Syllabus of the Competition to be held in the Year 1935 for Appointment to Cadetships in the Ceylon Civil Service.

Evidence of Training.—Candidates who desire to offer any of the subjects 24, 29, 31–44, 46 (Physical Anthropology branch only), or 47 must annex to their forms of application the evidence of training described on pages 319, 320. Such evidence should be in the form of a certificate signed by a responsible officer of the institution. In the case of an institution not situated in the British Isles, the certificate must state that the institution in which the work has been done is authorized to prepare candidates in that subject for a degree.

SECTION A.

1. *Essay.*—An essay to be written on one of several specified subjects.
2. *English.*—A paper of questions to test the understanding of English and the workmanlike use of words. An optional exercise in the writing of verse will be included.
3. *Present Day.*—Questions on contemporary subjects, social, economic, and political. A liberal choice of questions will be given. Effective and skilful exposition will be expected.
4. *Everyday Science.*—In this subject such knowledge will be expected as candidates will have who have studied science intelligently at school and have since then kept their eyes open. A liberal choice of questions will be given. Attention should be paid to orderly, effective, and exact expression.
5. *Auxiliary Language.*—Passages dealing with history and politics may be set, but no technical matter. Verse is not excluded. Accuracy and skill in the use of English will be expected.
6. *Viva Voce.*—The examination will be in matters of general interest, not in matters of academic interest; it is intended to test the candidate's alertness, intelligence, and intellectual outlook. The candidate will be afforded an opportunity of furnishing the record of his life and education. On the interview and record the Commissioners judge the value of the candidate's personality for each service for which he is entered. His value may differ for different services, and in that case the mark by which the Commissioners express their decision will differ for different services.

SECTION B.

HISTORY. Subjects 7–10.—A history subject will deal with the life of the people as a whole, political, social, economic, literary, artistic, scientific.

Candidates should know something of the original authorities, and have such a knowledge of geography as is necessary to the proper understanding of the history.

When a fixed date is given for the beginning of the period, a candidate will be expected to know in general outline how the initial position was reached; similarly, when a fixed date is given for the end of the period, candidates will be expected to have some knowledge of the subsequent development of movements which continued beyond the period.

7, 8. *British History.*—Period 1, to 1660; Period 2, 1660 to the present day. Candidates will be expected to know so much of European history as will make the external action of this country fully intelligible and will explain those movements at home which had their beginnings abroad, e.g., the Renaissance, the Reformation, and the reactions in this country of the French Revolution. In subject 8 the outstanding incidents and movements in the history of British possessions will be included.

9, 10. *European History.*—Period 1, Greek and Roman history as given in the syllabus under Greek Civilization (subject 53) and Roman Civilization (subject 51); Period 2, from 400 to 1494; Period 3, from 1494 to 1763; Period 4, from 1763 to the present day. The history of the United States of America, of India, and of the Far East, will be included in so far as it influences European fortunes to an important degree.

12. *Economic History.*—Candidates will be expected to have a general acquaintance with the early economic history of England; but special attention will be paid to the economic development of the British Isles and other portions of the Empire during the last two or three centuries, and so much knowledge of European and American conditions will be expected as is necessary for the understanding of British economic history.

13. *Public Economics.*—The questions will deal with the parts played by the state and by local authorities in the economic sphere.

14. *Political Theory.*—Candidates will be expected to show a knowledge of political theory and its history, political theory being understood to mean not only the theory of legislation, but also the general history of the state and its connexion with kindred studies such as ethics, psychology, jurisprudence, public international law, and economics. Candidates will be expected to show a knowledge of original authorities.

AGREEMENT BETWEEN HIS MAJESTY'S GOVERNMENT IN THE UNITED KINGDOM AND THE PRESIDENT OF THE REPUBLIC OF ESTONIA SUPPLEMENTARY TO THE TREATY OF COMMERCE AND NAVIGATION OF JANUARY 18, 1926 (WITH PROTOCOL AND NOTES).

