SCHEDULE.

By-law for the Control of Vehicular Traffic by Light Signals.

The driver of every vehicle shall obey any light signal which may be used for the control of vehicular traffic in accordance with the following system :—

- (1) A white line, hereinafter called "the stop line," drawn across any portion of the road, is provided in conjunction with every light signal.
- (2) For the purpose of giving a signal, one or more of the following lights or signs are used facing the stream of traffic which the signal is intended to control, namely :—
 - (i.) a red light with the word "STOP" on the lens of the lamp,
 - (ii.) an amber light,
 - (iii.) a green light with the word "GO" on the lens of the lamp,
 - (iv.) an illuminated green arrow.
- (3) The lamps showing the coloured lights or signs aforesaid are arranged vertically, the lamp showing a red light being the uppermost, and that showing a green light the lowermost.
- (4) The sequence of the signal lights shown for the purpose of controlling vehicular traffic is as follows :—
 - (a) Red ; or green arrow and Red together ;
 - (b) Amber and Red together ;
 - (c) Green ;
 - (d) Amber ;

(5) The significance of the light signals aforesaid is as follows :—

- (a) The red signal indicates that except as provided in paragraph (b) no vehicular traffic is to proceed beyond the stop line until the green signal is shown.
- (b) The green arrow with the red signal indicates that all vehicular traffic proceeding in the direction indicated by such arrow, may, notwithstanding the prohibitory significance of the red signal, pass such signal and proceed in that direction with due regard to the safety of other users of the road.
- (c) The amber-with-red signal indicates an impending change in the signal from red to green and is a direction to drivers of vehicles in the stream of traffic controlled by the signal to be in readiness to proceed, but it does not alter the prohibitory significance of the red signal.
- (d) The green signal with the word "GO" indicates that all vehicular traffic may pass such signal and proceed straight on or turn to the left or to the right, with due regard to the safety of other users of the road, and subject to the directions of any police officer or other duly authorized person who may be engaged in the regulation of traffic.
- (e) The amber signal indicates that no vehicular traffic is to proceed beyond the stop line : provided however that this prohibition shall not apply in the case of any vehicle which, when such signal first appears, is so close to the said line that it cannot safely be stopped before passing the line.

Resolution.

Resolved that the above recommendations of the Standing Committee be adopted.

14. Considered the following extracts from the Minutes of the " Esplanade Committee " of February 10, 1937 :—

(2) Considered a letter from the Superintendent of Police regarding the allocation of the Esplanade grounds as approved by the Council on November 21, 1936.

After careful consideration of the matter the Committee were of opinion that the only possible re-arrangement was to allot the western portion of the Esplanade to the Swadeshi Sports Club on Mondays and Thursdays and the eastern portion to the Police Sports Club on Thursdays and Sundays, it being understood that the Police Sports Club and the Galle Hockey and Football Club were at liberty to arrange among themselves with regard to any interchange of the days allotted to each of them.

It was accordingly recommended that the grounds be re-allotted as follows with effect from March 1, 1937 :—

Western portion of the Esplanade :—St. Aloysius College : Tuesdays, Fridays, and Saturdays ; Swadeshi Sports Club : Mondays and Thursdays ; Gamini Sports Club : Wednesdays and Sundays.

Eastern portion of the Esplanade :—All Saints College : Mondays, Wednesdays, and Fridays ; Galle Hockey and Football Club : Tuesdays and Saturdays ; Police Sports Club : Thursdays and Sundays.

(3) Considered an application from All Saints College for permission to construct a half matting pitch on the Esplanade outside the Cricket ground.—Recommended that permission be granted to construct a half matting pitch at the South Eastern corner of the Esplanade outside the Cricket and Soccer grounds on a site to be approved by the Council on condition that a practice net is provided.

The Committee were of opinion, however, that no further applications of this nature should be allowed.

Resolution.

