Public Works Office,
Colombo, June 26, 1929.

TENDERS are invited for the purchase of all the enumerated trees standing in the demarcated coupes described in the annexed schedules A, B, and C.

2. Tenders should be in duplicate, sealed under one cover and addressed to the Conservator of Forests, Kandy.

3. Tenders should either be deposited in the tender box, in the Office of the Conservator of Forests, Kandy, or be sent by the registered post.

4. Tenders should be marked "Tender for the Purchase of Timber, Western Division," in the left hand top corner of the envelope, and should reach the Office of the Conservator of Forests, Kandy, not later than midday on July 18, 1929.

5. The tenders are to be made upon forms which will be supplied upon application at the Divisional Forest Office, Colombo. No tender will be considered unless it is on the recognized form. Alterations must be initialled, otherwise the tenders may be treated as informal and rejected.

6. A deposit of Rs. 20 for each of the sub-coupes to be tendered will be required to be made either at the Treasury or any Kachcheri, and a receipt produced for same before any form of the tender issued.

7. Tenderers should satisfy themselves by inspection before tendering as to the contents of the demarcated

sub-coupes referred to in the annexed schedules, as the correctness of the figures given therein is in no way guaranteed. The boundaries of each sub-coupe will be pointed out by the Range Forest Officer, Matugama, in respect of Rillapola and Yalamediya; and by the Range Forest Officer, Waga, in respect of Kuranamadakada.

8. The successful tenderer will be required to execute a purchase agreement in respect of each sub-coupe, and all tenderers should read and initial a copy of this agreement at the Office of the Divisional Forest Officer, Western Division, Colombo, at the time of obtaining forms for tendering.

9. Before execution of the agreement, the purchaser will be required (a) to pay the full purchase amount and (b) to deposit as security for efficient and punctual fulfilment of the agreement, 5 per cent. of the full purchase amount tendered by him or Rs. 20 whichever is greater.

10. After payment of the purchase price, deposit of the security, and execution of the agreement, the purchaser will be entitled on application to a refund of the sum of Rs. 20 deposited by him prior to tendering.

11. Tenderers should make separate offers, written both in words and figures, for the timber contained in each of the sub-coupes described in the annexed schedule.

12. No tender will be considered unless the procedure laid down above has been strictly complied with. The Conservator of Forests reserves to himself the right without question, of rejecting any or all tenders, and of accepting any tender not necessarily the highest.

13. The special rules for felling, conversion, and removal which the agreement will require to be observed are supplied in the special conditions advertised below. Nothing in these special conditions shall render the purchaser in any way exempt from liability for punishment, under the Forest Ordinance of 1907, should he or any of the workmen in his employ be responsible for the commission of a forest offence outside the boundaries of his purchased sub-coupe.

Special Conditions.

(1) On payment of the full purchase amount the purchaser shall be entitled to fell and remove on or before September 30, 1929, in the manner specified below, all the trees enumerated in the purchased sub-coupe. Any timber not removed by the date of expiry of agreement shall *ipso facto* revert to the Crown.

(2) Should the purchaser fell or remove trees or firewood from any area of the sub-coupe he has not paid for, or from any area of forest outside the demarcated boundaries of his sub-coupe, nothing in the agreement shall exempt him from liability to punishment for illicit felling and removal under the provisions of the Forest Ordinance, No. 16 of 1907, and of the rules framed thereunder. For the purpose of special condition it shall be presumed that the purchaser has previous to entering into the agreement satisfied himself as to the position of the lines and pillars demarcating his sub-coupe, and that the purchaser has further agreed that he shall not in the event of any dispute put forward a plea of ignorance of the limits or extent of his sub-coupe.

(3) The purchaser or his agent or any of his employees shall not damage any boundary pillars or block up the boundaries by depositing any brushwood or branches. Should the lines become blocked or the pillars thrown down due to unavoidable circumstances, such lines should be at once cleared or such pillar replaced.

(4) The purchaser shall not for the purpose of removing timber from his own sub-coupe enter into any other area of forest not paid for by him except with the permission of the Range Forest Officer concerned, and along paths permitted by him.

(5) The purchaser or his agent or any of his employees shall not prevent any other purchaser of timber and firewood in adjoining sub-coupes from entering into the sub-coupes paid for by the former, either in person or by his agent, or by his employees or from bringing in any animal for purpose of effecting easy removal of timber and firewood, provided such entry is made with the permission in writing of the Range Forest Officer concerned. It shall, however, be incumbent on the person making such entry to refrain from such procedure if, in the opinion of the Divisional Forest Officer, Colombo, whose decision in the matter shall be final, a reasonably convenient substitute exists.

(6) The purchaser shall further agree to compensate the Crown for any damage to produce not paid for by him, caused by himself his employees, his animals, his machinery or his material, at rates to be assessed by the Divisional Forest Officer, Colombo.

(7) Daily removal notes must be obtained from the Overseer in charge of timber exploitation, in respect of all forest produce before removal of any such produce to depôts outside the area of the sub-coupe, and any removal of any forest produce without the authority of such notes will be considered an infringement of this rule and punished as provided hereunder. All such notes must be retained to be produced before the Range Forest Officer concerned, before removal permits can be issued for removal of such produce from such depôt to any final destination. For the purpose of this clause the purchaser shall select for his purpose, with the approval of the Range Forest Officer concerned, a plot of ground outside the limits of the annual coupes for a depôt. The site of such depôt shall not be changed without permission.

(8) The purchaser shall agree that for each and every infringement of the above conditions he shall become liable to a fine of an amount not exceeding Rs. 100, to be imposed in writing by and at the discretion of the Divisional Forest Officer, Colombo, and this fine will be recovered from the tenderer's security deposit.

(9) The purchaser shall also agree that in the event of security money having become exhausted owing to imposition of fines, it shall be within the discretion of the Divisional Forest Officer either (a) to accept a further security deposit amounting to 5 per cent. of the full purchase price, or (b) to cancel the agreement and to refund to the purchaser such balance of the paid up purchase money, if any, as may remain after deducting the value of all timber and firewood removed by the purchaser on the date of such cancellation, and such amount as may be needed to carry out any of the provisions of special conditions for which the purchaser may not at the time of such cancellation have fulfilled. For the purpose of this clause the value of each cubic foot of timber and cubic yard of fuel removed shall be fixed at full royalty rates.

(10) The purchaser shall have the right of appeal to the Conservator of Forests in the event of the enforcement of any of the penalties specified in these conditions, and the purchaser shall agree to accept the Conservator of Forests' decision as final and binding.

(11) The list of timber can be seen at the Divisional Forest Office, Colombo, on any working day between the hours of 9.30 A.M. and 4.30 P.M. This list consists of both sound and unsound trees.

J. D. SARGENT,
Conservator of Forests.

WRITTEN offers are invited for the purchase of all timber and firewood, standing or fallen, within the boundaries of the demarcated coupes described in the annexed schedule.

2. Offers should be made by letter, under sealed and registered cover, addressed to the Divisional Forest Officer, North-Western Division, Kurunegala, and posted to reach the Office of the Divisional Forest Officer, Kurunegala, not later than midday on July 30, 1929, the envelope being marked on the left hand top corner "Offer for the Purchase of Timber and Firewood, North-Western Division," and signed by the tenderer. Alterations must be initialled, otherwise the offers may be treated as informal and rejected.

3. A deposit of Rs. 20 for each of the coupes is required and should be forwarded with the offer by a money order in favour of the Divisional Forest Officer, Kurunegala.

4. The tenderers should satisfy themselves by inspection before tendering as to the acreage and contents of the demarcated coupes referred to in the annexed schedule, as the figures given therein are estimated only and their correctness is in no way guaranteed. The boundaries of each coupe will be pointed out by the local Forest Ranger.

5. The successful tenderer will be required to execute a purchase agreement in respect of each coupe. A copy of this agreement can be seen at the Office of the Divisional Forest Officer, Kurunegala.

6. Before execution of the agreement the purchaser will be required to pay the full purchase amount.

7. After payment of the purchase price, deposit of the security, and execution of the agreement, the purchaser will be entitled on application to refund of his tender deposit. Should the successful tenderer fail to carry out the requirements of clauses 5 and 6 of this notice, within 14 days of receiving notice in writing from the Divisional Forest Officer, that his tender has been accepted, the Rs. 20 deposited for each coupe will be forfeited to the Crown. The successful tenderer will be entitled to a refund of the amount deposited by him on application to the Divisional Forest Officer concerned.

8. Tenderers should make offers, written both in words and figures, for the timber and firewood contained in each of the coupes.

9. No tender will be considered unless the procedure laid down has strictly been complied with. The Conservator of Forests reserves to himself the right, without question, of rejecting any or all tenders and of accepting any portion of a tender.

10. The special rules for felling, conversion, and removal which the agreement will require to be observed are specified in the special conditions advertised below. Nothing of these special conditions shall render the purchaser in any way exempt from liability under the Forest Ordinance of 1907, should he be responsible for the commission of Forest Offence outside the boundaries of his purchased coupe or coupes.

11. The security to be deposited is between Rs. 50 and Rs. 200 according to the discretion of the Divisional Forest Officer.

12. For any further information application should be made to the Divisional Forest Officer, Kurunegala.

Special Conditions.

On payment of the full purchase amount the purchaser will be entitled to fell and remove on or before March 31, 1930, in the manner specified below, all the firewood and timber contained in the purchased coupe or coupes. Any firewood or timber not removed by the expiry date shall *ipso facto* revert to the Crown.

(2) The purchaser shall agree to commence felling along the full length of the southern boundary of each coupe and to progress this felling line in the direction of the northern boundary, always keeping it parallel to the southern boundary along which felling commences.

(3) Should the purchaser fell or remove timber trees in excess of the quantity specified in special condition 2, nothing in the agreement shall exempt him from being liable for illicit felling and removal under the Forest Ordinance, No. 16 of 1907.

(4) The purchaser will be required to spread the branch-wood evenly over the coupes immediately after conversion.

(5) The purchaser of the coupe or coupes must obtain removal permits or timber cart notes for all material to be removed from the coupe.

(6) The purchaser shall agree that for each and every infringement of the above conditions he shall become liable to a fine not exceeding Rs. 100, to be imposed by the Divisional Forest Officer in writing at his discretion, and to be recovered from the purchaser's security money.

(7) The purchaser shall agree that, in the event of security money having become exhausted, it shall be within the discretion of the Divisional Forest Officer either (a) to accept a further security deposit amounting to 10 per cent. of the full tendered purchase price, or (b) to cancel the agreement and to refund to the purchaser such balance of the paid purchase money, if any as remains after deducting the value of firewood removed by the

purchaser on the date of such cancellation. For the purpose of this clause the value of each removed cubic yard of firewood shall be reckoned at full royalty rates.

(8) The purchaser shall have the right of appeal to the Conservator of Forests in the event of enforcement of any of the penalties specified in these conditions, and the purchaser shall agree to accept the Conservator's decision as final and binding.

(9) The purchaser shall be required to cut all material in the coupes by three distinct operations as follows:—

Operation 1.