London, July 11, 1934.

[Ratifications exchanged at London, August 29, 1934.]

THE Government of the United Kingdom of Great Britain and Northern Ireland and the President of the Republic of Estonia;

Affirming their common determination to uphold and carry out the Treaty of Commerce and Navigation, signed at Tallinn on the 18th January, 1926; and

Considering it to be expedient, in order to increase and facilitate trade and commerce, to supplement the said treaty of 1926 by certain additional provisions relating to trade and commerce; and

Being desirous of concluding an agreement for this purpose have agreed as follows:—

ARTICLE 1.

The articles enumerated in Part I of the First Schedule to this Agreement, produced or manufactured in the United Kingdom, shall not on importation into Estonia, from whatever place arriving, be subjected to duties or charges other or higher than those specified in the Schedule.

The articles enumerated in Part II of the First Schedule to this Agreement, produced or manufactured in any British Colony, overseas territory, any territory under British protection or any mandated territory in respect of which the mandate is exercised by the Government of the United Kingdom, shall not on importation into Estonia, from whatever place arriving, be subjected to duties or charges other or higher than those specified in the Schedule, provided that such colony or territory enjoys most-favoured-nation treatment in Estonia in accordance with Article 28 or Article 29 of the Treaty of Commerce and Navigation signed on the 18th January, 1926.

ARTICLE 2.

The articles enumerated in the Second Schedule to this Agreement, produced or manufactured in Estonia, shall not on importation into the United Kingdom, from whatever place arriving, be subjected to duties or charges other or higher than those specified in the Schedule.

The Government of Estonia will consider sympathetically any proposal of the Government of the United Kingdom for replacing in whole or in part by specific duties any of the *ad valorem* duties or by *ad valorem* duties any of the specific duties set out in this Schedule.

ARTICLE 3.

1. The Government of Estonia will not impose new import restrictions on the goods mentioned in Parts I and II of the First Schedule which are not already subjected to restrictions on importation into Estonia, and, as regards such of these goods as are at present subjected to restrictions on importation into Estonia, any restrictions in force shall be operated in such a manner as not to prevent the full benefits of the tariff concessions specified in Parts I and II of the First Schedule from accruing to goods the produce or manufacture of the United Kingdom or of the territories referred to in paragraph 2 of Article 1 respectively.

2. Imports into Estonia of goods, for which special arrangements are not made in this Agreement, from the United Kingdom or from any of the territories referred to in paragraph 2 of Article 1 shall in no case be restricted below imports in the year 1933.

3. If the Government of Estonia decide to impose restrictions on the importation into Estonia of goods which are not mentioned in Parts I and II of the First Schedule and which are at present unrestricted, consultation shall take place between them and the Government of the United Kingdom with a view to steps being taken to ensure that such restrictions shall not operate in a manner contrary to the undertaking in paragraph 2 above.

ARTICLE 4.

The Government of the United Kingdom will not impose quantitative restrictions on imports into the United Kingdom which would have the effect of preventing the benefits of the tariff concessions specified in the Second Schedule from accruing to goods, the produce or manufacture of Estonia, provided that this Article shall not apply to such restrictions of imports as may be necessary to secure the effective operation of a scheme or schemes for the regulation of the marketing in the United Kingdom of agricultural products.

ARTICLE 5.

1. In addition to the obligations which they assume under Articles 2 and 4 of this Agreement, the Government of the United Kingdom undertake not to regulate the quantity of imports into the United Kingdom of butter and bacon and hams, the produce of Estonia, except in so far as such regulation may be necessary to secure the effective operation of a scheme or schemes for the regulation of the marketing of domestic supplies of these or related products. In the event of such regulation of imports being introduced, in the case of all or any of these products paragraphs 2 to 7 of this Article shall have effect in so far as they may be applicable.

