THE English text of the following Notes regarding Commercial Relations, exchanged at London on August 10, 1936, between His Majesty's Government in the United Kingdom and the Government of the United States of Brazil, and constituting an agreement between the said Governments, is hereby published for general information.

Chief Secretary's Office, M. M. WEDDERBURN,  
Colombo, January 11, 1937. Acting Chief Secretary.

### Exchange of notes between His Majesty's Government in the United Kingdom and the Brazilian Government regarding Commercial Relations.

Brazilian Embassy,  
London, August 10, 1936.

SIR,—I HAVE the honour to inform your Excellency that the Brazilian Government, being desirous to regulate and develop the commercial relations between the United States of Brazil and the United Kingdom of Great Britain and Northern Ireland, pending the conclusion of a Treaty of Commerce and Navigation between the two countries, are prepared, on condition of reciprocity, to accord to goods produced or manufactured in the United Kingdom and imported into Brazil (whether for consumption, re-export or transit) treatment at least as favourable, in all respects, as that accorded to goods produced or manufactured in any other foreign country. In particular, they shall not be subject on entry into the national territory, or subsequently, to other higher Customs duties or charges, to other prohibitions or restrictions, to other or more onerous Customs formalities, or to other or more onerous licensing requirements, than those to which like goods, the produce of any other foreign country, are subject. Similar treatment will be accorded in Brazil to goods the produce or manufacture of any British colony, protectorate or territory in respect of which a mandate is exercised by His Majesty's Government in the United Kingdom, so long as in such colony, protectorate or mandated territory, Brazilian goods receive treatment not less favourable than that accorded to goods of the most favoured foreign country.

2. Goods produced or manufactured in Brazil and exported therefrom to the United Kingdom shall not be subjected in Brazilian territory to other or higher export duties, to other or higher fiscal burdens, or to other prohibitions or restrictions, than those applied to like goods exported to any other foreign country.

3. No internal duties shall be levied in Brazil for the benefit of the Union, States or municipalities on goods, the produce or manufacture of the United Kingdom, which are other or greater than the duties levied in similar circumstances on the like goods of any other foreign origin.

4. As an exception from the general undertaking given by the Brazilian Government to accord most-favoured-nation treatment to goods produced or manufactured in the United Kingdom and imported into Brazil, it is understood that His Majesty's Government in the United Kingdom shall not be entitled to claim the benefits of any advantages that are or may be accorded by Brazil to adjacent countries in order to facilitate frontier traffic, or to advantages granted in virtue of a customs union which has already been, or may hereafter be, concluded.

5. Whenever quantitative limitation is imposed on imports into Brazil on articles in which the United Kingdom is interested, equitable treatment will be accorded to such articles, the produce or manufacture of the United Kingdom, taking into account the proportion of the respective supplies

from the United Kingdom in relation to the total imports of such articles in recent years. In future cases the Brazilian Government will consult with His Majesty's Government in the United Kingdom before any allocation is made in respect of such articles imported from the United Kingdom, and will take all relevant circumstances into account. The Brazilian Government reserve the right to alter the quantity allocated to the United Kingdom in the event of the latter failing to fill her allotted quota for other than temporary or unavoidable causes.

6. The Brazilian Government will not discriminate against His Majesty's Government in the United Kingdom or against persons (including companies) in the United Kingdom either as regards the allocation or regulation of exchange or the grant of import licences imposed with the object of regulating exchange.

7. Should the Brazilian Government deem it necessary to impose prohibitions or restrictions upon imports into Brazil for the purpose of protecting animals and plants (that is to say, protection against disease, degeneration or extinction, as well as measures taken against the importation of harmful seeds, plants and animals), they undertake that such prohibitions or restrictions shall only be applied to imports from the United Kingdom in the same manner and to the same extent as they are applied to imports from any other country where similar conditions prevail.

8. I shall be glad if your Excellency will address to me a note stating whether His Majesty's Government in the United Kingdom are prepared to give a reciprocal undertaking covering the above-mentioned matters.

I have, &c.,  
REGIS DE OLIVEIRA.

No. 2.

Mr. ANTHONY EDEN to M. RAUL REGIS DE OLIVEIRA.  
Foreign Office, August 10, 1936.

YOUR EXCELLENCY,—In reply to Your Excellency's note of to-day's date relative to the desire of the Brazilian Government to regulate and develop the Commercial relations between the United Kingdom and the United States of Brazil pending the conclusion of a Treaty of Commerce and Navigation between the two countries, I have the honour to inform you that His Majesty's Government in the United Kingdom are prepared on condition of reciprocity to accord to goods produced or manufactured in Brazil and imported into the United Kingdom (whether for consumption, re-export or transit) treatment at least as favourable in all respects as that accorded to goods produced or manufactured in any other foreign country. In particular, they shall not be subject on importation, subsequently, to other or higher Customs duties or charges, to other prohibitions or restrictions, to other or more onerous Customs formalities or licensing requirements than those to which like goods, the produce or manufacture of any other foreign country, are subject.

