It shall be the duty of the irrigation headmen elected or appointed under section 20 of the Ordinance to regulate the use of any water issued by the irrigation officer from the Government channels or other sources, to supervise the cultivation of lands under the work and generally to enforce the observance of these rules.

13. Each of the proprietors of the lands under cultivation shall pay a huwandiram to the vel-vidane at the rate of 6 kurunies for each amunam sown: and the vel-vidane shall make over to the maha-ela vidane one quarter of the foregoing rate, that is to say, one and a half kurunies out of the huwandiram recovered by him in respect of each amunam sown.

Provided that in any case where the Government Agent has disallowed any portion of the huwandiram due to any vel-vidane or maha-ela vidane who has been guilty of neglect of duty, only the remaining portion shall be payable by each proprietor to such vel-vidane, or by the vel-vidane to such maha-ela vidane.

14. Such huwandiram shall be paid, and a receipt obtained therefor, by each proprietor before any part of his harvest is removed from the threshing-floor.

15. The question of constructing any new channel that may be required shall be decided by the majority of the proprietors, subject to the right of the minority to appeal to the Village Council: and in the event of such an appeal, the decision of the Council shall be final.

16. If any new channel or any part thereof, decided upon as aforesaid, has to pass through the fields of one or more of the proprietors, it shall be the duty of each such proprietor to open and construct that part of the channel which falls within his field.

17. If any new channel or any part thereof, decided upon as aforesaid, falls outside the fields under cultivation, it shall be the duty of each of the proprietors to contribute, towards the construction of it, labour proportionate to his holding.

18. Except for agricultural purposes no cattle shall be admitted into or allowed to remain in the area under cultivation until the crop has been reaped and removed.

#### THE IRRIGATION ORDINANCE, NO. 45 OF 1917.

RULES under section 11 of the Irrigation Ordinance, No. 45 of 1917, made by the prescribed majority of the proprietors within the irrigation districts of Maritime pattus, Vavuniya South, and Vavuniya North in the Northern Province, at meetings duly held on December 6, 12, and 14, 1932, respectively, and approved by the Governor by virtue of the powers vested in him by section 19 of the said Ordinance and by Article 93 of the Ceylon (State Council) Order in Council, 1931.

D. S. SENANAYAKE,  
Minister for Agriculture and Lands.

Ministry of Agriculture and Lands,  
Colombo, February 13, 1933.

*Rules made under Section 11 of Ordinance No. 45 of 1917  
by the Proprietors of the Irrigation Districts  
of Vavuniya South, Vavuniya North, and  
Maritime Pattus in Mullaitivu District,  
Northern Province.*

1. The term "irrigation work" in the following rules shall include all Crown tanks and Crown springs the water of which is utilized for irrigation.

2. Subject to the terms of any schemes framed and sanctioned under Chapter VI. of the Ordinance, each of the proprietors of the lands irrigated by an irrigation work shall be entitled to a share of the water in proportion to his holding.

3. (1) Kama Vidanes elected or appointed under Chapter IV. of the Ordinance shall hold office for two years.

(2) At the expiry of their terms of office they shall be eligible for re-election or reappointment.

4. (1) The Kama Vidane appointed for the area under any tank shall be entitled to a commission of 1½ per cent.

of the crop raised by each proprietor of lands in that area, and this commission shall be paid at the threshing-floor before any paddy is removed.

(2) The Kama Vidane appointed for any area under any irrigation work other than a tank shall be entitled only to 1 per cent. commission.

(3) The whole or any portion of this commission may be withheld if, in the opinion of the Assistant Government Agent, the duties of the Kama Vidane concerned have not been properly performed and may be paid to any person who has acted for the Kama Vidane if the Assistant Government Agent so orders.

5. For the purpose of the restoration and maintenance of the irrigation work or of such parts of it as are not under the immediate care and management of the Director of Irrigation, every proprietor of paddy land under the irrigation work shall, in respect of the land owned by him, be liable to contribute annual labour at the rate of two days' labour for each of the first five units of land owned by him and at the rate of one day's labour for each additional unit, the unit being defined as the extent of land on which one bushel of paddy is ordinarily sown, and any fraction of a unit being reckoned as a unit for the purposes of this rule.

6. A day's labour shall be considered to be 8 hours of work, viz., from 7 A.M. to 11 A.M. and from 1 P.M. to 5 P.M. One cube of earthwork shall be considered equivalent to 2 days' labour unless the Assistant Government Agent in any special case decides otherwise.

