“ 10.—(1) In the case of a captive balloon or kite, lights shall be displayed in accordance with the following provisions of this sub-paragraph :—

- (a) the balloon or kite shall display a group of two lights consisting of a white light placed 12 feet vertically above a red light, both these lights being visible so far as practicable in all directions at a distance of at least  $2\frac{1}{2}$  miles, and the white light being placed not less than 15 or more than 30 feet below the basket, or, if there is no basket, below the lowest part of the balloon or kite ;
- (b) in addition, from the mooring cable of the balloon or kite there shall be displayed, at intervals of 1,000 feet measured from the said group of two lights, similar groups of two lights, white and red; and, if the lowest group of lights is obscured by clouds, an additional group shall be displayed below the cloud base ;
- (c) in addition, the position of the object to which the balloon or kite is moored on the ground shall be marked by a similar group of two lights, white and red.”

2. At the end of paragraph 14 the following paragraph shall be inserted :—

“ (c) Where a flying machine or glider has alighted at night on a water aerodrome having a ‘ control ’, permission to proceed to the normal arrival point will be given by the same two-letter sign made with a white light and followed by intermittent signals of the same colour.”

3. The following paragraphs shall be substituted for paragraphs 17A, 17B, 17C and 17D of Schedule IV to the principal Order :—

“ 17A.—(a) Where an aircraft has a message to send stating that it is in difficulties and about to land compulsorily but does not require immediate assistance, it shall preface the call with several repetitions of the urgency signal PAN.

(b) Where the signal PAN is received from an aircraft without any message following, it shall signify that the aircraft has been compelled to land and is unable to transmit its intended message owing to the rapidity of the landing, but does not require immediate assistance.

(c) Where the signal PAN is sent by radio-telegraphy the three letters shall be well separated so that the signals AN are not transformed into one signal P.

(d) Where the signal PAN is sent by radio-telephony it should be pronounced like the French word ‘ panne ’.

“ 17B. Where an aircraft has a very urgent message to send concerning the safety of the aircraft, or of any person on board, or of any ship or aircraft or person within range of assistance, the urgency of the message shall be indicated by an urgency signal as follows :—

- (a) In visual signalling, by prefacing the call with a succession of green pyrotechnical lights or a succession of green flashes made with daylight signalling apparatus.
- (b) In radio-telegraphy, by prefacing the call with several repetitions of the group XXX, the letters of each group and the successive groups being clearly separated from each other.

“ 17C. None of the urgency signals referred to in the two last preceding paragraphs may be transmitted except with the authority of the Commander or person responsible for the aircraft.

“ 17D. Where an aircraft has a message to send concerning the safety of navigation or containing important information relative to meteorological warning messages, it shall first transmit the safety signal as follows :—

- (a) In radio-telegraphy, the safety signal consists of three repetitions of the group TTT, with the letters of each group and the successive groups well separated. This signal shall be followed by the word DE and by the call sign of the aircraft three times repeated.
- (b) In radio-telephony, the safety signal consists of the French word ‘ SECURITE ’ (corresponding to the English pronunciation of the syllables SAY-CURE-E-TAY), repeated three times. This signal shall be followed by the call sign of the aircraft three times repeated.”

4. The following paragraph shall be inserted after paragraph 33 :—

“ 34. To facilitate compliance with the foregoing rules of this section, the pilot of a flying machine shall, save in exceptional circumstances, be placed either in the plane of symmetry of the flying machine or on the left hand side of the plane of symmetry.”

5. The following paragraph shall be substituted for paragraph 36 :—

“ 36. If a flying machine or glider starting from, or about to land at an aerodrome makes a circuit or partial circuit, the turning—

- (a) in the case of a land aerodrome, must be made clear of the landing area and must be left-handed (anti-clockwise) so that during the circuit the landing area shall always be on its left ; and
- (b) in the case of a water aerodrome, must be left-handed (anti-clockwise).”

6. In paragraphs 37 and 38, after the words “ 6,000 feet ” there shall be inserted the words “ in the case of a land aerodrome, or 2,000 feet in the case of a water aerodrome.”

7. The following paragraph shall be substituted for paragraph 40 :—

(2) Where a landing T is used, it shall be placed so that the shaft of the T lies along the direction of the wind and the cross arm lies across the windward end of the shaft.

(3) If there is no wind, the landing T, if used, shall be fixed in the direction in which landings are to be made.

(4) The fact that there is no wind and that the landing T is fixed as aforesaid may be indicated by a red square panel having in its centre a yellow square panel the sides of which are parallel to those of the red panel, each side measuring at least three feet.

(5) If the bad state of the landing area at any land aerodrome requires precautions to be observed in landing, that fact may be indicated by a red square panel partly covered by yellow triangular panels so as to show a red isosceles triangle no side of which measures less than ten feet.

(6) If an aerodrome is temporarily closed to aircraft owing to special circumstances, that fact may be indicated by a red square panel with the diagonals thereof covered by yellow rectangular panels arranged in the form of an X.

(7) Where a red panel is used for the purpose of this paragraph—

- (a) it shall be placed horizontally and as near as practicable to the landing T or wind sleeve ; and
- (b) each side of the panel shall measure at least ten feet.”

