All proprietors shall be bound by the decisions of the meeting.

(2) On receipt of such information the Irrigation Superintendent or Cultivation Officer may in his discretion either—

(4) Any proprietor deciding not to cultivate his land and withholding his consent to the land being cultivated by any other proprietor or applicant, shall continue to be liable to perform all irrigation duties and comply with the requirements of these rules.

(5) Where any land remains uncultivated and the whereabouts of the proprietor cannot be ascertained, the Assistant Government Agent may dispense with his consent for the purposes of this rule, and permit the land to be cultivated by any other proprietor or applicant ; but the proprietor thereof shall not in that event be entitled to claim any rent or share of the produce or damages from the proprietor or applicant so cultivating it.

15. (1) Every proprietor shall be liable to contribute labour and perform the duties required by these rules for the season's cultivation, unless exempted at the meeting under rule 9.

(2) In the event of any proprietor failing to perform any work, the Irrigation Superintendent or Cultivation Officer may cause the work to be done ; and the actual cost thereof may be recovered in the manner prescribed by section 23 of the Ordinance.

16. All tanks, dams, channels, water-courses, and the like, which are not in charge of the Director of Irrigation, shall be kept in a proper state of repair, and all fields shall be levelled and field-ridges constructed, to the satisfaction of the Assistant Government Agent, by the proprietors in proportion to their respective holdings.

18. (1) All paths between cultivated fields shall be kept open by the proprietors of such fields, according to the limits prescribed by ancient custom, and in proportion to their respective shares.

(2) Inspection-paths through cultivated fields shall also be constructed and maintained by the proprietors, if required by the Assistant Government Agent.

19. (1) When water from the irrigation work has reached any tract, the Vaddai Vidanai thereof may, subject to the control of the Irrigation Superintendent or Cultivation Officer, cut or close any dam or channel, not in charge of the Director of Irrigation, which impedes the distribution of water to the fields in such tract.

(2) It shall not be lawful for the Vaddai Vidanai at any other time to interfere with any dam or channel outside his Vaddai.

20. (1) No proprietor shall wilfully prevent water from flowing to the field below, or obstruct the flow of surplus water from the field above or in any other way interfere with the general distribution of the water within the Vaddais, or present any obstruction to the customary drainage of a field or tract.

(2) In the event of any person so doing, the Vaddai Vidanai shall proceed to the spot with witnesses and open the gaps or remove the obstruction himself.

21. No person shall issue, apportion, cut off, divert, or use, the water in any manner except in accordance with the instructions of the Vaddai Vidanai.

22. (1) The fence round the whole Vaddai shall be measured by the Vaddai Vidanai, within three days of the completion of the sowing, and the work of constructing the fence shall be apportioned among the several proprietors of the Vaddai in proportion to their holdings, irrespective of the actual position of their fields in relation to the fence.

(2) The Vaddai Vidanai shall forthwith after such apportionment send a list to the Irrigation Superintendent or Cultivation Officer showing the length of fence apportioned to each proprietor.

(3) If fresh sticks are required, the Vaddai Vidanai shall communicate with the Irrigation Superintendent or Cultivation Officer as early as possible, and obtain through him the necessary free licence to have them cut.

23. The proprietors shall finish the construction of the fence and the necessary watch huts within the time fixed at the meeting under rule 9 and keep both fence and watch huts in repair throughout the season.

24. The mullaikkaran or cultivators or watchers shall, if ordered by the Vaddai Vidanai or a Vaddai Kavalan, accompany the Vaddai Vidanai or Vaddai Kavalan with lights on his rounds at night until such time as the Irrigation Superintendent or Cultivation Officer considers this no longer necessary.

25. (1) Every proprietor shall keep regular watch in accordance with the orders of the Vaddai Vidanai.

(2) No person shall be employed as watcher who is under the age of 16 years or suffers from any physical disability.

26. (1) Any proprietor may reap the crop on his fields as soon as it reaches maturity, but such crop shall not be threshed or removed from the tract without the permission of the Vaddai Vidanai.

(2) Every such proprietor shall continue to keep watch over the fields, and to maintain the fence, until the crop on the rest of the tract has been reaped and stored : Provided, however, that no proprietor shall be bound to keep watch or to maintain the fence until the ripening of the crop on any portion which was not sown at the time or with the description of paddy, determined under rules 9 and 10.