7. On the publication of a notice issued in that behalf by the Assistant Government Agent, it shall be the duty of each of the proprietors liable to contribute labour to commence on such date, and to complete within such period, as may be specified in the notice, any share of the work that may be marked out and apportioned to him by the Irrigation Sub-Inspector or the Udaiyar.

8. Within one month of the date fixed for the commencement of the labour any proprietor may commute any labour to which he may be liable for a money payment, at a rate fixed in the notice in accordance with the rate prevailing in the district at the time.

9. In addition to the ordinary annual labour as above provided for, whenever the Assistant Government Agent shall consider it necessary to call out labour to perform an urgent work of repair or of prevention of impending damage, uncommutable labour either in person or by substitute shall at once be furnished by every proprietor and continued daily until the completion of the work.

10. In any case of default under rule 5 or rule 9 the equivalent money value of the work in default shall be recovered from the defaulter, in addition to any fine that may be imposed on him under section 29 and 31 of the Ordinance, and shall be disposed of in the same manner as the commutation money.

11. When the bund, bund reservation, and spills of the tank, or any dam or anicut, have been marked out and assigned proportionately to their holdings among the proprietors, each proprietor shall keep the portion assigned to him free from jungle, brushwood, and overgrowth of every description, and from white ants' nests, and shall carry out the necessary work twice a year in the months of February and September:

Provided that this rule shall not apply to any part of any irrigation work the maintenance of which is for the time being in the hands of the Director of Irrigation.

12. Any proprietor may apply to the Assistant Government Agent to exempt his land from all liability in respect of annual labour for any sufficient reason.

13. No person shall in any way interfere with an irrigation work or any part thereof, except with the permission of or under the orders of the Assistant Government Agent or any officer acting under his orders.

14. The spill of a tank shall not be blocked without the permission of the Assistant Government Agent.

15. No cut or breach shall be made in any bund without the permission of the Assistant Government Agent, except in urgent cases where such action is necessary for the prevention of damage to some more vital spot. In all such cases any action taken shall be reported to the Assistant Government Agent at once.

16. (1) Water from an irrigation work shall not be allowed to flow from field to field but channels shall be constructed through the fields in such a way as to enable each proprietor to lead water direct from the work to his share or field.

(2) Such channels shall be called main channels.

17. Subsidiary channels shall be constructed to take the water from the main channels to each bed of a field, except where owing to the situation or size of the land to be irrigated the Assistant Government Agent is satisfied that no waste of water will result from allowing the water from the main channel to flow from bed to bed.

18. The construction and repair of each channel shall be carried out by the proprietors benefited by the channel, each of whom shall be responsible for the portion of the channel passing through his field, and, in addition, to such portion of the channel outside the fields or passing through the fields not benefited, as may be allotted to each by the Kama Vidane in proportion to his holding under that channel:

Provided that this rule shall not apply to any channel maintained for the time being by the Director of Irrigation.

19. Where the Assistant Government Agent has ordered the construction of a channel for the irrigation of any land, no water shall be issued from the work for the irrigation of that land until such channel has been constructed.

20. Where irrigation from bed to bed is allowed, no person shall wilfully prevent the share of water due to the fields below his own from flowing to those fields.

21. Where it is necessary, for the purpose of irrigating the lands below, to open a channel through the land of a proprietor who will not be benefited thereby, such proprietor shall be bound to allow the construction of such channel without compensation.

22. (1) All channels shall be properly cleared and repaired before water is issued through them, and shall be so maintained throughout the cultivation.

(2) In the event of any default in this respect the Kama Vidane may refuse to issue water or may himself cause the work to be done and recover the cost under section 29 (2) of the Ordinance.

(3) Water may be refused to lands on which in the opinion of the Udaiyar the ridges are not in a proper state of repair.

23. The distribution of water from the work through the fields shall be under the control of the Kama Vidane, and no person shall issue, distribute, cut off, divert, or use the water in any manner except under the direction of, or with the consent of, the Kama Vidane.

24. Except where distribution gates are provided and maintained by Government, the proprietors benefited shall erect and maintain the necessary dams for the distribution of water.

25. (1) Each proprietor shall be allowed to take water by turns, at such intervals and for such number of hours as may be determined by the Kama Vidane in consultation with the proprietors.

(2) If any proprietor fails to utilize the water during his turn he shall forfeit that turn.