2. Goods produced or manufactured in the United Kingdom and exported therefrom to Brazil shall not be subjected in the United Kingdom to other or higher export duties or charges than those paid upon, or to other prohibitions or restrictions than those applied to, like goods exported to any other foreign country.

3. No internal duties shall be levied in the United Kingdom for the benefit of organs of central, provincial or local Government on goods the produce of manufacture of Brazil which are other or greater than the duties levied in similar circumstances on the like goods of any other foreign origin.

4. Nothing in the present Note shall entitle the Brazilian Government to claim the benefit of any treatment, preference or privilege which may at any time be granted in the United Kingdom exclusively to territories under the sovereignty of His Majesty the King of Great Britain, Ireland and the British Dominions beyond the Seas, Emperor of India, or under His Majesty's suzerainty, protection or mandate.

5. Whenever quantitative limitation is imposed on imports into the United Kingdom of articles in which Brazil is interested, equitable treatment will be accorded to such articles, the produce or manufacture of Brazil, taking into account the proportion of supplies from Brazil in relation to the total foreign imports of such articles in recent years. In future cases His Majesty's Government in the United Kingdom will consult with the Brazilian Government before any allocation is made in respect of such articles imported from Brazil, and will take all relevant circumstances into account. His Majesty's Government in the United Kingdom reserve the right to alter the quantity allocated to Brazil in the event of the latter failing to fill her allocated quota for other than temporary and unavoidable causes.

6. His Majesty's Government in the United Kingdom will not discriminate against the Government of Brazil or against persons (including companies) in Brazil either as regards the allocation and regulation of exchange or the grant of import licences imposed with the object of regulating exchange.

7. Should His Majesty's Government in the United Kingdom deem it necessary to impose prohibitions or restrictions upon imports into the United Kingdom for the purpose of protecting animals and plants (that is to say, protection against disease, degeneration or extinction, as well as measures taken against harmful seeds, plants and animals), they undertake that such measures shall only be applied to imports from Brazil to the same extent and in the same manner as they are applied to imports from any other country where similar conditions prevail.

8. With reference to the undertaking in paragraph 1 of Your Excellency's note whereby treatment similar to that to be accorded to goods produced or manufactured in the United Kingdom will be accorded in Brazil to goods the produce or manufacture of any British Colony, protectorate or territory in respect of which a mandate is exercised by His Majesty's Government in the United Kingdom, so long as in such colony, protectorate or mandated territory, Brazilian goods receive treatment not less favourable than that accorded to the goods of the most favoured foreign country, I have the honour to inform you that the term "foreign country" is interpreted by His Majesty's Government in the United Kingdom in the following manner. The term "foreign country" does not include any territory under His Majesty's sovereignty, suzerainty, protection or mandate; nor, having regard to article 18 of the Mandate for Palestine, does it, in the case of Palestine, include any State a territory of which in 1914 was wholly included in Asiatic Turkey or Arabia, in so far as any special customs agreements between Palestine and any such State are concerned. I shall be glad if Your Excellency will address to me a further note stating the agreement of the Brazilian Government with this interpretation.

9. I have the honour to suggest that the present note and your note under reply, together with your further note as requested in the preceding paragraph, shall be regarded as constituting an agreement between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of Brazil which shall come into force immediately and shall continue in force until three months from the date of denunciation by either of the two Governments.

I have, &c.,  
(For the Secretary of State),  
A. HOLMAN.

Brazilian Embassy,  
London, August 10, 1936.

SIR,—IN reply to Your Excellency's note of to-day's date relative to the commercial relations between the United Kingdom of Great Britain and Northern Ireland and the United States of Brazil, I have the honour to inform Your Excellency, with reference to paragraph 8 thereof, that the Brazilian Government are in agreement with the interpretation of the term "foreign country" therein set forth.

2. I have further the honour to state that I agree that my earlier note of to-day's date and Your Excellency's reply thereto, together with the present note, shall be regarded as constituting an agreement between the Government of the United States of Brazil and the Government of the United Kingdom of Great Britain and Northern Ireland which shall come into force immediately and shall continue in force until the expiration of three months from the date of denunciation by either of the two Governments.

I have, &c.,  
REGIS DE OLIVEIRA.

H 2871/36

SELECTION OF A CEYLONESE CANDIDATE FOR  
APPOINTMENT AS POLICE PROBATIONER.

*This Notification applies to Selection of Police  
Candidates for 1937 and there is no guarantee  
that the same Conditions will apply in  
Future Years.*

THERE will be at least one vacancy in 1937 in the Ceylon Police Force in the rank of Probationary Assistant Superintendent to be filled by the appointment of a Ceylonese Probationer.

2. As recommended in the report of the Select Committee of the Legislative Council on the Police Force (Sessional Paper XI.—1926), Ceylonese candidates for appointment as Police Probationers will undergo the same qualifying literary examination as candidates resident in England and will be selected, subject to confirmation by the Secretary of State for the Colonies, by His Excellency the Governor.

3. Instructions have been received from the Secretary of State that the qualifying literary examination to be held by the Civil Service Commissioners will commence on June 22, 1937. Arrangements are being made for examination papers to be sent by the Civil Service Commissioners to Ceylon so that Ceylonese candidates may take up the examination in Ceylon.