All herbaceous and undergrowth other than tree growth and creepers shall be cut out. This operation shall commence along the full length of one boundary of each coupe and proceed in a straight line to the opposite boundary of that coupe. The whole area of each coupe must thus be covered, including those portions, if any, which contain no tree growth.

Operation 2.

All saplings and poles which are under 24 inches in girth shall be felled within 6 inches of the ground. This operation shall commence from and proceed to the same boundaries as in operation 1.

Operation 3.

All trees whether utilizable or otherwise and unless marked for retention as standards which are over 24 inches in girth shall be felled within 12 inches of the ground. This operation shall commence from and proceed to the same boundaries as in operation 1.

Special Conditions.

1. On payment of the full purchase amount the purchaser will be entitled to fell and remove on or before July 31, 1930, in the manner specified below all firewood contained in the purchase coupe. Any firewood not removed before the expiry date shall *ipso facto* revert to the Crown.

The Register of transfers may be closed during the fourteen days immediately preceding each Ordinary General Meeting; and when a dividend is declared, for the three days next ensuing after the Meeting; also at such other time (if any) and for such periods as the Directors may from time to time determine provided always that it shall not be closed for more than twenty-one days in any year.

TRANSMISSION OF SHARES.

34. The executors, or administrators, or the heirs of a deceased Shareholder other than one of several joint Shareholders shall be the only persons recognized by the Company, as having any title to the shares of such Shareholder.

35. Any guardian of any infant Shareholder, or any committee of a lunatic Shareholder or any person becoming entitled to shares in consequence of the death, bankruptcy, or liquidation of any Shareholder, or the marriage of any female Shareholder, or in any other way than by transfer, shall, upon securing such evidence that he sustains the character in respect of which he proposes to act under this clause, or of his title, as the Directors think sufficient, be forthwith entitled, subject to the provisions herein contained to be registered as a Shareholder in respect of such shares; or may, subject to the regulations as to transfers hereinbefore contained, transfer the same to some other person.

36. If any person who shall become entitled to be registered under clause 35 in respect of any share on which the Company has any lien, shall not, from any cause whatever, within twelve calendar months after the event on the happening of which his title shall accrue, be registered in respect of such share, or if in the case of the death of any Shareholder, no person shall, within twelve calendar months after such death, be registered as a Shareholder, in respect of the shares of such deceased Shareholder, the Company may sell such shares, either by public auction or private contract, and give a receipt for the purchase money; and the purchaser shall be entitled to be registered in respect of such shares, and shall not be bound to inquire whether the events have happened which entitled the Company to sell the same, and the net proceeds of such sale, after deducting all expenses and all moneys in respect of which the Company is entitled to a lien on the shares so sold, shall be paid to the person entitled thereto.

SURRENDER AND FORFEITURE OF SHARES.

37. The Directors may accept, in the name and for the benefit of the Company, and upon such terms and condition as may be agreed, a surrender of the shares of Shareholders who may be desirous of retiring from the Company.

38. If any Shareholder fails to pay any call or instalment on or before the day appointed for the payment of the same, the Directors may at any time thereafter, during such time as the call or instalment remains unpaid, serve a notice on such Shareholder requiring him to pay the same together with any interest that may have accrued, and all expenses that may have been incurred by the Company by reason of such non-payment.

The notice shall name a day (not being less than one month from the date of the notice) on, and a place or places at, which such call or instalment and such interest and expenses as aforesaid are to be paid. The notice shall also state that in the event of non-payment at or before the time and at the place appointed, the shares in respect of which the call was made or instalment is payable will be liable to be forfeited.

If the requisition of such notice as aforesaid be not complied with, every or any share or shares in respect of which such notice has been given may at any time thereafter, before payment of calls or instalments, with interest and expenses due in respect thereof, be declared forfeited by a resolution of the Board to that effect.

39. Any Shareholder whose shares have been so declared forfeited, shall notwithstanding be liable to pay and shall forthwith pay to the Company all calls, instalments, premia, interest, and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of forfeiture until payment at nine per centum per annum, and the Directors may enforce the payment thereof if they think fit.

40. Every share surrendered or so declared forfeited shall be deemed to be the property of the Company, and may be sold, re-allotted, or otherwise disposed of upon such terms and in such manner as the Board shall think fit.

41. The surrender or forfeiture of a share shall involve the extinction of all interest in, and of all claims and demands against, the Company in respect of the share and the proceeds thereof, and all other rights incident to the share, except only such of those rights (if any) as by these presents are expressly saved.

42. A certificate in writing under the hands of one of the Directors and of the Secretary or Secretaries that a share has been duly surrendered or forfeited, stating the time when it was surrendered or forfeited, shall be conclusive evidence of the facts therein stated as against all persons who would have been entitled to the share, but for such surrender or forfeiture, and such certificate and the receipt of the Company for the price of such share shall constitute a good title to such share, and a certificate of proprietorship shall be delivered to any person who may purchase the same from the Company, and thereupon such purchaser shall be deemed the holder of such share, discharged from all calls due prior to such purchase; and he shall not be bound to see to the application of the purchase money, nor shall his title to such share be effected by any irregularity in the proceedings in reference to such forfeiture or sale.

The Directors may in their discretion remit or annul the forfeiture of any share within six months from the date thereof upon the payment of all moneys due to the Company from the late holder or holders of such share or shares, and all expenses incurred in relation to such forfeiture, together with such further sum of money by way of redemption money for the deficit as they shall think fit, not being less than nine per centum per annum on the amount of the sums wherein default in payment had been made, but no share *bona fide* sold or re-allotted, or otherwise disposed of under Article 40 hereof, shall be redeemable after sale or disposal.

43. The Company shall have a first charge or paramount lien upon all the shares of any holder or joint-holders for all moneys for the time being due to the Company by such holder, or by all or any of such joint-holders respectively, either in respect of such shares or of other shares held by such holder or joint-holders or in respect of any other debt, or claim and whether due from any such holder individually or jointly with others, including all calls which the Directors shall have resolved to make, although the times appointed for the payment thereof shall not have arrived; and where any share is held by more persons than one, the Company shall be entitled to the said charge or lien in respect of any money due to the Company from any of such persons. And the Directors may decline to register any transfer of shares subject to such charge or lien.

44. Such charge or lien may be made available by a sale of all or any of the shares subject to it, provided that no such sale shall be made except under a resolution of the Directors, and until notice in writing shall have been given to the indebted Shareholder or his executors or administrators, or the assignee or trustee in his bankruptcy, requiring him or them to pay the amount for the time being due to the Company, and default shall have been made for twenty-eight days from such notice in paying the sum thereby required to be paid. Should the Shareholder over whose share the lien exists be in England or elsewhere abroad, sixty days' notice shall be allowed him.

45. The nett proceeds of any such sale shall be applied in or towards satisfaction of such debts, liabilities, or engagements, and the residue (if any) paid to such Shareholder or his representatives.

46. A certificate in writing under the hands of one of the Directors and of the Secretary or Secretaries that the power of sale given by clause 44 has arisen and is exercisable by the Company under these presents shall be conclusive evidence of the facts therein stated.

47. Upon any such sale two of the Directors may execute a transfer of such share to the purchaser thereof, and such transfer, with the certificate last aforesaid, shall confer on the purchaser a complete title to such share.

PREFERENCE SHARES.

48. Any shares from time to time to be issued or created may from time to time be issued with any such right or preference, whether in respect of dividend or of repayment of capital, or both, or any such other special privilege or advantage over any shares previously issued or then about to be issued or at such a premium, or with such deferred rights as compared with any shares previously issued or then about to be issued, or subject to any such conditions or provisions and with any such right or without any right of voting, and generally on such terms as the Company, may from time to time, by special resolution determine.

49. If at any time by the issue of preference shares or otherwise the capital is divided into shares of different classes, then the holders of any class of shares may, by a special resolution passed at a meeting of such holders, consent, on behalf of all the holders of shares of the class, to the issue or creation of any shares ranking equally therewith, or having any priority thereto, or to the abandonment of any preference or priority, or of any accrued dividend, or the reduction for any time or permanently of the dividends payable thereon, or to any scheme for the reduction of the Company's capital affecting the class of shares; and such resolution shall be binding upon all the holders of shares of the class, provided that this Article shall not be read as implying the necessity for such consent in any case in which but for this Article the object of the resolutions could have been effected without it.

50. Any meeting for the purpose of the last preceding clause shall be convened and conducted in all respects as nearly as possible in the same way as an Extraordinary General Meeting of the Company, provided that no member not being a Director shall be entitled to notice thereof or to attend thereat, unless he be a holder of shares of the class intended to be affected by the resolution, and that no vote shall be given except in respect of a share of that class, and that at any such meeting a poll may be demanded in writing by any members personally present and entitled to vote at the meeting.

BORROWING POWERS.

51. The Directors may from time to time at their discretion raise or borrow or secure the payment of any sums of money for the purpose of the Company's business, provided that the money so borrowed or raised and owing at any one time shall not, without the sanction of a General Meeting, exceed Three hundred thousand Rupees.

52. With the sanction of a General Meeting, the Board shall be entitled to borrow such further sum or sums, and at such rate of interest as such meeting shall determine. A certificate under the hands of one Director and the Secretary or of two Directors, to the effect that in taking any loan the Directors are not exceeding their borrowing powers, shall be sufficient and binding on the Company and all concerned, and shall be conclusive evidence thereof in all questions between the Company and its creditors.

53. For the purpose of securing the repayment of any such money so borrowed or raised for any other purposes, Directors may grant, create, execute, and issue any mortgages, cash credits, debentures, debenture stock, bonds, or obligations of the Company, charged upon all or any part of the undertaking, revenue, lands, property, rights, and assets of the Company, both present and future, including uncalled capital or unpaid calls, or may make, accept, or endorse on behalf of the Company any promissory notes or bills of exchange.

54. Any such securities may be issued either at par or at a premium or discount, and may from time to time be cancelled discharged, varied, or exchanged as the Directors may think fit, and may contain special privileges as to redemption, surrender, drawings, allotment of shares, or otherwise.

55. Every debenture or other instrument issued by the Company for securing the payment of money may be so framed that the moneys thereby secured shall be assignable free from any equities between the Company and the person to whom the same may be issued.

GENERAL MEETINGS.

56. The First General Meeting shall be held at such time not being more than twelve months after the incorporation of the Company, and at such place as the Directors may determine.

57. Subsequent General Meetings shall be held once in every year, at such time and place as may be prescribed by the Company in General Meeting, and if no time or place is so prescribed then at such place and at such time as soon after the first day in each year as may be determined by the Directors.

58. The General Meetings mentioned in the last preceding clause shall be called Ordinary General Meetings; all other meetings of the Company shall be called Extraordinary General Meetings.

59. The Directors may, whenever they think fit, call an Extraordinary General Meeting of the Company, and the Directors shall do so upon a requisition made in writing by not less than one-eighth of the number of Shareholders of the Company for the time being, or by any Shareholder or Shareholders holding in the aggregate one-eighth part of the shares of the Company for the time being subscribed for.