26. No proprietor shall allow the water to run to waste or misappropriate his neighbour's water through the ridges.

27. Without the sanction of the Assistant Government Agent first had and obtained, it shall not be lawful (1) for any person to issue the water of one tank for any cultivation under any other tank; or (2) for the proprietors of lands cultivated under one tank to utilize for their cultivation the water of any other tank.

28. The proprietors of lands cultivated under one tank who require for their cultivation a supply of water from another tank, shall make their application to the Assistant Government Agent, who after due inquiry may grant permission therefor, and may at his discretion call upon the applicants to deposit to the credit of the tank from which the water is to be issued such sum as he may specify as value of the water drawn off.

29. Where it is necessary to bale the water from the tank, all the proprietors shall join in the work, even though some have already had their turn of water without baling.

30. Before the commencement of each season it shall be decided by a majority of proprietors, as defined in the Ordinance, at a meeting to be held for the purpose and presided over by the Chief Headman or Udaiyar, what lands under the work are to be cultivated and by what date cultivation should be completed.

31. All high lands and lands situated at a distance from the irrigation work and all lands not fully asweddu-mized shall be cultivated for Kalapokam: if they are not so cultivated, they may not be cultivated for any other season during the year without the permission of the Assistant Government Agent which shall be granted only on adequate grounds.

32. The arrangements for cultivating each of the several tracts under the work shall be determined at a special meeting to be held for that purpose; and such meeting shall decide also upon the kind of paddy to be sown and the dates by which ploughing, sowing, and all cultivation duties are to be completed, provided that it shall not have the power to postpone the date fixed for completion of cultivation by the general meeting held under rule 30.

33. (1) No tank bed shall be cultivated without a permit.

(2) If the majority at the general meeting held under rule 30 decide to cultivate the tank bed, and a permit in that behalf has been issued to them by the Assistant

Government Agent, each proprietor shall be entitled to a share of such tank bed in proportion to his share of improved land under the tank.

(3) Such proprietors shall be entitled to a permit only if the Irrigation Sub-Inspector certifies that they have either performed or commuted the labour due from them in respect of the tank for the year.

(4) To prevent damage to any crop cultivated in the tank bed as aforesaid, water shall not be let out from the tank except with the special permission of the Assistant Government Agent first had and obtained. Provided that in cases of great emergency when reference to the Assistant Government Agent is impracticable special permission given by the Chief Headman shall be deemed to be sufficient.

34. The bed of any Major Tank in charge of the Director of Irrigation shall be cultivated only under permits obtained in accordance with General Order 1166.

35. (1) For the Kalapokam season every proprietor shall be entitled to cultivate his land and to obtain water so long as a sufficient supply is available in the tank.

(2) Any proprietor who cultivates land which it was decided at the meeting not to cultivate or in respect of which no meeting was held, shall be deemed to do so at his own risk; and the other shareholders shall not be bound to assist him in the performance of his cultivation duties, and it shall be lawful for the Kama Vidane to refuse to issue water to him after the rains are over, if it appears that such issue will cause a shortage of water for any cultivation commenced in accordance with the decision of the meeting.

36. (1) If after the Kalapokam rains have ceased it appears that there is insufficient water for the whole area cultivated in accordance with the decision of the meeting the proprietors shall, at a meeting duly convened by the Udaiyar, decide what lands are to be abandoned; and the proprietors of the abandoned lands shall thereupon be given a share in the crop off the rest of the land in proportion to the portion abandoned, and they shall continue to be liable for their share of the cultivation duties for that season.

(2) In the event of the proprietors not coming to a decision, the Chief Headman shall decide what lands are to be abandoned.

(3) Any proprietor aggrieved by the decision of the majority of the proprietors or of the Chief Headman may appeal to the Assistant Government Agent, whose decision shall be final.

37. (1) If any proprietor fails to cultivate his share for Kalapokam it may be cultivated by any other proprietor, or if no proprietor is willing to undertake cultivation, by a non-proprietor with the written permission of the Chief Headman.

(2) Such cultivators shall perform the cultivation duties during the season, but shall not be liable to pay any rent to the owner or to perform annual labour.

38. (1) If at the time of the meeting for the Idaipokam or Sirupokam cultivation there appears to be insufficient water to irrigate the whole land under the work, it shall be lawful for the proprietors at such meeting to select a block or blocks of land in one or more tracts for cultivation for that season.

