(b) Every certificate of registration issued or deemed to have been issued under any repealed Ordinance shall be deemed to be a certificate of registration issued under this Ordinance, and the provisions of this Ordinance shall apply accordingly.

(b) The decision of the Commissioner under paragraph (b) of sub-section (2) shall be final and conclusive for the purposes of this Ordinance, but shall not be deemed to prejudice or to affect in any way the right of the other claimants to the ownership of the car to cause their claim to be determined by an action at law.

(3) No dealer shall be deemed to have contravened the provisions of sub-section (1) by reason only of the possession of a motor car which is imported into Ceylon for the purposes of sale, if the motor car remains unsold and is not used on any highway except under the authority of a dealer's licence.

(4) (a) Where notice of a period of non-user has been given under section 30 in respect of any motor car, no person shall be deemed to have contravened the provisions of sub-section (1) by reason only of the possession of the motor car during that period, if the motor car is not used in any place during that period.

(b) Where notice of a period of non-user has been given under section 30 in respect of any motor car, the Commissioner may in his discretion issue a permit authorising the removal of the motor car on a specified date from a specified place to any other specified place for the purpose of repairs or for the purpose of compliance with any provision of this Ordinance; and no person shall be deemed to have contravened the provisions of sub-section (1) by reason only of the use of that motor car for the purpose of such removal in accordance with permit so issued.

(2) The registered owner of a motor car, in respect of which notice of a period of non-user has been given under sub-section (1), may by written notice given before the expiry of that period extend the period, and may from time to time by like notice further extend the period as often as may be necessary :

Provided, however, that where any written notice purporting to extend a period of non-user is given within seven days after the date of the expiry of that period, the licensing authority, if he is satisfied that the delay in giving such notice was due to any error, accident or misfortune, may in his discretion accept such notice as a notice duly given before the expiry of that period ; and the period of non-user shall be deemed to be extended accordingly.

(3) Every notice under this section shall be despatched by registered post, or delivered in person, to the licensing authority ; and the licensing authority shall in every case where a notice is delivered in person issue a written acknowledgment of the receipt thereof.

32 (1) The duty on a yearly licence, which is to come into force on the first day of January in any year, for a motor car of any class or description shall be determined according to the rates set out in the Fourth Schedule for motor cars of that class or description.

Licence duty.

(2) Where any licence for a motor car, other than a dealer's licence, is to come into force after the first day of January and before the first day of March in any year, the amount of the duty payable on that licence shall be the same as the amount payable on a yearly licence for that motor car under sub-section (1).

(3) Where—

- (a) application for a licence for a motor car, in respect of which notice of a period of non-user in any year has been given under section 30, is made under paragraph (i) or paragraph (ii) of the Proviso to section 31 and the licensing authority is satisfied that the motor car has not been unlawfully used between the first day of January in that year and the date from which the licence is to be in force ; or
- (b) application for a licence for any motor car registered for the first time in Ceylon on any date during the course of any year, is made under paragraph (iii) of the Proviso to section 31, and no notice of a period of non-user in respect of that motor car has been given under section 30,

the duty payable on that licence shall, save as is otherwise provided in sub-section (2), be the duty payable under sub-section (1) on a yearly licence, reduced by one-twelfth part for each complete calendar month of the period commencing on the first day of February in that year and ending on the last day of the month preceding the month in which the licence is to come into force.

(4) No duty shall be payable on a licence for a motor car belonging to or exclusively used in the service of His Majesty.

33 (1) No licence for any motor car shall be issued by any licensing authority unless the certificate of registration relating to that car is produced, and unless the name of that authority is contained in the certificate and unless the particulars contained in the application for the licence are identical with the corresponding particulars contained in the certificate :

Production of certificate of registration and certificate of insurance or security.

Provided, however, that the licensing authority may, if he thinks fit, dispense with the production of the certificate of registration in the case of any motor car, other than a hiring car or lorry, for which a licence in respect of any year is to be issued to any person to whom a licence for that motor car in respect of the preceding year has been issued by that authority.

(2) No licence for any motor car shall be issued by any licensing authority unless a certificate of insurance or a certificate of security, in conformity with the requirements of Part VIII. and relating to that car, is produced to that authority by the applicant.

34 Every licence for a motor car shall be issued by the licensing authority in such one of the Forms 16 to 19 set out in the Second Schedule, as may be appropriate to the case, shall be in force from the date on which it is expressed to come into force and shall continue in force until the thirty-first day of December next following that date.

Licence to be carried on motor car and produced when required.

35 The licence issued for any motor car shall—

- (a) be carried on the front of the motor car in a weather-proof holder having a transparent face, and placed in a conspicuous position on the left or near side of the motor car, so that the front of the licence and the writing thereon shall be clearly visible at all times by daylight to a person standing in front of the motor car on the left or near side thereof; and
- (b) be made available for inspection on demand made by a police officer, headman, or examiner, or by any person authorised in writing by the Commissioner or the licensing authority:

Provided, however, that the licence shall be removed from the car and produced when required by a court or the Commissioner for endorsement or retention.