Mr. Wahab moved that the report and recommendations of the " Esplanade Committee " be adopted. Mr. A. Kahaduwa seconded.

Mr. E. M. Karunaratna moved as an amendment that the report and recommendations of the " Esplanade Committee " be adopted, but as regards the Swadeshi and Gamini Clubs that they also be informed that they are at liberty to arrange among themselves with regard to any interchange of the days allotted to each of them. The mover and seconder agreed to the amendment which was then put to the meeting and carried unanimously.

15. Considered the report of the Special Committee appointed in connection with the proposed lease of the Esplanade Pavilion to the Galle Cricket Club :—Resolved that the report of the Special Committee be adopted with the following amendments :—(1) The lease to be for a period of 5 years instead of 10 years ; (2) the deletion of paragraphs (1) (a) and the renumbering of paragraphs (b), (c), (d) and (e) as (a), (b), (c), and (d) respectively ; (3) the addition of the following sentence at the end of paragraph 3 :—" Repair or renewal of the tats during continuance of the lease will be done by the lessees at their expense to the satisfaction of the Council."

16. To fix a date for the next General Meeting of the Council.—Agreed that the next General Meeting of the Council be held on March 20, 1937, at 9 A.M.

17. The following documents were laid on the table :—

- (1) Letter from Mrs. A. C. Hayley acknowledging with thanks receipt of the message of condolence sent to her by the Council.
- (2) Statement of receipts and disbursements to end of January, 1937.
- (3) Progress report of works done on estimates during January, 1937.

NOTIFICATIONS UNDER "THE PATENTS ORDINANCE, 1906."

THE following Specifications have been accepted :—

No. 2,876 of January 13, 1936.

Wadia Hirji & Co. and Curmally Janmahomed.

Improvements in or relating to luminous gaseous discharge tube multiple letter or display devices or signs.

Abstract.—This invention proposes the use of discharge tubes of special shape arranged in a pattern which is a parallelogram on the outside, with straight portions and circular arcs within. These are fitted with electrodes at the ends and at intermediate points, and by selectively illuminating portions any letter or figure can be obtained. Quick operation can be secured by housing the tubes so that the terminals come out to fixed electrodes, and by having replaceable contact closing arrangements. Switching arrangements are also indicated for remote control and for travelling texts. For day and night signs it is suggested that stencils be used in combination with the switches.

There are eight claims and three sheets of drawings.

No. 2,882 of March 9, 1936. (Date applied for under section 50 of the Ordinance : June 7, 1935).

Improvements in and relating to internal combustion engines adapted to be driven by producer or coal gas.

Abstract.—An engine of this type is usually fitted with a carburetter using liquid fuel for starting purposes; the carburetter may be used also to give richer mixture on heavy load. The present invention describes a method of interlocking the controls so that with gas producer throttle fully closed main throttle and carburetter throttle function together; with gas producer throttle fully open, carburetter throttle is closed till main throttle is substantially open; thereafter carburetter throttle opens thus allowing a richer mixture to be supplied to engine.

There are seven claims and one sheet of drawings.

Process of treating carbonaceous compounds.

Abstract.—In this process carbonaceous substances such as hydrocarbons and their derivatives, elementary carbon, coal of any origin, natural bitumen, cellulose, colloidal hydrocarbons, petroleum, alcohols, phenols, cresols, organic acids, &c., are treated with methane under a pressure of 500 atmospheres or over, at a temperature of less than 390°C. The treatment yields valuable products such as benzene, toluene and the like. The process may be accelerated by catalysts but this is not a necessary condition. The partial pressure of methane is chosen to be far higher than that of the compounds reacted with it. If more than 20 per cent. by volume of ethylene or acetylene are present, the operation can be carried out under a pressure of less than 500 atmospheres, but the pressure must be over 250 atmospheres. The treatment is carried out in a heterogeneous system in the presence of at least one liquid phase which is physically constant under the conditions of reaction.

There are nineteen claims and no drawings.
