(5) Petition dated July 15, 1938, from Mr. J. H. Jayasinghe asking for a reward for his services in pointing out the existence of a tea land in the catchment area which is now yielding the Council a handsome revenue. Mr. Marikar presented—(6) Petition dated July 6, 1938, from Mr. S. D. Saheed, on behalf of the Market Spaceholders, praying for the removal of the by-law recently enacted to restrict the height to which goods can be stored. (7) Petition dated June 30, 1938, from Mr. M. K. Shaul Hameed, Trustee of the Mosque in Madawela road, asking that the electric wires be removed at the Council's expense for purposes of the Pagoda Ceremony.

The Chairman agreed to investigate the matters referred to in the various petitions.

5. Pursuant to notice, Mr. Usoof Ismail asked the following questions to which the Chairman replied :—

Q.—(1) How many people pay rates in the Mapanawatura area? A.—The figure is 205. There are 205 "Assessment Units". This does not mean of course that there are only 205 rateable properties. One man may pay rates for several. Q.—(2) For how many years have taxes been collected from this area and the total amount so collected? A.—Taxes have been collected from this area since 1900, i.e., 37½ years. The amount collected in 1900 was Rs. 466 and the amount to be collected in 1938 is Rs. 1,270·52. The total collected during the whole period can be calculated, if necessary. A rough estimate would be Rs. 30,000. Q.—(3) Is the Chairman aware that no amenities in the way of lights and roads have been provided in this area? A.—Yes. Q.—(4) Will the Chairman consider exempting this area from taxation or provide lights and improve the existing unsatisfactory path? A.—It is essential to explain that different rates are charged according to the facilities provided. Of the 205 ratepayers in this area—183 pay the minimum 8 per cent. rate, 12 pay the 10½ per cent. rate, and 10 pay the 18½ per cent. rate. Those who pay the highest rate obtain water, light, conservancy, and good roads; and those who pay the 10½ per cent. rate obtain conservancy. It is admitted that those who pay the lowest rate obtain very little, if anything, in return at present. The Chairman has discussed the question with the Works Engineer and hopes that in future, by the giving of necessary orders to the overseers, at least some maintenance of the existing paths will be possible. He understands that the question of maintenance of existing paths was discussed sometime ago and dropped owing to the large number of such paths in the Municipal area and the high cost involved in any such undertaking.

As regards this particular area (Mapanawatura), the Chairman will certainly consider the provision of lights in due course, but at the moment there are two obstacles :—(1) The difficulty of fixing lamp standards on land which at present does not vest in Council and which might have to be shifted at a later date, and (2) the fact that no further extensions are possible with the Council's existing electric plant. As the Hon. Member is aware, a loan of Rs. 150,000 has just been applied for, and, if the funds are forthcoming, it should be possible to provide a new engine within about a year from now. As regards the improvement of the existing path this will receive attention along with other such needs. It would facilitate acquisition if the landowners concerned were willing to give their land free or on payment of nominal costs. It is not possible legally to exempt this or any other "Village" area from the minimum rate, which is imposed under section 115 of Ordinance No. 6 of 1910.

6. Pursuant to notice the Chairman rose to move the motion standing in his name :—"That in view of the serious state of affairs existing in this office owing to excessive retrenchment during the last 18 months, two of the vacant posts in the Finance and Accounts Branch be filled at once. I move further that the recommendation of three members of the 'Economies Committee'—to abolish 6 posts in addition to the three posts already left unfilled—be not adopted".

When the Chairman rose to move this resolution, Mr. De Silva attempted to postpone consideration, and moved—"That the consideration of the motion standing in the name of the Chairman be deferred until the return of Mr. De Silva from his holiday in England about October next". Mr. Marikar seconded Mr. de Silva's motion.

The Chairman stated that the matter was urgent and could not be postponed any longer. He declined to put Mr. De Silva's motion to the meeting and moved his own proposal of which due notice had been given. Mr. Beven seconded the Chairman's motion.

After remarks had been offered by Mr. De Silva, who protested that the procedure adopted by the Chairman was irregular, and Messrs. Wijayatilake, and Marikar and Dr. Godlieb and Ratwatte Adigar, the Council unanimously agreed to the following resolution :—"That two of the vacant posts in the Finance and Accounts Department be filled for the duration of the present Council, and that the report of the Auditor-General on economies together with the Chairman's and the Economies Committee's reports thereon be considered immediately before the next budget."

6A. To consider tenders received for the laying of the 8-inch main along Peradeniya road. Five tenders received on July 9, 1938, in terms of the notice dated June 21, 1938, were tabled by the Chairman. The Council moved into Committee to consider the tenders.

*Proceedings of Council in Committee.—*

The Chairman mentioned that the three lowest tenders were as follows :—Messrs. Wijayasena Bros., Rs. 66,890, Mr. D. J. Ponweera Rs. 70,660, Messrs. Chettinad Corporation, Ltd. Rs. 71,905·89. He also pointed out that Messrs. Wijayasena Bros. tender was made subject to the following stipulation :—"In the event of prices advancing owing to increase in cost of raw material, war or any other contingency over which we have no control we reserve the right to ask for a revision of rates quoted in our tender", and that the stipulation has been since withdrawn by a letter dated July 14, 1938, from Messrs. Wijayasena Bros. The merits of each of the tenders were discussed in Committee.

The Council then resumed.—Mr. De Silva moved—"That the lowest tender, that of Messrs. Wijayasena Bros for Rs. 66,890 be accepted." Mr. Marikar seconded. The motion was put to the meeting and lost by 7 to 2. Ayes.—Messrs. De Silva, and Marikar. Noes.—Ratwatte Adigar, Mr. Ismail, Mr. Wijayatilake, Mr. Beven, Mr. Nettelton, Dr. Godlieb, and the Chairman.

The Chairman then moved that the tender of contractor D. J. Ponweera for Rs. 70,660 be accepted. Ratwatte Adigar seconded. This motion was put to the meeting and carried by 7 to 2. Ayes.—Ratwatte Adigar, Mr. Ismail, Mr. Wijayatilake, Mr. Beven, Mr. Nettelton, Dr. Godlieb, and the Chairman. Noes.—Mr. De Silva, and Mr. Marikar.

No. 2,996 of September 23, 1937.

Dr. Dirk Johannes Van Aalst.

"Improvements in or relating to suppositories and the like".

Abstract.—The inventor states that oral administration of insulin is not successful due to the fact that insulin is rapidly acted on by intestinal enzymes and rendered ineffective. If substances are added which prevent this action, then oral treatment can replace the painful injections now used.

According to the invention suppositories are made by combining with insulin (a) a carrier substance such as cacao butter which melts at body heat, (b) acid or acids which prevent the destruction of insulin by intestinal ferments and (c) a substance which by decreasing the surface tension accelerates the absorption of the insulin. Suitable substances in class (b) are lactic acid, citric acid, acetic acid and tartaric acid; palmitic acid may be used in conjunction with a small quantity of citric and/or lactic acid. Under class (c) soaps and soap like substances can be used, but one must be careful to see that they do not have any haemolytic action; suitable substances are guaiacum saponins hipposastanum saponins and glycyrrhizines. With suppositories made according to the invention it has been found that blood sugar depression of as much as 50 per cent. is brought about, the effect lasting for about two hours.

Three examples.

There are eight claims and no drawings.
