TREATY OF COMMERCE AND NAVIGATION BETWEEN
GREAT BRITAIN AND NORTHERN IRELAND
AND THE REPUBLIC OF PANAMÁ.

NOTICE is hereby given that the stipulations of the Treaty of Commerce and Navigation between Great Britain and Northern Ireland and the Republic of Panamá signed on September 25, 1928, and set out in the schedule hereto shall in accordance with Article 10 thereof be deemed to have applied to Ceylon as from June 10, 1930, when notice was given to the Government of Panamá of the desire of His Majesty's Government in the United Kingdom that it should so apply.

By His Excellency's command.

Colonial Secretary's Office, B. H. BOURDILLON,
Colombo, December 13, 1930. Colonial Secretary.

SCHEDULE.

Treaty of Commerce and Navigation between His Majesty in respect of Great Britain and Northern Ireland and the President of the Republic of Panamá, with Protocols.

Panamá, September 25, 1928.

[Ratifications exchanged at Panamá, April 8, 1929.]

His Majesty the King of Great Britain, Ireland and the British Dominions beyond the Seas, Emperor of India, and the President of the Republic of Panamá;

Desiring to facilitate and extend still further the trade and commerce of their respective countries and to regulate by means of a treaty the commercial relations between Great Britain and Northern Ireland and such other territories under the sovereignty, protection or authority of His Britannic Majesty as he may desire should be bound by the Treaty on the one side, and Panamá on the other side;

Have resolved to conclude a treaty for this purpose and have appointed as their plenipotentiaries:

His Majesty the King of Great Britain, Ireland and the British Dominions beyond the Seas, Emperor of India,

For Great Britain and Northern Ireland, all British Colonies and Protectorates, and all mandated areas administered by his Government in Great Britain:

Major Charles Braithwaite Wallis, his Envoy Extraordinary and Minister Plenipotentiary to the Republic of Panamá;

The President of the Republic of Panamá:
Señor Doctor Don Horacio F. Alfaro, Secretary of State for Foreign Relations;

Who, having communicated their full powers, found in good and due form, have agreed as follows:—

ARTICLE 1.

The territories of the High Contracting Parties to which the present Treaty applies are, on the part of His Britannic Majesty, Great Britain and Northern Ireland and the territories in respect of which notification of accession is given under Article 11 or notice of application is given under Article 10.

ARTICLE 2.

The rights conferred by the present Treaty upon subjects of His Britannic Majesty shall be enjoyed equally by all persons under His Britannic Majesty's protection.

ARTICLE 3.

The subjects or citizens of either of the High Contracting Parties, including companies and other associations organised in accordance with the laws in force in the territories of that High Contracting Party, shall enjoy unconditionally in every respect in the territories of the other High Contracting party treatment not less favourable than that accorded to the subjects or citizens and the companies and other associations of any other foreign country. This provision shall extend to all matters of commerce and navigation, the establishment and carrying on of any description of business, the treatment of commercial travellers and their samples, the exercise of professions or occupations, residence and the acquisition and disposal of property.

ARTICLE 4.

The subjects or citizens of either of the High Contracting Parties, including companies and other associations organized in accordance with the laws in force in the territories of that High Contracting Party, shall not be subject in the territories of the other High Contracting Party, in respect of their persons, property, business, commerce, industry, profession, occupation or any other matter, to taxes, general or local, other or greater than those imposed

on the subjects or citizens or companies and other associations of the second Contracting Party or of the most favoured foreign country.

Such subjects or citizens, companies and other associations of either of the High Contracting Parties are authorised in the territories of the other to exercise their rights and appear in the courts either as plaintiffs or defendants, subject to the laws of such other Contracting Party, without other conditions, restrictions or charges than those imposed on native subjects or citizens, companies and associations, or on those of the most favoured foreign country.

ARTICLE 5.

Goods produced or manufactured in the territories of either of the High Contracting Parties shall enjoy unconditionally in the territories of the other treatment at least as favourable as that accorded to goods produced or manufactured in any other foreign country. In particular they shall not be subject on importation or subsequently to other or higher customs duties or charges, or to other prohibitions or restrictions, than those to which similar goods produced or manufactured in any other foreign country are subject.

ARTICLE 6.

Each of the High Contracting Parties undertakes to treat in every respect the vessels of the other not less favourably than national vessels or the vessels of the most favoured nation. This equality of treatment shall extend to the right to import or export any goods which may be legally imported or exported and to carry passengers outwards and inwards and to any duties or charges levied on the vessels, their cargoes and passengers, and also to facilities for the stationing, loading, and unloading of vessels in ports, docks, quays, harbours, and roadsteads, as well as to tonnage or other dues, charges and payments of all kinds levied on ships, such as sanitary, port, quay, harbour, pilotage, quarantine, lighthouse and other similar dues levied in the name of or for the profit of the Government, public functionaries, private individuals, corporations or establishments of any kind.

The High Contracting Parties undertake that imported or exported goods shall not be subjected anywhere in their territories to any differential due, surtax, charge or disability of any kind based on the flag of the ship by which the goods are imported or exported and to the detriment of the flags of either of the High Contracting Parties.

Nothing in this Article shall prevent either of the High Contracting Parties from reserving the coasting trade in whole or in part to national vessels.

ARTICLE 7.

The Chambers of Commerce, as well as such other Trade Associations and other recognised Commercial Associations in the territories of the High Contracting Parties as may be authorised in this behalf, shall be mutually accepted as competent authorities for issuing any certificates that may be required for commercial travellers.

Articles imported by commercial travellers as samples shall, in the territories of each of the High Contracting Parties, be temporarily admitted free of duty on compliance with the Customs regulations and formalities established to assure their re-exportation or the payment of the prescribed customs duties if not re-exported within the period allowed by law. But the foregoing privilege shall not extend to articles which, owing to their quantity or value, cannot be considered as samples, or which, owing to their nature, could not be identified upon re-exportation.

The marks, stamps or seals placed upon such samples by the Customs authorities of one of the High Contracting Parties at the time of exportation and the officially attested list of such samples containing a full description thereof issued by them shall be reciprocally accepted by the Customs officials of the other as establishing their character as samples and exempting them from inspection except so far as may be necessary to establish that the samples produced are those enumerated in the list. The Customs authorities of either of the High Contracting Parties may, however, affix a supplementary mark to such samples in special cases where they may think this precaution necessary.

ARTICLE 8.

Nothing in this Treaty shall preclude the right of either of the High Contracting Parties to enforce special sanitary or other provisions for the purpose of securing the safety of persons or the protection of animals and plants against diseases and pests or regulating the trade in arms and ammunition under general provisions of law, or the trade in any particular article under the provisions of any General International Convention which is binding on either of the High Contracting Parties, or to apply special measures to articles enjoying a bounty in the territories of the other High Contracting Party.

ARTICLE 9.

Nothing in this Treaty shall be deemed to confer any right or to impose any obligation in contravention of any general International Convention which is binding on either of the High Contracting Parties.

ARTICLE 10.

His Britannic Majesty may, through His Britannic Majesty's Representative at Panamá, give notice of his desire that the stipulations of the present Treaty shall apply to any British Colony or Protectorate or to any mandated area administered by his Government in Great Britain, and from the date of the said notice the Treaty shall be in force as between Panamá and the territory specified in such notice.