Surrender and cancellation of licence.

36 Where the holder of a licence surrenders the licence for cancellation to the licensing authority which issued the licence, he shall be entitled to obtain from the licensing authority a refund, subject to the deduction of a sum of five rupees, of one-twelfth part of the duty, payable on a yearly licence for that car under section 32 (1), in respect of each complete calendar month of the period commencing on the first day of the month succeeding the month in which the licence is surrendered and ending on the thirty-first day of December next following.

Alteration of motor car and change of licence, &c.

37 (1) Where a motor car, for which a licence of any class or description is in force, is altered so as to become a motor car for which a licence at a higher or lower rate of duty, or a licence of a different class or description, is required, the licence shall, upon such alteration being completed, be void; and the holder thereof shall apply for a new licence.

(2) The holder of a licence for a motor car may at any time if he desires to use the motor car for a purpose not authorised by the licence, apply for a new licence.

(3) No new licence shall be issued for any motor car on application made under this section, until the old licence is surrendered to the licensing authority to whom the application is made.

(4) (a) Where the rate of duty payable on a new licence is higher than the rate payable on the old licence, there shall be deducted from the duty on the new licence a sum equal to the duty which would have been payable on the old licence if it had been issued on the same day as the new licence:

Provided that the duty payable on the new licence shall not in any case be less than five rupees.

(b) Where the rate of duty payable on a new licence is lower than the rate payable on the old licence, the holder of the old licence shall be entitled—

- (i) to obtain a refund of duty on surrender of that licence in accordance with the provisions of section 36, and to apply for a new licence; or
- (ii) to obtain the new licence without any further payment.

(c) For the purposes of this sub-section the duty payable on a new licence, and the duty which would have been payable on an old licence, shall be calculated in accordance with the provisions of section 32.

Dealers certificate and licence.

38 (1) (a) The Commissioner may each year upon application, in the Form 20 set out in the Second Schedule, made by a person who is a dealer in, or manufacturer or repairer of, motor cars, and upon payment of the prescribed fee, register every garage or place of business of such person and issue to him a dealer's certificate for that year in the Form 21 set out in the Second Schedule; and no person who is the holder of a dealer's certificate shall carry on business at any garage or place of business which is not so registered.

(b) Upon the registration of any garage or place of business under paragraph (a), the Commissioner shall allot to such garage or place of business a number or a combination of one or more letters and one or more numbers (hereinafter referred to as a "garage number").

(2) (a) The licensing authority of the area in which any registered garage or place of business is situated shall, upon application in the Form 22 set out in the Second Schedule, and upon production of the dealer's certificate relating to that

(b) Every dealer's licence shall be in the Form 23 set out in the Second Schedule, and the licensing authority shall assign to each licence issued in respect of each registered garage or place of business a dealer's licence number, consisting of the garage number allotted to that garage or place of business and of a serial number, set out in such form as may be prescribed.

(3) A dealer's licence issued by any licensing authority shall be valid, for the purposes of this Ordinance, only so long as the person to whom the licence was issued carries on business as a dealer in, or manufacturer or repairer of, motor cars at a registered garage or place of business situated within the administrative area of that authority.

(4) Subject to the provisions of sub-section (3), a dealer's licence shall be valid until the thirty-first day of December of the year in respect of which it is issued.

(5) A licensing authority shall not issue any dealer's licence in any year to any person who is not the holder of a dealer's certificate for that year.

39 (1) A dealer's licence shall authorise the use of a motor car which belongs to the dealer or is entrusted to him for sale or repair, and is being tested or is being used for the purposes of effecting a sale :

Use of motor
car under
dealer's licence.

Provided, however, that no such licence shall be deemed to authorise the carriage on any motor car of passengers or goods for fee or reward, or of any person other than a person testing or inspecting the car with a view to the purchase thereof.

(2) A motor car sold by a person who is the holder of a dealer's certificate may, under the authority of a dealer's licence issued to that person, be used by the purchaser of the motor car during the ten days next following the sale for any purpose other than the carriage of passengers or goods for fee or reward.

Provided, however, that the use of the motor car by the purchaser under the authority of a dealer's licence shall be, and shall be deemed to have been, a contravention of the provisions of section 29, unless the purchaser, within the three days next following the sale—

(a) in the case of a motor car for which a licence is not in force, makes application under section 31 for a licence for that car ;

(b) in the case of a motor car for which a licence is in force, makes application under section 18 for registration as the new owner of that car.

(3) Where any motor car is used under the authority of a dealer's licence—

(b) two identification plates, each bearing the dealer's licence number assigned to that licence under section 38 (2), shall be affixed to the motor car in accordance with such of the provisions of Part B of the Third Schedule as may be applicable to a motor car of that class or description.