4. **Method of Application.**—(a) Candidates must first obtain the permission of His Excellency the Governor to sit at the examination. Applications on forms to be obtained from the Chief Secretary or from the Inspector-General of Police must be sent to reach the Chief Secretary not later than February 15, 1937. No applications received after that date will be considered.

(b) Forms must be filled in as follows:—The applicant is required to state full particulars regarding his career and qualifications; he must name on the form two referees who will answer from personal knowledge for his character and capacity. Originals and copies of testimonials (not more than six) will be attached to the form. He must also enclose his birth certificate (or a certified copy), the originals and copies of certificates of any examinations passed by him, and a certificate from a qualified medical practitioner giving his height, chest measurement, with any special remarks as to physical development, &c. The originals of the testimonials and the birth and examination certificates will be inspected and returned to the candidate while the copies will be retained for record in the Secretariat.

(c) Applications from candidates already in Government Service should be forwarded through the Heads of the Departments in which the applicants are serving.

5. **Conditions of Eligibility.**—Every candidate shall fulfil each of the following conditions:—

- (i) He must be a natural-born British subject.
- (ii) His permanent home must be in Ceylon.
- (iii) He must have been educated either in Ceylon or in the United Kingdom of Great Britain and Northern Ireland.
- (iv) On August 1, 1937, at least 19 years and not more than 26 years must have elapsed since the date of his birth; provided that in the case of an Inspector or Sub-Inspector in the Ceylon Police who joined the Force as a Sub-Inspector during the period 1919-1926, on August 1, 1937, at least 19 years and not more than 30 years must have elapsed since the date of his birth.
- (v) He must have passed the London Matriculation Examination or the Cambridge Senior Examination with exemption from the London Matriculation Examination.
- (vi) He must be of good moral character.
- (vii) He must be unmarried, except in the case of an Inspector or Sub-Inspector who joined the Force as a Sub-Inspector during the period 1919-1926.
- (viii) He must be of sound constitution, and physically fit for service in any part of the Island. He must also be able to distinguish the principal colours.

*Note.*—No person will be deemed eligible as a candidate who has not furnished satisfactory proof that he fulfils each of the conditions set forth above.

6. **Permission to sit at the Examination.**—Candidates who have complied with the above instructions will be informed in due course whether they have been granted permission to sit at the examination. The grant of such permission will be at the absolute discretion of the Governor and he will not be prepared to give reasons for his decision on any application.

7. **Selection after the Examination.**—The Governor will, subject to confirmation by the Secretary of State,

select a candidate to fill the vacancy from amongst those who are pronounced by the Civil Service Commissioners to have qualified in the literary examination.

The candidate will be selected who appears to the Governor to be most suitable on grounds of character, personal fitness, general education and subsequent training and experience (if any).

Candidates must be prepared to attend at the Secretariat, if required, at their own expense, to reply to any inquiries which may be considered necessary. Qualification in the literary examination will not in itself imply ultimate selection for an appointment.

*The selection of the candidate will be at the absolute discretion of the Governor, subject to the approval of the Secretary of State, and he will not be prepared to give reasons for his decision on any application.* Any attempt to interview the Inspector-General or any officer of his Department on behalf of any candidate will render the candidate liable to disqualification.

8. **Reserve List.**—When the selection of a candidate to fill the existing vacancy has been completed, it will be at the discretion of the Governor, subject to the approval of the Secretary of State, to place certain of the unsuccessful candidates (but only candidates who have qualified in the literary examination) on a reserve list. From this list candidates may be selected to fill any further vacancies that might occur during the course of the year 1937. No indication can be given, however, as to the possible occurrence of such vacancies.

9. **Medical Examination.**—The selected candidate will be required to undergo a medical examination as to his physical fitness for service as a Police Officer in any part of the Island. Final selection will depend upon successfully passing this medical examination.

10. The following is a list of the subjects in which candidates will be examined :—

#### I.—SCHEME OF EXAMINATION.

PART I.		Maximum Marks.
English ..	..	200
General Knowledge ..	..	100
One of the following :—		
Modern Language ..	..	100
British History ..	..	
Elementary Mathematics ..	..	
Everyday Science ..	..	
PART II.		
Latin ..	..	300
Greek ..	..	300
French ..	..	300
German ..	..	300
Modern History ..	..	300
Lower Mathematics ..	..	300
Higher Mathematics ..	..	300
Physics-plus-Chemistry ..	..	300
Biology ..	..	300

A candidate may not offer more than two subjects in Part II.

Except as provided below in the case of languages no candidate may offer similar subjects in Parts I. and II. That is to say, a candidate taking Physics-plus-Chemistry or Biology may not offer Everyday Science; a candidate taking Lower or Higher Mathematics may not offer Elementary Mathematics; and a candidate taking Modern History may not offer British History. A candidate may not offer the same language in Part I. and Part II. nor may he offer more than two foreign languages, ancient or modern in all.

**Modern Languages in Part I.**—Any one of the following modern languages may be offered: French, German, Italian, Spanish, Russian.