As regards any such territory in respect of which the stipulations of the present Treaty shall have been made applicable under this Article, either of the High Contracting Parties shall have the right to terminate the application of the said stipulations at any time on giving twelve months' notice to that effect.

ARTICLE 11.

His Britannic Majesty may by a notification made by His Britannic Majesty's Representative in Panamá accede to the present Treaty in respect of any of His Majesty's self-governing Dominions or India.

After the expiry of a period of nine years from the coming into force of the present Treaty, either of the High Contracting Parties may, by giving twelve months' notice, terminate the application of the Treaty to any territory in respect of which notification of accession has been given under paragraph 1 of this Article.

Any notification made under paragraph 1 of this Article may include any dependency or mandated area administered by the Government of the territory in respect of which notification of accession is given; and any notice given under paragraph 2 shall be applicable to any such dependency or mandated area which was included in such notification of accession.

ARTICLE 12.

So long as in any territory referred to in Articles 10 or 11 which is not bound by the present Treaty goods produced or manufactured in Panamá are accorded treatment as favourable as that accorded to goods produced or manufactured in any other foreign country, goods produced or manufactured in such territory shall enjoy in Panamá complete and unconditional most-favoured-nation treatment.

ARTICLE 13.

The present Treaty shall be ratified and the ratifications shall be exchanged at Panamá as soon as possible. It shall come into force immediately on ratification and shall be binding during a period of ten years from the date of its coming into force.

In case neither of the High Contracting Parties shall have given notice to the other twelve months before the expiration of the said period of ten years of its intention to terminate the Treaty, it shall remain in force until the expiration of one year from the date of such notice.

In the absence of an express provision to that effect, a notice given under the second paragraph of this Article shall not affect the operation of the Treaty as between Panamá and any territory in respect of which notification of accession has been given under Article 11.

In faith whereof the above-named Plenipotentiaries have signed the present Treaty and have affixed thereto their seals.

Done at Panamá, in duplicate, in the English and Spanish languages, the 25th day of September, 1928.

(L.S.) C. BRAITHWAITE WALLIS.
(L.S.) H. F. ALFARO.

Protocol.

At the moment of signing the Treaty of Commerce and Navigation of this day's date the undersigned Plenipotentiaries of His Britannic Majesty and of the Republic of Panamá agree as follows:—

The said Treaty of Commerce and Navigation shall not apply to the Canal Zone; nor shall the most-favoured-nation provisions of the said Treaty be invoked by His Britannic Majesty in respect of stipulations agreed to or which may in the future be agreed to between Panamá and the United States of America for the construction, maintenance, operation, sanitation or protection of the Panamá Canal.

The present Protocol shall be ratified and the ratifications shall be exchanged at Panamá at the time of the ratification of the said Treaty of Commerce and Navigation or as soon as possible thereafter. It shall come into force immediately on ratification.

In witness whereof the respective Plenipotentiaries have signed the present Protocol and have affixed thereto their seals.

Done at Panamá in duplicate, in the English and Spanish languages, the 25th day of September, 1928.

(L.S.) C. BRAITHWAITE WALLIS.
(L.S.) H. F. ALFARO.

Protocol.

At the moment of signing the Treaty of Commerce and Navigation of this day's date the undersigned Plenipotentiaries of His Britannic Majesty and of the Republic of Panamá agree as follows:—

(1) Goods produced or manufactured in the territory of His Majesty the King of Iraq shall enjoy in Panamá complete and unconditional most-favoured-nation treatment so long as goods produced or manufactured in Panamá are accorded in the territories of His Majesty the King of Iraq treatment as favourable as that accorded to goods produced or manufactured in any other foreign country.

(2) If at any time after the said Treaty of Commerce and Navigation has come into force His Majesty the King of Iraq shall desire to accede thereto, and a notification to that effect shall be deposited on his behalf with the Government of Panamá, the provisions of Articles 2 to 9 (inclusive) of the said Treaty shall apply as from the date of the said notice between Panamá on the one part and His Majesty the King of Iraq on the other, and shall continue so to apply until the expiration of one year from the date of a notice of termination given on behalf of either of these High Contracting Parties.

(3) The present Protocol shall be ratified and the ratification shall be exchanged at Panamá at the time of the ratification of the said Treaty of Commerce and Navigation or as soon as possible thereafter. It shall come into force immediately on ratification.

In witness whereof the respective Plenipotentiaries have signed the present Protocol and have affixed thereto their seals.

Done at Panamá in duplicate, in the English and Spanish languages, the Twenty-fifth day of September, 1928.

"THE LOCAL BOARDS' ORDINANCE, 1898."

BY-LAWS made by the Local Board of Puttalam, under section 56 of "The Local Boards' Ordinance, 1898," and confirmed by the Governor, with the advice of the Executive Council, in terms of section 57 of the said Ordinance.

By His Excellency's command,

Colonial Secretary's Office, B. H. BOURDILLON,
Colombo, December 17, 1930. Colonial Secretary.

BY-LAWS.

(1) No horses, cattle, sheep, goats, or swine shall be tethered or grazed upon any waste or other land not being private property within the area bounded as follows:—

North.—From the Puttalam lagoon to and along 2nd Cross street, Marikar street, Poles road, Aruradhapura road.

East.—Approach road to hospital and its continuation in a straight line.

South.—Service road.

West.—Puttalam lagoon.

(2) Any horse, cattle, sheep, goat, or swine grazed upon any waste or other land not being private property, situated within the limits of the Local Board but outside the area mentioned in rule 1 above, shall be effectively tethered or caused to be tethered by the owner who shall be personally responsible for any trespass on the prohibited area, within the boundaries described in the preceding rule, by such animal breaking loose or not being effectively tethered.

(3) Any person thereto authorized in writing by the Chairman may seize any horse, sheep, goat, or other animal which he may find on any waste or other land not being private property, in contravention of by-laws Nos. (1) and (2) above.

(4) Any animal so seized may be released on payment of a fine of one rupee, together with the charges leviable for occupation of the pound; if it has been impounded, and the value of any damage done to any property belonging to the Board.

(5) Any animal so seized, and not claimed or released by the owner as above within 10 days, may be sold by public auction, and after the recovery of the fine, poundage, and any other expenses connected with the seizure or sale, and the value of any damage as above, the balance proceeds of sale shall be paid to the *bona fide* owner of such animal at the time of the trespass.

(6) The by-laws made under section 56, sub-section (18) of the Local Board Ordinance, No. 13 of 1898, and published in *Government Gazette* No. 6,047 of April 7, 1905, are hereby rescinded.

SELECTION OF A CEYLONESE CANDIDATE FOR APPOINTMENT AS POLICE PROBATIONER.

THERE will be a vacancy in 1931 in the Ceylon Police Force in the rank of Probationary Assistant Superintendent to be filled by the appointment of a Ceylonese Probationer.

2. As recommended in the report of the Select Committee of the Legislative Council on the Police Force (Sessional Paper XI.—1926); Ceylonese candidates for appointment as Police Probationers will undergo the same qualifying literary examination as candidates resident in England and will be selected, subject to confirmation by the Secretary of State for the Colonies, by His Excellency the Governor.