2. The Government of the United Kingdom will allot to Estonia an equitable share of permitted foreign imports having regard to the position which Estonia has held in past years as a supplier of these products to the United Kingdom market. Allocations to Estonia will be made on the same basis as, and on conditions not less favourable than, allocations to any other foreign country.

3. The Government of the United Kingdom will not regulate compulsorily the quantity of imports into the United Kingdom of any of these products, the produce of Estonia, without first giving the Government of Estonia an opportunity of discussing the allocation to Estonia.

4. In the event of the total quantity of any of the aforesaid products allowed to be imported into the United Kingdom from foreign countries being increased during any period of regulation, additional allocations shall be made to Estonia, but any temporary inability on the part of Estonia to supply the whole or a part of any such additional allocation shall not prejudice, as regards any subsequent period, the undertakings given in paragraphs 2 and 3 above.

5. In the event of any other foreign supplying country renouncing or forfeiting in whole or in part its allocation of any of the aforesaid products, the allocation to Estonia shall be increased in a ratio no less favourable than that accorded to any other foreign country.

6. Having regard to the fact that in recent years the imports of the following agricultural products, viz., eggs, potato flour, milk powder, condensed milk, meat and fish conserves, cheese and poultry, from Estonia into the United Kingdom have been insignificant in quantity in comparison with imports from other countries, the Government of the United Kingdom will endeavour to arrange that in the event of any quantitative regulation being imposed on imports of these products, imports of such products produced in Estonia shall remain unregulated. If, however, imports from Estonia of any such product increase to such an extent that it is necessary to regulate them quantitatively, the Government of the United Kingdom undertake to enter into discussions with the Government of Estonia as to the quantity of such product to be allowed to be imported into the United Kingdom from Estonia.

7. The control of exports to the United Kingdom from Estonia of any of the products mentioned in this Article shall be entrusted to the Government of Estonia so long as the Government of the United Kingdom are satisfied that such control is effectual and in conformity with the scheme or schemes of regulation of imports into the United Kingdom for the time being in force.

ARTICLE 6.

The tax levied on commercial travellers who visit Estonia on behalf of one or more companies or firms registered in, or having their principal place of business in, the United Kingdom shall not exceed 20 E. Krs. for each period of two weeks.

Directors and principal officers of any such company or firm shall be entitled to exemption from the tax if the company or firm carries on business in Estonia through an agent or agents resident in Estonia.

ARTICLE 7.

1. Except as provided in paragraphs 2 and 3 of this Article, nothing in this Agreement shall be deemed to affect the rights or obligations arising out of the Treaty of Commerce and Navigation, signed at Tallinn on the 18th January, 1926.

2. No notice of termination shall be given under Article 30 of the said Treaty on behalf of either of the Contracting Parties before the 1st April, 1936.

3. In the event of either the Government of the United Kingdom or the Government of Estonia deciding on a general change of policy in regard to the treatment of foreign shipping, discussions shall take place between them with a view to replacing by new provisions any provisions of the Treaty of Commerce and Navigation, signed on the 18th January, 1926, which relate to navigation and the treatment of shipping. If agreement on such new provisions is not reached within three months from the commencement of such discussions, either Contracting Party shall be at liberty to give notice of termination in respect of any of the said provisions of the Treaty of 1926, and such provisions shall cease to apply on the expiration of three months from the date on which such notice was given.

ARTICLE 8.

Any dispute that may arise between the Contracting Parties as to the proper interpretation or application of any of the provisions of the present Agreement or of the Treaty of Commerce and Navigation, signed at Tallinn on the 18th January, 1926, shall, at the request of either of them, be referred to the Permanent Court of International Justice, unless in any particular case the Contracting Parties agree to submit the dispute to some other tribunal or to dispose of it by some other form of procedure.

In case any dispute shall fall to be submitted to the Permanent Court of International Justice the Court shall, unless the Contracting Parties otherwise agree, be requested to give its decision in accordance with the summary procedure provided for in Article 29 of the Statute of the Court.

ARTICLE 9.