In addition to the above-named subjects a candidate may take up either freehand drawing or geometrical drawing, each of which carries 50 marks.

A candidate must obtain such an aggregate of marks in the whole examination as to satisfy the Civil Service Commissioners.

The syllabus of individual subjects will be the same as that for the Navy, Army, and Air Force Entrance Examination, except that candidates in Physics-plus-Chemistry and Biology in Part II. will not be required to produce evidence of laboratory training. For candidates examined in Ceylon the laboratory tests in Lower and Higher Mathematics will be omitted, the maximum marks for the subjects being allotted to the written papers.

**Fee.**—Each candidate undergoing the examination should pay a fee of £5, which amount is due to the Civil Service Commissioners, and an additional local fee of Rs. 20 to meet the cost of supervision and other incidental expenses in connection with the examination. Instructions as to the manner in which the fee is to be paid will be sent with the Order for Examination which, together with a Time Table of the Examination, will be forwarded in time to reach candidates who have been nominated about a fortnight before the examination.

**II.—The Syllabus for the 1937 Examination will be similar to the Syllabus of the Examination for the year 1936.**

#### SYLLABUS OF THE NAVY, ARMY, AND AIR FORCE ENTRANCE EXAMINATION, 1936.

1. **ENGLISH:** The tests in English will be designed to value understanding and command of the language. No essay will be asked for.

**Précis.**—A passage will usually be set for summary or précis. Limits may be prescribed for the number of words that the summary or précis should contain. Failure to keep within the prescribed limits will entail loss of marks. It is useful for the candidate to have some idea of the number of words he is accustomed to write on a foolscap page.

**Handwriting.**—In English, and in every other subject deductions for handwriting which is at all difficult to read will be made up to 20 per cent. of the maximum mark. An officer in the field may have to write under great difficulties, and his report may have to be read in a poor light by another officer tired out by a long day's work. If communications are to take place accurately in those circumstances, it is essential that under mere examination conditions the handwriting should be absolutely legible. Accordingly, perfection of legibility is the criterion; no preference will be accorded on other grounds to any particular style of handwriting.

**Spelling.**—In English, and in every other subject, deductions for bad English spelling will be made up to 10 per cent. of the maximum mark. A spelling recognized by any standard dictionary is accepted as correct.

Command of the English language is taken into account in all subjects.

2. **GENERAL KNOWLEDGE:** The questions in General Knowledge will be designed to test the knowledge and interest of candidates (1) in the more important topics of the day, (2) in literary, geographical and other questions.

4A. **MODERN LANGUAGE:** The test will include translation from the foreign language; set composition (in which an English passage is given to be put into the foreign language), and free composition (in which the candidates write in their own words on a prescribed subject). The candidates' translation must not only show that they understand the original; it must also be expressed in good English.

For German composition candidates may use either German or English characters.

4B. **BRITISH HISTORY:** British History from 1714 to the present time. Attention will be confined to the great men and the great events, the great changes and the great movements, and the broad features of the general life. So much knowledge of foreign history is desirable as is necessary in order to understand the action of this country abroad and the action of other countries upon this country, and the knowledge of geography necessary for the comprehension of history will be tested.

4C. **ELEMENTARY MATHEMATICS: I. Arithmetic**, including problems about money, imperial and metric weights and measures, mensuration, percentages, and averages.

Knowledge of recurring decimals, scales of notation, stocks and shares, foreign exchange, and true discount is not required. Contracted methods are not required; when an approximate result is required candidates may work with all the figures supplied or make legitimate discards at any stage. The arithmetical rules for square and cube root are not required.

An arithmetical result may be asked for to a certain approximation, or the data may themselves be only approximate. In such a case, to give the result to a greater degree of accuracy than is asked for or is justified by the data will entail loss of marks. Candidates are expected to understand such phrases as "three significant figures," "four-figure accuracy."

2. A sound appreciation of the following geometry will be expected, but proofs will not be asked for:—

Properties of angles at a point, *e.g.*, that vertically opposite angles are equal. Congruence properties of triangles, *i.e.*, the nature and number of the conditions that determine a triangle. The conditions of similarity of two triangles, *i.e.*, the conditions which determine the shape of a triangle. The following plane loci: the locus of a point equidistant from two fixed points, and the locus of a point within a given angle at equal perpendicular distances from the arms of the angle. The condition of the parallelism of two straight lines, in its various forms. Proportion properties of parallels, the treatment of incommensurables not being required. Perimeter and area of a circle. Surface-areas and volumes of prisms, cylinders, pyramids, cones, with such simple problems on these figures as can be solved by the geometrical properties mentioned in this and the next paragraph. Surface-area and volume of a sphere. The representation of the simplest three-dimensional figures by means of plan and elevation.

3. Of the following geometry a sound appreciation will be expected, and proofs may be asked for. Candidates may base their proofs on the properties mentioned in the preceding paragraph or on other grounds:—

The angle-sum property of a triangle. Properties of the parallelogram. Solution of right-angled triangles by drawing and by the use of tables of trigonometrical functions. Pythagoras' theorem and the converse. Areas of triangles, quadrilaterals, &c. Simple properties associated with symmetry. Simple properties of circles, *viz.*, angle properties, rectangle properties, properties of chords and tangents. Similar figures. Measurements suitable for determining the position of a point in a plane, or in space. Measurement of the angle between two planes, and between a line and a plane.