3. Instructions have been received from the Secretary of State that the qualifying literary examination to be held by the Civil Service Commissioners will commence on June 23, 1931. Arrangements are being made for examination papers to be sent by the Civil Service Commissioners to Ceylon so that Ceylonese candidates may take up the examination in Ceylon.

4. **Method of Application.**—(a) Candidates must first obtain the permission of His Excellency the Governor to sit at the examination. Applications on forms to be obtained from the Colonial Secretary or from the Inspector-General of Police must be sent to reach the Colonial Secretary not later than January 31, 1931. No applications received after that date will be considered.

(b) Forms must be filled in as follows:—The applicant is required to state full particulars regarding his career and qualifications; he must name on the form two referees who will answer from personal knowledge for his character and capacity. Originals and copies of testimonials (not more than six) will be attached to the form. He must also enclose his birth certificate (or a certified copy), the originals and copies of certificates of any examinations passed by him, and a certificate from a qualified medical practitioner giving his height, chest measurement, with any special remarks as to physical development, &c. The originals of the testimonials and the birth and examination certificates will be inspected and returned to the candidate while the copies will be retained for record in the Secretariat.

(c) Applications from candidates already in Government Service should be forwarded through the Heads of the Departments in which the applicants are serving.

5. **Conditions of Eligibility.**—(i.) Every candidate must furnish satisfactory proof—

(a) That he has passed the London Matriculation Examination, the Cambridge Senior Examination with exemption from the London Matriculation Examination.

(b) That he is a natural-born British subject born in Ceylon of parents permanently resident in the Island.

(c) That on August 1, 1931, at least 19 years and not more than 26 years have elapsed since the date of his birth; provided that in the case of an Inspector or Sub-Inspector in the Ceylon Police who joined the Force as a Sub-Inspector during the period 1919–1926, the proof required will be that on August 1, 1931, at least 19 years and not more than 30 years have elapsed since the date of his birth.

(d) That he is of good moral character.

(ii.) Candidates must be unmarried, except in the case of an Inspector or Sub-Inspector who joined the Force as a Sub-Inspector during the period 1919–1926.

(iii.) Candidates must be of sound constitution, and physically fit for service in any part of the Island. They must also be able to distinguish the principal colours.

Note.—No person will be deemed eligible as a candidate who has not furnished satisfactory proof that he fulfills the conditions set forth above.

6. **Permission to Sit at the Examination.**—Candidates who have complied with the above instructions will be informed in due course whether they have been granted permission to sit at the examination. The grant of such permission will be at the absolute discretion of the Governor, and he will not be prepared to give reasons for his decision on any application.

7. **Selection after the Examination.**—The Governor will, subject to confirmation by the Secretary of State, select a candidate to fill the existing vacancy from amongst those who are pronounced by the Civil Service Commissioners to have qualified in the literary examination.

The candidate will be selected who appears to the Governor to be most suitable on grounds of character, personal fitness, general education and subsequent training and experience (if any).

Candidates must be prepared to attend at the Secretariat, if required, at their own expense, to reply to any inquiries which may be considered necessary. Qualification in the literary examination will not in itself imply ultimate selection for an appointment.

The selection of the candidate will be at the absolute discretion of the Governor, subject to the approval of the Secretary of State, and he will not be prepared to give reasons for his decision on any application. Attempts to influence his selection through persons who are not personally well acquainted with the candidate are useless, and will be regarded as indicating that the candidate himself does not consider his qualifications sufficiently good to justify his appointment on his own merits. *They can in no case operate to the advantage of a candidate, and may lead to his disqualification.*

8. **Reserve List.**—When the selection of a candidate to fill the existing vacancy has been completed, it will be at the discretion of the Governor, subject to the approval of the Secretary of State, to place certain of the unsuccessful candidates (but only candidates who have qualified in the literary examination) on a reserve list. From this list candidates may be selected to fill any further vacancies that might occur during the course of the year 1931. No indication can be given, however, as to the possible occurrence of such vacancies.

9. **Medical Examination.**—The selected candidate will be required to undergo a medical examination as to his physical fitness for service as a Police Officer in any part of the Island. Final selection will depend upon successfully passing this medical examination.

10. The following is a list of the subjects in which candidates will be examined:—

I.—SCHEME OF EXAMINATION.

PART I.

Subject.	Maximum Marks.
English ..	200
General Knowledge ..	100
One of the following:—	
Modern Language ..	100
General History ..	
Elementary Mathematics ..	
Everyday Science ..	

PART II.

Latin ..	300
Greek ..	300
French ..	300
German ..	300
Modern History ..	300
Lower Mathematics ..	300
Higher Mathematics ..	300
Physics ..	300
Chemistry ..	300
Biology ..	300

A candidate may not offer more than two subjects in Part II.

Except as provided below in the case of languages no candidate may offer similar subjects in Parts I. and II. That is to say, a candidate taking Physics or Chemistry or Biology may not offer Everyday Science; a candidate taking Lower or Higher Mathematics may not offer Elementary Mathematics; and a candidate taking Modern History may not offer General History. A candidate may not offer the same language in Part I. and Part II. nor may he offer more than two foreign languages in all.

Modern Languages in Part I.—Any one of the following modern languages may be offered: French, German, Italian, Spanish, Russian.

In addition to the above-named subjects a candidate may take up either freehand drawing or geometrical drawing, each of which carries 50 marks.

A candidate must obtain such an aggregate of marks in the whole examination as to satisfy the Civil Service Commissioners.

The syllabus of individual subjects will be the same as that for the Navy, Army, and Air Force Entrance Examination, except that candidates in Physics, Chemistry, and Biology in Part II. will not be required to produce evidence of laboratory training. For candidates examined in Ceylon the laboratory tests in Lower and Higher Mathematics will be omitted, the maximum marks for the subjects being allotted to the written papers.

Fee.—Each candidate undergoing the examination should pay a fee of £5, which amount is due to the Civil Service Commissioners, and an additional local fee of Rs. 15 to meet the cost of supervision and other incidental expenses in connection with the examination. Instructions as to the manner in which the fee is to be paid will be sent with the Order for Examination which, together with a Time Table of the Examination, will be forwarded in time to reach candidates who have been nominated about a fortnight before the examination.

II.—SYLLABUS OF SUBJECTS.

1. **ENGLISH:** The tests in English will be designed to value understanding and command of the language. No essay will be asked for.

Précis.—A passage will usually be set for summary or précis. Limits may be prescribed for the number of words that the summary or précis should contain. Failure to keep within the prescribed limits will entail loss of marks. It is useful for the candidate to have some idea of the number of words he is accustomed to write on a foolscap page.

Handwriting.—In English, and in every other subject, deductions for handwriting which is at all difficult to read will be made up to 10 per cent. of the maximum mark. An officer in the field may have to write under great difficulties, and his report may have to be read in a poor light by another officer tired out by a long day's work. If communications are to take place accurately in those circumstances, it is essential that under mere examination conditions the handwriting should be absolutely legible. Accordingly, perfection of legibility is the criterion; no preference will be accorded on other grounds to any particular style of handwriting.