(2) Every proprietor who at the meeting expresses his willingness to join in the cultivation shall be entitled to a share in such cultivation in proportion to his holding of improved land under the tank.

(3) No other proprietor shall have any share in such cultivation, nor shall any other land be cultivated, except with the permission given at a specially convened meeting of the majority of the proprietors who at the original meeting undertook the cultivation:

Provided that in the Sinhalese district, a proprietor shall be entitled to have a share of the cultivation only in the tract in which he owns a share of land, and that where it has been decided to cultivate a tract or tracts in which any proprietor owns no land, such proprietor shall not be entitled to any share in the cultivation.

Provided further that in the Maritime pattus division, each proprietor shall cultivate only his own land and shall not be entitled to claim any share in the crop raised on any other lands.

39. No proprietor shall be entitled to object to the use of any land for cultivation as laid down in rule 38.

40. (1) If any land has been cultivated otherwise than in accordance with the dates and description of paddy decided on at the meetings held under rules 30 and 32 and consequently water is issued to that land for Kalapokam cultivation after the commencement of Idaipokam cultivation in other parts of the same tract, no share in the Idaipokam cultivation shall be given to the proprietor in respect of such land.

(2) Similarly, no share in Sirupokam cultivation shall be given in respect of lands to which water for Iadipokam crops has been issued after the commencement of the Sirupokam cultivation.

41. (1) Except as provided for in rule 38, for the Kalapokam cultivation all the proprietors shall be liable to perform cultivation duties, whether they cultivate their own lands or not.

(2) For the Idaipokam and Sirupokam cultivation only those who join in the cultivation shall be liable.

42. All the proprietors shall continue to perform the cultivation duties until all the paddy in the field has been reaped, provided that the decisions as to dates arrived at the meeting have not been infringed by those whose crop is late.

43. If a proprietor sows a kind of paddy which takes longer to mature than the kind which it was decided at the meeting to sow, or if he has sown later than the time fixed at the meeting, the other cultivators shall not be bound to perform the cultivation duties for a longer period than 14 days after their crop is reaped.

44. (1) All proprietors shall complete their sowing and all cultivation duties by the dates fixed at the meeting, or such later dates as may have been fixed by the Chief Headman in special cases with the approval of the Assistant Government Agent.

(2) If any proprietor has sown his share by the date fixed at the meeting, no extension of the time fixed for fencing the field shall be allowed.

(3) If, after an extension of time has been allowed, it is necessary to abandon any cultivation under rule 36, any proprietor who has sown his share before the date originally fixed shall be entitled to his full share of the water and shall not be bound to allow the late cultivators any share in his crop.

45. (1) Each proprietor who employs Varakkudis or cultivators shall deliver to the Kama Vidane, before the date for the completion of the sowing, a list of the Varakkudis or cultivators whom he proposes to employ during that season.

(2) This list shall be signed by the proprietor and by the Varakkudis or cultivators in the presence of two witnesses.

(3) From the date of delivery of this list the Varakkudis or cultivators as well as the proprietor shall become liable to perform cultivation duties during that season.

46. (1) The Kama Vidane shall measure up the total length of fence to be erected and shall apportion the share to be erected by each proprietor in proportion to his holding whether the fence adjoins the field of such proprietor or not.

Provided (i.) that in the Vavuniya North and Maritime pattus divisions, the proprietor of each land shall erect only that portion of the fence which adjoins his own land, and no responsibility for fencing shall lie on the proprietor of any land which does not adjoin the fence; (ii.) that in the Sinhalese district each proprietor shall be responsible for the erection and the maintenance of the portion of the boundary fence adjoining his share; (iii.) that wherever the proprietor at either end of the field holds an additional strip of land called Elapata, in consideration of the extra fencing that he is required to provide, such proprietor shall be solely responsible for the end or Elapata fence; and that where it is not customary to allow such an additional strip of land, the fence at each end of the field shall be divided between the proprietors of the respective halves of the field; (iv.) and that in the Tamil division wherever it is customary for the shareholders of the land adjoining the fence to erect and maintain the fence adjoining their share, such shareholders shall be bound to continue the fencing duties, unless at a duly constituted meeting of the shareholders it is decided to introduce the provisions of this rule.

(2) Proprietors shall erect the fence of stakes or thorns as ordered by the Kama Vidane, and shall maintain it until after the crop is reaped.

47. Outside the portion of the fence maintained by him, each proprietor shall keep clear a path for the passage of cattle.

