Kandy, March 19, 1895.

L. VANDERSTRAATEN, Accountant.

Health Officer's Report for February, 1895.

The general health of the community is only fairly good. Owing to the want of rain a lot of sickness exists among the natives, notably dysentery. For the same cause the drains do not get flushed properly, and there is, in consequence, some foulness about certain parts of the town.

The slaughter-house and market are kept in a good condition sanitarily. Some pieces of diseased meat and fish have from time to time been seized and condemned.

Progress Report of Work done brought up to February 28, 1895.