Spelling.—In English, and in every other subject, deductions for bad English spelling will be made up to 10 per cent. of the maximum mark. A spelling recognized by any standard English dictionary is accepted as correct.

English composition is taken into account in all subjects.

2. **GENERAL KNOWLEDGE:** The questions in General Knowledge will be designed to test the knowledge and interest of candidates (1) in the more important topics of the day, (2) in literary, geographical, and other questions.

4A. **MODERN LANGUAGE:** The test will include translation from the foreign language; set composition (in which an English passage is given to be put into the foreign language), and free composition (in which the

candidates write in their own words on a prescribed subject). The candidates' translation must not only show that they understand the original; it must also be expressed in good English.

Arabic and Urdu should be written in Arabic characters. For German composition candidates may use either German or English characters.

4B. **GENERAL HISTORY:** The questions will be designed to test such knowledge and understanding of the history of this country as a boy of the United Kingdom may be expected to have acquired at school by the age of 18. There will be no limit of time; attention will be confined to the great men and the great events, the great changes and the great movements, and the broad features of the general life. So much knowledge of foreign history is desirable as is necessary in order to understand the action of this country abroad and the action of other countries upon this country, and the knowledge of geography necessary for the comprehension of history will be tested. Answers must be strictly directed to the questions asked; irrelevance will be severely penalized. The questions will not be questions upon details, and exact dates will only be expected for the great landmarks; but accurate knowledge of the outlines will be expected, and illustrative detail strictly relevant and correctly presented will receive credit. A very liberal choice of questions will be allowed.

4C. **ELEMENTARY MATHEMATICS: 1. ARITHMETIC,** including problems about money, imperial and metric weights and measures, mensuration, percentages, and averages.

Knowledge of recurring decimals, scales of notation, stocks and shares, foreign exchange, and true discount is not required. Contracted methods are not required; when an approximate result is required candidates may work with all the figures supplied or make legitimate discards at any stage. The arithmetical rules for square and cube root are not required.

An arithmetical result may be asked for to a certain approximation, or the data may themselves be only approximate. In such a case, to give the result to a greater degree of accuracy than is asked for or is justified by the data will entail loss of marks. Candidates are expected to understand such phrases as "three significant figures," "four-figure accuracy."

2. A sound appreciation of the following properties of plane figures will be expected, but proofs of these properties will not be asked for:—

Properties of angles at a point, *e.g.*, that vertically opposite angles are equal. Congruence properties of triangles, *i.e.*, the nature and number of the conditions that determine a triangle. The conditions of similarity of two triangles, *i.e.*, the conditions which determine the shape of a triangle. The following plane loci: the locus of a point equidistant from two fixed points, and the locus of a point within a given angle at equal perpendicular distances from the arms of the angle. The condition of the parallelism of two straight lines in its various forms. Proportion properties of parallels, the treatment of incommensurables not being required. Perimeter and area of a circle. Surface-areas and volumes of prisms, cylinders, pyramids, cones, with such simple problems on these figures as can be solved by the geometrical properties mentioned in this and the next paragraph. Surface-area and volume of a sphere. The representation of the simplest three-dimensional figures by means of plan and elevation.

3. Of the following properties a sound appreciation will be expected, and proofs may be asked for. Candidates may base their proofs on the properties mentioned in the preceding paragraph or on other grounds:—

The angle-sum property of a triangle. Properties of the parallelogram. Solution of right-angled triangles by drawing and by the use of tables of trigonometrical functions. Pythagoras' theorem and the converse. Areas of triangles, quadrilaterals, &c. Simple properties associated with symmetry. Simple properties of circles, *viz.*, angle properties, rectangle properties, properties of chords and tangents. Similar figures. Measurements suitable for determining the position of a point in a plane, or in space. Measurement of the angle between two planes, and between a line and a plane.

4. Algebraic calculation in connection with the above geometrical properties and with other problems, including: the expression of an arithmetical generalization in a formula, the interpretation of a formula, evaluation of a formula for numerical values of its variables; linear and quadratic equations with numerical coefficients; simple instances of varying magnitudes, statistical and mathematical, treated by means of graphs and otherwise; inversion of a formula (or change of the subject of a formula); use of logarithms; gradient of a graph.

A knowledge of algebraic square root and the theory and use of negative and fractional indices will not be expected. Questions will not be set upon lowest common multiple or highest common factor. Little skill is expected in algebraic manipulation, as, for instance, in long multiplication and division, factorization, transformation of expressions, identities, inequalities, and the simplification of fractions; only such manipulation will be expected as arises naturally out of simple problems.

5. *Mode of treatment.*—Grasp of elementary principles and readiness in practical application will be looked for. Numerical results should be worked out to a few significant figures. Candidates may be required to apply rough checks of the accuracy of particular results; they may also save themselves from blunders by applying checks even when not demanded. No great skill in the use of drawing instruments will be expected, but slovenly work will entail loss of marks.

Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations like lb. and cm. is permissible; a calculation can often be exhibited quite clearly without the use of words, and a tabular form is often appropriate; but incomplete sentences such as are appropriate in telegrams will involve loss of marks.

There will be no laboratory test.

4D. EVERYDAY SCIENCE: The questions will be on matters mainly physical, chemical, biological, hygienic. Such knowledge will be expected as a boy is likely to possess who has studied the subject intelligently at school up to the age of 16 and has kept his eyes open. A liberal choice of questions will be given.

There will be no laboratory test.

5. LATIN: Translation and prose composition. The candidates' translation must not only show that they understand the original; it must also be expressed in good English.

6. GREEK: As for Latin.

7. FRENCH: Translation from French; set composition; free composition; conversation. The candidates' translation must not only show that they understand the original; it must also be expressed in good English. The oral test will carry 75 marks.

8. GERMAN: As for French. For German composition candidates may use either German or English characters.

9. MODERN HISTORY: British history, including British colonial history, from 1660 to the present day, together with European history during the same period. European history will be treated mainly as affecting British history, and with special reference to the following subjects:—Decline of the power of Holland. The ambitions of Louis XIV. The rivalry of England and France for colonial empire in India and America. Frederick the Great and the rise of Prussia. The French Revolution and the First Empire. The unification of Italy. Bismarck and the Union of Germany. The action of Russia in the Near East, Middle East, and Far East. The causes and results of the Great War (1914-1918).

Although a fixed date is given for the beginning of the period, candidates will be expected to know in general outline how the initial position was reached. Such knowledge of geography as is necessary to make the history comprehensible will be required.

All questions, whether relating to European or to British history, will deal with the broad outlines of the subject and no more knowledge of detail will be expected than is necessary for the comprehension of the outlines.

Mathematics. Subjects 10, 11.—Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations like lb. and cm. is permissible; a calculation can often be exhibited quite clearly without the use of words, and a tabular form is often appropriate; but incomplete sentences such as are customary in telegrams will involve loss of marks.

10. LOWER MATHEMATICS: *Arithmetic.*—Arithmetic, including simple methods of dealing with statistical data. The mensuration of plane areas and simple solid bodies. The use of callipers, vernier and other simple measuring instruments. The determination of area, volume and density by displacement, by weighing, &c.