60. Any requisition so made shall express the object of the meeting proposed to be called, shall be addressed to the Directors, and shall be sent to the registered office of the Company.

Upon the receipt of such requisition, the Directors shall forthwith proceed to convene an Extraordinary General Meeting, to be held at such time and place as they shall determine. If they do not proceed to convene the same within twenty-one days from the delivery of the requisition, requisitionists may themselves convene an Extraordinary General Meeting, to be held at such place and at such time as the Shareholders convening the meeting may themselves fix.

61. Any Shareholder may, on giving not less than fifteen days' previous notice of any resolution, submit the same to a meeting.

62. Such notice shall be given by leaving a copy of the resolution at the registered office of the Company.

63. Seven days' notice at least of every General Meeting, Ordinary or Extraordinary, and by whomsoever convened, specifying the place, date, hour of meeting, and the objects and business of the meeting, shall be given by notice sent by post or by advertisement in the *Ceylon Government Gazette*, or in such other manner (if any) as may be prescribed by the Company in General Meeting. Where it is proposed to pass a special resolution the two meetings may be convened by one and the same notice and it is to be no objection to such notice that it only convenes the second meeting contingently upon the resolution being passed by the requisite majority at the first meeting.

64. Every Ordinary General Meeting shall be competent, without special notice having been given of the purposes for which it is convened, or of the business to be transacted thereat, to receive and discuss any report and any accounts presented thereto by the Directors, and to pass resolutions in approval or disapproval thereof, and to declare dividends, and to elect Directors and Auditors in place of those retiring by rotation, and to fix the remuneration of the Auditors and shall also be competent to enter upon, discuss, and transact any business whatsoever of which special mention shall have been given in the notice or notices upon which the meeting was convened.

65. With the exceptions mentioned in the foregoing Articles as to the business which may be transacted at the Ordinary General Meetings without notice, no General Meeting, Ordinary or Extraordinary, shall be competent to enter upon, discuss, or transact any business which has not been specially mentioned in the notice or notices upon which it was convened.

66. No business shall be transacted at any General Meeting, except the declaration of a dividend recommended by a report of the Directors or election of a Chairman, unless there shall be present or represented by proxy or attorney at the commencement of the business three or more Shareholders entitled to vote.

67. If at the expiration of half an hour from the time appointed for the Meeting the required number of Shareholders shall not be present at the meeting, the meeting, if convened by or upon the requisition of Shareholders shall be dissolved, but in any other case it shall stand adjourned to the same day in the next week at the same time and place; and if at such adjourned meeting a quorum is not present, those Shareholders who are present shall be a quorum, and may transact the business for which the meeting was called.

68. The Chairman (if any) of the Directors shall be entitled to take the Chair at every General Meeting, whether Ordinary or Extraordinary; or if there be no Chairman, or if at any meeting he shall not be present at the time appointed for holding such meeting, or if he shall refuse to take the Chair, the Shareholders shall choose another Director as Chairman; and if no Director be present, or if all the Directors present decline to take the Chair, then the Shareholders present shall choose one of their number to be Chairman.

69. No business shall be discussed at any General Meeting, except the election of a Chairman, whilst the Chair is vacant.

70. The Chairman may, with the consent of the Meeting, adjourn any meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place, unless due notice thereof shall be given.

71. Minutes of the proceedings of every General Meeting, whether Ordinary or Extraordinary, shall be entered in a book to be kept for that purpose, and shall when so entered be signed as soon as practicable by the Chairman of the same meeting, or by the Chairman of the succeeding meeting, and the same when so entered and signed shall be evidence of all such proceedings and of the proper election of the Chairman.

VOTING AT MEETINGS.

72. At any meeting every resolution shall be decided in the first instance by a show of hands, and in case there shall be an equality of votes, the Chairman at such meeting shall be entitled to give a casting vote in addition to the vote to which he may be entitled as a Shareholder; and unless a poll be immediately demanded by some member present and entitled to vote, a declaration by the Chairman that a resolution has been carried, and an entry to that effect in the Minute Book of the Company, shall be sufficient evidence of the fact without proof of the number or proportion of votes recorded in favour of or against such resolution.

73. If at any meeting a poll be demanded by some Shareholder present, at the Meeting and entitled to vote, the meeting shall, if necessary, be adjourned, and the poll shall be taken at such time and place and in such manner as the Chairman shall direct, and in such case every Shareholder shall have the number of votes to which he may be entitled as hereinafter provided; and in case at any such poll there shall be an equality of votes, the Chairman of the meeting at which such poll shall have been demanded shall be entitled to a casting vote in addition to any votes to which he may be entitled as a Shareholder or proxy or attorney, and the result of such poll shall be deemed to be the resolution of the Company in such meeting.

74. The demand of a poll shall not prevent the continuance of a meeting for the transaction of business other than the question on which a poll has been demanded.

75. No poll shall be demanded on the election of a Chairman of the meeting or on any question of adjournment.

76. On a show of hands every Shareholder present in person shall have one vote only. Where a Shareholder is present by an attorney who is not a Shareholder, such attorney shall be entitled to vote for such Shareholder on a show of hands. In case of a poll every Shareholder present in person or by proxy or attorney shall have one vote for every ordinary share held by him.

77. The parent or guardian of an infant Shareholder, the committee or other legal guardian of any lunatic Shareholder, the husband or any female Shareholder not entitled to her shares as separate estate, and the executor or administrator of any deceased Shareholder, or any one of such persons as aforesaid, if more than one, shall not be entitled to vote in the place of such infant, lunatic, female, or deceased person, unless such person shall have been registered as a Shareholder.

78. Votes may be given either personally or by proxy or by attorney.

79. No Shareholder shall be entitled to vote or speak at any meeting unless all calls due from him on his shares have been paid, and no Shareholder, other than the trustee or assignee of a bankrupt or representative of a deceased Shareholder, or person acquiring by marriage, shall be entitled to vote at any meeting held after the expiration of three months from the registration of the Company, in respect of any share which he has acquired by transfer, unless he has been possessed of the share in respect of which he claims to vote at least three months previous to the time of holding the meeting which he proposes to vote or speak.

80. No Shareholder who has not been duly registered as such for three months previous to the General Meeting shall be entitled to be present and to speak and vote at any meeting held after the expiry of three months from the incorporation of the Company.

81. No person shall be entitled to hold a proxy who is not a Shareholder of the Company, but this rule shall not apply to a power of attorney.

82. The instrument appointing a proxy shall be printed or written, and shall be signed by the appointor or if such appointor be a company or corporation, it shall be under the common seal of such company or corporation.

83. The instrument appointing a proxy shall be deposited at the registered office of the Company not less than twenty-four hours before the time appointed for holding the meeting at which the person named in such instrument proposes to vote.

The instrument appointing a proxy may be in the following form:—

Globe Motors, Limited.

I, _____, of _____, appoint _____, of _____ (a Shareholder in the Company) as my proxy, to represent me and to vote for me and on my behalf at the Ordinary (or Extraordinary, as the case may be) General Meeting of the Company to be held on the _____ day of _____, One thousand Nine hundred and _____, and at any adjournment thereof, and at every poll which may be taken in consequence thereof.

As witness my hand this _____ day of _____, One thousand Nine hundred and _____.

84. No objection shall be made to the validity of any vote (whether given personally or by proxy or by attorney) except at the meeting or poll at which such votes shall be tendered, and every vote (whether given personally or by proxy or by attorney) to which no objection shall be made at such meeting or poll shall be deemed valid for all purposes of such meeting or poll whatsoever.

85. No Shareholder shall be prevented from voting by reason of his being personally interested in the result of the voting.

DIRECTORS.

86. The number of Directors shall never be less than two or more than six; but this clause shall be construed as being directory only, and the continuing Directors may act notwithstanding any number of vacancies.

The qualification of a Director shall be his holding in his own right at least one hundred shares in the Company, of any class upon which all calls for the time being have been paid, and this qualification shall apply as well to the first Directors as to all future Directors.

As remuneration for their services the Directors shall be entitled to appropriate a sum of Six Thousand Rupees per annum, to be divided between them in such manner as they may determine, but the Company in General Meeting may at any time alter the amount of such remuneration for the future and such remuneration shall not be considered as including any remuneration granted for special or extra services hereinafter referred to.

87. The first Directors shall be Messrs. E. C. Herbert, and B. Kitching, both of Colombo, who shall hold Office till the First Ordinary General Meeting of the Company, when they shall both retire, but shall be eligible for re-election.

88. One or more of the Directors may be appointed by the Directors to act as Secretary, Managing Director, or Managing Directors, for such time and on such terms as the Directors may determine or may fix by agreement with the person or persons appointed to the office, and they may from time to time (subject to the provisions of any contract between him or them and the Company) revoke such appointment and appoint another or other Secretary, Managing Director, or Managing Directors.

The Directors may confer on the Managing Director or Managing Directors all or any duties and powers that might be conferred on any Manager of the Company.

If any Director shall be called upon to perform any extra services, the Directors may arrange with such Director for such special remuneration for such services, either by way of salary, commission, or the payment of a lump sum of money, as they shall think fit.

ROTATION OF DIRECTORS.

89. A Managing Director shall not, while he continues to hold that office, be subject to retirement by rotation, and he shall not be taken into account in determining the rotation of retirement of Directors; but he shall, subject to the same provisions of any contract between him and the Company, be subject to the same provisions as to resignation and removal as the other Directors of the Company, and if he cease to hold the Office of Director from any cause he shall *ipso facto* and immediately cease to be a Managing Director.

90. At the First Ordinary General Meeting of the Company all the Directors shall retire from office, and at the First Ordinary General Meeting in every subsequent year one of the Directors for the time being shall retire from office as provided in clause 91.

91. The Directors to retire from office at the second, third, and fourth Ordinary General Meeting, shall, unless the Directors otherwise arrange among themselves, be determined by ballot; in every subsequent year the Directors to retire shall be those who have been longest in office.

92. In case any question shall arise as to which of the Directors who have been the same time in office shall retire, the same shall be decided by the Directors by ballot.

93. Retiring Directors shall be eligible for re-election.

94. The Ordinary General Meeting at which Directors retire or ought to retire by rotation shall appoint successors to them, and in default thereof such successors may be appointed at a subsequent Ordinary General Meeting.

95. Any casual vacancy occurring in the number of Directors or provisional Directors arising from death, resignation or otherwise, may be filled up by the Directors, but any person appointed to fill such vacancy shall retain his office so long only as the vacating Director would have retained the same if no vacancy had occurred.

96. The Directors, subject to the approval of a General Meeting, may from time to time at any time subsequent to the Second Ordinary General Meeting increase or reduce the number of Directors, and may also, subject to the like approval, determine in what rotation such increased or reduced number is to go out of office.

97. If at any meeting at which an election of a Director ought to take place the place of a retiring Director is not filled up, the retiring Director may continue in office until the First Ordinary General Meeting in the next year, and so on from meeting to meeting until his place is filled up, unless it shall be determined at such meeting to reduce the number of Directors.