4. Algebraic calculation in connection with the above geometry and with other problems, including: the expression of an arithmetical generalization in a formula, the interpretation of a formula, evaluation of a formula for numerical values of its variables; linear and quadratic equations with numerical coefficients; simple instances of varying magnitudes, statistical and mathematical, treated by means of graphs and otherwise; inversion of a formula (or change of the subject of a formula); use of logarithms; gradient of a graph.

A knowledge of algebraic square root and the theory and use of negative and fractional indices will not be expected. Questions will not be set upon lowest common multiple or highest common factor. Little skill is expected in algebraic manipulation, as, for instance, in long multiplication and division, factorization, transformation of expressions, identities, inequalities, and the simplification of fractions; only such manipulation will be expected as arises naturally out of simple problems.

5. *Mode of Treatment.*—Grasp of elementary principles and readiness in practical application will be looked for. Numerical results should be worked out to a few significant figures. Candidates may be required to apply rough checks of the accuracy of particular results; they may also save themselves from blunders by applying checks even when not demanded. No great skill in the use of drawing instruments will be expected, but slovenly work will entail loss of marks.

Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations like lb. and cm. is permissible; a calculation can often be exhibited quite clearly without the use of words, and a tabular form is often appropriate; but incomplete sentences such as are appropriate in telegrams will involve loss of marks.

There will be no laboratory test.

4D. **EVERYDAY SCIENCE:** The questions will be on matters mainly physical, chemical, biological, hygienic. Such knowledge will be expected as a boy is likely to possess who has studied the subject intelligently at school up to the age of 16 and has kept his eyes open. A liberal choice of questions will be given.

There will be no laboratory test.

5. **LATIN:** Translation and prose composition. The candidates' translation must not only show that they understand the original; it must also be expressed in good English.

6. **GREEK:** As for Latin.

7. **FRENCH:** Translation from French; set composition; free composition; conversation. The candidates' translation must not only show that they understand the original; it must also be expressed in good English. The oral test will carry 75 marks.

8. **GERMAN:** As for French. For German composition candidates may use either German or English characters.

9. **MODERN HISTORY:** British history, including British colonial history, from 1660 to the present day, together with European history during the same period. European history will be treated mainly as affecting British history, and with special reference to the following subjects:—Decline of the power of Holland. The ambitions of Louis XIV. The rivalry of England and France for colonial empire in India and America. Frederick the Great and the rise of Prussia. The French Revolution and the First Empire. The unification of Italy. Bismarck and the Union of Germany. The action of Russia in the Near East, Middle East, and Far East. The causes and results of the Great War (1914–1918).

Although a fixed date is given for the beginning of the period, candidates will be expected to know in general outline how the initial position was reached. Such knowledge of geography as is necessary to make the history comprehensible will be required.

All questions, whether relating to European or to British history, will deal with the broad outlines of the subject and no more knowledge of detail will be expected than is necessary for the comprehension of the outlines.

**Mathematics.** Subjects 10, 11.—Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations like lb. and cm. is permissible; a calculation can often be exhibited quite clearly without the use of words, and a tabular is often appropriate; but incomplete sentences such as are customary in telegrams will involve loss of marks.

10. **LOWER MATHEMATICS: Arithmetic.**—Arithmetic, including simple methods of dealing with statistical data.

The mensuration of plane areas and simple solid bodies. The use of callipers, vernier and other simple measuring instruments. The determination of area, volume, and density by displacement, by weighing, &c.

*Geometry.*—The substance of Euclid's six books. Elementary ideas in solid geometry treated informally: straight lines, planes, rectangular blocks, wedges, pyramids, cylinders, cones, and spheres. The construction of plans and elevations.

*Algebra.*—Formulas, their evaluation and transformation; the notion of a function; rate of change. The gradient and area of a graph. The solution of equations, linear and quadratic, simple and simultaneous. The

use of logarithms; the meaning and simplest properties of negative and fractional indices. Arithmetical and finite geometrical sequences.

*Trigonometry.*—Solution of plane triangles; graphs of trigonometrical functions; use of four-figure tables; addition theorems.

*Mechanics.*—The lever, the inclined plane, the pulley, the balance and other simple machines; the composition and resolution of forces in one plane; moments; simple graphical methods; simple cases of equilibrium; properties of the centre of gravity; work; velocity ratio, mechanical advantage, and efficiency of a machine.

The composition and resolution of velocities and acceleration in one plane; rectilinear motion under uniform acceleration; the conservation of linear momentum; work, energy and power; graphical treatment of varying velocities, accelerations and forces.

Proofs of the parallelogram and triangle of forces, and of the principle of moments will not be asked for. Questions will not be set on curvilinear motion.

*General.*—In the absence of special instructions that a question is to be answered by a particular method, candidates are at liberty to choose their method from any branch of mathematics.

