10. All alterations or erasures in tenders should bear the initials of the tenderers, otherwise the tenders may be treated as informal and rejected.

11. No tender will be considered unless in respect of it all the conditions herein laid down have been strictly fulfilled. Any offers received containing conditions outside the specifications will be rejected without question.

When 20 per cent. by volume of the distillate has been collected, the temperature indicated by the thermometer shall not exceed 105° C.

The whole of the liquid shall have distilled when the temperature indicated by the thermometer is 225° C.

*Acidity.*

The motor spirit shall be free from mineral acid.

16. Tenderers should state in the tender forms separate prices per gallon for delivery to the General Manager of the Railway under the following conditions, viz. :—

- (a) Delivery over ship's side in Colombo Harbour.
- (b) Delivery *ex* the contractor's store in Government packages.
- (c) Delivery in bulk at the Railway Stores.
- (d) Delivery in the contractor's packages at the Railway Stores.

The rates tendered for all the items must be exclusive of import duty. The successful tenderer (hereinafter called "the contractor") must inform the Railway Storekeeper of the expected arrival of shipments of petrol in sufficient time to enable him to pass Customs Clearance Certificates for whatever quantity is required by him to maintain reasonable stocks.

17. The contractor shall undertake to provide sufficient shipments of petrol during the continuance of the contract, whereby sufficient petrol may be delivered to the General Manager of the Railway to enable the Railway petrol store to be kept properly stocked. Should the contractor fail to carry out this undertaking he shall make good the deficiency by supplying without extra cost to the Government sufficient petrol from his store.

18. The petrol shall be delivered in accordance with the conditions laid down in clause 16 (a), (b), (c), and (d). In the case of (a) and (d) the petrol shall be delivered either in substantially constructed steel drums or in hermetically sealed tins securely packed in strongly constructed wooden cases. In either case the receptacles must be so constructed and secured as to prevent any possibility of leakage or damage during transport by train, and the contractor must satisfy the General Manager of the Railway that they are so constructed and secured. The tenderers shall specify on the tender form whether they require the empty receptacles to be returned.

19. The General Manager of the Railway shall be at liberty to issue petrol to other Government Departments from stocks supplied by the contractor under the conditions of the contract.

20. The price per gallon paid by the General Manager of the Railway shall include cost, insurance, freight, and all other expenses up to delivery either over ship's side *ex* contractor's store, or at the Railway Stores, as the case may be, as defined in clauses 16 and 17 above, and it shall also include the use of the receptacles in which the petrol is delivered. Should the contractor specify that the empty receptacles are to be returned to him, the General Manager of the Railway will undertake that they shall not be used for any other purpose and that they will be returned as promptly as possible to the contractor.

21. Payments for the petrol will be made within 14 days of delivery.

22. If any of the petrol supplied is objected to by the Railway Storekeeper as not being of the quality contracted for, or as being inferior in quality to the standard specification of petrol aforementioned (see clause 15), and if such objection be confirmed by the Government Analyst at the expense of the contractor, the General Manager of the Railway shall be at liberty to deduct from the price of such petrol such sums as he may consider justifiable by reason of the inferior quality of the petrol, or he may reject such petrol. Whenever any petrol is so rejected the contractor shall, at his own cost and expense, forthwith remove such rejected petrol, and pending such removal the petrol shall remain and be at the risk of the contractor, and

the contractor shall, in addition to any other penalty, be liable to refund to the General Manager of the Railway the cost incurred in the handling of such rejected petrol, and the amount of the cost so incurred, when certified under the hand of the General Manager of the Railway, shall be deemed final and conclusive for the purpose of such refund.

23. Subject to the provisions of clause 2 below, if the contractor shall at any time fail to supply the petrol ordered or should any petrol supplied be rejected as provided for in clause 22, and be not promptly replaced by the contractor with petrol of an acceptable quality, the General Manager of the Railway shall be at liberty to purchase elsewhere, at whatever price he may deem fit, such quantity of petrol as the contractor may have failed to supply; and should the petrol so purchased by the General Manager of the Railway cost more than the price agreed upon in the contract, the contractor shall be liable to pay the General Manager of the Railway the full amount of such excess cost, together with all expenses attending the purchase and procuring of the same.

24. Any payments for which the contractor may be liable under the conditions of clauses 22 and 23, shall be deducted by the General Manager of the Railway from any moneys which may be due to the contractor under the contract, provided that nothing in the contract shall affect the General Manager of the Railway's right to recover such payments by action at law.