48. (1) Where there is a common fence between two velies the proprietors of both velies shall join in erecting it, if both velies are cultivated.

(2) If only one veli is cultivated, the proprietors of that veli shall erect the fence and may remove it after the harvest, unless the proprietors of the other veli wish to retain it and are prepared to pay half the cost.

49. (1) The Kama Vidane shall arrange for the erection of watch huts according to custom.

(2) Every proprietor shall be bound to erect a watch hut and to keep regular watch; but in the case of small holdings the Kama Vidane may make arrangements to enable the proprietors to share this duty.

(3) In the case of large holdings the Kama Vidane is empowered to order the proprietor to erect as many watch huts as may be necessary for the protection of the field.

50. Watching shall commence as soon as the sowing is over: the hours for watching are from 6 P.M. to 5 A.M. unless otherwise arranged at the meeting under rule 30 or 32 by the majority of the shareholders.

51. Each proprietor shall have a share in one of the threshing-floors in accordance with custom.

52. The threshing-floor shall be kept fenced and watched until all the stacks have been threshed; and each proprietor shall be responsible for his share of these duties.

53. No proprietor shall permit jungle to grow or to remain on land belonging to him within any tract of fields under an irrigation work.

54. If any proprietor neglects to carry out any irrigation duty within the time specified at the meeting, the Chief Headman may order the Kama Vidane or Udaiyar to have the necessary work done by hired labour and may recover the cost under sections 28 and 29 of the Ordinance.

55. No paddy shall be removed from the field until the share due to the Kama Vidane under rule 4 has been paid to him, or three days' notice of such removal has been given to the Kama Vidane.

56. Except when the fields are in crop, each proprietor shall be entitled to a right of way through the lands of other proprietors, so far as is necessary for the passage of cattle for ploughing and of carts for removing paddy and straw.

57. (1) Any public cart track running through or adjoining any field or any reservation set apart for such track, not maintained by the Public Works Department, the Irrigation Department, the Provincial Road Committee, the District Road Committee or the Village Committee, shall be constructed, repaired, and maintained by the proprietors of the fields to be benefited thereby.

(2) In the event of any dispute the decision of the Assistant Government Agent as to who are the proprietors benefited, shall be final and conclusive.

58. (1) All buffaloes shall be driven to a reasonable distance from the field during the cultivation season, and shall have wooden bells attached to their necks, and all known fence breakers or dangerous animals shall be yoked with others.

(2) All neat cattle, goats, and sheep shall be herded during the day and folded during the night outside the fields, and if in any village a place has been selected and appointed for the purpose after due inquiry by the Assistant Government Agent, no proprietor shall during the cultivation season fold his buffaloes, cattle, goats, or sheep in any place nearer to the tank, field, or village than that so selected and appointed.

(3) Proprietors of buffaloes, neat cattle, goats, and sheep shall not suffer their cattle, goats, or sheep to trespass on the fields of any neighbouring village, nor shall they fold their cattle or drive them to pasture near the fields, or within the limits, of any neighbouring village during the cultivation season.

59. Rules 5, 7, 8, 9, 10, 12, 14, 15, and 22 shall not apply to any irrigation work, or part thereof, in charge of the Director of Irrigation.

60. When the foregoing rules are applicable to any irrigation work in the Sinhalese division, "Korala" shall be read for "Udaiyar," "Vel-Vidane" for "Kama Vidane," "Maha" for "Kalapokam," "Meda" for "Idaipokam," and "Yala" for "Sirupokam."