(4) Where a motor car, sold by a person who is the holder of a dealer's certificate, is used after the sale under the authority of a dealer's licence issued to that person, the licence subsequently issued for the motor car shall be expressed to have come into force on the date of the sale, and the duty payable thereon shall be computed accordingly.

(5) The holder of a dealer's certificate—

(a) shall keep a record, in the Form 24 set out in the Second Schedule, of every occasion on which a motor car is used under the authority of a dealer's licence issued to him ; and

48 (1) Where upon any application for a licence for an omnibus the Commissioner decides that the licence should be issued, he shall determine the route or routes in respect of which the licence may be issued, and for the purpose of such determination he may approve the proposed route or any part thereof, or all or any of the proposed routes or any part thereof.

51 (1) The Tribunal of Appeal in the case of an appeal against any decision of the Commissioner that a licence for an omnibus or a lorry should be refused—

Powers of
Tribunal of
Appeal.

- (a) may make order confirming the decision of the Commissioner ; or
- (b) may make order that a licence should, subject to the provisions of section 53 (2), be issued to the applicant, and shall, in every case relating to a licence for an omnibus approve the proposed route or any part thereof or all or any of the proposed routes or any part thereof, and in every case relating to a licence for a lorry approve the proposed area of operation or any part thereof.

(3) The Tribunal of Appeal may, subject to such regulations as may be made in that behalf, make such order as to costs as it may deem just or reasonable in the case of any appeal.

Communication of decisions and orders as to issue of licences.

52 The Commissioner shall communicate to each licensing authority, in respect of each application for a licence for an omnibus or a lorry forwarded to him by that authority, his own decision if no appeal has been duly preferred against that decision, or the order of the Tribunal of Appeal upon any appeal that may have been preferred against that decision; and where the decision or order is that a licence should be issued, the Commissioner shall specify in the communication, in the case of a licence for an omnibus, the approved route or routes in respect of which the licence may be issued and the number, if any, assigned to that route or each of those routes under section 57, or in the case of a licence for a lorry, the area of operation in respect of which the licence may be issued.

Refusal or issue of licences.

53 (1) Where the decision or order communicated by the Commissioner under section 52 in respect of any application for a licence for an omnibus or a lorry is that the licence should be refused, the licensing authority shall not issue the licence; and in any case where the omnibus or lorry has, before the receipt of such communication, been certified after examination under section 44 to be fit to be used as such, the licensing authority shall refund to the applicant for the licence the amount of the fee paid for that examination.

(2) Where the decision or order communicated by the Commissioner under section 52 in respect of any application for a licence for an omnibus or a lorry is that a licence should be issued, the following provisions shall have effect:—

- (a) If the omnibus or lorry is certified by an examiner after examination under section 44, to be fit to be used as such, the licensing authority shall issue a licence for that omnibus or lorry.
- (b) If the omnibus or lorry is certified by an examiner, after examination under section 44, to be unfit to be used as such, the applicant for the licence may appeal within the prescribed period against the finding of the examiner to the Commissioner, who may confirm the finding of the examiner or reverse that finding and certify that the omnibus or lorry is fit to be used as such; and the decision of the Commissioner on any such appeal shall be final and conclusive.
- (c) Notwithstanding the decision or order communicated by the Commissioner under section 52, the licensing authority shall not issue a licence where the omnibus or lorry, as the case may be, is certified by an examiner after examination under section 44 to be unfit to be used as such, and where—
 - (i) no appeal against the finding of the examiner is duly preferred under paragraph (b); or
 - (ii) the Commissioner has upon an appeal under paragraph (b) confirmed the finding of the examiner.
- (d) If upon any appeal under paragraph (b) the Commissioner has certified that the omnibus or lorry is fit to be used as such, the licensing authority shall issue a licence for that omnibus or lorry.

(4) Upon the communication to the licensing authority, under the provisions of section 52 as applied by sub-section (3), of any decision or order that an alteration of any approved route or part thereof, specified in any licence for an omnibus, should be made, the licensing authority shall, upon production to him of the licence, alter the licence in accordance with such decision or order; and every route or part thereof altered under this sub-section shall for the purposes of this Ordinance be deemed to be an approved route for that omnibus.

Alteration of routes approved for omnibuses.

56 (1) On the application of a police officer not below the rank of Superintendent, or of Assistant Superintendent in charge of a province, the Police Magistrate having jurisdiction over the place in which an omnibus, for which a licence is in force, is usually kept, may, if he is satisfied after notice to the Commissioner and hearing such representations as may be made by or on behalf of the Commissioner, that the use of any approved route by that omnibus is likely to lead to a breach of the peace or to endanger the safety of other traffic or of the public along that route—

- (a) hold a summary inquiry;
- (b) by written order suspend for a specified period the approval of that route; and
- (c) by endorsement under his hand made on the licence, alter or modify that route in any manner, or cancel the approval of that route, as the circumstances of the case may require.