25. Subject to the provisions of clause 26 below, if the contractor fails to supply petrol on the conditions laid down in this notice or in the contract agreement, or shall supply petrol inferior in quality to the standard specification of petrol aforementioned (see clause 15), or shall commit a breach of any of the covenants on the contractor's part to be observed and performed, then and in any of the said cases the General Manager of the Railway shall be at liberty, by notice in writing, to forthwith determine the contract, and thereon the contractor shall be liable to pay to the General Manager of the Railway all cost and expenses incurred by reason of such failure to supply petrol or by the supplying of petrol of inferior quality or by such breach of covenant, and shall in addition be liable to forfeit the sum of Rs. 500, which must be deposited by the contractor as security, for the due performance of the terms of the contract, and which said sum of Rs. 500 shall be paid and forfeited as liquidated damages and not by way of a penalty and shall not be deemed to include the costs and expense herein before referred to.

26. Should tenderers desire to claim exemption from any penalties laid down in this notice on the grounds of exceptional and unforeseen difficulties, such as the act of God, &c., they must specify fully on the tender form the conditions under which they propose to claim exemption.

27. The decision of the General Manager of the Railway as to whether the contractor has been guilty of any breach of the covenants and conditions on the part of the contractor to be done, observed, and performed, and upon all questions arising out of or incidental to the contract shall be deemed final and conclusive, and the contractor shall be bound thereby.

28. The contractor shall not assign or transfer the contract or any interest therein without the permission in writing of the General Manager of the Railway.

29. No contract shall be entered into with any person whose name is on the list of Crown defaulting contractors, either individually or jointly with any other person, nor shall the contractor employ any person whose name is on the list of Crown defaulting contractors, or any other person to whom the General Manager, for reasons which appear to him sufficient, objects after giving due notice of his objection in writing.

30. If any difference or dispute shall arise between the parties of this contract as to the true intent and meaning of any of the conditions herein contained, either party may forthwith give the other notice in writing of the existence of such difference or dispute, and such difference or dispute shall be referred to arbitration of a person mutually agreed upon. The award of the arbitrator shall be final conclusive, and binding on both parties. The losing party shall bear the cost of the arbitration.

31. Should the contractor at any time during the execution of the petrol contract find that he will be unable

to deliver the petrol or any portion of it within the period named, he shall at once give notice accordingly to the General Manager of the Railway, who shall have an absolute discretion either to grant an extension of time or to determine the contract and recover damages as provided hereinbefore in condition 25.

the General Manager the full amount of the excess cost, together with all expenses attending the purchase and procuring of the same.

19. Should the contractors fail to supply teak in the quantities and at the time agreed upon or should they supply teak inferior in quality, or should they commit a breach of any of the covenants of the contract, the General Manager shall be at liberty, by notice in writing, to forthwith determine the contract, and thereupon the contractors will be liable to pay to the General Manager all costs and expenses incurred by failure to supply teak or by the supplying of teak of inferior size and quality, or by the breach of any other covenants of the contract, and shall in addition be liable to forfeit the sum of Rs. 4,000 deposited by them as security, and which said sum of Rs. 4,000 shall be paid and forfeited as liquidated damages and not by way of a penalty and shall not be deemed to include the costs and expenses hereinbefore referred to.

General Manager's Office,  
Colombo, May 7, 1929.

T. E. DUTTON,  
General Manager.

TENDERS are hereby invited for the supply to the Ceylon Government Railway of 190,000 tons of best locomotive coal, 10 per cent. more or less at the option of the General Manager, to be delivered between October 1, 1929, and September 30, 1930. All coal shipped shall be of large size, and free from stone, shale, and other foreign matter. Indian coal shall be inspected by the Officers of the Mining Engineer's Department of the Railway Board of India, who shall reject any coal which in their opinion, is inferior to that contracted for. *The fees for inspection must be paid by the contractors.*

2. Tenders will only be considered with respect to coals which have been recently in current use on the Railway, or have been recently tested, or of which samples have been submitted for testing purposes in connection with this contract, as specified in clause 3 below. In the case of coals used or tested in connection with recent previous contracts, tenderers will be required to guarantee a contract supply of similar quality to coals previously used or tested.

3. In the case of coals not previously used or tested samples must be immediately submitted for testing purposes.

The samples must be delivered at the Mutwal Coal Grounds, in lots of 30 tons packed in bags, and with the name of the coals labelled on each bag. Sample coals will be paid for at the current contract rate per ton. No coal will be tested unless it is of good Railway repute and is in use on Railway trunk lines, and tenderers must produce satisfactory evidence to this effect.

4. The tenders should give full particulars of the source of supply including the name of the colliery and seam from which the coal will be supplied and the price per ton, cost, and freight, Colombo. *In the case of Indian coal the classification of the coal under the Government of India's Coal Grading Board notifications must be stated.* The price tendered must be nett, but it is to be distinctly understood that should any further rebates come into operation between the date of receipt of tenders and the date of completion of deliveries such rebates shall be credited to buyer's account.

