7. Notice of the intention to construct a new service, or to alter or extend, clean out or renew any existing one shall be given to the Chairman by filling up a printed form, which form may be obtained on application at the office of the Chairman. This notice referred to as Form A in the schedule hereto shall be addressed to the Chairman and delivered at his office, and no such work shall be commenced without the written approval of the Chairman or any person authorized by him in that behalf.

8. All new services or alterations to, repairs to, renewing, or cleaning of existing services shall be carried out in accordance with the written instructions of the Chairman. All fittings and apparatus shall be of approved quality and pass the required test and be officially stamped by the Chairman before being fitted up as part of any private water service. The right is reserved to the Council to determine finally, whilst consulting the wishes of the applicant as far as practicable, all matters concerning the construction or alteration of services, such as the diameter of the pipe to be used, the manner in which it is to be laid, and the number, size, pattern and position of the taps.

9. Not more than one service pipe and one connection thereto from a main for the supply of water to any premises within the same curtilage and under the same assessment shall be connected to the waterworks.

10. The service pipe or any part of the service fittings of any premises shall not be connected with any service pipe, cistern, or other fittings of any other premises.

14. No person shall make any joints between water pipes or between the pipes, apparatus, and fittings of any service connected to the waterworks which are not electrically efficient. The connection will be made by the Chairman or any person authorized by him in that behalf and thereupon the supply of water will be considered to have commenced. Upon completion of the connection an account will be rendered to the applicant in the Form B hereto annexed, and the unexpended balance, if any, of the sum deposited with the Council in respect of

such service shall be returned. In the event of the estimated cost being exceeded the applicant upon receipt of the above-mentioned account, shall forthwith pay to the Council all further sums due in respect of such service.

18. 20. Every cistern to which water is supplied from the waterworks shall be provided with an "equilibrium" ball valve of approved pattern, and the ball valve shall be so adjusted as to close the supply when the water level in the cistern is two inches below the edge or overflow.

21. The inlet or supply pipe to every cistern shall be placed so as to have its delivery level above the top water level of such cistern.

22. The overflow pipes of all cisterns shall be brought to the outside of the building, and shall terminate in a conspicuous position, so that any leakage may be easily detected. No overflow from any cistern shall on any account be connected with any drain or sewer, or with the waste pipe of any bath, sink, or any other sanitary appliance or with the overflow from any other cistern. 24. The inlet of every bath, lavatory-basin, or sink shall be separated and distinct from the outlet, and the inlet shall be situated at the top of or above such bath, lavatory-basin, or sink.

25. For other than domestic purposes water may be supplied either by meter or otherwise at the discretion of the Council, but as a rule such supplies should be by meter. The charges for such supplies shall be as follows:—

(i.) In all cases where water is supplied for the following purposes and not measured by meter the following charges shall be paid in advance to the Council:—

Premises occupied wholly or in part—

(a) as eating-houses (not including hotels) and bakeries: a rate of Rs. 2 per mensem per private service;

(ii.) The price of water supplied by meter for other than domestic purposes shall be Re. 1 per thousand gallons.

27. No pipe forming part of a private water service shall be directly connected with any boiler, condenser, or other mechanical appliance without the express sanction of the Council.

28. All meters for measuring the supply of water from the waterworks to any premises shall be supplied and fixed by the Council, and shall remain the property of the Council.

30. All meters shall be maintained, and all repairs thereto effected, by the Council free of cost to the consumer, except repairs necessitated by damage caused wilfully, by, or through the negligence of, the owner or occupier of the premises to which the water service is laid. In the latter cases, such owner or occupier shall pay the cost of repair or of renewal of the meter as the Chairman may direct.

31. Meters shall be read at such times as the Chairman may direct, not less frequently however than three times a quarter. Whenever a meter is read a memorandum of the reading, addressed "The Occupier," shall be left at the premises supplied through it.

33. Whenever water is found running to waste from any tap, meter, pipe or other fitting forming part of a private water service, the Chairman or any person authorized by him in that behalf may at once cut off the water, and such service shall not be reconnected until the cause of the waste is remedied.

34. The Chairman may, upon being satisfied that good and sufficient reasons exist for considering that the arrangement, size, position, nature, or condition of any pipe, tap, valve, meter, or other fitting forming part of a private water service and connected with the waterworks is likely to lead to waste, misuse, undue consumption, or contamination of the water supplied from the waterworks for public or private use, or to be prejudicial to the proper control and distribution of water from the waterworks, serve a notice upon the owner or occupier of the premises served by such private service in the Form D set forth in the schedule hereto, specifying the alterations required, and such alterations shall be made by the owner or occupier to the satisfaction of the Chairman forthwith. In the event of the name or residence of the owner or occupier being unknown, such notice shall be affixed in a conspicuous place upon the premises to which it refers, after which it shall be taken as duly served within the meaning of these by-laws.