11. HIGHER MATHEMATICS: Includes Lower Mathematics, together with:—

*Geometry.*—Elements of solid geometrical drawing.

Equations to the straight line, circle, ellipse, parabola, hyperbola, and other simple curves, in rectangular co-ordinates. Acquaintance is expected only with the simplest theorems about the curves. Candidates are free to use the methods of the infinitesimal calculus.

*Algebra.*—Elementary knowledge of the use of indeterminate coefficients, especially with partial fractions. Easy computation, including the numerical solution of equations.

*Calculus.*—Differentiation and integration of simple standard forms and other forms depending on them; application to easy geometrical, mechanical, and physical problems, to turning values, and to the expansion of simple algebraic and trigonometrical functions. A working knowledge (without rigorous fundamental demonstrations) of the elementary infinite series for  $(1+x)^m$ ,  $e^x$ ,  $\log_e(1+x)$ , and their use in approximate calculations.

*Mechanics.*—The equilibrium of bodies in two dimensions; link polygons. Harmonic motion. Simple and conical pendulums. Projectiles. Simple cases of linked mechanisms. The rotation of a rigid body about a fixed axis. The action of such mechanical devices as crank mechanisms, engine governors, cranes, brakes.

*General.*—In Higher Mathematics more analytical skill will be expected than in the earlier stage. In the absence of special instructions that a question is to be answered by a particular method, candidates are at liberty to choose their method from any branch of mathematics.

**Science.** Subjects 12, 13.—There will be no laboratory test in Physics-plus-Chemistry or Biology as a part of the examination.

In the valuation of candidates' work in these subjects credit will be given for lucidity, orderly development, and aptness of language; deductions will be made for incoherence, irrelevance, obscurity, slovenliness of expression and especially for bad grammar and the incorrect use of words and phrases. Chemical symbols must be restricted to their proper function and not used as shorthand symbols for the names of the substances.

12. PHYSICS-PLUS-CHEMISTRY.—The following three subdivisions will carry equal weight:—

*Electricity.*—The fundamental ideas concerning electric currents, difference of potential, resistance; construction and mode of action of the commoner primary batteries. The fundamental laws of electrolysis, and their application in secondary cells and electro-plating. Heating

effect of a current; its application in incandescent and arc lamps, electric welding, cooking, &c. The phenomena of permanent and induced magnetism in iron; fields of magnetic force; the magnetic field associated with an electric current. The construction and action of an electro-magnet; application in electric bells and telephones. The simpler phenomena of electro-magnetic induction; broad principles and applications of the induction coil, magneto, dynamo, and motor. The fundamental ideas concerning wireless telegraphy. The simpler methods of measuring electric current, difference of potential, and resistance; practical definitions of ampere, volt, and ohm. Ohm's law. Construction and mode of action of simple measuring instruments; electric transmission of power by direct current; joule, watt, Board of Trade unit of electric energy.

*Physics other than Electricity.*—General: Principles of measurement. Solids, liquids, and gases.

Hydrostatics: Fluid pressure; floating bodies. Determination of specific gravity. Gaseous pressure. Boyle's law. Atmospheric pressure; barometers. Air and water pumps and other simple instruments.

Heat: Temperature; thermometers. Specific heat, latent heat, calorimeters. Expansion; measurement and simple illustrations. Transmission of heat; convection, conduction, and radiation; application to heating and ventilating. Vaporization; distillation; humidity, fog and cloud. Heat considered as energy; mechanical equivalent. Generation of heat; caloric values.

*Optics:* Transmission, reflexion, refraction of light. Prisms and lenses; the formation of images. Construction of simple telescopes and microscopes. The eye; spectacles. Intensity; principles of illumination; photometry. Dispersion; spectroscopes; colour.

*Chemistry.*—General Chemistry: Elements, compounds and mixtures. Laws of chemical combination. Equivalents, molecular and atomic weights. Structural formulae and valency. Outlines of the properties of solutions. Heat of reaction.

Inorganic Chemistry: The chemical properties of oxygen, hydrogen, nitrogen, chlorine, carbon, sulphur, phosphorus, and their common compounds.

The general characteristics and behaviour of the metals potassium, calcium, aluminium, copper, zinc, mercury, tin, lead and iron.

The preparation (without technical details) and uses of chemicals of industrial importance, such as oxygen, soda, sulphuric acid, coal gas, and of the more important metals.

Organic Chemistry: Outlines of the chemistry of the simple compounds of carbon, containing not more than two carbon atoms directly connected. An elementary knowledge of the properties of benzene and its simpler derivatives. The part played by carbon compounds in the life of animals and plants; fats, soap, starch and sugars, treated descriptively. Carbon compounds as sources of energy.

In Chemistry a choice of questions will be given so that full marks may be scored without a knowledge of organic chemistry.

13. BIOLOGY: 1. The contrast, with respect to energy, between living creatures and lifeless matter; the broad differences between plants and animals; respiration; anabolism and katabolism.

The main types of nutrition and their place in the economy of living nature; nitrifying and nitrogen-fixing organisms, plants, grazing animals; the essential constituents of human food.