(2) Every order or endorsement made by a Police Magistrate under sub-section (1) shall be subject to an appeal to the Supreme Court at the instance of the holder of the licence or of the police officer applying for the order, and whenever necessary, shall be amended or varied by a further endorsement under the hand of the Police Magistrate in accordance with the decision of the Supreme Court. The provisions of sections 338 to 352 of the Criminal Procedure Code, 1898, shall, where not inapplicable, apply to every appeal under this sub-section.

Cancellation or suspension of routes approved for omnibuses.

57 (1) The Commissioner may classify and number, in such manner as may be convenient, the approved routes in respect of which licences for omnibuses are issued, and shall publish in the Gazette a list of the routes so classified and numbered.

(2) The Commissioner may cause sketch maps to be prepared indicating the approved routes as classified and numbered under sub-section (1), and a copy of each such map shall be open to inspection by any person at the office of the Commissioner.

Classification and numbering of routes for omnibuses.

58 (1) The registered owner of any omnibus for which a licence is in force shall, if he intends to withdraw the omnibus from service, give notice of his intention to the licensing authority, and the licensing authority shall thereupon cause the omnibus to be examined by an examiner.

(2) Where an examiner certifies, after examination of any omnibus under sub-section (1), that the omnibus is unfit to be used as such, the omnibus shall be forthwith withdrawn from service, and the licensing authority shall forthwith inform the Commissioner of such withdrawal.

(3) Where an examiner certifies, after examination of any omnibus under sub-section (1), that the omnibus is fit to be used as such, the licensing authority shall forward the notice given by the registered owner and the certificate of the examiner to the Commissioner, and the registered owner shall not withdraw the omnibus from service except with the approval of the Commissioner or before such date as he may appoint.

(c) Special provisions applicable to the licensing of motor cabs.

Examination before issue of licence.

59 (1) No licence authorising the use of a motor car as a motor cab shall be issued by the licensing authority, unless the motor car has, within the period of two months immediately preceding the date on which the licence is to come into force, been examined and certified by an examiner to be fit to be used as a motor cab.

(2) The registered owner of a motor cab shall pay the prescribed fee for the examination of that cab under sub-section (1).

(3) The registered owner of any motor cab which is certified by an examiner, after examination under sub-section (1), to be unfit to be used as such, may, on payment of the prescribed fee, appeal to the Commissioner against the finding of the examiner; and the decision of the Commissioner on any such appeal shall be final and conclusive.

(d) Provisions applicable to licences for hiring cars or lorries.

Power to insert conditions in licence.

60 Any licensing authority may insert in any licence for a hiring car or lorry issued by that authority such conditions as an examiner may, after examination of the hiring car or lorry, certify to be necessary in the interests of safety.

Maximum number of passengers to be specified in licence for hiring car.

61 (1) The licensing authority shall specify in every licence for a motor cab the maximum number of passengers authorised to be carried in the cab:

Provided, however, that in the case of a motor cab in which the least distance between the front edge of the rear seat and the back of the front seat exceeds two feet, the Commissioner may in his discretion authorise not more than two persons to be carried in the motor cab in excess of the number determined for that cab under sub-section (3), and in any such case the number to be specified in the licence shall be varied accordingly, and no motor cab shall by reason only of such variation be deemed for any purpose to be an omnibus.

(2) In every licence issued for an omnibus, the licensing authority shall specify the maximum number of passengers authorised to be carried in the omnibus.

(3) For the purpose of determining the maximum number of passengers that may be carried on a hiring car—

(a) fifteen inches of seating space shall be allowed for each person; and

(b) due regard shall be had to the safe load of the car, which shall be calculated in such manner as the Commissioner may direct, the weight of each person being reckoned, in that calculation, as one hundred and forty pounds.

Maximum load to be specified on licence for lorry.

62 The licensing authority shall specify in every licence issued for a lorry the maximum load which may be carried on the lorry. For the purpose of determining the maximum load, each person permitted to be carried on the lorry shall be deemed to weigh one hundred and forty pounds.

PART VI.

CERTIFICATES OF COMPETENCE.

Classification of motor cars for the purposes of this Part.

63 For the purposes of this Part, motor cars shall be deemed to be divided into the following classes:—

- (a) motor cycles,
- (b) omnibuses,
- (c) lorries,
- (d) steam-driven motor cars,
- (e) motor cars other than those specified in paragraphs (a), (b), (c), and (d).

Prohibition of driving without certificate of competence.

64 No person shall drive a motor car of any class on a highway unless he is the holder of an effective certificate of competence which is valid for that class of motor cars; and no person shall employ any person to drive a motor car on a highway unless the person so employed is the holder of such a certificate:

Provided, however, that for the purpose of learning to drive a motor car a person who is not the holder of a certificate of competence may drive on a highway any motor car, other than a hiring car carrying passengers—

- (a) if the holder of an effective certificate which is valid for that class of motor cars accompanies such person for the purpose of instructing him and is seated at his side; and

(b) if there is carried over each identification plate fixed on the car, a plate or board of such colour as may be prescribed, bearing the letter "L" painted thereon, the dimensions of such letter being twice the corresponding dimensions of any letter forming part of the distinctive number on the identification plate.