35. The Chairman may in any one of the circumstances hereinbelow mentioned diminish, withhold, or suspend, turn off, or divert the supply of water through or by means of any pipe, service, public fountain, or any other appliances connected to the waterworks either wholly or in part, or whenever such Chairman may think fit and without prejudice to any water-rate, meter rent, or other sums due or to become due under the Ordinance, under which these by-laws are framed:—

- (a) Whenever the available supply of water from the waterworks shall, in the opinion of the Chairman, be insufficient.
- (b) Whenever it may be expedient or necessary for the purpose of extending, altering, or repairing the waterworks, or pipe line or for the purpose of the connection of services.
- (c) Whenever any public standpost is damaged, or the water thereof polluted or wasted.
- (d) If the construction or laying of any service by the owner of any premises is not made, altered, or re-adjusted in accordance with the provisions of these by-laws.
- (e) If default be made in the payment of any money due under the provisions of these by-laws from the owner or occupier of any premises or so long as such default continues, or at the request of the owner of the tenement.
- (f) In case of fire.
- (g) If any act or thing be done or omitted contrary to the provisions of these by-laws in relation to any damage, waste, pollution, or abuse of the waterworks or any service, meter, or public fountain.

36. The cost estimated by the Chairman of laying on water to any premises after it has been cut off for any reason whatsoever shall be paid by the owner or occupier of such premises in advance to the Council. The unexpended balance, if any, shall be returned to the owner or occupier on the completion of the work and any excess of cost shall be paid by the occupier or owner on such completion.

37. The service pipe from the street main up to and including the stopcock or valve shall be the property of the Council and the cost of the necessary repairs to the same shall be paid by the Council, but should any damage be done to the stopcock or valve on the service pipe to any premises it shall be made good by the Chairman at the expense of the owner or occupier of such premises, and the cost of the repair of such damage shall be paid to the Council, and the Chairman is hereby authorized and empowered to discontinue the supply of water to such premises until such payment is made.

38. No water shall be drawn from the waterworks except from public standpipes, fountains, and private services in the manner laid down in these by-laws without the written consent of the Chairman, except in the case of fire.

39. The Council, notwithstanding that the requirements have been complied with as regards private services, does not hold itself liable for any damage that may arise in premises by bursting or overflowing. Nor will the Council, by any permission or act, extend its responsibility beyond the main pipes and the service pipes, up to and including the stopcocks or valves of the latter.

40. All moneys due to the Council under the provisions of these by-laws shall be paid to the Chairman and credited

to the local fund of the Council and all expenditure by the Council in carrying out the provisions of these by-laws, shall be chargeable to such fund.

41. The following rents shall be paid to the Urban District Council quarterly and in advance for the use of meters for one quarter or any part of a quarter, such quarters shall be considered to commence on the first day of January, the first day of April, the first day of July, and the first day of October:—

The first reading may be that observed on any day not more than ten days before or after the calendar date of the commencement of the quarter, or in the case of a newly fixed meter the first reading of the meter.

(2) The second reading may be that taken on any day not more than ten days earlier or later than the calendar termination of the quarter, or if the meter is removed or the supply closed during the quarter, then the last reading shall be taken as the second reading for ascertaining the quarter's water consumption. If two or more meters have been in use during the quarter, then the quarter's consumption shall be the sum of the quantities indicated by the meters.

Provided always that the reading used as the last reading of any quarter shall be used as the first reading of the ensuing quarter.

43. If a meter be found to be out of order, or if it be removed for repair or alteration, the fact shall be noted on the memorandum mentioned in by-law No. 31. On fixing a new meter or refixing the old one, a second memorandum shall be left at the premises supplied through such meter.

The consumption for the time that the meter was out of order or that the service was without a meter, shall be calculated according to the average rate of daily consumption that obtained during the period between any two successive readings whilst the meter was in good order immediately preceding the removal of the meter.

44. If the consumer doubts the accuracy of the meter which measures the water supplied to the premises occupied by him, then the meter shall on demand be tested by the Chairman. The consumer or any person appointed by him may be present when the meter is tested. The result of the testing shall be binding both on the Chairman and on the consumer, and the quantity of water indicated by the meter for the quarter as defined in by-law No. 42 shall be corrected according to the result of the test. If the meter be found to indicate too much, then no fee shall be paid for testing.

45. The value of the amount of water consumed during the quarter shall be ascertained and calculated in accordance with the foregoing by-laws.

46. In all cases an account shall be rendered quarterly of the amount to be paid for the water consumed in the preceding quarter.
