In the case of local firms tendering as agents of firms outside Ceylon, the "duly constituted" agents should hold a power of attorney from their principals to enable them to enter into a contract should their tender be accepted.

10. All alterations or erasures in tenders should bear the initials of the tenderers, otherwise the tenders may be treated as informal and rejected.

11. No tender will be considered unless in respect of it all the conditions herein laid down have been strictly fulfilled.

12. The Government reserves to itself the right, without question, of rejecting any or all tenders, and the right of accepting any portion of a tender.

13. Before tender forms are supplied to persons wishing to tender, they will have to satisfy the Director of Electrical Undertakings, or persons delegated by him, that they are in a position to execute the contract in a satisfactory manner, and for this purpose they must be prepared to produce documentary or other evidence if called for.

14. The estimated minimum and maximum quantities of liquid fuel which may be required during the above-mentioned period are 2,500 tons and 5,000 tons respectively. The contractor must, however, undertake to supply any quantity which may be required up to the maximum quantity specified.

15. Tenderers should state in the tender form the price per ton for delivery in the tanks at the Government Electric Generating Station at Kolonnawa.

18. Payments due for the liquid fuel supplied will be made within 14 days of presentation of account.

20. Subject to the provisions of clause 21 below, if the contractor fails to supply liquid fuel on the conditions laid down in the contract, or shall commit a breach of any of the covenants on the contractor's part to be observed and performed, then and in any of the said cases the Director of Electrical Undertakings shall be at liberty, by notice in writing, to forthwith determine the contract forthwith, and thereupon the contractor shall be liable to pay to the Director of Electrical Undertakings all cost and expenses incurred by reason of such failure to supply liquid fuel or by such breach of covenant, and shall in addition be liable to forfeit the sum of Rs. 1,000, which must be deposited by the contractor as security for the due performance of the terms of the contract, and which said sum of Rs. 1,000 shall be paid and forfeited as liquidated damages and not by way of a penalty, and shall not be deemed to include the costs and expenses hereinafter referred to.

23. No contracts shall be entered into with any person whose name is on the list of Crown defaulting contractors, either individually or jointly with any other person, nor shall the contractor issue a power of attorney to a person, whose name is in the defaulting contractors' list, authorizing him to carry on the contract, nor shall he employ any person whose name is on the said list of Crown defaulting contractors, or any other person to whom the Director of Electrical Undertakings, for reasons which appear to him sufficient, objects after giving due notice of his objection in writing.

24. All tenders will be accepted only on the condition that the tenderer shall give the Government the benefit

of any decrease in the Customs duties made after the signing of the tender and up to the expiry of the contract entered into hereafter, and the Government likewise undertakes to pay over and above the tendered rate such sum as shall adequately compensate the tenderer for any increase in the Customs duties during the period aforesaid.

25. Should the contractor at any time during the execution of this contract find that he will be unable to deliver the liquid fuel or any portion of it within the period named, he shall at once give notice accordingly to the Director of Electrical Undertakings, who shall have an absolute discretion either to grant an extension of time or to determine the contract and recover damages as provided herein before in condition 20.

26. If any of the liquid fuel supplied is objected to by the Director of Electrical Undertakings as not being of the quality contracted for, or as being inferior in quality, and if such objection be confirmed by the Government Analyst at the expense of the contractor, the Director of Electrical Undertakings shall be at liberty to deduct from the price of such liquid fuel such sums as he may consider justifiable by reason of the inferior quality of the liquid fuel, or he may reject such liquid fuel. Whenever any liquid fuel is so rejected, the contractor shall, at his own cost and expense, forthwith remove such rejected liquid fuel, and pending such removal the liquid fuel shall remain and be at the risk of the contractor, and the contractor shall, in addition to any other penalty, be liable to refund to the Director of Electrical Undertakings the cost incurred in the handling of such rejected liquid fuel, and the amount of the cost so incurred, when certified under the hand of the Director of Electrical Undertakings, shall be deemed final and conclusive for the purpose of such refund.

27. If the contractor at any time fail to supply the liquid fuel at the time and in the quantities specified in clause 14 of this notice, or should any liquid fuel be rejected, the Director of Electrical Undertakings shall be at liberty to purchase elsewhere, at whatever price he may deem fit, such quantity of liquid fuel as the contractor may have failed to supply or as may have been rejected, and should the liquid fuel so purchased cost more than the contract price, the contractor shall be liable to pay to the Director of Electrical Undertakings the full amount of the excess cost, together with all expenses attending the purchase and procuring of the same.

28. If any difference or dispute shall arise between the parties of this contract as to the true intent and meaning of any of the conditions herein contained, either party may forthwith give the other notice in writing of the existence of such difference or dispute, and such difference or dispute shall be referred to arbitration of a person mutually agreed upon. The award of the arbitrator shall be final, conclusive, and binding on both parties. The losing party shall bear the cost of the arbitration.