65 (1) Every application for a certificate of competence shall be made to the Commissioner in the Form 27 set out in the Second Schedule, and shall be accompanied by the prescribed application fee and by two copies of a photograph of the applicant, of such size as may be prescribed and taken not earlier than six months before the date of the application.

Application for certificates.

(2) Every applicant for a certificate of competence to drive a motor cab, omnibus or lorry shall prove to the satisfaction of the Commissioner—

- (a) that he is not a registered criminal within the meaning of the Prevention of Crimes Ordinance, No. 2 of 1926;
- (b) that he possesses an adequate practical knowledge of the mechanism of a motor car; and
- (c) that he has completed 21 years of age.

66 (1) Every certificate of competence issued by the Commissioner shall be in the Form 28 set out in the Second Schedule.

Issue of certificates.

(2) No certificate of competence shall be issued to any person unless he has, within the thirty days immediately preceding the date on which the certificate is required, passed a driving test conducted by the Commissioner or by some person authorised for the purpose by the Commissioner.

(3) No certificate of competence shall be issued to any person if the Commissioner is satisfied that the person suffers from any physical or mental disability which is likely to prevent him from driving a motor car in a safe and proper manner.

(4) No certificate of competence shall be issued to any person who has not completed eighteen years of age, and any certificate issued to any such person shall be of no effect.

(5) One of the copies of the photograph, furnished under section 65 (1) by an applicant for a certificate of competence, shall be affixed to the certificate issued to him and shall be authenticated by the Commissioner with a facsimile of his signature or with his official seal or stamp; and the other copy shall be filed of record in the office of the Commissioner.

(6) Every holder of a certificate of competence shall furnish two copies of his photograph to the Commissioner whenever the copy affixed to his certificate under sub-section (5) is faded, defaced, damaged, or torn, or whenever he is ordered to do so by the Commissioner, or by a court before which he is convicted under any written law of an offence in connection with the driving of a motor car. The copies furnished under this sub-section shall be dealt with in the manner provided by sub-section (5).

67 (1) A certificate of competence, unless expressed to be valid for all classes of motor cars, shall be valid only for the class or classes of motor cars specified therein, but may by entry made thereon under the hand of the Commissioner, upon application made in Form 29 set out in the Second Schedule and on payment of the prescribed fee, be expressed to be valid for any other class of motor cars.

Validity of certificate of competence.

(2) Where the applicant for a certificate of competence passes a driving test—

- (a) on an omnibus, any certificate granted to him shall be expressed to be valid for all classes of motor cars except motor cycles and steam-driven motor cars; or
- (b) on a lorry, any certificate granted to him shall be expressed to be valid for all classes of motor cars except motor cycles, omnibuses, and steam-driven motor cars:

Provided that the Commissioner may in his discretion restrict the validity of any such certificate to such class or classes of motor cars as may be specified by him in the certificate, if he is of opinion that such restriction is necessary.

(3) Where the applicant for a certificate of competence is tested only on a motor car not driven by sliding gears, the certificate issued to him shall not be valid for motor cars driven by sliding gears, and an entry to that effect under the hand of the Commissioner shall be made on the certificate. In any such case the validity of the certificate may, when the holder passes a satisfactory examination on a motor car driven by sliding gears, be extended by entry made thereon under the hand of the Commissioner, to motor cars driven by sliding gears.

(4) No certificate of competence shall be expressed to be valid for steam-driven motor cars unless the holder has passed a test of ability to manage and attend to the boiler and furnace of a steam-driven motor car.

Special provisions affecting certificates to drive hiring cars.

68 (1) No certificate of competence shall be valid for a motor cab or an omnibus unless the certificate is, by entry made thereon under the hand of the Commissioner, expressed to be valid for motor cabs or omnibuses, as the case may be.

(2) No certificate shall, under sub-section (1) be expressed to be valid for motor cabs or omnibuses unless the Commissioner is satisfied that the applicant for the certificate or the holder thereof, as the case may be, has completed 21 years of age.

(3) Where the Commissioner is satisfied that an applicant for, or the holder of, a certificate of competence, is unfit to drive a hiring car by reason of the fact that he is a registered criminal within the meaning of the Prevention of Crimes Ordinance, No. 2 of 1926, or habitually behaves in a riotous or disorderly manner or is habitually drunk or suffers from any disease of an infectious or contagious nature—

(a) the application that the certificate be expressed to be valid for motor cabs or omnibuses may be refused by the Commissioner; or

(b) where the certificate has, by entry made under sub-section (1), been expressed to be valid for motor cabs or omnibuses, that entry may be cancelled or suspended by endorsement made on the certificate under the hand of the Commissioner:

Provided that any person who is dissatisfied with any such refusal, suspension or cancellation may appeal therefrom to the Governor, and the decision of the Governor on any such appeal shall be final and conclusive.