3A. The Chairman made the following statement regarding the outbreak of smallpox in the City:—Before we proceed with the agenda, I wish, with the permission of the House, to make a brief statement on the present position as regards the smallpox epidemic in the city. A report has been received from the Council's Health Officers tracing in detail the course of the epidemic and describing the action taken to combat it, and copies of this report have been tabled for members' information. It will be seen that the disease was introduced from India about 2 months ago. The first case brought to the notice of the Health Authorities was reported by Dr. Ratnam, who had been called in to attend on the patient, a new arrival from India. Thanks to the action taken only two persons were infected from this particular case. Meanwhile, a separate focus of infection, presumably started by some other case from India, that was not reported, had been established in the neighbourhood of the Fish Market. House to house investigation was at once started in this area and several cases were detected. Many of these cases were vagrants with no fixed abode, and as some of them were in an advanced stage of the disease it was realized that the infection had in all probability been fairly widely disseminated and an intensive campaign of vaccination and house to house inspection was commenced throughout the city. As a result several fresh centres of infection were discovered. Up to date cases have occurred in about 20 different localities and 17 cases have been reported in persons of no fixed abode. The total number of city cases so far has been 59 in 1932, and 14 in 1933, making 73 in all. The number of vaccinations, including those roughly estimated at about 15,000 carried out by private practitioners, totals well over 200,000 and the campaign is still being carried on intensively. A certain amount of reluctance to being vaccinated has been encountered in certain localities, but on the whole the response has been very good and the press has been particularly helpful in this direction. The present position may be regarded as fairly satisfactory; there have been no fresh cases in the last four days; but it would be premature to assume that further outbreaks may not occur owing to the concealment of cases and as in the case of vagrants, of whom several have been affected, it is impossible to trace all contacts. There can, therefore, be no relaxation of precautionary measures and anyone who has not yet been successfully vaccinated is strongly advised to have it done at once. The bulk of the vaccination work has, of course, been carried out by the Government Medical Department, on which this duty is laid under the Vaccination Ordinance of 1886. And anyone can obtain free vaccination by applying at any of the city vaccine stations or at the Port Surgeon's Office. Free vaccination is also carried out at present by the Medical Officers in charge of the various Municipal Dispensaries where the Medical Officers are now on duty between 7.30 and 11 A.M., and in the afternoon between 1 and 4. House to house vaccination in the infected areas is being done by the Municipal staff with a few assistants lent by the Medical Department. The Medical Officer of Health and his staff have had to cope with a serious situation, and I think the Council may congratulate them on the capable way in which they are handling it.

Mr. C. H. Z. Fernando moved that the Chairman's statement re smallpox be placed before the Four Standing Committees for consideration. Mr. N. H. M. Abdul Cader seconded.—Carried.

4. Pursuant to notice, Mr. Aelian W. Pereira asked the following questions which the Chairman answered:—

(1) Q.—Was a monopoly to import goats and sheep granted to the agent of the Madura Company? A.—Sole licences to import goats and sheep from India were granted to the Agent of the Madura Company.

(2) Q.—If so, on whose authority was it done? A.—On the Chairman's authority.

(3) Q.—Had the Agent of the Madura Company imported goats and sheep from India before the restriction of importation was introduced? A.—No.

(4) Q.—If not, on whose recommendation and for what reasons was a licence given to him and to him only? A.—On the recommendation of the Municipal Veterinary Surgeon, as a workable arrangement and one likely to cause least inconvenience to the trade.

(5) Q.—Was the attention of the Chairman drawn to the existence of certain others represented by Mr. J. A. Perera, Proctor, who claimed to be importers? A.—Mr. J. A. Perera made subsequent representations on behalf of others claiming to be importers after the licences for December had been granted.

(6) Q.—Were the claims of these others investigated by the Chairman? A.—They have been investigated.

(7) Q.—Did the Chairman satisfy himself that these others were not importers? A.—No, I am not satisfied that they are not importers.

(8) Q.—Why was the resolution of the Four Standing Committees of this Council passed on December 5, 1932, recommending the grant of licences to *bona fide* importers, not given effect to in respect of the licences for the month of January, 1933? A.—Numerous applications were received from different persons claiming to be *bona fide* importers, namely, the dealers, the 4 importing agencies, and even butchers, and in view of the difficulty of deciding to which set of applicants licences should be issued in terms of the resolution of the Four Standing Committees, it was decided as a purely temporary measure to continue the December arrangement pending further reference to the Committees.

(9) Q.—On whose authority was the following notice published by the Municipal Veterinary Surgeon on December 22, 1932:—

## NOTICE.

*To Applicants for Licences to Import Goats.*

On instructions received, the licences for the importation of Indian goats for the month of January, 1933, has been issued to the Madura Company, Tuticorin, who will import goats as previously.

Regarding the February supply information will be given at a later date.

December 22, 1932.

(Sgd.) D. H. RYLANDS,  
Municipal Veterinary Surgeon.

A.—On the Chairman's authority.

(10) Q.—Why was a licence granted to the Madura Company for importation during January, 1933, in spite of the recommendation of the Four Standing Committees to the contrary? A.—See answer to (8).

(11) Q.—Is it true that the Municipal Veterinary Surgeon is determined to grant licences to the Madura Company or their nominees, the four firms who form the Cattle Brokers Association, on the only ground, in the case of the latter, that their names appear in the Customs Registers as Importers? A.—No. The Municipal Veterinary Surgeon will, of course, conform to with whatever instructions are given to him.

