Procedure.

Immediately the results of the examination are known, all successful candidates will be summoned to attend at the Civil Service Commission to be medically examined and to state their choice among the services open to them and among the various Departments, Provinces, &c. That statement of choice is irrevocable.

Evidence of Age.

A candidate born in the United Kingdom must not send in a birth certificate with this form but must be prepared to produce it when required.

A European or Anglo-Indian who was born in India must be prepared to produce when required a certificate of baptism from the district in which he was baptized. If this does not also mention the date of birth it must be accompanied by a statutory declaration by one of the candidate's parents, stating the date and place of birth.

An Indian born in India must send in with this form a certificate as required by Clause 4 of the regulations for the Indian Civil Service. If the candidate's family is resident in British India the Certificate must be signed by the Secretary to the Government of their province or by the Commissioner of their division. If they reside in an Indian State it must be signed by the highest political officer accredited to that State.

A candidate for a Ceylon Cadetship who is not of pure European descent on both sides should send in with this form a written nomination as required by Clause 4 of the Regulations for the Ceylon Civil Service.

Candidates are warned, however, that if the necessary certificate is not likely to be available until after the 8th May they should not on that account delay sending in this form, as no application received after the 8th May could be accepted. An application received in due time without the necessary certificate would normally be accepted provisionally pending the receipt of the certificate.

Fee.

Instructions respecting the payment of the fee (£2) required on application are given on page 29. Instructions respecting the manner of payment of the balance (£6) of the prescribed fee, and respecting the time and place of the examination, will be sent to candidates before the examination.

Passages will be set for translation and comment, but credit will not be given merely for capacity to translate the texts.

18. *International Law.*—Public International Law.

19. *Moral Philosophy.*—The history of the subject will be included. Candidates will have an opportunity of showing their strength either in Ancient Philosophy or in Modern Philosophy.

20. *Metaphysics.*—As for Moral Philosophy.

21. *Logic.*—The subject will be interpreted in a wide sense. Epistemology in its bearing on logical problems will be included, together with Formal Logic and Scientific Method. Questions may be set on Mathematical Logic, *i.e.*, on the Logic of Mathematics, Symbolic Logic, and the Logic of Probability, and also on the history of Logic. A considerable choice of questions will be allowed.

MATHEMATICS: *Subjects 24–27.*—The use of the slide-rule and of mathematical tables will be allowed.

24. *Lower Pure Mathematics.*—Geometry of two and of three dimensions according to Euclid (synthetic geometry) to Descartes (analytical geometry), and to Monge (descriptive geometry, dealing with three-dimensional figures by the use of plan and elevation). The method of vectors including scalar and vector products, with applications. Only the main properties of conics and quadrics, including those of poles, polars and polar planes, are expected.

Algebra: Complex numbers; uniformly converging infinite series; the elements of the theory of equations, including the numerical solution of algebraic equations, but not including the formal solution of the cubic and quartic.

A considerable choice of questions will be allowed, so that full marks may be obtained by covering about half the range stated.

26. *Lower Applied Mathematics.*—Statics, hydrostatics, dynamics, elementary theory of electricity and magnetism, including the induction of currents. Questions will be of an elementary character, but will not be confined to two dimensions; they will involve the use of the calculus. Announcements made by the Civil Service Commissioners with the authority of the Secretary of State for India in Council :—

(i.) Selected candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.

A selected candidate who wishes to pursue an extra course of study, in addition to the prescribed probationary course, must submit an application, stating precisely the extra course of study which it is desired to pursue, to the Secretary to the High Commissioner for India, Education Department, India House, Aldwych, London, W.C.2, through the appropriate authority at the University or College at which he is pursuing his probationary course. The appropriate authorities are :—

An allowance of £300 a year, or, in the case of Selected Candidates possessing an Indian domicile, an allowance of £350 a year will be given to any candidate who passes his probation at one of the Universities or other Institutions that have been approved for the purpose by the Secretary of State for India in Council.

In the case of Selected Candidates on probation for one year, the allowance will be payable in five instalments, the first (£100 in the case of Probationers of Indian domicile and £90 in the case of other Probationers) after the agreement prescribed in Announcement (iv.) has been executed, and the remainder in four equal instalments; the second, third and fourth on December 24th, March 25th, and June 25th, respectively, and the fifth after signature of the Covenant on appointment to the Service.

In the case of Selected Candidates on probation for two years, the allowance will be payable in nine instalments, the first (£100) on September 29th or as soon thereafter as the agreement has been executed, the remainder in eight equal instalments; the second on December 24th, the third to the eighth at quarterly intervals from that date (provided that the fifth instalment will not be payable until after the result of the Intermediate Examination has been published) and the ninth after signature of the Covenant on appointment to the Service.