98. A Director may at any time give notice in writing of his intention to resign by delivering such notice to the Secretary or by leaving the same at the registered office of the Company, or by tendering his written resignation at a meeting of the Directors, and on the acceptance of his resignation by the Directors, but not before, his office shall become vacant.

99. The Company may, by a special resolution, remove any Director before the expiration of his period of office, and may by an ordinary resolution, appoint another person in his stead. The Director so appointed shall hold office only during such time as the Director in whose place he is appointed would have held the same if he had not been removed.

100. Every Director or officer of the Company, and his heirs, executors, and administrators shall be indemnified by the Company from all losses and expenses incurred by him in or about the discharge of his duties, except such as happen from his wilful acts or defaults; and no Director or officer shall, nor shall the heirs, executors, or administrators of any Director or officer, be liable for the acts or defaults of any other Director or officer, or for any loss or expenses happening to the Company by the insufficiency or deficiency of title to any property acquired for or on behalf of the Company, or for the insufficiency or deficiency of any security in or upon which any of the moneys of the Company shall be invested, or for any loss or damage rising from the bankruptcy, insolvency, or tortious act of any person with whom any moneys, securities, or effects shall be deposited, or for any other loss, damage, or misfortune whatsoever which shall happen in the execution of the duties of his office or in relation thereto, unless the same happen through his own wilful act or default.

101. No contribution shall be required from any present or past Director or Manager, exceeding the amounts, if any, unpaid on the shares in respect of which he is liable as a present or past Shareholder.

DISQUALIFICATION OF DIRECTORS.

102. The office of Director shall be vacated—

- (a) If he becomes bankrupt or insolvent, or suspends payment, or files a petition for the liquidation of his affairs, or compounds with his creditors.
- (b) If by reason of mental or bodily infirmity he becomes incapable of acting.
- (c) If he ceases to hold the required number of shares to qualify him for the office.

Provided that no Director shall vacate his office by reason of his being a member of any corporation, company, or firm, which has entered into any contract with, or done any work for, the Company of which he is a Director, or by his being agent, or secretary, or solicitor, or by his being a member of a firm who are agents, or secretaries, or solicitors of the Company; nevertheless, he shall not vote in respect of any contract work or business in which he may be personally interested.

POWERS OF DIRECTORS.

103. The Director shall have power to acquire and carry into effect the lease, purchase, or acquisition of any lands, or property they may think fit, or any share or shares thereof.

104. The business of the Company shall be managed by the Directors either by themselves or through a Managing Director, or with the assistance of an agent or agents, or secretary or secretaries of the Company, to be appointed by the Directors for such a period and on such terms as they shall determine; and the Directors shall pay out of the funds of the Company all costs and expenses, as well preliminary as otherwise, paid or incurred in and about the formation and the registration of the Company, and in and about the valuation, purchase, lease or acquisition of the said property and otherwise in or about the working and business of the Company. The whole of the direction and control of the business of the Company shall be conducted in Ceylon, and no person shall act in any manner as a Director whilst resident temporarily or otherwise outside Ceylon except by special sanction of the Board where such Director is engaged out of Ceylon on the Company's business.

105. The Directors shall have power to make, and may make such rules or regulations for the management of the business and property of the Company as they may from time to time think proper, and shall carry on the business of the Company in such manner as they may think most expedient; and, in addition to the powers and authorities by any Ordinance or by these presents expressly conferred on them, they may exercise all such powers, give all such consents, make all such arrangements, appoint all such agents, managers, secretaries, treasurers, accountants, and other officers superintendents, assistants, clerks, artisans, labourers, and other servants for such period or periods and with such

remuneration and at such salaries, and upon such terms and conditions as they may consider advisable, and may pay the expenses occasioned thereby out of the funds of the Company, and may from time to time remove or suspend all or any of the managers, agents, treasurers, accountants, officers, clerks, or servants of the Company for such reasons as they may think proper and advisable, and without assigning any cause for so doing.

106. The Directors shall exercise in the name and on behalf of the Company all such powers of the Company as are not expressly required to be exercised by the Company in General Meeting, and shall generally do all such acts and things as are or shall be by any Ordinance and by these presents directed and authorized to be exercised, given, made, or done by the Company and are not by any Ordinance or by these presents required to be exercised or done by the Company in General Meeting, subject, nevertheless, to the provisions of any such Ordinances and of these presents and to such regulations and provisions (if any) as may from time to time be prescribed by the Company in General Meeting; but no regulations made by the Company in General Meeting shall invalidate any prior act of the Board which would have been valid if such regulation had not been made.

The generality of the powers conferred by any clause in these presents on the Directors shall not be taken to be limited by any clause conferring any special or expressed power.

107. The Directors shall have power to appoint a proctor or proctors, solicitor or solicitors, attorney or attorneys to assist in carrying on or protecting the business of the Company, on such terms as they may consider proper, and from time to time to revoke such appointment.

108. The Directors shall have power to open from time to time on behalf of the Company any account or accounts with such bank or banks as they may select or appoint, and also by such signatures as they may appoint to draw, accept, make, endorse, sign, and execute cheques, bills of exchange, and promissory notes, bills of lading, receipts, contracts, and agreements, bonds, mortgages, proxies, to any proctor or proctors, and other documents on behalf of and to further the interest of the Company.

109. The seal of the Company shall not be used or affixed to any deed or instrument except in the presence of two or more of the Directors, or of one Director and the secretary or secretaries of the Company, who shall attest the sealing thereof; such attestation on the part of the secretaries, in the event of a firm or corporation being the secretaries, being signified by a partner or duly authorized manager, attorney, or agent of the said firm or corporation signing for and on behalf of the said firm or corporation as such secretaries.

110. It shall be lawful for the Directors, if authorized so to do by the Shareholders in General Meeting, to arrange terms for the amalgamation of the Company with any other company or companies, or individual or individuals, or for the sale or disposal of the business property and effects of the Company, or any part or parts, share or shares thereof, respectively, to any company or companies, or person or persons, upon such terms and in such manner as the Directors shall think fit, and the Directors shall have power to do all such things as may be necessary for carrying such amalgamation, sale, or other disposition into effect so far as a resolution or a special resolution of the Company is not by law necessary for such purpose; and in case any terms so arranged by the Directors include or make necessary the dissolution of the Company, the Company shall be dissolved to that end.

111. In furtherance and not in limitation of, and without prejudice to, the general powers conferred or implied in any of the preceding clauses, and of the other powers conferred by these presents, it is hereby expressly declared that the Directors shall have the powers following (that is to say) :—

- (a) To institute, conduct, defend, compromise, settle, or abandon any action, suit, prosecution, or other legal proceedings on behalf of the Company, and also to compound and allow time for payment or satisfaction of any debts due to or from the Company, and any claims or demands made by or against the Company.
- (b) To refer any claims or demands by or against the Company to arbitration, and observe and perform or enforce the awards.
- (c) To make and give receipts, releases, and other discharges for money payable to the Company and for claims and demands by the Company.

118. The acts of the Board or of any committees appointed by the Board shall, notwithstanding any vacancy in the Board or committee, or defect in the appointment or qualification of any Director or of any member of the committee, be as valid as if no such vacancy or defect had existed, and as if such person had been duly appointed or qualified, provided the same be done before the discovery of the vacancy or defect.

126. Every such statement shall be accompanied by a report as to the state and condition of the Company, and as to the amount which the Directors recommend should be paid out of the profits by way of dividend or bonus to the Shareholders.

127. A printed copy of such balance sheet shall, at least seven days previous to such meeting, be delivered at, or posted to, the registered address of every Shareholder.

128. The accounts of the Company shall from time to time be examined, and the correctness of the balance sheet ascertained, by one or more Auditor or Auditors.

129. 130. The Directors shall appoint the first Auditor of the Company and fix his remuneration. He shall hold office till the First General Meeting of the Company. All subsequent appointments shall, except as is hereinafter mentioned, be made at the Ordinary General Meeting of the Company in each year by the Shareholders present thereat, and the Auditor or Auditors appointed at such meeting shall hold office only until the First Ordinary General Meeting after his or their appointment, or until otherwise ordered by a General Meeting.

134. Every Auditor shall be supplied with a copy of the balance sheet intended to be laid before the next Ordinary General Meeting after his appointment, and it shall be his duty to examine the same with the accounts and vouchers relating thereto and to report thereon to the meeting, generally or specially, as he may think fit.

135. The Auditor or Auditors for the time being shall have a list delivered to him or them of all books kept by the Company, and he or they shall at all reasonable hours in the daytime have access to all accounts, books, and documents whatsoever of the Company for the purpose of audit.

DIVIDENDS, BONUS, AND RESERVE FUND.

136. The Directors may, with the sanction of the Company in General Meeting from time to time, declare a dividend to be paid, and (or) pay a bonus to the Shareholders in proportion to the amount paid on their shares, but no dividend or bonus shall be payable except out of nett profits.

137. The Directors may, if they think fit, determine on and declare an interim dividend to be paid, or pay a bonus to the Shareholders.

138. The Directors may, before recommending any dividend or bonus, set aside out of the profits of the Company such sums as they think proper as a reserve fund to meet contingencies or for special dividends or for equalizing dividends or for repairing, improving, and maintaining any of the property of the Company or for repayment of mortgages or for other purposes as the Directors shall in their absolute discretion think conducive to the interests of the Company and may invest the several sums so set aside upon such investments as they may think fit, and from time to time deal with and vary such investments and dispose of all or any part thereof for the benefit of the Company and to divide the reserve fund into such special funds as they think fit, and to employ the reserve fund of any part thereof in the business of the Company and that without being bound to keep the same separate from the other assets.

Subject to the foregoing the Directors shall lay before the Company in General Meeting a recommendation as to the amount which they consider ought to be paid by way of dividend, and the Company shall declare the dividend (if any) to be paid, but such dividend shall not exceed the amount recommended by the Directors.

139. The Directors may, from time to time apply such portions as they think fit of the reserve fund to meet contingencies, or for equalizing dividends, or for working the business of the Company, or for repairing, improving, maintaining or extending any of the property or plant of the Company or any part thereof, or for the redemption of mortgages or for any other purposes connected with the interest of the Company that they may from time to time deem expedient.

140. No unpaid dividend or bonus shall ever bear interest against the Company.

141. No Shareholder shall be entitled to receive payment of any dividend or bonus in respect of his share or shares whilst any moneys may be due or owing from him (whether alone or jointly with any other person) to the Company in respect of such share or shares, or otherwise howsoever.

142. The Directors may deduct from the dividend or bonus payable to any Shareholder, all such sums of money as may be due from him (whether alone or jointly with any other person) to the Company, and notwithstanding the fact that such sums or any of them are not payable until after the date when such dividend or bonus is payable.

143. Notice of any dividend that has been declared, or of any bonus to be paid, shall be given to each Shareholder entitled thereto, and any dividend or bonus unclaimed by any Shareholder for three years after notice thereof is given may be forfeited by the Directors for the benefit of the Company, and, if the Directors think fit, may be applied in augmentation of the Reserve Fund.

144. Every dividend or bonus payable in respect of any share held by a firm may be paid to, and an effectual receipt given by, any partner of such firm or agent duly authorized to sign the name of the firm.