27. (1) After the reaping is over the Vaddai Vidanai shall order the removal of the fence, and shall cause the fence sticks to be heaped by the cultivators in such places as he may direct.

(2) Proprietors may, with the consent of the Vaddai Vidanai, remove the fence sticks from the fields ; but in every such case they shall furnish the Vaddai Vidanai with a receipt for the number taken, and return them to the land for the following harvest, whether they cultivate their fields or not, or shall be liable for the assessed value of the sticks so removed.

28. No paddy shall be removed from the fields at the termination of the harvest until the wages due to all persons engaged in the harvest and the hire of cattle and other cultivation charges have been paid, and in the case of a field cultivated for share until the landlord's dues have been paid : Provided, however, that in any case where there is a serious risk of damage to any paddy left on the threshing-floor, the proprietor may remove it after taking such steps as are approved by the Vaddai Vidanai for safeguarding the claims of the other parties concerned.

29. (1) All field-channels and water-courses which are not in charge of the Director of Irrigation shall be in charge of the Vaddai Vidanais acting under the instructions of the Irrigation Superintendent or Cultivation Officer.

(2) No person shall fill up, or encroach upon, such channels or water-courses or any of their reservations.

(3) No paddy shall be sown in any irrigation or other channel.

30. (1) Any channel, dam, or other work required, whether outside or inside any field, shall be constructed by the proprietors interested in proportion to their holdings.

(2) Where a scheme is in charge of the Director of Irrigation, all applications for permission to construct such works shall be made in writing to the Irrigation Superintendent or Cultivation Officer.

(4) If any proprietor of such lands is unable to obtain water for irrigation owing to the neglect of any other proprietors to cut their shares of the field-channels, such other proprietors shall be called upon by the Irrigation Superintendent or Cultivation Officer to do the necessary work.

31. (1) Every proprietor shall grant way leave for field-channels, dams, or other works approved by the Irrigation Superintendent or Cultivation Officer, even though his own land may not be benefited thereby.

(2) All proprietors whose lands are benefited by any such work shall be liable under this rule to pay to the owners of lands, which suffer damage by the construction of the work, compensation for any land taken, or damage done, in proportion to the area of the holdings benefited and according to such rates as may be determined by the Assistant Government Agent.

32. (1) No person shall in any way alter or injure any ridge or boundary between two fields in the same tract.

(2) On receipt of any information that such alteration or injury has been effected, the Vaddai Vidanai shall, after due notice to the owners, proceed to the spot with witnesses, and call upon the owners to restore the boundary to its original state; and in the event of their failing to do so within three days thereafter, the Vaddai Vidanai shall report the matter to the Irrigation Superintendent or Cultivation Officer.

33. Whenever any new land is declared irrigable and included in the specification of lands irrigable under any tank or work, the proprietor of such land shall—

- (c) be liable to perform all the duties imposed on proprietors by these rules.

34. Every proprietor shall, when required by the Assistant Government Agent, Irrigation Superintendent, or Cultivation Officer, erect bunds or other suitable marks to define the boundaries of his fields.

35. Any proprietor who takes water out of his turn or for a longer period than he is entitled to, or who after having had his full share allows the water to run to waste through negligence, or who misappropriates his neighbour's water through the boundary ridges, shall forfeit the right to his share in the turn next following, and shall be guilty of an offence punishable under Chapter V. of the Ordinance.

36. The customary right of way for taking cattle and agricultural implements, and for transporting fence sticks, paddy, and for other agricultural purposes, shall be allowed to all proprietors under any irrigation work.

37. During the cultivation season it shall be lawful for the Vaddai Vidanai to seize all cattle found on any tank bund or bank of an irrigation channel in his Vaddai, or straying near the fields and likely to endanger the crops, and to hand over such cattle to the local Police Headman to be produced before the Village Tribunal.

38. (1) Every proprietor who employs cultivators, shall keep a book and enter therein all advances of paddy or money paid to his cultivators under the dates upon which such advances are made.