Geometry.—The substance of Euclid's six books. Elementary ideas in solid geometry treated informally; straight lines, planes, rectangular blocks, wedges, pyramids, cylinders, cones and spheres. The construction of plans and elevations.

Algebra.—Formulas, their evaluation and transformation; the notion of a function; rate of change. The gradient and area of a graph. The solution of equations, linear and quadratic, simple and simultaneous. The use of logarithms; the meaning and simplest properties of negative and fractional indices. Arithmetical and finite geometrical sequences.

Trigonometry.—Solution of plane triangles; graphs of trigonometrical functions; use of four-figure tables; addition theorems.

Mechanics.—The lever, the inclined plane, the pulley, the balance and other simple machines; the composition and resolution of forces in one plane; moments; simple graphical methods; simple cases of equilibrium; properties of the centre of gravity; work; velocity ratio, mechanical advantage, and efficiency of a machine.

The composition and resolution of velocities and acceleration in one plane; rectilinear motion under uniform acceleration; the conservation of linear momentum; work, energy and power; graphical treatment of varying velocities, accelerations and forces.

Proofs of the parallelogram and triangle of forces, and of the principle of moments will not be asked for.

General.—In the absence of special instructions that a question is to be answered by a particular method, candidates are at liberty to choose their method from any branch of mathematics.

The examination in Lower Mathematics will include a laboratory test, which will carry 60 marks.

11. HIGHER MATHEMATICS: Includes Lower Mathematics, together with:—

Geometry.—Elements of solid geometrical drawing.

Equations to the straight line, circle, ellipse, parabola, hyperbola, and other simple curves, in rectangular co-ordinates. Acquaintance is expected only with the simplest theorems about the curves. Candidates are free to use the methods of the infinitesimal calculus. Polar co-ordinates; deduction of the equation of a curve from simple data; drawing a curve from its equation.

Co-ordinate geometry of three dimensions up to the equations of the plane and the straight line.

Algebra.—Elementary knowledge of the use of indeterminate coefficients, especially with partial fractions. Easy computation, including the numerical solution of equations.

Calculus.—Differentiation and integration of simple standard forms and other forms depending on them; application to easy geometrical, mechanical and physical problems, to turning values, and to the expansion of simple algebraic and trigonometrical functions. A working knowledge (without rigorous fundamental demonstrations) of the elementary infinite series for $(1+x)^m$, e^x , $\log(1+x)$, and their use in approximative calculations.

Mechanics.—The equilibrium of bodies in two dimensions; link polygons; virtual work, Harmonic motion. Simple and conical pendulums. Projectiles. Simple cases of linked mechanisms. Moments of inertia. Simple cases of the motion of rigid bodies in two dimensions; such as flywheels, compound pendulums, rolling wheels. The action of such mechanical devices as crank mechanisms, engine governors, cranes, brakes.

General.—In Higher Mathematics more analytical skill will be expected than in the earlier stage. In the absence of special instructions that a question is to be answered by a particular method, candidates are at liberty to choose their method from any branch of mathematics.

The examination in Higher Mathematics will include a laboratory test, which will carry 60 marks.

Science. Subjects 12–14. There will be no laboratory test in Physics, Chemistry, or Biology as a part of the examination and no candidate will be permitted to offer any of these subjects unless:—

- (a) he has furnished a certificate from the Headmaster or the appropriate science master of one of the schools named in Appendix 5 of the regulations for entrance to Woolwich and Sandhurst, or Appendix 4 of the regulations for entrance to Cranwell, that he has spent at least 80 hours on laboratory work in the subject in question within three years of the date of his application for admission to the examination; or
- (b) he can produce other evidence satisfactory to the Civil Service Commissioners of adequate laboratory training, such training to have been undergone within three years of the date of his application for admission to the examination and to have been obtained in the same institution as the theoretical teaching, the Commissioners having power to modify the requirement when they think fit in the case of a candidate educated in the Dominions or elsewhere overseas; or
- (c) he has been allowed to present himself in the subject on a previous occasion.

The certificate or other evidence must be sent to the Civil Service Commission on or before the day on which the written examination begins.

In the valuation of candidates' work in these subjects credit will be given for lucidity, orderly development, and aptness of language; deductions will be made for incoherence, irrelevance, obscurity, slovenliness of expression and specially for bad grammar and the incorrect use of words and phrases. Chemical symbols must be restricted to their proper function and not used as shorthand symbols for the names of the substances.

12. PHYSICS: Alternative papers will be set on the following Schedules A and B. A candidate will not be able to obtain full marks on either schedule without showing some knowledge of electricity.

SCHEDULE A: General.—Principles of measurement. Graphical methods.

Hydrostatics.—The distinction between solids, liquids, and gases. Fluid pressure, floating bodies; methods of determination of specific gravity and density. Boyle's law; the pressure of the atmosphere. Pumps (air and water) and other simple instruments.

Heat.—Thermometry. Calorimetry, specific heat, latent heat. Expansion. Change of state. Vapour pressure, hygrometry. Convection and conduction. Radiation and its relation to light. Mechanical equivalent of heat.

Optics.—The transmission, reflexion, and refraction of light. Intensity of illumination and emission. Photometry. Prisms and simple lenses. The formation of images. Colour. Vision. The principles and optical construction of telescopes, microscopes, spectrometers, and other simple instruments. Elementary account of the wave-theory of light.

Electricity.—Magnets, induced magnetization and terrestrial magnetism. General principles of electrostatics. Simple electrostatic instruments. Electric current. Simple cells. Electromotive force. Magnetic chemical, and thermal effects of current. Measurement of current. Ohm's law. Kirchhoff's laws. Thermocouples and resistance thermometers. Electromagnetic induction. Simple instruments.

The examiners will assume that candidates possess a knowledge of Elementary Chemistry, and will be at liberty to set questions in Physics which involve such knowledge.

SCHEDULE B: Hydromechanics.—The principles involved in the action of the hydraulic lift and other hydraulic machines. The calculation (in simple instances) of the thrust in house-cisterns, on lockgates, &c. The power procurable from a waterfall. The calculation of the power transmitted by water running through a pipe. Water turbines. The flotation of ships. Buoyancy. The use of pontoons. The submarine boat. Determination of specific gravities of solids and liquids by the principle of Archimedes. Hydrometers. Phenomena due to the weight of the atmosphere. Water pumps. The mercury barometer; the aneroid barometer. Variation of pressure and density of the atmosphere at different heights. The flotation of balloons. Boyle's law. The mode of action of the tyre inflator; the piston air-pump; the vacuum brake; and other important pneumatic machines.

Heat.—Measurement of the heating values of fuels, &c. Specific heat. Melting points. Vapour pressure; boiling point. Distillation; separation of liquids by distillation; applications in the manufacture of turpentine, petroleum, &c. The formation of fog, cloud and dew. Latent heat: the artificial production of cold. Simple experiments in conduction and radiation. Simple thermostatic devices. The heating and cooling of gases by compression and expansion; the liquefaction of gases (including air). The relation of heat to work; Joule's experiments. Main characteristics and mode of action of the steam engine and internal combustion engine; the efficiency of a heat engine.