145. Every dividend or bonus payable in respect of any share held by several persons jointly, other than a firm, may be paid to, and an effectual receipt given by, any one of such persons.

146. Any General Meeting may direct payment of any dividend declared at such meeting or of any interim dividends which may subsequently be declared by the Directors, wholly or in part by means of cheques or draft on London, or by the distribution of specific assets and in particular of paid-up shares, debentures, or debenture stock of the Company or of any other Company, or in any one or more of such ways and the Directors shall give effect to give such direction, and when any difficulty arises in regard to the distribution they may settle the same as they think expedient, and in particular may issue fractional certificates, and may fix the value for distribution of such specific asset or any part thereof, and may determine that cash payments shall be made to any Shareholder upon the footing of the value so fixed in order to adjust the rights of all parties, and may vest any such specific assets in trustees upon such trusts for the persons entitled to the dividend as may seem expedient to the Directors. Where requisite a proper contract shall be filed and Directors may appoint any person to sign such contract on behalf of the persons entitled to the dividend, and such appointment shall be effective.

148. Every Shareholder shall give an address in Ceylon which shall be deemed to be his place of abode, and shall be registered as such in the books of the Company.

149. A notice may be served by the Company upon any Shareholder, either personally or by being sent through the post in a prepaid letter addressed to such Shareholder at his registered address or place of abode, and any notice so served shall be deemed to be well served, notwithstanding that the Shareholder to whom such notice is addressed be dead, unless his executors or administrators shall have given to the Directors, or to the Agent or Secretary, or Agents or Secretaries of the Company, their own or some other address to which notice may be sent.

150. All notices directed to be given to Shareholders shall, with respect to any share to which persons are jointly entitled, other than a firm, be given to whichever of such persons is named first in the Register of Shareholders, and notice so given shall be sufficient notice to all the holders of such shares.

151. 152. Every Shareholder residing out of Ceylon shall name and register in the books of the Company an address within Ceylon at which all notices shall be served upon him, and all notices served at such address shall be deemed to be well served. If he shall not have named and registered such an address, he shall not be entitled to any notices.

All notices required to be given by advertisement shall be published in the *Ceylon Government Gazette*.

EVIDENCE.

153. On the trial or hearing of any action or suit brought or instituted by the Company against any Shareholder or his representatives to recover any debt or money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the defendant is or was, when the claim arose, on the register of Shareholders of the Company as a holder of the number of shares in respect of which such claim is made, and that the amount claimed is not entered as paid in the books of the Company, and it shall not be necessary to prove the registration of the Company, nor the appointment of the Directors who made any call nor that a quorum of Directors was present at the Board at which any call was made, nor that the meeting at which any call was made was duly convened or constituted, nor any other matter whatsoever, but the proof aforesaid shall be conclusive evidence of the debt.

The College and Collegiate School of Saint Thomas the Apostle.

THE Legislative Council of Ceylon having granted me leave to introduce a Bill to incorporate the Board of Governors of the College and Collegiate School of Saint Thomas the Apostle and to amend the Saint Thomas's College Ordinance, No. 13 of 1913, as amended by Ordinance No. 2 of 1915, I shall, after one month from this date, move the first reading of the said Bill; a statement of its general nature and objects is appended hereto:—

The College and Collegiate School of Saint Thomas the Apostle was established for the education of youth in sound learning and religious instruction according to the principles and usages of the Church of England and for kindred purposes.

The Incorporated Society for the Propagation of the Gospel in Foreign Parts and the Bishop of Colombo and his successor for the time being are the trustees of the said College and Collegiate School and the said trustees are desirous of vesting in a Board of Governors of a representative character having perpetual succession all the property now held under various trusts in connection with the College and also all the monies belonging to the College and of transferring the management of the affairs of the College to the said Board of Governors.

It has been considered desirable for the proper management of the College and its affairs that the Board of Governors should be incorporated by law.

The Ordinance sets forth the general objects of the corporation and provides for the creation of a Board of Governors of a representative character having perpetual succession and for vesting in the said Board of all the property now held under various trusts in connection with the College and also of all monies belonging to the College and empowers the Board to administer those and other Trusts which may be created in future, to sell and acquire property, to raise loans upon mortgage, to erect buildings, and to do all such other acts and things as are and may be necessary to carry on the work of the College in accordance with the intention of the Founder.

The Ordinance further defines the Constitution of the Board of Governors and prescribes the rules for the management of the property, the discharge of the duties of the Board and of its officers, and for the management of the affairs of the College, Collegiate School, and Orphanage.

MUNICIPAL COUNCIL NOTICES.

MUNICIPALITY OF COLOMBO.

Minutes of Proceedings of a General Meeting of the Municipal Council of Colombo held in the Town Hall on Wednesday, May 8, 1929, at 3 p.m.

The Council met this day at 3 P.M. pursuant to notice dated May 1, 1929.

Present :—Mr. H. E. Newnham, V.D., M.A., C.C.S., Chairman; the Hon. Mr. N. H. M. Abdul Cader, M.L.C.; Dr. E. V. Ratnam; the Hon. Mr. C. H. Z. Fernando, M.L.C.; Dr. E. A. Coorey; Mr. G. W. Dodds; Mr. T. G. Jayewardene, V.D., J.P.; Mr. N. R. Blande; Mr. A. H. G. Dawson; Mr. M. L. M. Reyal; Dr. S. Muttiah; Mr. S. W. R. Dias Bandaranaike; Mr. J. S. Collett; Dr. V. van Langenberg, V.D.; and Mr. F. Dadabhoy, J.P.

1. The Minutes of the General Meeting of April 10, 1929, having been previously printed and copies thereof having been sent to each Member of Council, were taken as read.

Resolved that the minutes of the General Meeting of April 10, 1929, be confirmed.

2. Pursuant to notice, Mr. T. G. Jayewardene asked the Chairman the following questions :—Will the Chairman be pleased to call on the Medical Officer of Health to explain why, judging from the statistics published in his last Administration Report (1927) the sanitary condition of New Bazaar Ward was worse that year than in 1926? It had the largest number of cases of enteric and continued fever and consumption, and the death rate too was the highest. Was the position in 1928 any better?

The Chairman replied as follows :—(1) The Medical Officer of Health reports that no accurate conclusion can be drawn regarding the comparative sanitary condition of a ward from a comparison of the figures referred to for 2 or even for 3 years. For example, in New Bazaar Ward, the number of Enteric cases reported in 1926, 1927, and 1928 were 13, 23, and 11 in a population estimated at over 25,000. The increase of 10 cases in 1927 may well have been due to carelessness on the part of the inmates of one or two houses in which a case occurred, rather than to the sanitary state of the locality. Again a comparison of the incidence of disease in the various wards is only significant if it is based on a rate calculated on the population of those wards. On this basis, the case-rate of Enteric was in 1927 worse in Timbirigasyaya, Mutwal, and Wellawatta than in New Bazaar. These rates, however, are necessarily the merest estimates and are being omitted from the 1928 report, because it is known that the 1921 census was taken at an abnormal time and is only a very rough indication of the population of the city now. For the same reason, the estimate for the population of any one ward is subject to an even greater error and the death rate based on it is practically valueless. (2) The figures of 1928 for the 3 diseases mentioned are less than those of 1927.

3. Pursuant to notice, Mr. S. W. R. Dias Bandaranaike asked the Chairman the following questions :—(1) Is the Chairman aware of the fact that many unauthorized accounts of discussions and proceedings at, and decisions of, Committee Meetings of Council appear in the Press? (2) How many such have there been within the last year, as far as the Chairman knows? (3) Is it a fact that many of these contain inaccurate and misleading statements? (4) Is the Chairman not of opinion that this causes a great deal of harm? (5) As it appears to be impracticable to contradict each of these in detail, after publication, will the Chairman consider the advisability of requesting the Press to be good enough to consult the Chairman or the Secretary and verify the accuracy of the information before publishing it?

The Chairman replied as follows :—(1) Yes. (2) There is a record of about thirty, but there were many more than that. (3) Yes. (4) Yes. (5) The subject is a difficult one. On May 16, 1922, the Council unanimously passed a resolution deprecating the giving of information to the Press about what transpires in Committees, and on April 4, 1928, Mr. Stace appealed to members to co-operate in preventing such leakage. On October 23, 1928, the present Chairman placed the matter before the four standing Committees, but they decided that no further action was necessary. The very next morning, however, the proceedings of even this meeting were published in the Press. Every possible precaution has been taken to ensure that there shall be no leakage from the office.

These publications are at times innocuous, but where they are not they fall into 3 classes :—

- (a) Accurate, but premature publication : On two occasions the publication of draft reports containing the decisions reached by Committees were published in the Press before they were signed by members of the Committees. The Press adversely criticized the recommendations which the Committees, on both occasions, subsequently revised. The Committees must have found this publicity most embarrassing.
- (b) Inaccurate publication : Articles recently appeared in the Press showing an intimate knowledge of the Council's files in circulation about the Kochchikade Scheme, but stating that Government had agreed to lend the Council a million rupees. This figure was an error for half a million, and the public was therefore misled on an important matter. Other articles have appeared indicating that certain decisions of Committees were due to the advocacy of individual Councillors, although such advocacy had, in fact, not been noticeable at the meetings. Such members must have found these inaccurate statements disconcerting, but they have not complained to the Chairman of any actual annoyance therefrom.
- (c) False publications : There have been instances of articles which must have been false to the knowledge of their contributors and can only have been designed to mislead the public and influence the Council or injure some public officer.

It is difficult to take any effective action. Some editors are good enough to seek verification before publishing information with which they have been supplied by informants. Others are not. In two cases, a subsequent official contradiction only resulted in a repetition of the mis-statement in a more virulent form. The Press always reserves to itself the right to publish what it pleases at its own risk and resents any interference, and indeed so long as the proceedings of Committees are confidential, it is not open to the Chairman to affirm or deny the accuracy of what purports to be an account of them. The only practicable course appears to be to leave the matter to the sense of responsibility of the Press and to the discrimination of its readers.

4. Pursuant to notice, Dr. E. V. Ratnam asked the Chairman the following questions :—(1) Whether the by-laws promulgated for the regulation of the registration and licensing of common lodging-houses are being strictly enforced? (2) Whether a register is kept of all common lodging-houses in the city as required by rule (i) of these by-laws? (3) How many common lodging-house licenses have been issued so far for the current year? (4) What action is being taken to see that the requirements contained in these by-laws are duly complied with, especially with regard to regulating the

number of occupants so as to prevent overcrowding? (5) What was the provision made in the original plans and specifications of the Mansergh Drainage Scheme for the efficient treatment at Madampitiya of sewage before its discharge into the Kelani river? (6) Have the original plans been in any way deviated from? If so, why, and to what extent? (7) Have any attempts been made in the light of experiments tried or experience gained in other countries to effect any improvement in the treatment of sewage at the Madampitiya Works? And (8) If so, will the Chairman be pleased to describe them?