## PART II.

Special rules relating to the maintenance of irrigation works within the Koddigar Pattu South Irrigation District which are in charge of the Assistant Government Agent and for which no irrigation rate is recovered:—

1. (1) In distributing water from the tank to the fields in a tract, the water shall first be taken to the fields on the higher level and thence to those on the lower level.

(2) No person shall in any way interfere to the prejudice of others with the distribution of water.

2. No person other than the proprietor of any land under the tank shall be entitled to the use of water from the tank for agricultural purposes.

3. It shall not be lawful for any person to issue the water of the tank for the cultivation of any land under any other tank, or for the shareholders of lands cultivated under the tank to utilize for their cultivation the water of any other tank, without first obtaining the sanction of the Assistant Government Agent.

4. No person shall cut the bund, or do any act likely to damage the bund, or block up the spill of the tank, without the permission of the Assistant Government Agent or Cultivation Officer or Irrigation Superintendent, or carry out any work upon the bund, spill, or channels contrary to the orders of any of these officers: Provided that in any case where such action is necessary to prevent otherwise inevitable damage to the tank, and it is impossible to communicate with any of the above-mentioned officers in time, permission may be dispensed with, but the burden of proving such special circumstances shall lie upon the persons taking such action.

5. No fence shall be put on any part of the tank bund without the authority of the Assistant Government Agent or Cultivation Officer or Irrigation Superintendent.

6. For the repair or improvement of the tank and the dams, minor channels, or water-courses, and for such other minor works as the Assistant Government Agent may consider necessary, each proprietor shall be liable to contribute labour in proportion to the extent of his land which is to be benefited by the work in question.

7. The bund, spill, and sluice of the tank shall be divided among the proprietors of the lands under it in proportion to the extent of land owned by each proprietor, and each proprietor shall keep the portion assigned to him properly turfed and free at all times from jungle, brushwood, and overgrowth of every description, and from white ants' nests.

8. (1) The full amount of labour which each proprietor shall be liable under rule 6 to contribute shall not exceed—

- (i.) 2 cubes of earthwork per acre, or
- (ii.) 4 days' labour per acre, or
- (iii.) a money payment in commutation of such labour, at such rate per acre, in accordance with the rate prevailing in the district at the time, as may be specified by notice in that behalf each year.

(2) A day's labour shall for purposes of this rule be taken to mean a day of six hours at any time between sunrise and sunset.

9. In addition to the ordinary work of the year as above provided for, whenever the Assistant Government Agent, or any person authorized by him to supervise the work, gives notice of the need of labour for any urgent work of repair or of prevention of impending damage, every proprietor shall at once contribute the necessary labour or cause his share of the work to be done at his own expense: Provided that double the ordinary amount of labour prescribed under rule 8 shall not be exceeded in any year under this rule.

10. No person other than the Irrigation Superintendent or Chief Headman, or a person duly authorized by either of these officers in that behalf, shall in any way interfere with, or alter the level of, the spill or sluice of the tank.

11. The tank bed shall not be cultivated, unless the majority of the proprietors under the tank decide to cultivate the bed, and the permission of the Assistant Government Agent is obtained.

12. If any proprietor fails to perform his share of any work required under these rules, the Irrigation Superintendent or Cultivation Officer may cause the work to be done and the cost thereof may be recovered in the manner prescribed by section 23 of the Ordinance.

(b) A memorandum thereon of the Acting Secretary recommending the application, and the Municipal Treasurer's comments thereon. Registered No. 1,369.—Recommended by a majority that as in the case of Mr. G. M. Fernando the officer be allowed with retrospective effect the increment that he would have drawn had the first halt been reduced.

The Chairman dissented and records his reasons as follows :—(1) This case is not in my opinion, similar to that of Mr. G. M. Fernando. (2) The terms of the confidential reports of 1925 and 1926 neither indicate nor are consistent with special merit on this officer's part, on the contrary these reports indicate no more than average efficiency. (3) There is a censure in his personal file in 1927. (4) In 1932 the confidential report refers to "the improvement in his work started two years ago," indicating that prior to 1930 there was distinct room for improvement which fact is confirmed on reference to the confidential reports prior to that year. (5) My considered opinion is that the decision of the Finance Committee of November 24, 1926, refusing to recommend a reduction of the halt was correct and that the Council should adhere to it.
