at godowns or warehouse in quantities less than the minima prescribed.

18. True accounts of transactions shall be maintained from day to day in ink in forms approved by the Excise Commissioner, and shall be kept in the licensed premises. Such accounts shall be correctly and promptly totalled at the end of each month. The accounts and passes shall be in printed books, which may be obtained from any Kachcheri on payment of cost price, or on production of receipts for the payment of the cost price into a Government Treasury. Passes for liquor or intoxicating drugs received and the counterfoils of passes issued must be carefully filed in the licensed premises.

The signing of blank passes for subsequent issue is prohibited. The counterfoils of passes and, in the case of foreign liquor licences, the invoices for all receipts of liquor shall be preserved by the licensee for one year after the period covered by the licence, and shall be produced when called for by an officer not below the rank of Inspector of the Excise Department.

The licensee shall, within three days of the expiry of the licence by surrender, cancellation, lapse of time, or any other cause, deliver to the Assistant Superintendent of the Circle in which the licensed premises were situated, all books of accounts kept under the provisions of this condition as well as the inspection note book mentioned in General Condition No. 22.

19. Such returns and information as may be required by the Excise Commissioner or by the Government Agent from time to time shall be furnished by holders of licences.

20. When any weights, measures, or instruments have been prescribed for use in any licensed premises, only such weights, measures, and instruments as have been prescribed shall be possessed or used on such premises, and they shall be tested and stamped by the stamping establishment of the district, if the Government Agent shall so direct. The possession or use of weights or measures that are incorrect on any licensed premises will render the licensee liable to punishment.

21. The officers authorized to inspect licensed premises are—

- (1) Any officer of the Revenue Department of rank not lower than a Ratamahatmaya, Mudaliyar, Muhandiram, or officer of like rank;
- (2) Any officer of the Excise Department of rank not lower than Inspector; and
- (3) Any person appointed under section 7 (c) to perform the acts and duties mentioned in sections 32, 34, and 45 (a). (*Vide* Excise Notification No. 68.)

These officers are empowered to enter and examine the premises, to test weights and measures in use, and the liquor and intoxicating drugs in the possession of the licensees, to remove samples of the same, free of charge, after duly sealing them in presence of the licensees, for purposes of chemical analysis where there is reason to test quality or strength, and to

call for and check the accounts kept in the licensed premises, and to do any other acts which may be necessary to carry out the duty of ensuring the observance by the licensee of the provisions of the Excise Ordinance and of the conditions attaching to the licence. In regard to taverns (including premises licensed for the sale of beer and porter only) such officers are further empowered to examine any private documents or books within the premises, and, if any offence is disclosed thereby to seize and remove such documents or books. All licensees shall give to all such officers all such facilities and assistance as they may require for the exercise of their powers. Nothing in this condition shall be interpreted as depriving Police Officers of any powers vested in them by law, and no claim shall lie for compensation for the value of such samples.

22. An inspection notebook with the pages numbered consecutively shall be kept by the licensee in the licensed premises for the entry in it by Inspecting Officers of their remarks, and be handed over to the Superintendent or Assistant Superintendent of Excise, or any officer authorized by him to receive it, on a receipt being given therefor.

23. Licensees are bound to report to the Government Agent all instances which come to their knowledge of persons employed by them in the manufacture, transport, or sale of liquor and intoxicating drugs committing breaches of the Excise laws, and to comply with the Government Agent's orders respecting the continued employment of such persons. No persons who have been convicted under the Ceylon Penal Code or under "The Excise Ordinance, No. 8 of 1912," shall be employed in the transport or sale of liquor and intoxicating drugs without the Government Agent's previous permission.

24. Pecuniary dealings of any kind whatever by licensees with officials of the Excise Department are absolutely prohibited.

25. All licensed premises, and all vessels, measures, and other articles used for the storage or sale of liquor therein, shall be kept scrupulously clean.

26. All licensees shall be bound by any additional general rules that may be prescribed under the Excise law, and if so required by the Government Agent or any officer authorized by him, to deliver up their licences for amendment or for the issue of fresh ones.

27. The possession (save under and in accordance with the law applicable to unlicensed persons) or sale by any licensee of any excisable article elsewhere than at the premises to which his licence refers is prohibited.

28. In no case shall an arrack or toddy renter or a licensee of a foreign liquor tavern, either personally or by an agent, transport from his tavern any quantity of liquor that may have been sold without a special permit from the Government Agent or Assistant Government Agent.

29. All vessels at arrack renters' storehouse, arrack taverns, toddy taverns, and beer and porter shops used for storing or for transport of liquor shall have their correct capacities marked in terms of gallons, and be provided with accurate dip-rods to ascertain the correct quantities they hold.

Dip-rods for casks and other receptacles, shall be kept in the licensed premises and renters shall provide duplicate keys of each cask, which shall remain in the custody of the Assistant Superintendent of Excise.

THE following Specifications have been accepted :—

No. 2,242 of March 12, 1927.

Eric Charles Cameron.

Improvements in and relating to machinery for the manufacture or treatment of tea and the like.

Abstract.—In tea rolling machines a pencil is attached by levers to the part of a roller having vertical movement and makes a trace on a rotating sheet of paper driven by the roller. A worm wheel attached to the roller rotates and drives a spur wheel which actuates a lever and causes a pin to prick the paper and mark out equal intervals of time.

A second pin is attached by levers to a pendulum, so that when the roller rotates the pendulum does the same and the centrifugal force lowers the pin : when the roller stops, the pendulum falls and the pin prick the paper.