The Chairman replied as follows:—(1) The Sanitary Inspectors regularly visit the common lodging-houses to see that the legal sanitary requirements are being carried out. The Chairman is not satisfied, however, that everything necessary and possible is being done under these by-laws and he is looking into the matter. (2) Yes. (3) 10. (4) The Sanitary Inspectors pay regular visits, but some years ago the attempt to prevent overcrowding was abandoned as there were no other houses available for the occupants to go into. (5) and (6) The history of the drainage scheme since the original report by Mr. Mansergh of November 1, 1899, is so obscure and the modifications, both before and after the work began, have been so numerous that these questions as framed cannot be readily answered. The first instalment of the treatment works at Madampitiya was found after erection not to give satisfactory results and the design was modified in the second and again in the third instalment, because of the experience gained on the working of the first. Details are described in a long printed report by Mr. C. L. Cox, dated May 19, 1921, a copy of which will be sent to the questioner. (7) and (8) During the last ten years experiment and investigation elsewhere have shown that better and cheaper results could be obtained by other methods, e.g., by the Activated Sludge Treatment. But, as recently as 1924, in which year both the Chairman and the Municipal Engineer visited the Sheffield works designed, built, and managed by the inventor of this process, it was definitely stated both there and by authorities in the East that the system would not work under tropical conditions. Since then practical experiments in India have caused this opinion to be revised and the results of these experiments is being carefully watched by Dr. Hirst and also by Mr. Ingram, who has been requested by the Council while on leave in England to get into touch with the manufacturers and obtain from them a scheme for an experimental unit.

5. Pursuant to notice, the Hon. Mr. C. H. Z. Fernando, M.L.C., asked the Chairman the following questions:—(1) What would be the total cost to Council of the proposed grant of house allowance to Municipal officers, and what is the total number of officers who will benefit? (2) What is the total number of officers of the—(a) Higher staff; (b) Clerical staff; (c) Inspectorate, and what will the total in house allowances come to in each case? (3) With reference to the statement in the Press that the staff wish to be brought into line with the officers in the Municipalities of Galle and Kandy, will the Chairman submit at this meeting a statement showing the salaries paid to the various grades by the three Municipalities, including in each case allowances paid, if any? (4) What is the total number of officers in the Clerical and Inspectorate services who have (a) been admitted to the Council's service through the Government Clerical Examination, (b) passed the Government Clerical Examination before the said examination was made a qualifying test for the Council's service? (5) How many officers in the Clerical and Inspectorate services are there who have not passed (a) the Senior Cambridge Local Examination, (b) the Junior Cambridge Local Examination or the Elementary School Leaving Certificate Examination?

The Chairman replied as follows:—(1) No such grant has been proposed. The members of the Municipal Service Union requested the grant of a house allowance, but they did not specify any rate. No cost therefore can yet be estimated. The number of officers in the classes who made the request is 476. (2) (a) 42; (b) 248; (c) 98. The higher staff has not asked for an allowance. As already stated the cost of a house allowance cannot be calculated until some rate is fixed. (3) The statement in the Press is incorrect. The staff have not asked to be brought into line with the officers in the Municipalities of Galle and Kandy. A comparative statement showing the salaries and allowances to the various grades of the three Municipalities cannot be furnished, as the grades differ in each of these Municipalities. (4) It is reported that none of the officers of the Inspectorate services have passed the Government Clerical Service Examination. Of the Clerical Service two passed the examination before 1924, when it was made the entrance to this side of the Municipal service, and 37 since. Before 1924 clerical officers were recruited through a somewhat similar examination held departmentally. (5) 196 of the Clerical Service and 70 of the Inspectorate have not passed the Senior Cambridge Local Examination. 92 of the former and 59 of the latter have not passed the other examination mentioned.

6. Pursuant to notice the Chairman moved:—That this Council places on record its deep regret at the death of Mr. Robert Skelton and its appreciation of the extremely valuable services rendered to the Council during his long service to the Council of 26 years, from February 1, 1889, to December, 1915.

The Chairman alluded, in some detail, to Mr. Skelton's record of 26 years' valuable service under the Council, and referred to the works which he had initiated and carried through. The motion was put to the meeting and carried unanimously, all present standing.

6A. Mr. S. W. R. Dias Bandaranaike, with the permission of the Council, moved that a petition from the Fish Vendors regarding the proposal to sell fish by the pound be placed before the Sanitation Committee. Mr. M. L. M. Royal seconded.—Carried.

The Hon. Mr. N. H. M. Abdul Cader moved that the Council do go into Committee to consider items Nos. 7 to 12 (inclusive) on the Agenda. Dr. E. V. Ratnam seconded.—Carried.

Dr. E. V. Ratnam and Dr. S. Muttiah spoke to the amendment.

The Chairman urged that paragraphs (a) and (d) at least should be adopted in order that the present condition of affairs in the department might be dealt with.

Dr. E. A. Coorey's amendment was put to the meeting and *carried*.

The Hon. Mr. N. H. M. Abdul Cader moved that the Council do resume. Dr. E. V. Ratnam seconded.—Carried.

ANNEXURE C.

The Report of the Special Committee regarding Rinderpest.

At the meeting of the Council held on February 6 last, Mr. T. G. Jayewardene, the Member for New Bazaar, asked the following questions:—Will the Chairman be pleased to make a statement in regard to the long continued prevalence of rinderpest in this city giving the number of cases reported each month from March, 1928? Is there any possibility of it being stamped out in the near future?

2. The Chairman replied in detail to these questions and gave a statement of cases each month. Brought up-to-date the cases were as follows:—

1928.		1929.	
March 34	January 675
April 9	February 339
May 90	March 186
June 120	April (to 30th) 81
July 133		
August 247	Total 1,281
September 274		
October 185		
November 326		
December 391		
Total 1,809		

3. On the motion of Mr. Jayewardene later at the same meeting, the Council resolved that a Special Committee, consisting of (1) The Chairman, (2) the Hon. Mr. C. H. Z. Fernando, (3) Dr. E. A. Coorey, (4) Mr. M. L. M. Reyal, (5) Dr. S. Muttiah, (6) Mr. S. W. R. Dias Bandaranaike be appointed "to inquire and report as early as possible as to why the Veterinary Department of this Council has failed to stamp out the epidemic of rinderpest which has been prevalent in this city for the past twelve months, and also to recommend steps immediately necessary to deal with the situation."

4. We, the Committee so appointed, began our inquiry on February 22. At this initial meeting the Veterinary Surgeon submitted a report on the position in regard to rinderpest in the city and a map showing the infected centres in the town. He was also called on to describe the procedure for dealing with an outbreak of rinderpest.

5. The Chairman gave particulars of the detailed instructions drawn up by him in 1924, and the Veterinary Surgeon was questioned as to the carrying out of such procedure.

6. We were of opinion that the detailed instructions were designed adequately to deal with outbreaks of rinderpest and that the department, in theory, professed to carry them out. The Chairman stated that he had made surprise inspections of infected areas and had found the Police Guards and Overseers on duty and conversant with their instructions and with the contacts in their charge. The Chairman had verified the contacts and found them properly segregated.

7. The Low-country Products Association represented to the Chairman that they desired that a delegation from that body should be permitted to lay their views before the Special Committee, and it was understood that the Hon. Mr. W. A. de Silva—who had at one time been the Veterinary Surgeon of this Council—was also willing to help the Committee with his views on the subject. It was decided to invite him, the delegates from the Low-country Products Association, and the Government Veterinary Surgeon to be present at our next meeting.

8. At our meeting on March 21 the following were also present:—The Hon. Mr. W. A. de Silva, M.L.C., Dr. G. W. Sturgess, the Government Veterinary Surgeon, and three representatives of the Low-country Products Association, viz., Messrs. E. C. de Fonseka (Jr.), S. Pararajasingham, and Wace de Niese.

9. The members of the Low-country Products Association urged that the following measures should be adopted:—(a) The stoppage of importation of all cattle from India. (b) The reduction of the import duty on cattle from elsewhere. (c) Unification of control in the whole Province, including the Municipal area. (d) Compulsory inoculation with serum of all cattle in an infected area. (e) A census of all cattle in any area proclaimed an infected area. (f) The prompt attention by a senior officer to all petitions sent regarding the work of the Veterinary Department and its officers.

10. The Hon. Mr. W. A. de Silva was of opinion that—(a) There were too many Inspectors. (b) A conciliatory method was very necessary in dealing with such a situation as that under review. (c) There should be no prosecutions, as the prospect of prosecution tended to concealment of cases. (d) There should be more segregation camps. (e) Stopping of the importation of milch cattle from India was too drastic and calculated to affect the milk supply of the city.

11. Dr. Sturgess suggested—(a) Increased inspection by the Veterinary Department. (b) Increase in the number of Inspectors from four for the whole town to four in each ward. (c) Division of the city into areas, each area to be in charge of a responsible officer with a subordinate staff under him, and he should be responsible for that area. The Headquarters should be in the Town Hall, in charge of the Veterinary Surgeon, to whom all officers in charge of areas should report. (d) More hospitals for infected cattle. (e) The destruction of cases at the start of an outbreak.

He agreed with the conciliatory attitude advocated by the Hon. Mr. W. A. de Silva and stated that it was entirely his own practice.

12. It will be noted that some of the suggestions put forward are contradictory, e.g., with regard to the importation of cattle from India and the number of Inspectors. We were of opinion that—(a) There was no need for the Council to make further representations about the importation of cattle at the present time. (b) There already appeared to be no import duty on any cattle. (c) The unification of control was impracticable, but the two departments already kept adequately in touch. (d) The present system of inoculation did not need amendment and its extension to remote contacts would be prohibitively costly. (e) A census of all cattle in an infected area was already taken. (f) While it was desirable for the staff to do all they could to elicit the confidence of cattle owners, cases of such callous spreading of infection by owners had occurred that some prosecutions were necessary. (g) There was no need at present for the Council to incur the expenses of more segregation camps and hospitals. (h) When an outbreak of rinderpest first occurs at a time when the city is free of disease, the first cases should be shot, as well as all contacts showing a rise of temperature; such action to be taken only with the sanction of the Chairman. The owners should be compensated. If the outbreak spreads such destruction should cease as tending to encourage concealment of cases. (i) The suggestions with regard to the staff could only be dealt with after further inquiries had been made into the present working of the department.

13. At this stage we had, therefore, come to the conclusion that the theory on which the department was working was sound and its professed system of dealing with outbreaks of disease required no appreciable amendment. The crucial question, therefore, presented itself as to whether that system was promptly, faithfully, and energetically put into practice, and whether the Veterinary Surgeon was exercising that continuous and systematic supervision over his staff that would ensure the proper discharge of its duties. We had not been at all favourably impressed by the knowledge of the daily

work of his indoor and outdoor staff shown by Mr. Pate at our meetings. He did not appear to be familiar with their doings or with the activities of his Inspectors. He appeared to be content with a general assurance that he and they were doing their best, but we could not feel satisfied that in fact that was the case. He exhibited in general a lack of "grip" over his department and an entire absence of "drive." It was impossible to check in detail his outdoor work and it was, therefore, decided to examine his office routine and the general administration of his department in order to ascertain whether it was being efficiently run in a manner calculated adequately to deal with its duties both in normal times and in times of outbreaks of disease.