(12) Q.—Are these four firms in fact importers? A.—Yes.

(13) Q.—Did they not call themselves, in a communication addressed to the Minister of Agriculture, the accredited agents of the importers? A.—Actually they described themselves as the accredited agents of the traders.

(14) Q.—Is the Municipal Veterinary Surgeon aware that these four firms called themselves the accredited agents for the importers? A.—See reply to (13).

(15) Q.—Have these four firms made applications in writing for licences? A.—Yes.

(16) Q.—If not, why this anxiety on the part of the Municipal Veterinary Surgeon to procure licences for them? A.—In view of the answer to the previous question this question does not arise.

(17) Q.—Was a list of *bona fide* importers and the volume of their importations during the past 24 months, prepared by the Superintendent of the Cattle Mart? A.—A list of importers was prepared by the Superintendent, Cattle Mart, but I understand that the stocks shown against each man's name in that list were all imported by the four importing agencies.

(18) Q.—Is there any reason to doubt the correctness of this list? A.—No.

(19) Q.—If not, why was not the resolution of the Four Standing Committees carried out on the basis of that list? A.—See answer to (8).

5. Pursuant to notice, Mr. A. R. A. Razik asked the following questions which the Chairman answered:—

(1) Q.—In terms of contract, are not the Gas Company bound to enlarge from time to time, and lay sufficiently large mains in the city at their expense, in order to maintain the contracted pressures in districts? A.—No.

(2) Q.—What was the necessity for a 6-inch main, recently laid, between Galle road, Bambalapitiya, and Thurston road? A.—The Gas Company were required by the Municipality to provide a 6-inch main in the Buller's road extension for the better lighting of this important link than would have been possible with a 3-inch main.

(3) Q.—Was not the surprise pressure test taken at my request in Pasbatal road, Mutwal, a novel and expensive method; the road having been trenched, the gas main tapped, and a fresh pipe inserted? A.—No.

(4) Q.—Could the Municipal Engineer and the Mechanical Engineer assure me that this was actually a surprise test (the latter attempting to make me believe so), and that the Gas Company were unaware of the proceedings? A.—No.

(5) Q.—Was the night watcher at this testing place a man from the Gas Works or a Municipal man? A.—A gas works employee.

(6) Q.—In terms of clause 19 of contract, has the Gas Company maintained their testing apparatus at all times in proper order? A.—Yes.

(7) Q.—If not, why were they not penalized, in terms of clause 15 of contract? A.—The question does not arise.

(8) Q.—In terms of contract, have the Gas Company painted all street lamp columns, brackets and lanterns one a year. If so, have records been kept? A.—Yes.

(9) Q.—Why does Council pay an extra sum of Rs. 800 annually to the Gas Company for the lamps in Galle Face? A.—The Council does not do so.

(10) Q.—Why does Council pay an extra sum of Rs. 1,200 annually for lighting and extinguishing of street lamps, when contract rates, as per clause 7, cover this cost? A.—The Council does not do so.

(11) Q.—In which countries of the world are gas undertakings, under statutory authority, allowed to sell the one quality of gas at two different rates to the general public, for lighting and cooking? A.—I cannot say.

(12) Q.—Which gas undertakings in the world, operating under statutory authority, other than the Colombo Gas Company, have issued bonus shares to its shareholders? A.—I cannot say.

(13) Q.—By what authority has the Council empowered the Gas Company, under clause 11 of contract, to demand deposits from consumers, when in England, this authority is obtained by legislation, while at the same time, the law requires gas undertakers to pay interest on deposits? A.—No specific authority has been granted to the Council to embody this provision in its contract.

(14) Q.—Should not certain terms and conditions of gas supply to the general public, as embodied in the contract, be made known to them, by ordering the Gas Company to have such clauses printed on their monthly bills? A.—This is now done by the Company.

(15) Q.—Should not the Council order the Gas Company to discontinue forthwith all sub-meter installations as they are disadvantageous to consumers in point of registration? A.—The report of the Gas Committee which deals *inter alia* with the question of sub-meters is at present under reference to the Four Standing Committees.

(16) Q.—How many million cubic feet of gas have escaped monthly from gas mains, service pipes and meters, during the past five years? A.—I cannot say.