THE regulations contained in the Table C in the schedule annexed to "The Joint Stock Companies Ordinance, 1861," shall apply to this Company with the following additions and alterations :—

The Company may, by special resolution, alter and make provisions instead of, or in addition to, any of the regulations of the Company, whether contained and comprised in these Articles or not.

BUSINESS.

1. The Company may proceed to carry out the objects for which it is established, and to employ and apply its capital as soon after the registration of the Company as the Directors in their discretion shall think fit ; and if the whole of the shares shall not have been subscribed, applied for, or allotted, as soon as in the judgment of the Directors, a sufficient number of shares shall have been subscribed or applied for.

CAPITAL.

2. The nominal capital of the Company is One hundred thousand Rupees, divided into Ten thousand shares of Ten Rupees each.

3. The Directors may with the sanction of a special resolution of the Company reduce the capital or subdivide or consolidate the shares of the Company.

SHARES.

4. The shares, except when otherwise provided, shall be allotted at the discretion of and by the Directors, who may from time to time issue any unissued shares, and may add to such shares such an amount of premium as they consider proper. Provided that such unissued shares, except when otherwise provided, shall first be offered by the Directors to the Shareholders as nearly as possible in proportion to the existing shares held by them, and such offer shall be made by writing specifying the number of shares to which the Shareholder is entitled, and limiting a time within which the offer, if not accepted, will be deemed to be declined, and after the expiration of such time, or on the receipt of an intimation from the Shareholder to whom such notice is given that he declines to accept the shares offered, the same shall be disposed of in such manner as the Directors may determine. Provided that the Directors may at their discretion allot such new shares or any portion of them to the vendor or vendors of any lands, property, rights, or privileges being acquired by the Company in payment of the whole or any part of the purchase price of any such lands, property, rights, or privileges, or as remuneration for work done for or services rendered to the Company, and that without offering the shares so allotted to the Shareholders.

5. Article 8 in Table C shall be read as :—Every Shareholder shall be entitled to a certificate or certificates under the common seal of the Company specifying the share or shares held by him and the amount paid thereon.

6. The certificate of shares registered in the names of two or more persons not a firm shall be delivered to the person first named on the register.

TRANSFER OF SHARES.

7. Subject to the restrictions contained in these Articles any Shareholder may transfer all or any of his shares by instrument in writing, and the first offer shall be made to the Company.

8. The Directors may, at their own absolute and uncontrolled discretion, decline to register any transfer of shares by a Shareholder who is indebted to the Company or upon whose shares the Company have a lien, or otherwise, or in case of shares not fully paid up, or to any person not approved of by them, and in no case shall a Shareholder or proposed transferee be entitled to require the Directors to state the reason of their refusal to register, but their declinature shall be absolute.

9. The Directors may, by such means as they shall deem expedient, authorize the registration of transferees as Shareholders without the necessity of any meeting of the Directors for that purpose.

10. Article 15 in Table C shall be read as :—Every instrument of transfer must be left at the office of the Company to be registered, accompanied by such evidence as the Directors may reasonably require to prove the title of the transferor, and a fee of cents fifty, or such other sum as the Directors shall from time to time determine, must be paid ; and thereupon the Directors, subject to the powers vested in them, shall register the transferee as a Shareholder and retain the instrument of transfer.

11. In no case shall the Directors be bound to inquire into the validity, legal effect, or genuineness of any instrument of transfer produced by a person claiming a transfer of any share in accordance with these Articles ; and whether they abstain from so inquiring, or do so inquire and are misled, the transferor shall have no claim whatsoever upon the Company in respect of the share, except for the dividends previously declared in respect thereof, but only, if at all, upon the transferee.

SURRENDER AND FORFEITURE OF SHARES.

12. The Directors may accept, in the name and for the benefit of the Company, and upon such terms and conditions as may be agreed a surrender of the shares of Shareholders who may be desirous of retiring from the Company provided such acceptance is properly legalized.

13. The Company shall have a first charge or paramount lien upon all the shares of any holder or joint-holders for all moneys for the time being due to the Company by such holder or by all or any of such joint-holders respectively, either in respect of such shares or of other shares held by such holder or joint-holder, or in respect of any other debt, liability, or engagement whatsoever, and whether due from any such holder individually or jointly with others, including all calls which the Directors shall have resolved to make, although the times appointed for the payment thereof shall not have arrived; and where any share is held by more persons than one, the Company shall be entitled to the said charge or lien in respect of any money due to the Company from any of such persons.

14. Such charge or lien may be made available by a sale of all or any of the shares subject to it, provided that no such sale shall be made except under a resolution of the Directors, and until notice in writing shall have been given to the indebted Shareholder or his executors or administrators, or the assignee or trustee in his bankruptcy, requiring him or them to pay the amount for the time being due to the Company, and default shall have been made for twenty-eight days from such notice in paying the sum thereby required to be paid. Should the Shareholder over whose share the lien exists be in England or elsewhere abroad, sixty days' notice shall be allowed him.