Electricity.—The fundamental ideas concerning electric currents, difference of potential, resistance; construction and mode of action of the commoner primary batteries. The fundamental laws of electrolysis, and their application in secondary cells and electroplating. Heating effect of a current; its application in incandescent and arc lamps, electric welding, cooking, &c. The phenomena of permanent and induced magnetism in iron; fields of magnetic force; the magnetic field associated with an electric current. The construction and action of an electro-magnet; application in electric bells and telephones. The simpler phenomena of electromagnetic induction; broad principles and applications of the induction coil, magneto, dynamo and motor. The fundamental ideas concerning wireless telegraphy. The simpler methods of measuring electric current, difference of potential, and resistance; practical definitions of ampere, volt and ohm. Ohm's law. Construction and mode of action of simple measuring instruments; electric transmission of power by direct current; Joule, Watt, Board of Trade unit of electric energy.

13. CHEMISTRY: *General Chemistry.*—Laws of chemical combination. Equivalent, molecular, and atomic weights. General properties of gases, liquids, and solids. Properties of solutions; electrolytic dissociation and electrolysis. Characteristics of chemical equilibrium. Classification of the elements.

Inorganic Chemistry.—The chemical properties of the more important elements and their commoner compounds, with special reference to those elements and compounds which are of importance in civilized life.

Organic Chemistry.—The elements of the chemistry of the simple hydrocarbons, halogen derivatives, alcohols, ethers, aldehydes, ketones, acids (including esters, acid chlorides, amides, hydroxy- and amino-acids), amines; illustrated by the study of methane, ethane, and their chief derivatives, ethylene, acetylene; acetone; the lactic acids; glycerol, fats, and soaps; cyanides; urea; benzene, toluene, and their simpler derivatives; glucose, cane-sugar, and starch treated descriptively. (The questions will be set on the assumption that candidates have some practical acquaintance with those compounds.) Homologous series, constitutional formulæ, isomerism (including the elements of stereoisomerism as illustrated by the lactic acids and tartaric acids).

14. BIOLOGY: 1. The contrast, with respect to energy, between living creatures and lifeless matter; the broad differences between plants and animals; respiration; anabolism and katabolism.

The main types of nutrition and their place in the economy of living nature; nitrifying and nitrogen-fixing organisms, plants, grazing animals; the essential constituents of human food.

Asexual and sexual reproduction as illustrated by yeast, common mould, a fern, and the flowering plant (e.g., buttercup). The broad features of the development of the flowering plant (e.g., bean) from the seed.

The interaction between plant and animal life as illustrated in simple cases.

2. A fuller treatment of the growth of plants; experiments upon germination, observations of the structure of seeds and bulbs, the characters of buds.

Comparison of the eggs of an animal (e.g., the fowl, the frog) with seeds. The more obvious features of the development of the frog from the ovum to the end of larval life.

3. A fuller treatment of the physiology of the flowering plant. The chief ingredients of soil and their properties; main types of soil. The work of earthworms, soil bacteria and protozoa. Relations between plants and soil; arrangements subserving the absorption of water by roots and loss by leaves.

Experiments upon the influence of light upon growth; respiration and assimilation; the structure and functions of the green leaf. Food reserves.

The main points in human physiology brought out by comparison and contrast with the physiology of the flowering plant.

4. A fuller treatment of the reproduction of the flowering plant. The chief features in the structure of flowers; pollination and cross-pollination and the means by which these are effected; fruiting, and the main types of fruits; seed-dispersal.

5. The broad features of the economy of the more important food-plants; the rotation of crops; the relation of crops to the needs of horses and of animals used for food.

6. The evidence for the doctrine of biogenesis, and for the connexion of micro-organisms with putrefaction, disease, &c.

7. The candidate should study some or all of the following types in illustration of the subject:—

Saccharomyces and bacteria; mucor and penicillium or eurotium; a unicellular green plant, e.g., chlamydomonas or hæmatococcus or protococeus (a comparison of its nutrition with that of plants without chlorophyll); spirogyra, volvox, a moss, e.g., funaria, a fern (a knowledge of the microscopical anatomy of the vegetative organs of the moss and fern is not required); flowering plants, both herbaceous and woody.

Amoeba; paramœcium or vorticella; monocystis; hydra; obelia; taenia (externals and life-history); lumbricus; periplaneta; honey bee (externals and life-history); aphid (externals and life-history); scyllium (skeleton); scyllium or a teleost (externals, vascular and respiratory systems); a mammal (rabbit or rat; skeleton, rabbit or dog).

FREEHAND DRAWING.—There will be no deductions: candidates will be credited with all the marks gained.

There will be two tests in drawing. In the first a photograph or other representation of a landscape will be set before the candidate, who will be required to make an outline sketch of it in the style of a military panorama. The drawing should show with few lines all the important features of the landscape, so that officers using the sketch in action should be able to grasp the nature of the position and rapidly identify its landmarks. Correct proportions are essential. A conventional form of shading with oblique parallel lines may be used; but this must be strictly confined to parts of the sketch where such definition is helpful to the clearness of the whole. Roofs of buildings should be tinted with red chalk, water with blue, and roads with brown. *Manual of Map Reading, Photo Reading, and Field Sketching*, 1929, articles 70, 73, 74, 76, should be consulted.

In the second test candidates will be asked to draw from memory some common object, such as chair or a saddle.

GEOMETRICAL DRAWING.—The neat and accurate, use of pencil, ruling pen, compass, scales, protractor

set squares. The application of geometrical drawing to simple problems in plane geometry. The construction of ordinary and diagonal scales. The setting out of words or sentences in good lettering.

CIVIL SERVICE COMMISSION,
July, 1930.

11. The present establishment of the Ceylon Police is given below:—

Rank.	Salary.	Allowances, &c.
1 Inspector-General	£1,400—£50—£1,550	Free quarter or allowance in lieu thereof, Pundit allowance, Travelling, Transport, and Forage allowances in accordance with General Orders
2 Deputy Inspectors-General	£1,000—£50—£1,200	do.
39 Superintendents, Assistant Superintendents, and Probationers	On a time Scale—£360— (2) of £50, (1) of £40, (2) of £20, (1) of £40, (5) of £20, (2) of £40, (4) of £20, (1) of £40, (6) of £20—£1,000	do.

Note.—Every Ceylonese Probationer will be subject to any regulations as to Probationers (not inconsistent with this paper) which may from time to time be made by the Ceylon Government, including regulations as to examinations in vernacular languages, riding &c. When a Probationer has passed such examinations he will be paid at the rate of £410 per annum until he obtains a substantive appointment.

Any Probationer who may fail to pass the prescribed examinations within four years, or be found unfit for Police duties, will be liable to removal from the service.

Before an officer's salary reaches £460 per annum, and again before it reaches £580 per annum, £720 per annum, and £880 per annum, there is a strict efficiency bar; and the officer will not be permitted to draw further increments unless his service is thoroughly satisfactory in every respect, and until he has shown sufficient ability, initiative, and promise to justify the expectation that he will be fully capable of carrying out efficiently, and will accept the further responsibility of his new rank.

Pension.