14. It was arranged that the passing of rickshaws for licences should be transferred from the Veterinary Inspectors to the Revenue Inspectors and that from April 5, Muhandiram J. C. Dewendre, Head Clerk of the Public Health Department, should be detailed to examine and report on the office routine and the clerical work of the Veterinary Department. Various returns, files, and documents were called for and scrutinized by the Committee. From this scrutiny of the work of Mr. Pate emerged the following, among other facts:—

- (1) The Inspectors' daily reports even in 1927, before the rinderpest outbreak, were habitually sent in at any time up to a month after the day on which they were due. Those of Messrs. C. D. S. A. Wijenayake and A. H. M. Dias were consistently and disgracefully late. The object for which these reports were presumably initiated, namely, to serve as a check by the Head of the Department on the daily work of his Inspectors was, therefore, defeated. In fact one of the Inspectors, Mr. L. P. P. Gunetilleke, by way of explanation of his remissness in submitting his reports, explicitly stated "I was never strictly instructed to send in my daily report on the same day even at the cost of other important reports and up to this date daily reports were treated as unimportant by the side of cattle disease reports." On being questioned as to this statement, Mr. Pate replied that the Inspectors "knew that they should have done so" (*i.e.*, sent in their reports daily). He had no reply to give to the question as to why this irregularity had been allowed to continue.
- (2) Similarly, the daily and monthly returns from the Rat Depôt, the Slaughter-house, and the Dog Pound, especially the last in 1928, were consistently late.
- (3) It was found that the duty of the Inspectors of reporting on cattle sheds for renewal of licences had been seriously neglected, entailing loss of revenue to the Council. The lists were sent to the Inspectors on October 2 for report by November 30. By January 21, only 82 out of 169 had been reported on. Some reports were not received till April. The chief delinquents were Inspectors Wijenayake and Dias. On being questioned as to the efficiency of these two officers, Mr. Pate said that the former had delayed papers, but he regarded his reports and work in the field as satisfactory. He said the same with regard to Inspector Dias, but that he had not delayed his papers so much as Inspector Wijenayake.
- (4) On February 18, Inspectors Gunetilleke and Wijenayake failed to attend at the Town Hall though that day had been fixed for the passing of rickshaws for licences. Their explanations showed a great want of responsibility on their part and on that of the Veterinary Surgeon.
- (5) The loss of receipt books for cattle ambulance fees, the ordering of an extravagantly unnecessary supply of such books, the failure to keep a record of the issue of them, and the late recovery of such fees, disclosed a great lack of administrative efficiency on the part of Mr. Pate.
- (6) Prosecutions with regard to unlicensed dogs ordered in November, 1928, had not been entered in Court by the Inspectors by April, 1929. Mr. Pate stated in regard to this that all four of his Inspectors were concerned in this delay.
- (7) Two coolies who were condemned by a medical board in April, 1928, had not yet received their gratuities owing to a delay in the Veterinary Department. In regard to this Mr. Pate stated that the fault lay with the Bookkeeper, Mr. D. H. P. Goonetilleke, who had difficulty in tracing the papers in the Municipal Treasurer's Department, owing to the shifting from the old to the New Town Hall, but that the Council had passed the gratuities at its last meeting—exactly twelve months after the coolies were condemned.
- (8) Paragraph 25 of the Salary Scheme states that officers should be compelled to live in or very near to the divisions of the city in which their duties lie. Inspectors La Brooy and Wijenayake were found not to be complying with this rule. An Inspector could not efficiently discharge the duties required of him in his division, Modera, if he lived at Wellawatta, as was the case with Inspector La Brooy. Mr. Pate stated that this matter was "overlooked."
- (9) A list of outstanding papers not attended to by officers of the Veterinary Department was called for. For the period from September 1, 1928, to January, 1929, alone, it comprises some 590 items, of these 410 have been returned since the list was called for. Although the list was started from September 1 there were papers outstanding before that.
- (10) A number of unanswered papers, including letters and queries by the Chairman, dating back to October 25, 1928, were found by the Chairman on the Veterinary Surgeon's table, in his absence on April 19. Mr. Pate's explanation with regard to his neglect to attend to these papers was that he placed them in a box to be taken home for attention but had overlooked them.
- (11) Various complaints against the department contained in petitions or based on articles in the Press were examined.
 - (a) The withdrawal of a prosecution against K. K. Raman disclosed an error of discretion in ever having entered it.
 - (b) A somewhat serious complaint from one Suppiah Koen was endorsed to Mr. Pate for early report on October 4, and he did not endorse it to Inspector Wijenayake till October 17. The Inspector was on sick leave from October 24 to December 13, but he did not send his report till February 20, *i.e.*, after the papers had been called for by this Committee. The report merely stated that there was no truth in the allegations.
 - (c) Mr. Pate's report of February 19, on a petition of January 16 about K. K. Raman's cattle, showed a deplorable ignorance of facts which should have been within his personal knowledge. The report was only sent when called for by the Committee.
 - (d) Petitions from watcher, Richard, disclosed an unsatisfactory state of affairs, but an early report called for from Mr. Pate on July 25 was not received till February 19, and then only when demanded by the Committee.

15. These facts indicated that the Veterinary Department had drifted into a chaotic condition. Mr. Pate was asked what he had to say in explanation and he merely pleaded the overwork caused by the severe outbreak of rinderpest. The Committee cannot but note the evidence of lack of control before that outbreak occurred.

16. At this point we would draw attention to one of the most serious indications of Mr. Pate's lack of a proper sense of his responsibility as a Head of a Department provided by his absences from duty. He obtained leave of absence over the period of last Christmas and New Year, but returned to duty on January 3, before the leave had expired. He failed to give proper instructions to the officer acting for him in his absence. On the evening of March 28, the day before

Good Friday, he obtained leave from the Chairman at his bungalow to go to Nuwara Eliya on a telegram stating that there was illness in his family there. He has mislaid these papers, but he was in consequence absent over the Easter Holidays. It has been discovered that he was again absent in Nuwara Eliya without leave on April 13 and 14. It is true that April 13 was a holiday and April 14 was a Sunday, but his absence from the station without leave was most irregular.

17. On April 17, he left his office stating that he would return after a meal, but by 3 P.M. on April 19 he had not returned nor were his whereabouts known. The Inspectors had not seen him and inquiries at the address he had given his office elicited the information that he had not been heard of there for several days. There was a considerable amount of urgent work awaiting his attention on his office table. On April 20, a medical certificate was received, dated April 19, stating that he had been suffering from dysentery since April 18, and recommending 3 days' leave. He returned to work on Monday, April 22, and stated that he had no means of informing the Chairman or his office earlier of his illness. Although he was in Colombo, he had entirely disappeared from all knowledge of his department for over 2 days.

18. The Committee, therefore, reports to Council:—(a) That the Veterinary Department has gradually drifted into a condition of chaos which began before the last rinderpest outbreak, increased during it, and reached a climax during the sittings of the Committee. (b) That there can be no assurance that so chaotic a department is efficiently putting into practice the procedure adequately laid down for dealing with rinderpest. In passing, it may here be recorded that the vote for prevention of diseases in animals had to be increased in 1928 from Rs. 7,500 to Rs. 73,021.68 and already in 1929 from Rs. 15,000 to Rs. 60,000. (c) That Mr. C. W. Pate has proved himself incapable of conducting his department in normal times; must be held chiefly responsible for the present condition of his department; and is quite incapable of restoring it to order.

19. We have carefully reviewed the measures necessary for dealing with this situation. It had been suggested that the department should be placed under the Medical Officer of Health, but after considering a conclusive report on this suggestion from the Acting Medical Officer of Health, we were compelled to abandon the idea. We then considered in what capacity it would be possible to employ Mr. Pate in future. It was obvious that he could not remain as Head of the Department and we came to the conclusion that no scheme could be devised whereby he could be employed in the department in a subordinate capacity. We, therefore, find that we have no alternative to recommending that the Council should no longer employ him.

20. We, therefore, make the following recommendations to Council:—(a) That Mr. C. W. Pate, the Veterinary Surgeon, be removed from the Council's Service under Rule 13 of the Municipal Pension Rules on the ground of his inability to discharge efficiently the duties of his office, and that he be given the retiring allowance to the full amount for which his length of service would qualify him without any addition under section 5. (Since this recommendation was arrived at Mr. Pate has expressed the wish to be placed before a Medical Board, in order to retire on the grounds of ill-health, the Board has reported that he is suffering from severe neurasthenia and he be given one year's leave for the necessary rest and treatment.) (b) That applications be called for in Europe and India for a Veterinary Surgeon possessing the M.R.C.V.S., qualification, preference being given to applicants who also possess the Diploma of Veterinary State Medicine, the course for which is specially designed to give instruction to Veterinary Surgeons intending to take appointments with public bodies, such as Municipalities, and includes, among other subjects, Meat, Dairy, and Milk Inspection—on a salary of Rs. 7,500, rising by annual increments of Rs. 325 to Rs. 10,500. (c) That an Assistant Veterinary Surgeon possessing the G.B.V.C., qualification be appointed on a salary of Rs. 4,200, rising by annual increments of Rs. 250 to Rs. 7,200. (d) That Government be asked to lend an officer to carry on the duties of the Head of the Department till the appointment of a Veterinary Surgeon and an Assistant Veterinary Surgeon.

DISSENT.

I agree with paragraph 20 (a), but I wish it recorded that the inadequate outdoor staff (4 Inspectors) with which Mr. Pate had to tackle a severe epidemic of rinderpest spread all over the city, as also the by-no-means satisfactory arrangements made by the Council for the indoor work, in that no provision was made for the Chief Clerk to perform the function of an Office Assistant and control the office work during the absence of Mr. Pate in the field, may have contributed, to a certain extent, to the inefficient working of the department, especially during a critical time like the recent epidemic period.

While the lack of "grip," "driving power" and of strict control by the Head of the Department that the Committee discovered during the investigations, in themselves do not call for such a drastic measure, as recommended in paragraph 20 (a), I note with regret that Mr. Pate's behaviour, described in paragraph 16 and 17, displays an unpardonable absence of responsibility on the part of the Head of a Department.

I disagree with paragraph 20 (b) and (c). The recent investigations did not disclose the fact that the present Head of the Department was found wanting in theoretical and practical scientific knowledge, at least so far as the needs of the city are concerned. Perhaps it may be that the other Members of the Committee may have had in their minds, when they recommended paragraph 20 (b), a desire to have as the Head of the Veterinary Department, an officer who could be looked up to as an expert, like Dr. Hirst and Mr. Thyne, whose ability and experience are a credit not only to the Council, but to the whole Island. But in order to satisfy this desire, are we justified in spending a large sum of the rate-payers' money, specially in view of the absence of any evidence during the recent investigations pointing to the need of an officer with such high scientific qualifications.