15. The nett proceeds of any such sale shall be applied in or towards satisfaction of such debts, liabilities, or engagements, and the residue (if any) paid to such Shareholder or his representatives.

17. Upon any such sale two of the Directors may execute a transfer of such share to the purchaser thereof, and such transfer, with the certificate last aforesaid, shall confer on the purchaser a complete title to such share.

BORROWING POWERS.

18. With the sanction of a General Meeting, the Directors shall be entitled to borrow such sum or sums of money and at such rate of interest as such meeting shall determine. A certificate under the hands of one Director and the Secretary or of two Directors, to the effect that in taking any loan the Directors are not exceeding their borrowing powers, shall be sufficient and binding on the Company and all concerned, and shall be conclusive evidence thereof in all questions between the Company and its creditors.

19. For the purpose of securing the repayment of any such money so borrowed or raised or for any other purposes, the Directors may grant, create, execute, and issue any mortgages, cash credits, debentures, debenture stock, bonds, or obligations of the Company, charged upon all or any part of the undertaking, revenue, lands, property, rights, and assets of the Company both present and future, including uncalled capital or unpaid calls or may make, accept, or endorse on behalf of the Company any promissory notes or bills of exchange.

20. Any such securities may be issued, either at par or at a premium or discount, and may from time to time be cancelled, discharged, varied, or exchanged as the Directors may think fit, and may contain special privileges as to redemption, surrender, drawings, allotment of shares, or otherwise.

21. Every debenture or other instrument issued by the Company for securing the payment of money may be so framed that the moneys thereby secured be assignable free from any equities between the Company and the person to whom the same may be issued.

26. At any meeting every resolution shall be decided by a show of hands, and in case there shall be an equality of votes, the Chairman at such meeting shall be entitled to give a casting vote in addition to the votes to which he may be entitled as a Shareholder and proxy and attorney.

Improvements in the treatment of quantities of water used for the generation and the condensation of steam for power purposes and other applications.

Abstract.—Degasification occurs in a barometric column and is accelerated in various ways such as slight electrolysis, &c. The remaining gas is then prevented from being evolved as far as possible by the use of thin films and the avoidance of spray or agitation.

The gases removed are compressed and returned to the atmosphere.

The claims are:—

1. A method of generating and condensing steam for power production and other purposes by means of hot and cold water at slightly different temperatures, consisting in passing the hot and the cold water before admission to their respective boiling and condensing devices, through a degasifying phase or stage, preferably in barometric columns or in intermediate chambers arranged at suitable levels therein, and assisting the degasifying by any suitable means.

2. A method of generating and condensing steam as claimed in claim 1, in which the gases thus freed from the water are extracted at a suitable pressure, such that the maximum quantity is extracted with the minimum expenditure of work, the minimum proportion of steam being carried away.

3. A method of generating and condensing steam as claimed in claims 1 or 2, in which the atomization of the cold water, and if necessary the hot water, is reduced to a minimum, for example by causing the said water to trickle over surfaces to renew its superficial skin or film, which trickling may be effected, for example by means of jets impinging on the surfaces of rods or on other surfaces, or by passing the water up tubes and allowing it to overflow and trickle down the outside walls of the said tubes.

4. A method of generating and condensing steam as claimed in claims 1 to 3, in which the degasifying of both the hot and cold water is carried out in two or more stages which may be combined if necessary.

5. A method of generating and condensing steam as claimed in claims 1 to 4, in which the gases are extracted from the condensation chambers, or from the barometric columns, or the intermediate chambers arranged therein, and compressed by a mechanical removal effected by means of water, at a temperature equal to or less than of the said gases continuously or intermittently flowing in barometric evacuation columns.

A safety device to prevent the driver of a railway steam engine from starting such engine without a tablet in the box.

Abstract.—When the arm which holds the tablet is moved to release this, a locking box is moved so as to prevent the regulator arm from moving, and at the same time a lighted signal "No tablet" becomes visible. An attempt to move the regulator arm lets air into the vacuum brakes.

Tablets of different shapes are used for successive sections.

A device operated from the rails is described, to act when the train moves from single to double line, and *vice versa*, to enable the train to move without a tablet over the double line.

The claims are :—

1. A safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet.
2. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet, a device whereby the vacuum brakes are automatically applied through the action of trying to open the throttle when no tablet is placed in position.
3. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet, a device which only allows the complete movement of the regulator handle or opening of the throttle when a tablet is placed in position.
4. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet, a device indicating "NO TABLET" clearly to the driver when a tablet has not been placed in position.
5. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has "NO TABLET," a device to admit the correct tablet being placed in any predetermined consecutive order.
6. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet, a device to allow such engine to be run on a double line or such line using no tablet.
7. In a safety device to prevent the driver of a railway steam engine from starting such engine when he has no tablet, a device to warn the driver whenever the train goes over from a double or "No Tablet" line on to a single line using tablets.