(4) Where any court under any written law convicts the holder of a certificate which is, by entry made under sub-section (1), expressed to be valid for motor cabs or omnibuses, of any offence which shows him to be unfit to drive a hiring car, the court may, in addition to any other punishment which it may lawfully impose for that offence, order the certificate to be produced to the court before the expiry of a period of five days from the date of the order and cancel that entry:

Provided that where the certificate is not produced in compliance with such order, the court may make order disqualifying the holder of the certificate for driving any motor car until the production of the certificate to the court.

Certificate to drive specified car or cars of a specified weight or description.

69 (1) Notwithstanding anything contained in this Part, the Commissioner may in his discretion issue to any person a certificate of competence expressed to be valid for a specified motor car or for motor cars of any specified weight or description.

Provided that an insurer who has obtained such a declaration as aforesaid in any such proceedings shall not thereby become entitled to the benefit of this section as respects any decree obtained in an action instituted before the commencement of those proceedings, unless before or within seven days after the commencement of those proceedings he has given notice thereof to the person who is the plaintiff in the said action specifying the non-disclosure or false representation on which he proposes to rely ; and any person to whom notice of such proceedings is so given shall be entitled, if he thinks fit, to be made a party to the proceedings.

(2) Notwithstanding anything contained in any other law, the death of a person to whom a certificate of insurance had been delivered, if it occurs after the happening of an event which has given rise to a claim under the provisions of this Part, shall not be a bar to the survival of any cause of action arising out of the said event against his estate or against the insurer.

Rights of third parties against insurers on insolvency of the insured.

140 (1) Where under any policy of insurance effected for the purposes of this part, a person is insured against any liability which he may incur to a third party, then—

happening to the insured person of any of the events specified in clause (a) or clause (b) of sub-section (1), such condition shall be of no effect.

(3) Upon a transfer of rights under sub-section (1), the insurer shall be under the same liability to the third party as he would have been to the insured person :

- (b) if the liability of the insurer to the insured person is less than the liability of the insured person to the third party, nothing in this Part shall affect the rights of the third party against the insured person in respect of the balance.

141 (1) Every person, against whom a claim is made in respect of any liability referred to in section 128 (1) (b), shall on demand made by or on behalf of the person making the claim, state whether or not he is insured in respect of that liability by any policy issued for the purposes of this Part, or would have been so insured if the insurer had not avoided or cancelled the policy, and shall, if he is or would have been so insured, give such particulars with respect to that policy as were specified in the certificate of insurance issued in respect thereof.

(3) If the information given to any person in pursuance of this section discloses ground for supposing that there have been or may have been transferred to him under section 140 rights against any particular insurer, that insurer shall be subject to the same duty as is imposed by this section on the persons therein mentioned.

(4) The duty imposed by this section to give information shall include a duty to allow all contracts of insurance, receipts for premiums, and other relevant documents, in the possession or power of the person on whom the duty is so imposed, to be inspected and copies thereof to be taken.

Height, including the load ..	12	0
Wheel base ..	14	0

(b) The overhang of any motor car used on any highway outside Colombo must not exceed five feet six inches, or two-fifths of the wheel base, whichever is the less :

Provided that it shall be lawful for the Commissioner to authorize by written permit the use of motor cars with overhangs in excess of the above limits, but not in any case exceeding one-half of the wheel base of the motor car, if he is satisfied that such excess is necessary and can safely be allowed.

3. (1) An articulated vehicle used on any highway outside Colombo must not have more than three axles, and the dimensions of any such vehicle must not exceed those specified hereunder :—

	Ft.	Ins.
Overall length	25	0

(2) The combined length of a two-wheeled trailer and the motor car to which it is attached, measured when the trailer and the motor car are in a straight line, must not exceed thirty-three feet six inches.

(3) The length of a trailer having four wheels or more on the ground when being hauled must not exceed seventeen feet.

(4) The length of a trailer having only two wheels on the ground when being hauled must not exceed twenty-one feet.

(5) No lorry shall have more than one trailer attached to it and no tractor shall have more than two trailers attached to it.

(6) The Commissioner may, subject to such conditions relating to the use of any highway, as he may, after consultation with the Superintendent of Police and the District Engineer of the area in which the highway is situated, consider necessary in the interests of safety, grant a permit exempting from all or any of the provisions of this regulation—

(a) any trailer or tractor imported into Ceylon before the first day of January, 1928 ; or

(b) any trailer constructed for the conveyance of indivisible loads of exceptional length or any trailer forming part of an articulated vehicle ; or

(c) any motor car used for the purpose of hauling any other motor car which is disabled by accident, mechanical derangement or tyre failure.