8. In paragraph 45 before the word “ aerodromes ” wherever that word occurs there shall be inserted the word “ land ”.

9. After paragraph 45 the following paragraph shall be inserted :—

- (2) Every flying machine and glider when landing or taking off shall do so in conformity with the provisions of paragraph 41 of this Schedule, leaving clear on its left any flying machine or glider which has already landed and leaving as much space as possible on its right for another flying machine or glider to land or take off:
- (3) A flying machine or glider which has landed shall, before proceeding towards the normal arrival point, slow down to a speed at which it can easily be manoeuvred on the water:  
Provided that if the aerodrome has a 'control', a flying machine or glider which has landed at night shall come to rest and await the signal referred to in paragraph 14 (c) of this Schedule before proceeding towards the normal arrival point:
- (4) In proceeding towards the normal arrival point, a flying machine or glider shall turn to the left and approach that point without crossing the landing area."

10. After paragraph 46 the following paragraph shall be inserted:—

" 46A. At every water aerodrome while night landings thereat are expected the following requirements shall be complied with:—

- (1) The aerodrome shall be defined and lighted in the manner most appropriate to local conditions:
- (2) If possible the direction of the wind at the landing area shall be clearly indicated by one of the recognised methods."

11. The following paragraph shall be substituted for paragraph 48:—

" 48. Suitable signals by day and lights by night shall be placed on all obstacles on an aerodrome which are dangerous to flying by reason of their not being readily visible, and, so far as possible, on all such obstacles within 1,000 yards of an aerodrome."

12. In paragraph 50 the words "this Schedule" shall be substituted for the words "the above rules".

Colombo, January 23, 1936. Secretary to the Governor.

22nd January, 1936.

His Majesty King EDWARD VIII. was duly proclaimed at Accession Council held yesterday and on his proclamation made the following declaration begins. The irreparable loss which the British Commonwealth of Nations has sustained by the death of His Majesty my beloved father has devolved upon me the duty of Sovereignty. I know how much you and all my subjects with I hope I may say the whole world feel for me in my sorrow and I am confident in the affectionate sympathy which will be extended to my dear mother in her overpowering grief.

When my father stood here 26 years ago he declared that one of the objects of his life would be to uphold constitutional government. In this I am determined to follow in my father's footsteps and to work as he did throughout his life for the happiness and the welfare of all classes of my subjects.

I place my reliance upon the loyalty and the affection of my peoples throughout the Empire and upon the wisdom of their Parliaments to support me in this heavy task and I pray that God will guide me to perform it. Ends.

His Majesty was publicly proclaimed here this morning.

22nd January, 1936.

The following message has been addressed by His Majesty :—

(a) to the Royal Navy begins.

On succeeding to the Throne I desire that the Royal Navy and all my other Naval Forces throughout the Empire should know with what gratitude I recall the distinguished services rendered by them during the reign of the King my beloved father and how much I cherish the recollection of the intimate personal association so long subsisting between my family and that profession to which my father devoted his youth and early manhood and in which I and two of my brothers received our early training.

My visits to many parts of the Empire have enabled me to note with pride that loyalty and devotion to duty remain watchwords of the Royal Navy wherever it is called upon to serve and that the same great traditions are guiding the development of the Naval services of the Dominions India and of all other forces sharing in the naval defence of the British Commonwealth of Nations.

Conscious as I am of the great trust that reposes in you and confident of your determination never to disappoint that trust I shall always regard your efficiency and well-being as matters of the highest importance and shall take a deep interest in everything which concerns them.

EDWARD R.I.

Ends. (b) to Army begins.

I desire on my accession to the Throne to express my thanks to the Army for its devoted service to my beloved father. I recall with gratitude the noble response which the Army made during the Great War to his proud confidence in its loyalty, valour and steadfastness. Its welfare was ever in his thoughts.

My own association with the Army is now of long standing. I look back to my service as a young officer in the Great War as one of the most valuable experiences of my life. It gave me the opportunity and privilege of comradeship with the soldiers drawn from the United Kingdom, from the Dominions, from India and from the Colonies. I learned to understand and to appreciate those essential characteristics which united them in the sternest crisis of our history: the same fervent attachment to the Crown, the same good humour and endurance in adversity and the same determination to uphold tradition chivalrously and courageously which are our common inheritance.

In the happier days of peace I have been able to see by personal visits to the military forces of the Crown both at home and abroad and have everywhere noted with pride the same gallant bearing which distinguished those forces in the field.

I shall be strengthened in the discharge of the great responsibilities which lie before me by the confidence with which I know I can rely on the unswerving allegiance of all ranks of the military forces of the Crown throughout the Empire.

EDWARD R.I.

Ends. (c) to Royal Air Force begins.

On my accession to the Throne I desire at once to address a message to the Air Forces at home and overseas. The Flying Services were first created during the reign of my beloved father and it was with close personal interest that he watched their rapid growth from small beginnings; their unification under stress of war; and their subsequent development into a powerful instrument of defence which shares with the older services the honourable duty of safeguarding these shores and the Empire.

I have ever valued my close association with the Royal Air Force, marked of recent years by a special connection

with the Auxiliary Air Force as its Honorary Air Commodore in Chief. I have also witnessed with deep satisfaction the creation of the Air Forces of the Dominions and of India. If the Air Forces of the Empire are young, they have all the vigour of youth; and in the space of a few years they have already achieved a high tradition. I shall watch their further progress with a keen personal solicitude for their welfare and with entire confidence that they will ever show that pride of service and unswerving loyalty to the Crown which they have displayed since their first inception.

EDWARD R.I.

Ends.
