13 (1) The Board shall, on or before the thirty-first day of March in each year, present to the Executive Committee for submission to the Board of Ministers the annual budget of the Board containing—

Finance provisions.

14 (1) All charges made by the Board for electricity sold by bulk or direct to consumers, and for services rendered by the Board, shall be fixed at such rates and on such scales that the revenue derived in any year by the Board from such sales and services, together with their revenue (if any) in such year from other sources, will be sufficient and only sufficient, as nearly as may be, to pay all salaries, working expenses and other outgoings of the Board properly chargeable to income in that year, including the payments falling to be made in such year by the Board in respect of the interest on, or repayment of, the principal of any money borrowed by the

Board, and such sums as the Board may think proper to set aside in such year for reserve fund, extensions, renewals and like purposes.

The charges under this section may, if the Board think fit, be fixed at different rates and scales for different localities, but so that no undue preference shall be given to any locality.

(2) To meet the cost of the administration of the Electricity Ordinance, 1906, in the area supplied by a licensed undertaking, and the cost of any periodical report or inspection which the Board may deem necessary, every licensed undertaking which generates its own supplies of electricity and does not take bulk supplies of power from the supply system of the Board shall contribute to the Board an annual sum payable half-yearly at a rate not exceeding ten rupees for every thousand units generated per annum by that licensed undertaking. The receipt of such contributions shall not, however, preclude the Board from charging fees in respect of professional services rendered at the request of any licensed undertaking.

(3) All revenue derived from any property vested in the Board or realised by the generation, sale or distribution of electrical energy shall be credited to the funds of the Board.

15 (1) Where in accordance with the terms of any vote or resolution of the State Council any moneys have been advanced to the Board out of the loan funds or other funds of the Island for the purpose of providing loan capital for the Board, the official receipt of the Board for such moneys shall, without the execution of any further document or deed of hypothecation, establish a first charge on all the assets and property of the Board for securing the repayment of the amount of the moneys so advanced and of the interest chargeable thereon; and such charge shall continue to be operative and of full force and effect until such amount and the interest due thereon have been duly repaid by the Board:

Advances from public funds.

Provided that nothing herein contained shall preclude the Board from borrowing money from any person on the security of its assets or property or from executing a deed hypothecating any such assets or property for securing the repayment of any moneys advanced to the Board by the Government.

(2) Any deed whereby the Board hypothecates any of its assets or property to the Government shall be exempt from stamp duty.

16 (1) The Board shall cause proper accounts and books in relation thereto to be kept, and shall prepare an annual statement of commercialised accounts in such form and containing such particulars as may be prescribed by the Governor on the advice of the Financial Secretary.

Accounts and audit.

(2) The accounts of the Board shall be audited by the Auditor-General.

17 In this Ordinance, unless the context otherwise requires—

Interpretation.

“Board” means the Electricity Board of Ceylon established by this Ordinance;

“Department” means the Department of Government Electrical Undertakings;

“Executive Committee” means the Executive Committee of Communications and Works;

“licensed undertakings” means a Municipal Council, District Council, Local Board or other person licensed under the Electricity Ordinance, 1906, to supply electrical energy to the public or for the purpose of electric traction or to lay down electric supply lines for the conveyance and transmission of electrical energy.

#### *Objects and Reasons.*

The object of this Bill, which is modelled on the relevant provisions of the Electricity Supply Act, 1926, is to establish an Electricity Board which will be responsible for the administration of the Electricity Ordinance, 1906, and for the control of the Government Department of Electrical Undertakings.

The Board will be empowered generally to take such measures as may be necessary for the promotion, improvement, and development of the generation, transmission, distribution and sale of electricity in the Island and will, in particular, be authorised to undertake the construction of the Aberdeen-Laxapana Hydro-Electric Works. The Board

will be permitted to acquire and hold property both movable and immovable, but no sale or disposal of any property of the Board can be effected without the prior approval of the State Council, except in cases where such approval is granted generally by resolution of the Council. The object of this restriction on the right of the Board to dispose of its property is to prevent the alienation of major electrical schemes or undertakings without previous reference to the Council. The general resolution of the Council will cover cases in which the power to dispose of property is necessary for administrative purposes.

2. The Board will be a corporation consisting of a Chairman nominated and appointed by the Governor, the Financial Secretary, and three others appointed by the Governor on the nomination of the Executive Committee of Communications and Works. No member of the State Council will be eligible for nomination as a member of the Board (Clause 9). In this respect the Bill follows the corresponding provisions of the Electricity Supply Acts of Great Britain and of Northern Ireland.

3. The budget of the Board will be presented annually to the Executive Committee for submission to the Board of Ministers. The Board of Ministers can return the budget to the Board for revision or amendment and a refusal or failure on the part of the Board to revise or amend the budget in the manner desired by the Board of Ministers can be penalized by the dissolution of the Board. The Board of Ministers has to submit the budget to the State Council for approval and the Board is not authorised to expend any money on any proposals contained in the budget until that budget has been approved by the State Council.

4. Clause 15 provides for the creation of a first charge on the assets of the Board in favour of the Crown in order to secure the repayment of advances made to the Board from public funds in pursuance of a vote or resolution introduced in the State Council in the ordinary way with the approval of the Board of Ministers.