Asexual and sexual reproduction as illustrated by yeast, common mould, a fern, and the flowering plant (e.g., buttercup). The broad features of the development of the flowering plant (e.g., bean) from the seed.

The interaction between plant and animal life as illustrated in simple cases.

2. A fuller treatment of the growth of plants; experiments upon germination, observations of the structure of seeds and bulbs, the characters of buds.

Comparison of the eggs of an animal (*e.g.*, the fowl, the frog) with seeds. The more obvious features of the development of the frog from the ovum to the end of larval life.

3. A fuller treatment of the physiology of the flowering plant. The chief ingredients of soil and their properties; main types of soil. The work of earth-worms, soil bacteria and protozoa. Relations between plants and soil; arrangements subserving the absorption of water by roots and loss by leaves.

Experiments upon the influence of light upon growth; respiration and assimilation; the structure and functions of the green leaf. Food reserves.

The main points in human physiology brought out by comparison and contrast with the physiology of the flowering plant.

4. A fuller treatment of the reproduction of the flowering plant. The chief features in the structure of flowers; pollination and cross-pollination and the means by which these are effected; fruiting, and the main types of fruits; seed-dispersal.

5. The broad features of the economy of the more important food-plants; the rotation of crops; the relation of crops to the needs of horses and of animals used for food.

6. The evidence for the doctrine of biogenesis, and for the connection of micro-organisms with putrefaction disease, &c.

7. The candidate should study some or all of the following types in illustration of the subject:—

Saccharomyces and bacteria; mucor and penicillium or eurotium; a unicellular green plant, *e.g.*, chlamydomonas or hæmatococcus or protococcus (a comparison of its nutrition with that of plants without chlorophyll); spirogyra, volvox, a moss, *e.g.*, funaria, a fern (a knowledge of the microscopical anatomy of the vegetative organs of the moss and fern is not required); flowering plants, both herbaceous and woody.

Amœba; paramecium or vorticella; monocystis; hydra; obelia; taenia (externals and life-history); lumbricus; periplaneta; honey bee (externals and life-history); aphid (externals and life-history); scyllium (skeleton); scyllium or a teleost (externals, vascular and respiratory systems); a mammal (rabbit or rat; skeleton, rabbit or dog).

**FREEHAND DRAWING:** There will be no deductions; candidates will be credited with all the marks gained.

There will be two tests in drawing. In the first a photograph or other representation of a landscape will be set before the candidate, who will be required to make an outline sketch of it in the style of a military panorama. The drawing should show with few lines all the important features of the landscape, so that officers using the sketch in action should be able to grasp the nature of the position and rapidly identify its landmarks. Correct proportions are essential. A conventional form of shading with oblique parallel lines may be used; but this must be strictly confined to parts of the sketch where such definition is helpful to the clearness of the whole. Roofs of buildings should be tinted with red chalk, water with blue, and roads with brown. *Manual of Map Reading, Photo Reading, and Field Sketching*, 1929, articles 70, 73, 74, 76, should be consulted.

In the second test candidates will be asked to draw from memory some common object, such as a chair or a saddle.

**GEOMETRICAL DRAWING:** The neat and accurate use of pencil, ruling pen, compass, scales, protractor, set squares. The application of geometrical drawing to simple problems in plane geometry. The construction of ordinary and diagonal scales. The setting out of words or sentences in good lettering.

Civil Service Commission, July, 1936.

11. The present establishment of the Ceylon Police is given below:—

1 Inspector-General.  
2 Deputy Inspectors-General.  
41 Superintendents, Assistant Superintendents, and Probationers.

12. The scale of salary of Ceylonese Police Officers, new entrants with effect from April 24, 1933, is as follows:—

Rank.	Salary.	Allowances, &c.
Inspector-General	Rs. 16,200—Rs. 17,400	Travelling, Transport, Pundit and Forage Allowances and leave in accordance with Financial Regulations and/or General Orders
	2 of 600	
Deputy Inspectors-General	Rs. 12,600—Rs. 15,000	
	4 of 600	
Superintendents	Rs. 9,000—Rs. 12,000	
	8 of 375	
	(Efficiency Bar before Rs. 10,500)	
	Rs. 4,800—Rs. 8,400	
Assistant Superintendents	12 of 300	
	(Efficiency Bar before Rs. 6,900)	
	Efficiency Bar	
Probationers (Passed) (after one year's service)	Rs. 4,200	..Ditto. No uniform or allowance in lieu thereof
Probationers (in training)	Rs. 3,000	..Ditto with uniform

*Note.*—Every Ceylonese Probationer will be subject to any regulations as to Probationers (not inconsistent with this paper) which may from time to time be made by the Ceylon Government, including regulations as to examinations in vernacular languages, riding, &c.

Any probationer who may fail to pass the prescribed examinations within four years, or be found unfit for Police duties, will be liable to removal from the service.

Before an officer's salary reaches Rs. 4,200 per annum, and again before it reaches Rs. 4,800 per annum, Rs. 6,900 per annum, and Rs. 10,500 per annum, there is a strict efficiency bar; and the officer will not be permitted to draw further increments unless his service is thoroughly satisfactory in every respect, and until he has shown sufficient ability, initiative, and promise to justify the expectation that he will be fully capable of carrying out efficiently, and will accept the further responsibility of his new rank.

