5. In respect of each acre of land under tanks for which a list (dappu) as required by rule 12 has been furnished there shall be paid as remuneration to the Vaddai Vidanai of the tract or area in which the land is situated five measures of paddy per crop, and to the Vaddai Kavalan three measures of paddy per crop: Provided, however, that the Cultivation Officer may exempt from payment any land which has remained uncultivated after the furnishing of the list (dappu) as aforesaid. 10. (1) If for any reason it is not possible to commence cultivation on the date determined under rule 9, or if the supply of water is likely to be insufficient to irrigate the whole area decided on originally, a further date, or the proportion of the tracts to be abandoned, shall be determined at a meeting of the proprietors duly convened for the purpose: Provided that, if after due notice, no proprietors attend, or if the meeting so convened is not able to arrive at a unanimous decision as regards the area to be abandoned, the Assistant Government Agent or such officer as may be deputed by him in writing shall have power to determine the area that is to be abandoned.

(2) Each of the proprietors of the area which it was originally decided to irrigate, shall have a right to cultivate a proportionate share of the reduced area.

11. - (2) The list shall be substantially in the form set out in the schedule to these rules, and shall be furnished on the printed forms supplied by the Assistant Government Agent, Irrigation Superintendent, or Cultivation Officer, and shall bear the signatures of the proprietor and of the mullaikkaran and cultivators or their marks made before two witnesses.
- (3) All the information required by this form shall be accurately filled in, and any person supplying false information shall be guilty of an offence.
- (4) From the date of the delivery of the list, the mullaikkaran and cultivators, as well as the proprietors, shall be liable for all works of cultivation, and in the event of neglect or default without sufficient reason, shall be guilty of an offence.
13. In the absence of a legal document showing that another person has been duly placed and is in actual possession of the land, the dappu shall be accepted in every case from the person who furnished the dappu for the preceding harvest.
14. (1) In the event of any proprietor deciding not to cultivate his land for any season and giving his written consent to its being cultivated by any other proprietor or other applicant, the Vaddai Vidanai shall forthwith send information of the fact to the Irrigation Superintendent or Cultivation Officer.
- (2) On receipt of such information the Irrigation Superintendent or Cultivation Officer may in his discretion either—
- (a) exclude the land from the tract to be irrigated, and allow it to remain uncultivated for that season, subject to the condition that the proprietor whose land is so excluded continues to be liable to erect his share of the fence, or
- (b) permit the land to be cultivated by the other proprietor nominated by the proprietor or by any other proprietor owning lands in that tract, or failing any such proprietor, by any other applicant found to possess the necessary knowledge and experience of paddy cultivation.
- (3) No rent or share of produce or other dues shall be payable to the proprietor of the land by any other proprietor or applicant so permitted to cultivate it; but every such other proprietor or applicant shall be liable to perform all irrigation duties and comply with all the requirements of these rules in the same manner as if he were the actual proprietor of that land.
- (4) Any proprietor deciding not to cultivate his land and withholding his consent to the land being cultivated by any other proprietor or applicant, shall continue to be liable to perform all irrigation duties and comply with the requirements of these rules.
- (5) Where any land remains uncultivated and the whereabouts of the proprietor cannot be ascertained, the Assistant Government Agent may dispense with his consent for the purposes of this rule, and permit the land to be cultivated by any other proprietor or applicant; but the proprietor thereof shall not in that event be entitled to claim any rent or share of the produce or damages from the proprietor or applicant so cultivating it.
15. (1) Every proprietor shall be liable to contribute labour and perform the duties required by these rules for the season's cultivation, unless exempted at the meeting under rule 9.
- (2) In the event of any proprietor failing to perform any work, the Irrigation Superintendent or Cultivation Officer may cause the work to be done; and the actual cost thereof may be recovered in the manner prescribed by section 23 of the Ordinance.
16. All tanks, dams, channels, water-courses, and the like, which are not in charge of the Director of Irrigation, shall be kept in a proper state of repair, and all fields shall be levelled and field-ridges constructed, to the satisfaction of the Assistant Government Agent, by the proprietors in proportion to their respective holdings.
17. Every proprietor shall remove all trees or jungle on his land likely to occasion damage by giving cover to birds or wild animals.
18. (1) All paths between cultivated fields shall be kept open by the proprietors of such fields, according to the limits prescribed by ancient custom, and in proportion to their respective shares.
- (2) Inspection-paths through cultivated fields shall also be constructed and maintained by the proprietors, if required by the Assistant Government Agent.
19. (1) When water from the irrigation work has reached any tract, the Vaddai Vidanai thereof may, subject to the control of the Irrigation Superintendent or Cultivation Officer, cut or close any dam or channel, not in charge of the Director of Irrigation, which impedes the distribution of water to the fields in such tract.
- (2) It shall not be lawful for the Vaddai Vidanai at any other time to interfere with any dam or channel outside his Vaddai.
20. (1) No proprietor shall wilfully prevent water from flowing to the field below, or obstruct the flow of surplus water from the field above or in any other way interfere with the general distribution of the water within the Vaddais, or present any obstruction to the customary drainage of a field or tract.
- (2) In the event of any person so doing, the Vaddai Vidanai shall proceed to the spot with witnesses and open the gaps or remove the obstruction himself.
21. No person shall issue, apportion, cut off, divert, or use, the water in any manner except in accordance with the instructions of the Vaddai Vidanai.
22. (1) The fence round the whole Vaddai shall be measured by the Vaddai Vidanai, within three days of the completion of the sowing, and the work of constructing the fence shall be apportioned among the several proprietors of the Vaddai in proportion to their holdings, irrespective of the actual position of their fields in relation to the fence.
- (2) The Vaddai Vidanai shall forthwith after such apportionment send a list to the Irrigation Superintendent or Cultivation Officer showing the length of fence apportioned to each proprietor.
- (3) If fresh sticks are required, the Vaddai Vidanai shall communicate with the Irrigation Superintendent or Cultivation Officer as early as possible, and obtain through him the necessary free licence to have them cut.
23. The proprietors shall finish the construction of the fence and the necessary watch huts within the time fixed at the meeting under rule 9 and keep both fence and watch huts in repair throughout the cultivation season.
24. (1) Every proprietor shall keep regular watch in accordance with the orders of the Vaddai Vidanai.
- (2) No person shall be employed as watcher who is under the age of 16 years or suffers from any physical disability.
25. (1) Any proprietor may reap the crop on his fields as soon as it reaches maturity, but such crop shall not be threshed or removed from the tract without the permission of the Vaddai Vidanai.
- (2) Every such proprietor shall continue to keep watch over the fields, and to maintain the fence, until the crop on the rest of the tract has been reaped and stored: Provided, however, that no proprietor shall be bound to keep watch or to maintain the fence until the ripening of the crop on any portion which was not sown at the time or with the description of paddy determined under rules 9 and 10.
26. (1) After the reaping is over the Vaddai Vidanai shall order the removal of the fence, and shall cause the fence sticks to be heaped by the cultivators in such places as he may direct.
- (2) Proprietors may, with the consent of the Vaddai Vidanai, remove the fence sticks from the fields; but in every such case they shall furnish the Vaddai Vidanai with a receipt for the number of sticks so removed, and shall return them to the land for the following harvest, whether they cultivate their fields or not; in default of such return as aforesaid they shall be liable for the assessed value of the sticks so removed.
27. No paddy shall be removed from the fields at the termination of the harvest until the wages due to all persons engaged in the harvest and the hire of cattle and other cultivation charges have been paid, and in the case of a field cultivated for share until the landlord's dues have been paid: Provided, however, that in any case where there is a serious risk of damage to any paddy left on the threshing-floor, the proprietor may remove it after taking such steps as are approved by the Vaddai Vidanai for safeguarding the claims of the other parties concerned.
28. (1) All field-channels and water-courses which are not in charge of the Director of Irrigation shall be in charge of the Vaddai Vidanais acting under the instructions of the Irrigation Superintendent or Cultivation Officer.
- (2) No person shall fill up, or encroach upon, such channels or water-courses or any of their reservations.