Each selected candidate should intimate to the Secretary to the High Commissioner for India, Education Department, the address to which it is desired that the first instalment should be sent.

The payment of the various instalments of the allowance except the first instalment and the final instalment, and, in the case of the two-year probationers, the instalment payable at the end of the first year of probation, will be conditional on the receipt by the High Commissioner for India, through the authorities of the approved institution, of a certificate that the candidate had fulfilled up to date the requirements of the authorities and shown satisfactory progress.

If an Indian Government Scholar becomes a selected candidate for the Indian Civil Service, his scholarship stipend shall cease to be paid with effect from the 1st October of the year in which he becomes a selected candidate.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iv.) Each candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety jointly and severally to refund all moneys he may have received from the Secretary of State for India in the event of:—

- (1) his failure to pass the Final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Indian Civil Service, or
- (2) his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.

(v.) All candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as under the rules and regulations for the time being in force they may be required to make for the pensions of their families. The stamps payable on these covenants amount to £1.

(vi.) A First Class passage to India will be engaged for Selected Candidates with a view to their proceeding to India after they have signed their covenants. If a selected candidate elects to travel overland from London to Marseilles, he may apply to the High Commissioner for India for payment of the overland allowance as fixed from time to time. No baggage expenses or other allowance will be admissible.

Selected candidates who desire to make their own arrangements for proceeding to India must first satisfy the High Commissioner for India that they have good reasons for wishing to do so and that the arrangements which they propose to make are suitable. They will then, on production to the High Commissioner for India of evidence that they have engaged a passage, be granted an allowance not exceeding £46* or the actual cost of the passage by the route selected, whichever is less.

(vii.) Candidates appointed to the Indian Civil Service after undergoing one year's probation will be senior to those appointed in the same year after undergoing two years' probation. The seniority of candidates of each class *inter se* will be determined by the order in which their names appear on the lists referred to in clause (10) of the regulations.

(viii.) A candidate who fails to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected unless the Secretary of State in Council shall, after reference to the Civil Service Commissioners, allow him to sit for re-examination in the subject or subjects in which he failed. In general a candidate who is allowed re-examination will be required to forfeit the whole or part of the final instalment of his allowance, but if it appears to the Secretary of State in Council, after reference to the Civil Service Commissioners, that his failure to pass the examination was due to circumstances wholly exceptional and beyond his control, such forfeit of his allowance will not be required.

Ronald Martin Salmon, George Reginald Wiltshire, Charles Robert Lawton, and The Colombo Commercial Co., Ltd.

An improved apparatus and means for treating tea leaf in the manufacture thereof.

Abstract.—The object of this invention is to provide a device to supply a predetermined pressure at definite times on tea leaf when it is being rolled. This comprises an electrically or pneumatically operated and electrically or electro-pneumatically controlled device which consists generally of a geared reversing type motor directly connected through final gearing to the Pressure Screw supporting the Pressure Lid of the Roller.

There are forty-three claims and four sheets of drawings.

No. 2,828 of April 16, 1935.

Alfred James Percy.

Improvements in or relating to apparatus for sifting or sorting green tea in the course of manufacture.

Abstract.—The invention consists in green tea sifter or sorter having an upper and lower tray connected together by two or more sets of levers or links. A driving shaft may be fitted with an eccentric sleeve and eccentric rod to each tray.

There are eleven claims and one sheet of drawings.

No. 2,833 of May 10, 1935 (Date applied for under Section 50 of the Ordinance : May 30, 1934).

James Alexander Main.

Improvements relating to Arrangements for Withering Tea Leaf.

Abstract.—The invention relates to a method of supporting the trays on which the leaf is spread for withering. In the preferred method the back edges of the trays are pivotally supported by fixed frame members and the front edges can be lowered to an unloading position in which they are supported by springs, chains or other means.

There are twelve claims and two sheets of drawings.

No. 2,835 of May 29, 1935 (Date applied for under Section 50 of the Ordinance : March 2, 1935).

Hoare & Co. (Engineers) Ltd.

Improvements relating to drying and like apparatus.

Abstract.—The object of the invention is to provide a tray which prevents the tea leaf, or other material being dried, from falling through the tray and at the same time allows the hot air to flow through the trays.

The trays are of laminated construction and may be composed of two outer perforated plates enclosing a sheet of wire mesh of suitable gauge.

There are ten claims and two sheets of drawings.