The Agreement between the Government of Estonia and the Government of the United Kingdom concluded by an Exchange of Notes, dated the 15th July, 1933, shall cease to apply as from the date of coming into force of the present Agreement if still otherwise in force at that date.

ARTICLE 10.

The present Agreement shall be ratified and the ratifications shall be exchanged at London as soon as possible.

The Agreement shall come into force ten days after the exchange of ratifications and shall, subject to the provisions of paragraphs 1 and 2 of Part II of the Protocol to this Agreement, remain in force until the 31st December, 1936.

In case neither of the Contracting Parties shall have given notice to the other six months before the said date of their intention to terminate this Agreement, it shall remain in force until the expiration of six months from the date on which notice of such intention is given.

In witness whereof the undersigned, duly authorised to that effect, have signed the present Agreement and have thereto affixed their seals.

Done in duplicate at London, in the English language, the 11th day of July, 1934.

A translation shall be made into the Estonian language as soon as possible and agreed upon between the two Governments.

Both texts shall then be considered authentic for all purposes.

PROTOCOL.

At the moment of signing the Commercial Agreement of this day's date between the Government of the United Kingdom of Great Britain and Northern Ireland and the President of the Republic of Estonia, the undersigned, being duly authorised to that effect, declare that they have agreed on the provisions set out in this Protocol, which shall form an integral part of the above-mentioned Agreement.

PART I.

1. The Commercial Agreement having been concluded in the desire to maintain and facilitate still further trade and commerce between the United Kingdom and Estonia, the Government of Estonia having regard to the proportion of Estonian exports imported in the United Kingdom, will in furtherance of the objects of the Agreement, encourage and promote by all means at their disposal the importation into Estonia of goods produced or manufactured in the United Kingdom.

The Government of Estonia will refrain from any action which would affect prejudicially any British Shipping Company now engaged in the trade between Estonia and the United Kingdom and will consult with the Government of the United Kingdom if any difficulties should arise. The Government of Estonia will, moreover, encourage and promote by all means at their disposal the increased utilisation of British shipping services in trade between the two countries.

2. The sale in Estonia of herrings, salted or cured in the United Kingdom and exported therefrom, shall (apart from the levy of the import duty of 0.022 E. Kr. per kilogramme gross on salted or cured herrings) take place under conditions of free and fair competition with other herrings whether caught by Estonian vessels or salted or cured in Estonia, or imported salted or cured from other sources, and such other herrings shall not be placed in any more favourable position by subsidies or in any other manner than herrings salted or cured in the United Kingdom and exported therefrom. The import duty imposed on herrings, salted or cured in the United Kingdom shall in no case be greater than the duty imposed on salted or cured herrings imported from other foreign sources, whatever the size or weight of such herrings.

3. Representations having been made to the Estonian Delegation on behalf of certain United Kingdom industries as a result of which statements have been made on behalf of groups of Estonian importers, the two Governments take note of the following conversations and statements:—

(a) Conversations in respect of steps for facilitating the sale in Estonia of iron and steel, commercial motor vehicles, commodities for the use of the Estonian wood-working industries, fine chemicals and pharmaceutical products, agricultural, dairy and road-making machinery, wool yarn and cotton thread, all of United Kingdom manufacture.

(b) Statements made on behalf of certain users of salt and saltpetre regarding the purchase of these commodities from the United Kingdom.

PART II.

1. The Government of the United Kingdom shall have the right at any time to terminate the Agreement upon three months' notice, if in any one period of twelve months, commencing on the first day of the month following the date on which the Agreement comes into force and on the corresponding date in each subsequent year, the amount of coal of United Kingdom origin imported into Estonia is less than 85 per cent. of the total imports of coal into Estonia in that period as shown by the Estonian official statistics of total imports of coal and imports of coal of United Kingdom origin, or if the amount of such imports of coal of United Kingdom origin in that period is less than 35,000 metric tons, including an amount not exceeding 5,000 tons of coal described by Estonian users as "Smithy Peas."