5. (1) The wheels of every motor car must be properly fitted to the axles, and must not revolve in such a manner as to cause or to be likely to cause avoidable damage to the surface of the roads.

(2) The tyres used on any motor car must be constructed of rubber or some other soft and elastic material :

Provided that the Commissioner may grant authority in any special case for the use of tyres of any other description.

(3) Where any motor car is registered as being equipped with dual rear wheels, all the rear wheels of the motor car and the tyres used thereon must be of the same dimensions, and must be so fitted that they are all actually in use when the motor car is in motion.

6. (1) Every motor car must be constructed so as to be steered from the right or off side thereof :

Provided, however, that the provisions of this regulation shall not apply—

(a) in the case of a motor car imported into Ceylon before the first day of January, 1928 ; or

(b) in the case of any motor car in respect of which a special permit under the hand of the Commissioner is in force authorising the use of that motor car notwithstanding that it is not constructed in accordance with those provisions.

(2) No special permit shall be issued by the Commissioner under paragraph (1) (b) unless he is satisfied that the motor car in respect of which the permit is issued is fitted on the right or off side with a mechanical or illuminated device capable of giving distinct and intelligible signals for the purpose of section 90, and of clearly indicating any intention to stop the motor car. Every such special permit shall be subject to the approval of the Executive Committee, except in the case of a motor car imported into Ceylon for the purpose of being used by the owner of that car during a visit to Ceylon.

7. (1) Every motor car must be equipped with two entirely independent and efficient braking systems, or with one efficient braking system having two independent means of operation, in each case so designed and constructed that the failure of any part of any such system will not prevent the brakes on not less than half the number of the wheels of the motor car from operating effectively so as to bring the motor car to rest within a reasonable distance.

- (2) (a) One of the braking systems of a motor car, equipped with two such systems; or
- (b) one of the means of operation of the braking system of a motor car equipped with only one such system,

must be capable of being operated or applied, as the case may be, by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

(3) In the case of every motor car equipped with only one braking system—

- (a) one of the means of operation of the system must be capable of acting on all the wheels of the motor car;
- (b) the brakes applied by at least one of the means of operation must act on not less than half the number of the wheels of the motor car by mechanical means and not through the transmission gear.

(4) In the case of a motor car equipped with two braking systems the brakes operated on at least one of the systems must act directly and not through the transmission gear on at least half the number of wheels of the motor car:

Provided, however, that where a motor car has more than four wheels and the drive is transmitted to all wheels other than the steering wheel without the interposition of a differential driving gear or similar mechanism between the axles carrying the driving wheels, it shall be deemed to be sufficient compliance with this paragraph if the brakes of one braking system act directly on two driving wheels on opposite sides of the vehicle and the brakes of the other braking system act on all the other driving wheels.

(5) Every steam-driven motor car or trailer, the tare of which exceeds two hundredweight, must have a handbrake in good working order of such efficiency that its application will bring the motor car or trailer to rest within a reasonable distance.

(6) There must be carried on every trailer to which a brake is required to be attached a person competent to apply the brake:

Provided that it shall not be necessary to comply with this paragraph if the brakes upon the motor car hauling the trailer are so constructed and arranged that neither of such brakes can be used without bringing into action simultaneously the brake attached to the trailer, or if the brake of the trailer can be applied from the motor car by a person upon the motor car independently of the brakes of the latter.

8. Every motor car the tare of which exceeds seven hundredweight must be capable of being so worked that it may travel either forwards or backwards under its own power.

9. (1) Every motor car must be fitted with an instrument capable of giving audible and sufficient warning of its approach or position.

(2) There must be carried at the rear of every trailer a person, who shall give warning to the driver of the tractor or motor car to which the trailer is attached, of the approach of any traffic from behind the trailer. A whistle, bell or other appliance must be provided on the trailer and used for the purpose of giving such warning:

Provided, however, that this paragraph shall not apply in the case of a trailer the tare of which does not exceed five hundredweight and which is attached to a motor car other than a hiring car, lorry or tractor, if an entry to that effect under the hand of the Commissioner is contained in the licence for that trailer.

10. Every motor car the tare of which exceeds one and a half tons, and every omnibus, lorry and tractor must be equipped

with a mirror, so constructed and fitted to the car as to enable the driver to see therein the reflection of any motor car behind his car or overtaking it.

11. (1) Every motor car, other than a trailer or motor cycle, whether in motion or stationary, must carry at night at least two uncoloured lamps, one fixed on each side of the motor car, not more than six inches from the outer edge of the mudguard, throwing their rays forward, and in addition, unless a trailer is attached thereto, one lamp fixed on the back of the car and showing a red light visible from behind the car.

(2) Every motor cycle whether in motion or stationary, must carry at night at least one uncoloured lamp fixed so as to throw its rays forward and be visible from the front, and also one lamp fixed on the back of the cycle and showing a red light visible from behind the cycle.