(17) Q.—Has the Council's gas staff seen whether the Company periodically inspect their mains for leakage, in order to protect the city from the danger of gas explosions? A.—No.

(18) Q.—Have consumers been charged meter rent for the period during which meters have been out of order; if so, is this not an illegal levy? A.—Yes. When a meter has been out of order for part of a month, the rent is recovered for the whole month. This arrangement is not provided for either under the Gas Ordinance or the Council's contract. Whether it is a legal charge or not I am not prepared to say.

(19) Q.—Has the Council's gas staff ever tested the Company's station meter which records the quantity of gas manufactured; if so, when? A.—No.

(20) Q.—At the gas inquiry, Mr. Barker Johnson, maintained that 20,000 cubic feet and more of coal gas of the quality contracted, could and was obtained by the Company, per ton of coal, while Mr. Gerald Pereira stated that 15 to 16,000 cubic feet was about the maximum yield in gas works practice, and as I am in possession of documents from two independent authoritative sources to the effect that Mr. Pereira is right, please obtain information on the point from the City Analyst, the Mechanical Engineer, or any other authority in Ceylon? A.—If the Four Standing Committees who are considering the report of the Gas Committee desire this information, a report can be obtained.

(21) Q.—What is the meaning conveyed in clause 13 of the contract regarding consumption of burners, and has the Municipal Gas Staff seen to the observance of this clause by the Company, during the past 25 years? A.—Clause 13 was inserted in the interests of any consumers who desire to convert the flat gas flame to incandescent mantle type. As very few people require this, the deletion of the clause is contemplated in the next contract.

(22) Q.—Why were overseers and clerks of the Council, who had no qualification nor practical knowledge, appointed as Gas Inspectors, from about 1907, when such a position was held by qualified Europeans specially brought out for the purpose? A.—In accordance with the policy of the Council as then constituted.

(23) Q.—Does not the English law stipulate penalties from £10 to £20 on those who assume the important duties of Meter Inspector, without practical knowledge and a certificate of competence? A.—I cannot say.

(24) Q.—Please request the Four Standing Committees to consider the advisability of a complete reorganization of the Council's gas staff, with competent and adequate supervision for the observance of the Gas Ordinance, Meter Ordinance, and the Municipal contract? A.—This matter is already before the Four Standing Committees.

(25) Q.—What is the cause of so much delay in replying Mr. Gerald Pereira with regard to his claims against the Gas Company, on behalf of several gas consumers, for overcharges aggregating thousands of rupees? A.—The report of the Committee appointed to investigate these alleged overcharges is still under consideration by the Four Standing Committees.

(26) Q.—What is the cause of so much delay in submitting to me shipping documents and Customs papers of Calorimeter which I have been asking from time to time since June 26, 1932? A.—All the available documents have already been shown to the Member for New Bazaar.

(27) Q.—Please obtain a full report from the City Analyst on the quality (illuminating and heat values), purity, and pressure of gas at the last street lamp in Old Kolonnawa road, Mary's lane in Mattakkuliya, and the Council's market meter at the end of tram line in Grandpass? A.—I regret I am unable to comply with this request.

(28) Q.—In view of the irregularities and absurdities in the existing gas contract, resulting from the Mechanical Engineer's recommendations, please obtain the opinion of the Council's Lawyers as to a better form of contract, in keeping as near as possible to the regulations in the English Gas Acts? A.—This is a matter for the Four Standing Committees.

(29) Q.—Has the Council the power to impose a tax upon the Gas Company for using the Council's roads and for the extensive profitable operations carried out by them in the city? A.—No.

(30) Q.—In terms of section 4 of the Gas Ordinance, and in view of the inordinate profits made by the Gas Company, should not the Council control the profits of this Company (as done in England), and for this purpose regulate the price of gas, instead of merely contracting as has been done in the past? A.—The question has been considered by the Gas Committee whose report, as already stated, is under consideration by the Four Standing Committees.

6. Pursuant to notice, Mr. Aelian W. Pereira moved—"That licences to import goats and sheep be granted to the following:—(1) S. V. P. Sodalamani Nadar, (2) A. S. U. Punnavana Nadar, (3) M. P. Mr. N. H. M. Abdul Cader moved, as an amendment, that the whole question of importation of goats be referred to the Four Standing Committees. Mr. C. H. Z. Fernando seconded.

Mr. N. R. Blande spoke to the amendment.

Mr. A. R. A. Razik wished the question of the importation of goats from Aden be also considered.