2. The Agreement shall not be terminated in virtue of this arrangement if, during the period between the date when notice of termination is given and the date of its taking effect, quantities of coal of United Kingdom origin additional to the quantity that would normally be imported under the Agreement during that period are imported into Estonia sufficient to make good the deficiency.

3. The two Governments take note of a letter to the Chairman of the Estonian Delegation for the negotiation of the Commercial Agreement, dated this day and signed on behalf of the United Kingdom coal industry by the Chairman of the Central Council of Colliery Owners and the Chairman of the British Coal Exporters' Federation, wherein they have expressed their desire and firm intention to fulfil the requirements of Estonian buyers and users of coal by every means within their power; and for this purpose have given to Estonian buyers and users the assurances contained in that letter with regard to prices, qualities, availability of supplies and other matters. It is agreed that the right of the Government of the United Kingdom, under paragraph 1 of this part of the Protocol, to terminate the Agreement upon three months' notice in the circumstances set out, is conditional upon these assurances being implemented.

4. The Government of Estonia will take the necessary steps to restore and increase the share of the United Kingdom in the Estonian market for coke.

PART III.

1. The Government of the United Kingdom hope that such regulation as may be necessary of imports of agricultural produce into the United Kingdom may be effected by voluntary co-operation between the Government of the United Kingdom on the one hand and the Governments of the countries supplying these products to the United Kingdom on the other hand; and the Government of the United Kingdom will endeavour for their part to secure that any regulation applied to imports into the United Kingdom of agricultural produce from Estonia shall be effected in this way.

2. If any regulation of butter imports into the United Kingdom is found necessary the Government of the United Kingdom will do their best to see when allocations are being decided that due weight is given to the special importance of the butter trade to Estonia and to the extent to which it may have been affected by restrictions in other markets.

PART IV.

In the Commercial Agreement and in this Protocol to the Agreement, the term "foreign country" in relation to the United Kingdom means a country not being a territory under the sovereignty of His Majesty the King of Great Britain, Ireland and the British Dominions beyond the Seas, Emperor of India, or under His Majesty's suzerainty, protection or mandate; and the term "foreign imports" means imports from foreign countries as so defined.

Done in duplicate at London, in the English language, the 11th day of July, 1934.

A translation shall be made into the Estonian language as soon as possible and agreed upon between the two Governments.

Both texts shall then be considered authentic for all purposes.

5. The following questions stood in the name of Mr. S. H. Dahanayaka:—(1) What is the generating cost of a unit of electricity? (2) What is the standing cost of a unit of electricity? (3) What is the amount paid by the General Revenue for a unit of electricity for street lighting?

The Chairman stated that the replies to these questions were not yet ready and that they would be answered at a subsequent meeting as the Superintendent of the Electricity Department was still in correspondence with the Chairman, Urban District Council, Kalutara, as regards the meaning of the expression "Standing cost."

6. The Chairman moved:—(a) That a supplementary grant of Rs. 250 be made to the Galle Friend-in-Need Society for the year 1935.—Carried.

(b) That steps be taken to have the Medical Officer of Health trained in Maternity and Child Welfare work at the expense of the Council.—The Chairman informed the meeting that the Chairman, Municipal Council, Colombo, had intimated to him that the Public Health Department there would afford the Medical Officer of Health every facility to acquaint himself with Maternity and Child Welfare Work and that it was considered that ten to fourteen days training would be sufficient. The motion was then put to the meeting and carried. It was resolved, further, (1) that the training be for the first two weeks in February, and, if any extension was found to be necessary, that the Chairman be authorized to arrange accordingly; (2) that the Medical Officer of Health be requested to nominate a substitute to act for him on the usual terms.

Extensions of time were also allowed by the court. He was, therefore, inclined to agree with the views of the members who had opposed the motion that the hands of the Chairman should not be tied in the manner suggested.

The motion was then put to the meeting and declared lost—3 voting for and 10 against.