(3) A side car attached to a motor cycle whether in motion or stationary, must carry at night at least one uncoloured lamp fixed on that side of the side car which is farthest from the motor cycle.

(4) A trailer attached to a motor car, whether in motion or stationary, must carry at night one lamp fixed on the back of the trailer and showing a red light visible from behind the trailer.

(5) A trailer not attached to a motor car must carry at night the lamps specified in paragraph (1).

(6) Where the load on any motor car projects more than six feet behind the back of the car, there must be affixed at the end of the load a red flag during the day and a lamp showing a red light at night, so as to be visible from the rear of the motor car.

(7) All lamps referred to in paragraphs (1) to (6) must be kept brightly burning at night.

12. Every motor car propelled by an internal combustion engine must be so constructed and maintained in such condition that the exhaust gases from the engine cannot escape into the atmosphere without first passing through a silencer, expansion chamber or other contrivance suitable and sufficient for reducing as far as may be reasonable the noise which would otherwise be caused by the escape of such gases.

13. Every motor car must be so constructed and maintained in such condition as to prevent the emission of smoke, grease, oil, ashes, water, steam, or visible vapour from the motor car in such quantity as to be a nuisance or to cause damage to the road or annoyance or damage to any person.

14. (1) There must be painted in legible letters not less than one inch in height, in white upon a black ground or black upon a white ground, and in one or more straight lines, on some conspicuous part of the right or off side—

- (a) be constructed either as separate single seats, each of which must face the front of the omnibus, or in sets of two single seats back to back ;
- (b) be placed so as to be equidistant on both sides from the sides of the omnibus ; and
- (c) be fifteen inches in width, and have an unimpeded space on all sides of not less than thirteen inches : Provided that where any two such single seats face each other the unimpeded space between them shall be not less than twenty-six inches.

(2) The distance between the entrance of an omnibus and the nearest point of the rearmost of any seat constructed on any portion of the space intervening between seats placed lengthwise on the omnibus must not be less than twenty-seven inches.

17. Where seats are placed behind each other on an omnibus, the unimpeded distance available for the passage between them must not be less than thirteen inches, and the distance between the backs of any two seats so placed must not be less than twenty-seven inches.

18. A special seat must be provided at the back of every omnibus for the conductor, and that seat shall be marked with the word "conductor".

19. (1) The driver's seat on an omnibus must not be less than two feet wide and a space of not less than one foot from the centre of the steering column to each side thereof must be reserved for the driver.

(2) There shall not be any seat on the right hand side of the driver's seat.

(3) The driver's seat must be separated from the seat on the left-hand side by a partition which must not be less than fifteen inches high.

The letters used and the background must be black and white respectively, and the letters must be at least four inches high and thick in proportion. If destination indicators are also used at the sides of the omnibus, the letters used and the background must be black and white respectively. The letters must be in English, and in either or both of the Sinhalese and Tamil languages.

(2) There shall be affixed on the front and at the back of every omnibus plying on any route a board showing the number, if any, assigned to that route under section 57 of the Ordinance.

DRAFT ORDINANCES.

MINUTE.

The following Draft of a proposed Ordinance is published for general information :—

L. D.—O. 58/37

An Ordinance to amend the Coconut Research Ordinance, 1928.

No. 29 of 1928.

BE it enacted by the Governor of Ceylon, with the advice and consent of the State Council thereof, as follows :—

1 This Ordinance may be cited as the Coconut Research (Amendment) Ordinance, No. of 1938. Short title.

2 Section 5 of the Coconut Research Ordinance, 1928, is hereby amended by the substitution, for sub-section (4) thereof, of the following :— Amendment of section 5 of Ordinance No. 29 of 1928.

“(4) The Board shall repay the principal amount of the loan or of any instalment thereof by means of ten equal annual payments, the first of which payments shall be due on the expiry of a period of one year from the date on which the loan or the instalment thereof, as the case may be, is paid to the Board. H

Together with each such annual payment the Board shall also pay interest, at such rate as the Financial Secretary may fix, on the amount of the loan or of the instalment thereof, as the case may be, which was outstanding during the year preceding the date on which such payment is made.

The Financial Secretary may, at any time before repayment of the loan or of the instalment thereof, as the case may be, is completed, reduce the rate of interest so fixed, with effect from a specified date ”.

Objects and Reasons.

Under section 5 (4) of the Coconut Research Ordinance, 1928, the Board of Management of the Coconut Research Scheme is required to pay interest at five per cent. per annum on any loan granted to the Board under that Ordinance for the purpose of acquiring lands for the experimental and research work of the Scheme. While the rate of five per cent. may have been reasonable at the time the principal Ordinance was passed, it is thought that this rate is too high at the present time and that provision should be made whereby the rate can be reduced when market rates of interest drop.

2. The object of this Bill is to amend the principal Ordinance so as to provide that the Financial Secretary should fix the rate of interest in respect of each loan, and to empower him to reduce the rate, if necessary, at any time before a loan is repaid.
