This operation shall commence from and proceed to the same boundaries and in the same alignments as operation 1. Not less than three days shall have elapsed between the execution of operation 1 and the commencement of operation 2 in any portion of the area, and there shall be an interval on the ground of not less than one chain between operations 1 and 2 except where the terminating boundary is reached.

*Operation 3.*

All saplings which are over one inch in diameter and not exceeding eight inches diameter shall be felled within twelve inches of the ground, and on the day of felling the stools shall be coppiced by means of sharp adzes cleanly and flush with the ground. All trees over eight inches in diameter shall be felled within two inches of the ground, and within three days of felling all the stools which are between eight inches and fifteen inches diameter shall be coppiced cleanly and to within one inch of the ground. Separate working parties shall be assigned to these four separate operations, and separate workmen shall be detailed to keep the coppicing tools invariably sharp. The purchaser shall either exercise such personal supervision as will ensure this work being executed efficiently, or employ an efficient supervisor.

(13) In services "A" and "B" if coppicing at any stage of the operations, after the work has commenced is not carried out rigidly as indicated above and is considered unsatisfactory by the Divisional Forest Officer he shall discontinue the issue of permits for removal of timber and firewood until the work is satisfactory: if the work continues to be unsatisfactory after two warnings the Divisional Forest Officer may at his sole discretion stop all felling and removal, cancel the agreement, and confiscate the security and all instalments paid up-to-date.