5. The coal is to be shipped in approximately equal quantities each month. Dates of arrival must be so arranged that only one ship will be discharging coal for the Railway at one time. The first cargo to arrive in Colombo as near as possible to October 1, 1929, and delivery of the whole quantity to be completed by September 30, 1930.

6. The quantity of each shipment of Indian coal will be determined by Marine Surveyors appointed by the General Manager. Payment will be made to the contractor for each separate shipment on completion of discharge in Colombo according to the quantity specified in the bill of lading, but deducting therefrom an amount equal to 2 per cent. for wastage. A survey report or other proof of correct shipment must be furnished by suppliers in the case of coal from other sources. For the purpose of comparing deliveries with the quantity provided for under this contract the bill of lading figures shall be used.

7. The suppliers shall inform the General Manager by telegraph immediately the steamers commence to load stating the probable date of sailing, and shall again telegraph immediately the vessel has sailed. Plans showing the various holds and the quantity of coal in each, bills of lading and invoices must be transmitted by the contractor to the Railway Storekeeper immediately the vessels are ready for sea. The bills of lading are to be prepared in accordance with the terms of the contract.

8. The coal must be delivered over ship's side free of all freight and charges, into craft, steamer, floating depôt, or pier in Colombo Harbour as the General Manager may direct. The General Manager reserves the right to appoint the discharging stevedores.

9. Should the General Manager of the Railway require it, the coal shall be discharged from the steamers at the rate of not less than 1,000 tons per working day, but the General Manager shall not be bound to accept delivery at the rate of more than 500 tons per day, nor shall he be required to take delivery of any coal on Sundays or the days called charter party holidays defined in the calendar published by the Ceylon Chamber of Commerce.

10. Tenders are to be made on forms which will be supplied upon application at the Office of the Railway Storekeeper, and no tender will be considered unless it is on the recognized form. Alterations must be initialled, otherwise the tenders may be treated as informal and rejected.

11. A deposit of Rs. 100 in favour of the Hon. the Treasurer of Ceylon will be required to be made at the General Treasury or the Kachcheri, Colombo, and a receipt produced for the same before any tender form is issued.

12. Tenders must be in duplicate, and be accompanied by a letter signed by two responsible persons, whose addresses must be given, engaging to become security for the due fulfilment of the contract. The documents should be sealed under one cover marked "Tender for Supply of Locomotive Coal to the Railway" in the left hand top corner of the envelope, and be addressed to the Chairman of the Tender Board, Office of the Controller of Revenue, Colombo.

13. Tenders should be deposited in the tender box in the Office of the Controller of Revenue, or sent through the post so as to reach the Office of Controller of Revenue not later than noon on Tuesday, July 30, 1929.

14. Tenderers must satisfy the General Manager that they are in a position to execute the contract in a

satisfactory manner, documentary or other evidence being produced for the purpose if called for, and, in the case of tenderers who are not resident in the Colony, by a duly constituted agent specially empowered in that behalf.

15. Tenders from tenderers not resident in the Colony will not receive consideration unless submitted by a duly constituted agent resident in the Colony specially empowered to tender for the same and to execute a valid contract in that behalf and to fulfil all the terms of the contract. In the case of local firms tendering as agents of colliery firms in India, Natal, and elsewhere outside Ceylon, the "duly constituted" agents should hold a power of attorney from their principals to enable them to enter into a contract, should their tender be accepted.

16. The Government reserves to itself the right, without question of rejecting any or all tenders, and the right of accepting any portion of a tender.

17. Should any tenderer decline to enter into the contract and bond, or fail to furnish approved security, within ten days of receiving notice in writing that his tender has been accepted, such deposit will be forfeited to the Crown, and the defaulter will render himself liable to be included in the list of defaulting contractors precluded from having any concern in a Ceylon Government contract. All other deposits will be returned upon signature of a contract.

18. Sufficient sureties will be required to join in a bond for the due fulfilment of the contract. The amount of security required will be Rs. 13,000 in cash or fixed deposit.

19. The contractor shall not assign or transfer the contract without the permission of the General Manager of the Railway.

20. If any of the coal supplied is objected to by the Railway Storekeeper as not being of the quality contracted for, or as being inferior in quality to the sample submitted, the General Manager shall be at liberty to deduct from the price such sums as he may consider justifiable by reason of the inferior quality, or he may reject such coal. Whenever any coal is so rejected the contractors shall at their own cost and expense remove the rejected coal, and pending removal the coal shall remain and be at the risk of the contractors, and the contractors shall, in addition to any other penalty, be liable to refund to the General Manager the cost incurred in landing such rejected coal, and the cost so incurred, when certified under the hand of the General Manager, shall be deemed final and conclusive.