No. 2,838 of June 5, 1935 (Date applied for under Section 50 of the Ordinance : June 12, 1934).

James Alexander Main.

Improved controlled withering of Tea.

Abstract.—This invention aims at automatically maintaining the humidity of air circulated through a tea withering loft. This is attained by a combination of admission of dry air, of fresh outside air and possibly of heated or otherwise treated air and hygrometric control of the source of air supply, when the humidity comes to within limit of a predetermined range.

There are eight claims and one sheet of drawings.

No. 2,839 of June 5, 1935 (Date applied for under Section 50 of the Ordinance : June 12, 1934).

James Alexander Main.

Improvements relating to tea withering.

Abstract.—This invention provides for increasing the velocity of the air in a withering loft when the ability of the air to pick up moisture is reduced so that the wither is equivalent throughout the length of the loft. This is done by reducing the cross-section of the enclosed loft in the proportion of the velocity desired.

There are eleven claims and one sheet of drawings.

No. 2,841 of June 19, 1935 (Date applied for under Section 50 of the Ordinance : June 22, 1934).

Fried. Krupp Grusonwerk Aktiengesellschaft.

Improvements in or relating to air heating apparatus.

Abstract.—The invention consists of an air heating plant wherein the air is drawn through a series of U-tubes in each of which one end is open to the atmosphere and the other leads to an air chamber. The air passing through these tubes is warmed by the walls of the tubes which are heated by being in contact with hot gases from the furnace of the apparatus.

There are three claims and one sheet of drawings.

No. 2,842 of June 19, 1935 (Date applied for under Section 50 of the Ordinance : June 10, 1934).

Naamlooze Vennootschap : Maatschappij tot Exploitatie van "ten Bosch Octrooien N. V."

A method and an apparatus for imparting a given density to substances in powder-form and for filling up limited spaces with controllable quantities of the said substances.

Abstract.—This invention provides a method for controlling the density of a powder by means of rotating it at a predetermined rate in a cylindrical drum. When the correct speed has been attained the material is fed into containers.

There are four claims and one sheet of drawings.

No. 2,843 of June 25, 1935 (Date applied for under Section 48 of the Ordinance : January 17, 1933).

Metallgesellschaft Aktiengesellschaft.

Process of concentrating rubber latices.

Abstract.—The invention relates to improvements in the British Patent Nos. 382,235 and 393,732. The concentrate products prepared by these processes still retain all their non-rubber substances present in the natural latex. This removal is effected by subjecting the rubber latex prior to concentration by the processes described in the Specifications Nos. 382,235 and 393,732 of the British Patent Office, to a treatment by means of which the latex is partially or wholly deprived of its serum constituents.

There are four claims and no drawings.

No. 2,846 of July 11, 1935.

Henry Simon Limited.

Improved apparatus for use in the retreading of tyres.

Abstract.—This invention relates to a tyre retreading apparatus of the type in which the vulcanisation of a retread strip to a tyre casing takes place within an annular mould, during which vulcanisation step it is clamped between a pair of pressure plates which engage the side walls of the tyre casing.

There are eight claims and two sheets of drawings.

No. 2,853 of August 19, 1935.

Clement Wood and Brooke Bond India Limited.

Improvements in or relating to the mixing, bulking or blending of teas or like materials.

Abstract.—The invention consists in an apparatus with a floor within a container which may be removed either as a whole or in parts, allowing the tea or other material to fall into a hopper. As an alternative the floor may be composed of rotating discs. The blended material is then fed into chests from the lower end of the hopper.

There are eleven claims and one sheet of drawings.

No. 2,854 of August 19, 1935.

Clement Wood and Brooke Bond India Limited.

Improvements in or relating to the mixing, bulking or blending of teas or like materials.

Abstract.—By means of this invention, tea or other similar material may be blended in an enclosed dust proof chamber, by spreading it on to horizontal, revolving plates. The plates are preferably cruciform and mounted in pairs, to rotate in opposite direction.

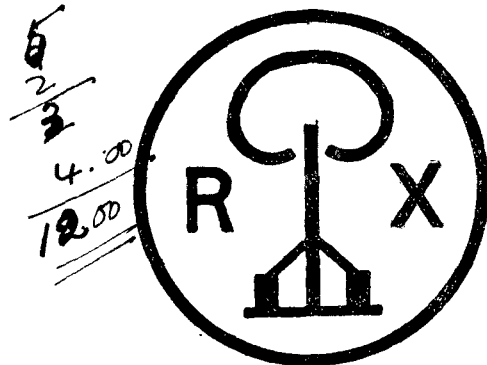

There are ten claims and one sheet of drawings.