Pension is paid for life as follows to officers who retire from Service owing to ill-health on being condemned by a Medical Board or on attaining the age of 55 years:—

- After 10 years' service, one quarter of the officer's salary.
- 1/60th of the officer's salary is added for every additional year's service.
- The maximum amount payable is 3rd of the salary which can be drawn after 35 years' service.
- At the option of an officer, exercisable within one month of his completing 10 years' service, he may, on retirement, be paid a gratuity equal to 1/3th of the total pension payable for 10 years and a monthly pension at the rate of 1/3th of his full pension.

Note.—(i.) If an officer retires before the completion of 10 years' service on being condemned by a Medical Board, he is granted a gratuity calculated at the rate of one month's salary for each year of service.

(ii.) If an officer dies after the completion of 5 years' service (which may include service in any territory under His Majesty's protection) his dependant or dependants may be paid, with the approval of His Excellency the Governor, a gratuity not exceeding one year's pensionable emolument.

Widows' and Orphans' Pension Fund.

An officer's widow and orphans are eligible for a pension from the Widows' and Orphans' Pension Fund to which every officer monthly contributes 4 per cent. of his salary.

By His Excellency's command,
Colonial Secretary's Office, B. H. BOURDILLON,
Colombo, December 17, 1930. Colonial Secretary.

NOTICES CALLING FOR TENDERS.

TENDERS are hereby invited for the construction of a Recreation Room for Police at Negombo.

2. Bill of quantities and form of agreement can be seen, and all other information obtained from the District Engineer, Negombo, any week day between the hours of 9 A.M. and 4 P.M. (Saturdays, 9 A.M. and 1.30 P.M.).

3. Tenders must be submitted on forms to be obtained from the office of the District Engineer, Negombo, in duplicate, duly signed and dated, and forwarded in securely sealed envelopes, the original addressed to the Provincial Engineer, Western Province (North), Colombo, and the duplicate addressed to the District Engineer, Negombo, endorsed on the outside "Tenders for the Construction of a Recreation Room for Police at Negombo" so as to reach the offices of the foregoing officers on or before 12 noon on January 20, 1931.

4. All imported articles stated in the specification will be supplied free of charge to the contractor by the Department, and the rates submitted should be exclusive of the costs of these materials for the items which necessitate their use.

5. In the event of the contractor failing to provide materials necessary for the execution of the works within the periods named by the Engineer as he may from time to time direct, Government reserves to itself the right to supply such materials at the cost as indicated in the Government Stores Price List, plus 25 per cent., and also Customs duty, transport, &c.

6. Any alterations made in the quotations should bear the initials of the tenderer.

7. Before tender forms can be issued the intending contractor must deposit a sum of Rs. 25 either at the General Treasury or any local Kachcheri, and the receipt must be handed to the District Engineer, Negombo. The deposit will be refunded to all *bona fide* tenderers after the contract has been signed by the successful tenderer. If the tenderer fails to enter into an agreement on the basis of his tender when called upon to do so, the deposit will be forfeited.

8. No contract shall be entered into with any person whose name is on the list of Crown defaulting contractors, either individually or jointly with any other person, nor shall the contractor employ any person whose name is on the list of Crown defaulting contractors, nor will forms of tender be issued to any person to whom the Provincial Engineer, Western Province (North), Colombo, for reasons which appear to him sufficient, objects after giving due notice of his objection in writing.

9. The successful tenderer may be called upon to deposit cash security not exceeding Rs. 100 for the due fulfilment of the contract in the Ceylon Savings Bank in the name of the Hon. the Colonial Treasurer within ten days of receipt of notice to do so.

10. Government does not bind itself to accept the lowest or any of the schedules of rates submitted, nor to give all the work included in the whole scheme or in any one item to any one contractor.

S. J. KIRBY,
for Director of Public Works.

Public Works Office,
Colombo, December 16, 1930.

TENDERS are hereby invited for the contract for the conveyance of mails from October 1, 1931, once daily, each way except on Sundays and Post Office holidays, on which days there will be no service, for a period of three years between Ambalangoda and Elpitiya Post Offices and intermediate offices.

2. The service will be alternatively A or B given under:—

Service A.—By motor, cab, omnibus, or lorry.
Service B.—By hackery drawn by one bull.

Tenderers may tender for either services A or B, or both.

3. In respect of service A the motor conveyance shall fulfil all the requirements of the Motor Car Ordinance, 1927, amended by Ordinance No. 22 of 1929. The contractor will be required to provide such number of motor conveyances as will, in the opinion of the Postmaster-General, be necessary for the service, and every such motor before being employed in the service will be subject to the approval of the Postmaster-General. To some convenient part of every such motor shall be affixed, at the cost of the contractor and subject to the approval of the Postmaster-General, a suitable box provided with lock and key for the reception of any letters which may be posted on the road.

4. As regards service B, the contractor will be required to provide such number of bulls and hackeries as will, in the opinion of the Postmaster-General, be necessary for the

service, and every such bull and hackery before being employed in the service will be subject to the approval of the Postmaster-General.

5. The hours of arrival and departure to be fixed from time to time by the Postmaster-General.

6. All tenders should be in duplicate and sealed under one cover, and should be addressed to the Chairman of the Tender Board, Office of the Controller of Revenue, and must either be sent through the post or deposited in a box provided for that purpose in the Office of the Controller of Revenue.

7. Tenders should be marked "Tender for the Conveyance of Mails between Ambalangoda and Elpitiya," in the left hand top corner of the envelope, and should reach the Office of the Controller of Revenue not later than midday on Tuesday, January 20, 1931.

8. Tenders are to be made upon forms which will be supplied upon application to the Postmaster-General, and no tender will be considered unless it is on the recognized form.

9. Any alterations in the tender must bear the initials of the tenderer, otherwise the tender may be treated as informal and rejected.

10. A deposit of Rs. 100 for the service tendered, for must be made at the General Treasury or a Kachcheri, and receipt produced for the same before a tender form is issued. Should any person decline to enter into the contract and bond, or fail to furnish approved security, within ten days of receiving notice in writing from the Postmaster-General, or his duly authorized representative, that his tender has been accepted, such deposits will be forfeited to the Crown. All other deposits will be returned upon signature to the contract.

11. Security to the amount of one-fifth of the annual subsidy asked will be required in cash for the service.

12. Tenders for above service must be accompanied by a scale of the rates which it is intended to charge the public during the period of the service for the conveyance of passengers, luggage, and parcels, and the quantity of luggage per passenger allowed to be conveyed free. When such scale has been accepted by Government, the contractor shall not, without the express permission of Government, increase the rates charged for the conveyance of passengers, luggage, and parcels above the amount shown in the scale, or reduce the allowance of free luggage below the amount therein stated.

13. Further particulars regarding the terms of the contract will be found in the contract forms for motor and hackery services, copies of which will be sent when forwarding tender forms. Further information about the terms of the contract and any other information can be obtained on application to the Postmaster-General.

14. No tender will be considered unless in respect of it all the conditions above laid down have been strictly fulfilled.