21. Should the contractor fail to supply coal in the quantities and the time agreed upon, or should he supply coal inferior in quality to the sample submitted, or should he commit a breach of any of the covenants of the contract, the General Manager shall be at liberty by notice in writing to forthwith determine the contract, and thereupon the contractor will be liable to pay to the General Manager all costs and expenses incurred by the failure to supply coal, or by the breach of any other covenant of the contract, and shall in addition be liable to forfeit the sum of Rs. 13,000 deposited by him as security, which said sum of Rs. 13,000 shall be paid and forfeited as liquidated damages and not by way of a penalty and shall not be deemed to include the costs and expenses hereinbefore referred to.

22. Should the contractor at any time during the execution of the contract find that he will be unable to deliver the full quantity of coal or any portion of it within the period named, he shall at once give notice accordingly to the General Manager of the Railway, who shall have an absolute discretion either to grant an extension of time or to determine the contract and recover damages as provided hereinbefore in condition 21.

23. The purchase price of any coal delivered to and accepted by the General Manager after September 30, 1930, shall be subject to a deduction as damages of 10 per cent. on their value, and such deduction shall be regarded as a reasonable pre-estimate of actual damage which the General Manager will and may sustain by reason of the default of the contractor to complete delivery within the specified time, and shall for all purposes be deemed to be and regarded as liquidated damages and not as a penalty.

24. In the case of failure on the part of the contractor to supply the entire quantity of coal before September 30, 1930, it shall be lawful for the General Manager in his

discretion, by reason of such default and breach of contract on the part of the contractor, either to grant the contractor once or oftener an extension of time for the delivery of such quantity of coal as the contractor has failed to supply (subject to a deduction of 10 per cent. on their purchase price) or to purchase in the open market at whatever price he may deem fit and reasonable such quantity of coal as the contractor has failed to supply before September 30, 1930. If the coal so purchased in the open market costs more than the contract price, such excess cost shall be recovered in addition to the forfeiture of the security money as provided for hereinbefore in clause 21.

25. In the event of the General Manager in his discretion electing not to grant the contractor an extension of time, but to purchase or cause to be purchased in the open market such quantity of coal, as the contractor shall have failed to deliver before September 30, 1930, the General Manager shall give to the contractor 30 days' notice in writing of his intention so to purchase in the open market.

26. It shall be considered sufficient delivery of any notice or notices aforesaid if they are posted to the registered office of the contractor, and if the said contractor shall change his office he shall forthwith notify to the said General Manager such change and till such notification the post of notice or notices to the original address shall be deemed sufficient delivery of such notice.

27. If subsequent to the issue of the notice of intention to purchase in the open market and within the period of 30 days covered by such notice, the contractor shall deliver to the General Manager the entire quantity of coal then remaining undelivered or any part of such quantity it shall be lawful for the General Manager for good cause shown or otherwise to his appearing to accept such quantity of coal or any part thereof, and in the event of the General Manager within the said period of 30 days accepting a part only of the quantity of coal remaining undelivered such acceptance shall in no way be deemed to be or construed as a waiver of the written notice hereinbefore referred to, which said notice shall despite such acceptance be deemed to be for all purposes valid and effectual with a view to enabling the General Manager lawfully to purchase in the open market such quantity of coal as shall yet remain undelivered at the expiration of the period of 30 days covered by the said notice.

28. If any difference or dispute shall arise between the parties of this contract as to the true intent and meaning of any of the conditions herein contained, such difference or dispute shall be referred to a board of arbitration, of which each party shall appoint one arbitrator, and the two arbitrators so appointed shall, before proceeding with the reference, appoint an umpire. The award of the arbitrators and umpire, or of the majority of them, shall be conclusive and binding on both parties hereto. The losing party shall bear the costs of the arbitration.

29. The General Manager of the Railway may deduct from sums payable to the contractor all sums payable to the Ceylon Government by the contractor under his contract, or such sums may be recovered by action at law.

30. The decision of the General Manager of the Railway as to whether the contractor has been guilty of any breach of his contract, and upon all questions arising out of or incidental to the contract, shall be final and conclusive, and the contractor shall be bound thereby.

31. No contract shall be entered into with any person whose name is on the list of Crown defaulting contractors; either individually or jointly with any other person, nor shall the contractor employ any person whose name is on such list, or any other person to whom the General Manager, for reasons which appear to him sufficient, objects after giving due notice of his objection in writing.

32. In the event of war, or disturbance, or strike, or lockout of pitmen, or labourers, or pestilence, or epidemical sickness, or earthquakes, fires, storms, or floods, or other hindrances affecting the contract, being the act of God or beyond the control of the parties to this contract, the contract shall be subject to such modification as the circumstances may warrant.