(3) No paddy shall be sown in any irrigation or other channel.

29. (1) Any channel, dam, or other work required, whether outside or inside any field, shall be constructed by the proprietors interested in proportion to their holdings.

(2) Where a scheme is in charge of the Director of Irrigation, all applications for permission to construct such works shall be made in writing to the Irrigation Superintendent or Cultivation Officer.

(3) Every proprietor of new lands which have been surveyed and demarcated by land marks with reservations for field-channels, shall construct his proportion of the field-channel intended to irrigate the group of lots in which his holding is situated, in accordance with alignments approved by the Irrigation Officer.

(4) If any proprietor of such lands is unable to obtain water for irrigation owing to the neglect of any other proprietors to cut their shares of the field-channels, such other proprietors shall be called upon by the Irrigation Superintendent or Cultivation Officer to do the necessary work.

30. (1) Every proprietor shall grant way leave for field-channels, dams, or other works approved by the Irrigation Superintendent or Cultivation Officer, even though his own land may not be benefited thereby.

(2) All proprietors whose lands are benefited by any such work shall be liable under this rule to pay to the owners of lands, which suffer damage by the construction of the work, compensation for any land taken, or damage done, in proportion to the area of the holdings benefited and according to such rates as may be determined by the Assistant Government Agent.

31. (1) No person shall in any way alter or injure any ridge or boundary between two fields in the same tract.

(2) On receipt of any information that such alteration or injury has been effected, the Vaddai Vidanai shall, after due notice to the owners, proceed to the spot with witnesses, and call upon the owners to restore the boundary to its original state; and in the event of their failing to do so within three days thereafter, the Vaddai Vidanai shall report the matter to the Irrigation Superintendent or Cultivation Officer.