If, however, it is felt that the department may have the benefit of research work by employing a Veterinary Surgeon with British qualifications, I would submit, that the simplest and cheapest method of securing these benefits is investigations and scientific experiments on cattle diseases common both to Colombo and other parts of the Island. It is not likely that the Government Veterinary Surgeon would try to keep the fruits of his labours to himself. Although the Government and other Municipal Bodies had to make certain payments to Dr. Hirst and Mr. Thyne, who had to leave Colombo, specially to make investigations for them, this Council is not likely to be called upon to make payments for obtaining the results of such scientific investigations carried out by the Government Veterinary Surgeon.

It is abundantly clear from the recent investigations that what is wanting in the Veterinary Department is not scientific knowledge, but administrative ability and firm control of the subordinate staff by the Head of the Department.

Having dealt with the scientific aspect of the question, I shall now proceed to discuss the administrative side.

It is not unlikely that a Veterinary Surgeon with G.B.V.C. qualifications may be found with administrative experience. In the event that such an officer is not available, the Department may be placed under the Medical Officer of Health, who is to act as the administrative Head of the Veterinary Department. Objections have been raised to this proposal by the Acting Medical Officer of Health on three chief grounds :—

(1) That the permanent Medical Officer of Health is on leave, and therefore, this question could not be definitely settled. If so, the matter might be allowed to stand over till his return and the Veterinary Surgeon the Government is asked to lend us may carry on till such time.

(2) That the Medical Officer of Health is not conversant with Veterinary work to undertake this administrative responsibility. I am sure the Acting Medical Officer of Health is not serious in making this observation. The Members of the Sanitation Committee, who are all Medical men with no training in Veterinary work, are very often called upon to advise and instruct the Veterinary Surgeon of the Council in the administration of his department. Of all the officers in the Council's service, the Medical Officer of Health, by his knowledge of sanitation, &c., is the fittest to be the administrative Head of this Department.

A further reason—and that a powerful one—is that during an epidemic like the recent one the services of the trained Sanitary Inspectors in the Health Department may be availed of in dealing with the epidemic, leaving the actual veterinary treatment to the Inspectors of that department. In a serious epidemic it is a physical impossibility for the four Veterinary Inspectors to deal with the entire situation all over the city, and engagement of temporary untrained Inspectors is bound to result in chaos. Neither is it economically sound to increase the number of Veterinary Inspectors permanently, as the present number may be sufficient for practical purposes during times other than those of an epidemic.

(3) That this arrangement will interfere with the work of his own department as an Assistant Medical Officer of Health cannot be spared for this work.

During the investigations Muhandiram Devendre, Chief Clerk of the Health Department, stating that he was willing to undertake the additional duties of an Office Assistant if he is called upon to do so. It cannot be denied that this officer is competent to do this work as well and if this offer is, therefore, accepted, the First Assistant Medical Officer of Health could be relieved of his duties as Office Assistant to the Medical Officer of Health and be called upon to be the Administrative Head of the Veterinary Department, supervising and controlling the work in the office and also in the field during his rounds of inspection of his own Inspectors in the Health Department. It may here be incidentally mention that it is uneconomical to have a highly paid officer of the Council like the First Assistant Medical Officer of Health engaged in performing the duties appertaining to an Office Assistant.

If the Medical Officer of Health still thinks that this arrangement is likely to burden him with extra administrative work, he might be relieved of the duties of being the administrative Head of the Department of Microbiology as the Microbiologist can safely be depended upon to administer his own department satisfactorily.

The provision for an Assistant Veterinary Surgeon in paragraph 20 (c) is a luxury which is by no means justifiable. Paragraph 20 (d) may be amended by deleting the words "and an Assistant Veterinary Surgeon."

DISSENT.

I disagree with the recommendation contained in paragraph 20 (c).

Our inquiry disclosed the fact that the chief source of the trouble lay in the lack of method and slackness in the office work.

I, therefore, feel that the appointment of an Office Assistant recruited from the clerical staff, would serve the purpose better than the appointment of an Assistant Veterinary Surgeon.

Again it was proved during the course of our investigations that our four Inspectors are hopelessly inadequate to cope with the work in a time of crisis. I suggest that the number of Inspectors may reasonably be increased.

To sum up, I think that the difficulties disclosed would be met more effectively by the appointment (instead of an Assistant Veterinary Surgeon) of an Office Assistant, and by increasing the number of Inspectors.

Abstract.—Tiles are made of a mixture of cement and sand and are reinforced with wire netting and iron rods. The tiles are moulded under pressure.

The claims are :—

1. An improved method and process of manufacturing roofing tiles consisting in intimately mixing cement, sand and water substantially in the proportions stated, and moulding in special iron moulds with wire mesh and vertical iron rod between two layers of paste substantially as and for the purposes described and illustrated.

2. In an improved method and process of manufacturing roofing tiles as claimed in claim 1, spreading the cement and sand paste in a layer half an inch thick in a mould and placing a wire mesh of required size and shape and a vertical iron rod of necessary length over it and superimposing another layer of the paste half an inch thick over the wire mesh and iron rod and subjecting the whole to a suitable pressure in a suitable press substantially as and for the purposes described and illustrated.

3. In an improved method and process of manufacturing roofing tiles as claimed in claims 1 and 2, removing the tile so moulded from the mould, allowing to remain on a special plank for twenty-four hours and after the expiration of that period immediately placing in a cold water bath for another twenty-four hours and taking out and colouring if desired substantially as and for the purposes described and illustrated.

4. An improved reinforced concrete roofing tile substantially as described and illustrated.

Improvements in the manufacture of non-splintering glass sheets.

Abstract.—An adhesive film is formed on the surface of at least one of the sheets of glass, or cellulose derivative composition ; excess of solvent is removed and the sheets, which are applied face to face with the film between, are subjected to direct fluid pressure while the film is in an adhesive condition. Means are provided for preventing the entrance of fluid between the sheets.

The claims are :—

1. A process for effecting the interadherence of sheets of glass and of sheets of glass and sheets of cellulose derivative compositions, more especially in the manufacture of non-splintering glass sheets, consisting in forming an adhesive film on the surface of at least one of the sheets of glass or cellulose derivative composition which are to be caused to interadhere, and, after removal of excess of any solvent, subjecting the sheets, applied closely face to face with the film interposed, to direct pressing by a fluid under pressure whilst preventing entry of such fluid between the sheets and whilst the film is in an adhesive condition.

2. A process as set forth in claim 1, in which, prior to pressing air and solvent is exhausted from between the sheets.

3. A process as set forth in claim 1 or 2, in which the compound sheet is shielded from the pressing fluid by enclosure in a bag or between supple diaphragms.

4. A process as set forth in claim 1, 2, or 3, in which the adhesive film is formed by coating the glass sheets or the interposed or applied cellulose derivative composition sheet with a solution of india rubber or other natural or synthetic resin.

5. In a process as set forth in claim 1, 2, or 3, the interposition of coloured or printed strips between the sheets.

6. A process as set forth in claim 1, 2, or 3, in which effective adherence of one face of a sheet of cellulose derivative composition is prevented by covering said face with a non-impairingly adhered sheet of inert impervious material, such as glued-on metal foil, for instance tin foil.

7. A compound sheet of glass and cellulose derivative composition manufactured as set forth in claim 1, 2, 3, or 6, in which an exposed face of the cellulose derivative composition is coated with a hard varnish.

8. The improved process of manufacturing compound sheets of glass and compound sheets of glass and cellulose derivative composition, and the product thereof, substantially as described.

Method of and means for cleaning Fly-infested Animals.

Abstract.—A shed is provided with internal partitions to cause the animals to take a circuitous path. The central passage is very dark and has brushes projecting on all sides to disturb the flies. At the rear end of the passage is a gauze funnel connected to a gauze trap. The funnel is light and the flies naturally tend to move towards the light so that they are trapped and can then be destroyed.

The claims are :—

1. Method of cleaning fly-infested animals, which consists of driving the animals through a shed or other chamber containing a fly-disturbing device located in a darkened area thereof to remove and disturb the flies upon and following the animals and trapping said flies in a trap located in suitable relation to said brushing device but in a lighter area to which the disturbed flies naturally tend.

2. Means for effecting the method of cleaning fly-infested animals according to claim 1, comprising a structure so built and arranged that light is shut off from an area or zone containing brushing or equivalent devices, and a lightened area or zone is provided by an aperture which induces the flies into a trap located in the structure or its vicinity.

3. Means for cleaning fly-infested animals as in claim 2, comprising a shed or chamber having partitions so disposed in its interior as to form a circuitous path which fly-infested animals are caused to traverse, the disposition of said partitions producing a dark area or zone, an aperture admitting light which attracts the disturbed flies, a light admitting funnel connecting said aperture with a trap or destroying chamber, and brushing devices positioned in the dark area or zone of the shed or chamber for brushing animals which are caused to pass there through.

4. A structure with equipment for cleaning fly-infested animals as claimed in claims 2 and 3, constructed substantially as herein described and as illustrated in the accompanying drawings.

Improvements in or relating to the preparation of coconut fibres for spinning and weaving.

Abstract.—The product is improved if the fibres are flattened by pressure while having a moisture content of 50 per cent. This wet fibre however tends to lick on the drawing rollers. In this invention the fibre is worked in the ordinary condition over the preparing machinery and is moistened with water or starch just before spinning. The drawing rollers of the gill spinning frame are fitted with gravity operated scrapers. The sliver is subjected to a pressure about ten times the normal in a card or drawing frame delivery roller. The moistening means are automatically started and stopped with the roller.

The claims are :—

1. A method of utilizing coconut fibre for spinning according to which the fibre is worked in an air-dried condition over the preparing machinery and is moistened to the desired extent just before spinning.

2. A method as claimed in claim 1, according to which coconut fibre, say, of about 25 per cent. total moisture, is worked over preparing machinery such as cards and drawing frames or the like having abnormal pressure on the delivery rollers and the sliver of fibre is then moistened at the final delivery rollers prior to being subjected to a spinning process.

3. Apparatus for carrying into effect a method according to claim 1 or 2, in which cast iron or like rollers provided with scrapers are employed for the drawing rollers of a gill-spinning frame to facilitate the spinning of the fibre in a moist condition.

4. Apparatus according to claim 3, in which starch water is added to the fibre prior to its passage to a spinning frame.

5. A method according to claim 1 or 2 or apparatus according to claim 3 or 4 in which the sliver is subjected to a heavy pressure amounting, say, to about ten times the normal pressure in a card or drawing frame delivery roller.

6. Apparatus for spinning fibre in a moist condition according to claim 3, 4, or 5 in which means operating the starting device of a drawing frame also controls a service of starch water or other liquid to the delivery roller of said frame while said roller is arranged to exert a heavy pressure on the sliver.

7. Apparatus for spinning fibre according to claim 3, 4, or 5 in which a drawing roller of a gill-spinning frame is provided with a gravity controlled scraper fitted to the means which exert pressure on the roller so that the scraper follows the movements of the roller.

8. Apparatus for functioning and operating in accordance with the methods hereinbefore described with reference to the diagrammatic figures 1, 2, and/or 3 of the accompanying drawings.