15. No contract shall be entered into with any person whose name is on the list of Crown defaulting contractors, either individually or jointly with any other person, nor shall the contractor employ any person whose name is on the list of Crown defaulting contractors, or any other person to whom the Postmaster-General, for reasons which appear to him sufficient, objects after giving due notice of his objection in writing.

16. The contract shall be entered into by the contractor with the Head of the Department, acting for and on behalf of his Majesty the King, and the designation of such officer shall mean and include the officer for the time being holding such office and his successors in office for the time being under the Government of Ceylon.

17. Contracts may not be assigned or sublet without the authority of the Tender Board.

18. A Government contractor must not issue a power of attorney to a person whose name is on the defaulting contractors' list authorizing him to carry on the contract.

19. The Government reserves to itself the right, without question, of rejecting any or all of the tenders, and the right of accepting any portion of a tender.

Colonization Scheme at Divulakada.

WRITTEN offers are invited for the purchase of 568 trees enumerated in the area of 21 acres in Divulakada, Pasdun korale east, Kalutara District, as described in the annexed schedule :—

2. Offers should be made subject to the following conditions by letter, preferably under sealed and registered cover addressed to the Divisional Forest Officer, Western

Division, Colombo, and posted, or handed over personally, not later than midday on January 6, 1931, the envelope being marked on the left hand top corner, "Offer for Purchase of Timber, &c.," and signed by tenderer.

3. Lump sum offer should be made for all the timber described in the schedule and be written both in words and in figures.

4. Tenderers shall remit Rs. 20 with their offers to the Divisional Forest Officer of the Western Division. This sum will be returned if their offers are rejected. The purchaser will be given credit for the amount in the final payment for the timber.

5. The species and measurements of the material appearing in the schedule are to be regarded as only approximate, and intending tenderers are presumed to have inspected the timber before they make their offers, and they should bring to the notice of the Divisional Forest Officer any serious discrepancies which they may notice. They should also satisfy themselves by personal inspection as to the condition of the timber they offer for.

6. Any tenderer whose offer is accepted shall, within ten days of notification of acceptance of his offer pay the full purchase amount. In the event of failure to pay the full purchase amount, the amount of Rs. 20 previously paid shall be forfeited and the timber revert to the Crown.

7. The Conservator of Forests reserves to himself the right, without question, of rejecting any or all offers and of accepting any offer or part of an offer.

8. All material purchased shall be at the risk of the purchaser until its removal by him on a permit.

9. The buyer, his agent, or his representative shall be liable for punishment under the Forest Ordinance for commission of any Forest offence in the course of completing the transaction.

10. Any purchaser violating the conditions of purchase shall be liable to a fine not exceeding 25 per cent. of purchase amount, and to be included in the list of persons to whom no permits will be issued. That no timber is to be removed without a Timber Cart Note issued by the Range Forest Officer, Matugama.

11. Should any tender or offer be accepted, and should the successful tenderer after due notification decline or fail to pay any sum or sums stipulated for and to enter into the necessary contract within the time allowed, or in reasonable time, he will be held pecuniarily liable for any resultant loss to Government. Tenders and offers are made and received on this distinct understanding. The Conservator of Forests reserves the discretionary powers to waive the terms of this clause in any degree as he may consider the circumstances justify.

12. The area, which is comprised of lot 254 in Divulakada, is bounded as follows: north by lot 253 (Deniya), south by portion of Bulatsinhala, east by lot 252 (Deniya), and west by District Road Committee road leading to Egal-oya.

13. The successful tenderer will probably be able to obtain labour locally from among the colonists.

In the Name of His Majesty GEORGE THE FIFTH, by the Grace of God of Great Britain, Ireland and the British Dominions beyond the Seas King, Defender of the Faith, Emperor of India.

PROCLAMATION.

By His Excellency Sir HERBERT JAMES STANLEY, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Island of Ceylon, and its Dependencies.

H. J. STANLEY.

WHEREAS by Order dated the Twenty-seventh day of November, 1930, His Majesty, by and with the advice of His Privy Council, has been pleased to amend the Ceylon (Legislative Council) Order in Council, 1923, in the manner set forth in the aforesaid Order:

And whereas by Clause I. of the aforesaid Order it is provided that it shall be published in the *Government Gazette* and shall come into operation on the date of such publication:

Now know Ye that We, the Governor, do hereby publish the aforesaid Order in the schedule hereto.

Given at Colombo, in the said Island of Ceylon, this Nineteenth day of December, in the year of Our Lord One thousand Nine hundred and thirty.

By His Excellency's command,

B. H. BOURDILLON,
Colonial Secretary.

GOD SAVE THE KING.

SCHEDULE.

THE CEYLON (LEGISLATIVE COUNCIL) AMENDMENT ORDER IN COUNCIL, 1930.

At the Court at Buckingham Palace, the 27th day of November, 1930.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by an Order in Council bearing date the Nineteenth day of December, 1923, and known as the Ceylon (Legislative Council) Order in Council, 1923, provision was made for the constitution of a Legislative Council in and for the Island of Ceylon:

AND WHEREAS His Majesty reserved to Himself, His heirs and successors, power, with the advice of His or their Privy Council, to revoke, alter or amend the said Order in Council as to Him or them should seem fit:

AND WHEREAS by an Order in Council bearing date the Fifteenth day of August, 1929, and known as the Ceylon (Legislative Council) Amendment Order in Council, 1929, Article LXII. of the Ceylon (Legislative Council) Order in Council, 1923, was amended:

AND WHEREAS His Majesty reserved to Himself, His heirs and successors, power, with the advice of His or their Privy Council, to revoke, alter or amend the Ceylon (Legislative Council) Amendment Order in Council, 1929, as to Him or them should seem fit:

AND WHEREAS it is expedient to make other provision than is contained in Article LXII. of the Ceylon (Legislative Council) Order in Council, 1923, amended as aforesaid:

NOW, THEREFORE, it is hereby ordered by His Majesty, by and with the advice of His Privy Council, as follows :—

I. This Order may be cited as "The Ceylon (Legislative Council) Amendment Order in Council, 1930." It shall be published in the Ceylon Government Gazette and shall come into operation on the date of such publication.

II. The Article which by the Ceylon (Legislative Council) Amendment Order in Council, 1929, was substituted for Article LXII. of the Ceylon (Legislative Council) Order in Council, 1923, is hereby revoked as from the date of the coming into operation of this Order, but without prejudice to anything lawfully done thereunder, and from and after such date the said Ceylon (Legislative Council) Order in Council, 1923, shall be read and construed as if in place of Article LXII. of the said Order as amended by the Ceylon (Legislative Council) Amendment Order in Council, 1929, the following Article had been inserted therein :—

"LXII. The Governor shall dissolve the Council on the Thirtieth day of June, 1931, if it shall not have been sooner dissolved."

III. His Majesty hereby reserves to Himself, His heirs and successors, power, with the advice of His or their Privy Council, to revoke, alter or amend this Order as to Him or them shall seem fit.

And the Right Honourable Lord Passfield, one of His Majesty's Principal Secretaries of State, is to give the necessary directions herein accordingly.

COLIN SMITH.

A 5/30

BY HIS EXCELLENCY THE GOVERNOR.

A PROCLAMATION.

H. J. STANLEY.