32. Whenever any new land is declared irrigable and included in the specification of lands irrigable under any tank or work, the proprietor of such land shall—

THE COLOMBO MUNICIPAL COUNCIL.

General Meeting.

Wednesday, August 5, 1936, at 3 p.m..

The Council met this day at 3 P.M., pursuant to notice, dated July 29, 1936.

Present.—Mr. W. L. Murphy, B.A., C.C.S., Chairman; Mr. N. H. M. Abdul Cader; Dr. E. A. Coorey; Mr. M. L. M. Reyal; Dr. S. Muttiah; Mr. A. E. Goonesinha, M.S.C.; Mr. Aelian W. Pereira; Mr. A. R. A. Razik, M.S.C., J.P.; Dr. S. T. Gunasekera; Mr. G. K. Thornhill; Mr. Geo. R. de Silva; Mr. A. Mamujee; Mr. W. J. Price; Mr. C. S. Richards; Mr. A. Duncum; Mr. K. W. Taylor, A.C.A.; and Mr. D. Gordon.

1. The Minutes of the General Meeting of July 1, 1936, having been previously printed and copies thereof having been sent to each Member of Council, were taken as read and confirmed.

2. Pursuant to notice Mr. M. L. M. Reyal asked the following questions which the Chairman answered:—

(1) Q.—In view of the recent accidental deaths by electrocution in the City, will the Chairman please ascertain from the Government Electrical Department—(a) What steps have been taken to minimize the risks of such accidents in future? (b) What steps has the Department hitherto taken to educate the consumers of electricity in the City, in the light of the increased voltage? (c) What serious objections the Department has against a reduction of the present high voltage to its former level? (d) Whether the Department insists on the present high voltage being maintained? (e) Whether the Department does not agree that at least until adequate and effective safeguards against the risks of electrocution have been freely provided to the public, an adjustment of the voltage to a safer level is essential? (f) If the Department has not already done so, whether it would take immediate steps to ensure that all consumers of electricity are served with simple and complete instructions that would teach them how to avoid risks of electrocution? A.—A recent memorandum of the Chief Engineer and Manager, Government Electrical Undertakings, is tabled for the information of members. I am informed that a pamphlet has also been prepared for circulation to consumers.

(2) Q.—In view of the increasing installation of overhead electric mains in the City, will the Chairman please obtain an independent report from the Municipal Engineer on the following questions:—(a) What are the dangers attendant upon such mains installed in residential and other areas? (b) Do the dangers at present involved in the increase of overhead mains warrant a continuance of the policy hitherto adopted by the Council of allowing these mains? (c) If overhead mains are indispensable, and effective protection be afforded to the public so as to ensure to them all possible safety from serious accidents arising out of overhead mains? A.—A report of the Mechanical Engineer who is also qualified in electrical engineering is tabled.

2A. With the permission of Council, Mr. A. E. Goonesinha, presented a petition from the owners of properties situated at Kolonnawa lane, Demetagoda, in Maradana Ward, praying that the present name of the lane be changed to "Gnanawimala Road" and requested that it be submitted for consideration by the appropriate Committee.

3. The following motion stood in the name of Mr. A. R. A. Razik:—That in view of the fact that the bleaching of fibre, cardamoms, &c., is allowed in the Grandpass Copra Area, which is chiefly a commercial area, this Council is of opinion that the bleaching of arecanuts, which is now restricted to the offensive and dangerous area, be allowed in the Grandpass Copra Area.

Mr. A. E. Goonesinha rose to a point of order and stated that as the law stood this trade is restricted to offensive and dangerous trades area and the motion should therefore state that the law be amended. If the motion was accepted as it stood nothing can be done without the necessary amendment of the law.

The Chairman stated that he had no objection to the motion being amended as suggested by Mr. A. E. Goonesinha.

Mr. A. R. A. Razik agreed to the suggestion and moved as follows:—"That in view of the fact that the bleaching of fibre, cardamoms, &c., is allowed in the Grandpass Copra Area, which is chiefly a commercial area, this Council is of opinion that the law be amended in order that the bleaching of arecanuts, which is now restricted to the offensive and dangerous area, be allowed in the Grandpass Copra Area."

Mr. Aelian W. Pereira seconded and suggested that the matter be referred to the Sanitation Committee for consideration and report.

Mr. M. L. M. Reyal and Mr. A. E. Goonesinha opposed the motion.

The Chairman explained facts.

Mr. N. H. M. Abdul Cader spoke to the motion.

Dr. S. Muttiah opposed the motion.

Dr. S. T. Gunasekera explained that bleaching of arecanuts was as offensive as curing.

Mr. A. R. A. Razik spoke in reply.

The motion was put to the meeting and lost.