#### *Pension.*

Subject to the exceptions and provisions contained in the Government Pension Minute, pension may be paid as follows to officers who retire from Service owing to ill-health on being condemned by a Medical Board or on attaining the age of 55 years:—

- After 10 years' service, one quarter of the officer's salary.
- 1/720th of the officer's salary is added for each additional month's service.
- The maximum amount payable is 3rd of the salary which can be drawn after 35 years' service.

*Note.*—(i) If an officer retires before the completion of 10 years' service on being condemned by a Medical Board, he may be granted a gratuity calculated at the rate of 1/12th of a month's salary for each month of service.

(ii) If an officer confirmed in a pensionable post dies while in service after the completion of 5 years' service (which may include service in any territory under His Majesty's protection) his dependant or dependants may be paid, with the approval of His Excellency the Governor, a gratuity not exceeding one year's pensionable emoluments.

#### *Widows' and Orphans' Pension Fund.*

An officer's widow and orphans are eligible for a pension from the Widows' and Orphans' Pension Fund to which every officer monthly contributes 4 per cent. of his salary from the date of confirmation.

By His Excellency's command,

Chief Secretary's Office, M. M. WEDDERBURN,  
Colombo, January 9, 1937. Acting Chief Secretary.

THE EXCISE ORDINANCE, No. 8 OF 1912.

*Order re Postponement of Date of Pettah Ward  
Local Option Poll.*

BY virtue of the powers vested in me by Rule 4A of the Local Option Rules (set out in Excise Notification No. 146 published in *Gazette* No. 7,478 of August 14, 1925, as amended by Excise Notification No. 180 published in *Gazette* No. 7,661 of August 31, 1928), and by Article 93 of the Ceylon (State Council) Order in Council, 1931, I, Reginald Edward Stubbs, Governor of Ceylon, do, by this Order, postpone to a date to be fixed by me hereafter by a like Order the Local Option Poll required by Rule 6 of the said Rules to be held before the 31st day of January, 1937, for the purpose of deciding whether or not any licence for arrack, toddy and foreign liquor taverns, any bar liquor licence for hotels, or any licence for the sale of beer and porter by retail, in the Pettah Ward of the Municipality of Colombo, shall be granted or withheld.

R. E. STUBBS,  
Governor.

### By-Laws Relating to Dogs, Hatton.

#### The Dog Registration Ordinance, 1901.

BY-LAWS made by the Hatton-Dikoya Urban District Council under sections 5 and 6 of the Dog Registration Ordinance, No. 25 of 1901, and section 245 of the Local Government Ordinance, No. 11 of 1920.

Hatton, January 6, 1937.

A. J. M. DE SILVA,  
Chairman.

#### BY-LAWS.

1. In respect of every dog or bitch kept within the limits of the Urban District Council of Hatton-Dikoya, the person having custody or possession of it shall pay an annual registration fee of Re. 1 and Re. 1.50 respectively. For the purpose of this rule a year shall be computed from April 1 of one year to March 31 of the year following.

2. The occupier of every house within the town shall, before January 31 in each year, furnish to the person appointed by the Chairman of the Urban District Council to collect the registration fee (hereinafter called the collector) particulars required in the annexed form A in respect of each dog or bitch kept within such house or its premises.

3. A certificate of registration in the form B shall be issued on payment of the prescribed fee to the aforesaid Collector or to the Secretary of the Urban District Council.

4. The Collector or Secretary (1) may refuse to issue a certificate of registration for any dog or bitch (a) which, in his opinion, is so diseased as to be a source of infection to other dogs, or (b) which, by reason of age, illness, or injury is in his opinion unfit to live; or (2) the Collector or Secretary may issue such certificate subject to any conditions he may consider suitable. Any owner dissatisfied with such refusal or conditions may appeal to the Chairman of the Urban District Council, who may confirm, modify, or cancel the same.

5. Every certificate of registration shall have the following conditions printed on it, viz. :—

This certificate is liable to be cancelled by the Chairman of the Urban District Council—

- should the dog become so maimed or diseased as to be in the opinion of the Chairman unfit to live; or
- should the Chairman be satisfied that the dog is habitually ill-treated or neglected by its owner; or
- should the dog be permitted by its owner to associate with dogs belonging to others at a time when it is suffering from any infectious or contagious disease.

6. The person having the custody or possession of a dog or bitch in respect of which (a) a certificate is refused, or (b) its certificate is cancelled because a condition attached thereto has not been complied with, shall, on being noticed to do so, produce the dog at the Urban District Council Office, at the time stated in the notice, and there deliver it to an officer of the Urban District Council authorized to take charge of it. Such dog shall then be dealt with in the manner determined by the Chairman.

7. The by-laws made by the Urban District Council of Hatton-Dikoya under the Dog Registration Ordinance, No. 25 of 1901, dated December 1, 1936 (*Gazette* No. 8,261 of December 11, 1936) are repealed.