The claims are :—

1. In machinery for the manufacture and treatment of tea, apparatus characterized by a pendulum mounted at the end of a horizontal arm fixed to a vertical hollow spindle which is caused to revolve when the said apparatus is attached to the principal moving part of a Tea Roller, and thereby operates, through suitable gear comprising for example, a worm and worm wheel and rocking arms and the like, two needles that prick dots in a card or the like, for the purpose of recording the performance of the said Tea Roller in respect of the period that it is kept working and the time when it is stopped substantially as described and illustrated.

2. In machinery for the manufacture and treatment of tea, apparatus as claimed in Claim 1 further provided with a lever and rocking arms or the like which are operated by connection with that part of a Tea Roller which moves when the pressure on the tea being rolled is changed and which cause a pencil to move with rectilinear motion on the aforesaid card or the like and to draw lines thereon for the purpose of recording changes of pressure on the tea in a Tea Roller and of indicating the degree of such changes of pressure, substantially as described and illustrated.

3. Apparatus as claimed in the preceding claims, characterized and constructed and mounted substantially as described and illustrated, for the purpose of indicating and recording by a diagram of pricked dots and pencil lines the period during which a Tea Roller is kept at work and the times when it is stopped, the periods during which the pressure on the tea being rolled is maintained, and the times it is changed, as well as the degree of such changes of pressure.

Marconi's Wireless Telegraph Co., Ltd.

Improvements in or relating to aeriels and aerial systems for use in wireless telegraphy and telephony.

Abstract.—In Patent 2,148 the radiation from alternate half wave lengths was suppressed or annulled : in the present application it is cut down to about 30 per cent. of the current in the radiating elements instead of completely suppressing it.

The claims are :—

1. An improvement in or modification of the invention contained in the specification of Patent No. 2,148 of 1925, and consisting of an aerial for wireless transmission or reception, electrically long in comparison with the wave length employed, characterized in this that radiation from alternate half wave lengths is suppressed or reduced so as to be substantially less than the radiation from the other half wave lengths each for each.

2. An aerial as claimed in Claim 1, characterized in that the radiation from alternative half wave lengths is suppressed so as to be not more than 35 per cent. of the radiation from the other half wave lengths each to each.

3. An aerial system comprising a plurality of aeriels as claimed in either of Claims 1 or 2, coupled and/or connected together so that currents in any of the said aeriels induce currents of the same phase and frequency in others of the said aeriels.

Dearborn Chemical Company.

Improved apparatus for treating or conditioning water intended for steam boilers or the like.

Abstract.—The ordinary laboratory water pump is adapted for the purpose described.

The claims are :—

1. A device for feeding chemical solution or the like to the water supply in a pipe, water column or the like for the purpose of treating or conditioning the said water to prevent or reduce the formation of scale, corrosion, foaming or priming in steam boilers, water heaters or the like, said device being operable by the flow of water and consisting of a bye pass or portion wherein a portion of the said flow passes from a channel of larger area into one of smaller area or through a restriction, and thereafter discharge through an orifice into a part or chamber of larger sectional area, causing thereby in flowing a reduction of pressure or partial vacuum adjacent to, or behind and outside the mouthpiece of, said orifice, a pipe or connection from the chemical tank or reservoir leading to said area of reduced pressure or partial vacuum, which reduction of pressure, or partial vacuum, or suction caused thereby, is utilized to cause the desired chemical to be sucked up and to mingle with the water discharging from the said orifice to be carried forward thereby to mingle later with the main stream.

2. A device for supplying chemical solutions or the like to steam boilers, water heaters or the like for the purposes explained, which consists in providing a jet pump operable by the flow of water in the main supply, said jet pump having a connection led to it from the chemical solution tank, which connection leads said solution to the part of the passage in the vicinity of the jet where there is a reduced pressure or partial vacuum the arrangement being such that the solution will be sucked in and accelerated by the jet and delivered with the water from the jet to the boiler or boiler feed or the like.

3. Apparatus for the purposes explained according to Claim 1 or 2 comprising a relatively small pipe fitted in the main flow of the pipe or water column and preferably provided with a bell-mouth, a restriction in said small pipe forming a jet in said pipe, a connection from the chemical solution tank or supply leading to the part beyond or adjacent to the jet, and a tail pipe for leading the combined flow of water and solution back to meet, or discharge into, the main flow of the water supply.

4. Apparatus according to Claim 3, in which the tail pipe is formed with kinks or sinuous waves therein.

5. Apparatus according to Claim 3, in which the relatively small pipe leads out of, or branches from, the main supply pipe of the water column or the like, and the jet therein and connection to the chemical solution tank is at a point outside the said main supply pipe, and wherein the tail pipe either discharges into the discharge from the water column or is led back to join such main pipe at a point towards the discharge side thereof.

6. Apparatus according to any of the preceding claims, in which the normal water level in the water column is at a higher level than the liquid level in the chemical supply tank, and a non-return valve is fitted in the connection from the said tank to the device for the purpose of preventing the water supply from flowing back into the chemical tank.

7. Apparatus according to Claim 1, in which, in the main supply pipe for the water or in the water column itself, a restriction exists or is fitted, which restriction is so formed as to function like a jet pump to draw chemical solution from a chemical solution tank or supply to enter directly into the main flow of the water supply when the water is rapidly discharging therefrom.

8. Apparatus for the purposes explained, constructed, arranged or adapted to function substantially as described or substantially as described and illustrated.
