THE following Specification has been accepted:—

No. 3,060 of November 26, 1938, (date applied for under Section 50 of the Ordinance, December 10, 1937):

Fichtel and Sachs Aktiengesellschaft.

Abstract.—This invention relates to improvements in the free wheel with back-peddalling brake described in Ceylon Application No. 3,019.

The bearing cone is enlarged in diameter beyond the circumference of the hub sleeve and on the enlarged portion is non-rotably mounted the lever which is resiliently connected to the gear casing. This construction enables a rigid connection to be maintained and at the same time allows the pins that transmit the braking and reacting torque to the vehicle frame to be made shorter and stronger.

There are 4 claims and one sheet of drawings.

The two Audit Examiners, who were carrying on the usual inspection of the Municipal Office had brought to his notice, he said, that the accounts of the Health Department had been incorrect since January, 1938, and that investigations made by them showed that there were differences in figures in the ledger and in the registers. The Mayor added that in response to a request made by him Mr. P. W. Kaule, Chief Audit Examiner, had come to the Municipal Office and he (the Mayor) would like the Members to hear what Mr. Kaule had to say on the matter.

Mr. Kaule thereupon addressed the Council in Committee and pointed out that the present accounting system in the office was bad, that there had been no internal check on the Revenue Accounts, and that the position, therefore, was that the Council did not know whether all moneys due to it had been recovered. Mr. Kaule suggested that the Council should employ an experienced Accountant who would exercise a proper internal check on the accounts.

The Mayor then, with the permission of Council, took up item 12 on the Agenda which was as follows :—"To consider what steps should be taken to fill the vacant post of Accountant," and moved the Council into Committee to consider the matter. Mr. A. I. H. A. Wahab seconded.—Carried.

Council in Committee.—

Council in Committee recommended, after discussion, (1) that applications for the post of Accountant be called for at once on a salary of Rs. 2,400 per annum rising to Rs. 3,600 per annum by annual increments of Rs. 120 ; (2) that the selected candidate should be required to furnish security as follows :—Rs. 2,000 in cash, or Rs. 4,000 by hypothecation of property or through a Guarantee Association approved by the Council ; (3) that the closing date for applications be July 25 ; (4) that the applications be considered at an adjourned meeting of the Council on July 29 ; and (5) that the notice do specify that the selected candidate should be prepared to assume duties on August 1.

Council then resumed and the Mayor moved that the above recommendations of the Council in Committee be adopted. Mr. Wahab seconded.—Carried unanimously.

3. Pursuant to notice Mr. T. W. Roberts asked the following questions which the Mayor answered :—

(1) Q.—(a) Have analyses been made of the water from private wells now used for drinking purposes in those wards where there is no pipe supply ? (b) Is such water fit for human consumption ? A.—(a) No. (b) In the absence of analyses I am unable to answer this question. But from observations made by me personally, I may say that such water is fit for human consumption.

(2) Q.—Have analyses been made of the water now sold in barrels about the town? A.—No.

(3) Q.—Are there records of similar analyses of the water from the old wells which were closed when pipe supply was introduced? and what was the verdict of those analyses on the fitness for use of the water from those wells? A.—No such records are available, nor do there appear to be any papers at all on the matter.

(4) Q.—Is there reason to keep meters in action further? or do the readings taken in the past year supply sufficient information about the quantities consumed? A.—A statement is tabled showing the consumption of water at six premises where the Council decided that meters should be fixed under Waterworks By-law No. 20 on the ground of excess consumption. This statement will show that in the case of three premises at least (marked X) the consumption per head per day is considerably more than what should reasonably be allowed. The question of retaining meters at these premises, and also at premises which have the water carriage system, will be considered by the Works Committee in due course.

(5) Q.—Do the present $\frac{3}{4}$ inch meters clog the flow into 1 inch pipes and cause grave inconvenience to consumers? Will the Mayor, if the meters are not removed, substitute meters of calibre equal to the pipes in each house? A.— $\frac{3}{4}$ inch meters are considered to be quite capable of giving the required quantity of water provided no solids or floating matter obstruct the screen which is fixed on the upstream side of the meters. House service meters are usually of $\frac{3}{4}$ inch or $\frac{1}{2}$ inch size, and it is not considered necessary to have any larger size than $\frac{1}{2}$ inch.

(6) Q.—Will the Mayor be so good as to increase the pressure at issue of water from Hiyare reservoir, since it is now nearly full, and relieve the suffering of those ratepayers who now get water upstairs only for $\frac{1}{2}$ an hour per day. A.—The present level of the water in the Hiyare reservoir is 4 ft. $\frac{1}{2}$ inch below spill. In view of this I do not consider that any increase of pressure would be justified just yet pending completion of the Madola Augmentation Scheme. Special supplies are given for one and a half hours daily at different times of the day in order to meet the needs of the residents of the high level areas in the Fort, Kaluwella, and Magalle where the water does not rise sufficiently during the normal hours of supply owing to the excessive draw-off in other parts of the town.

(7) Q.—In regard to complaints of internal stenches from the drains (a) in Middle street west of the Bakery; (b) in Lighthouse street between the premises at the corner and the premises of Surveyor Goonewardene, what steps, if any, have been taken to suppress these nuisances?

(8) Q.—In view of the discovery that there is no substance in the first theory that the latter stench arose from private drains, will the Mayor take effective steps to end the blockade at the junction of the drains between those premises with the street drain and to establish adequate daily flushing sufficient to prevent recurrence of these nuisances? A.—All the silt traps of the Fort drains are cleaned, disinfected and oiled at least once a week, and some of them are also treated daily with chloride of lime in view of the repeated complaints made by residents about foul odours. The cause of the trouble, I understand, is due to the bad state of the sewers from which foul odours emanate along the drains opening into them and thence on to private premises. The nuisance cannot be eliminated entirely until the sewers are put into order and syphon traps provided at the junction of every surface drain with the sewers. A scheme for rebuilding the Fort sewers is now being prepared by the Municipal Engineer and will be submitted to Council in due course.

(9) Q.—Where are the surplus funds of this Council deposited or invested? and at what rate of interest? A.—The surplus funds of the Council are placed in fixed deposit with the National Bank, Colombo, and the Mercantile Bank, Galle. The interest earned at present on these deposits is $1\frac{1}{2}$ per cent. per annum.

(10) Q.—Will the Mayor ascertain whether this Council has power to reinvest them with a view to a higher rate of interest? A.—Section 74A of the Municipal Councils Ordinance authorises the Council to invest its funds in any one or more of the following securities and in no others:—(a) stock or other securities of the Government of Ceylon; (b) debentures issued by the Ceylon State Mortgage Bank; (c) any other securities guaranteed by the Government of Ceylon.

(11) Q.—Will the Mayor please investigate the possibility of a conversion loan or some other action designed to reduce the rate of interest now paid by this Council on money borrowed by the Council? A.—This is provided for in section 218 of the Municipal Councils Ordinance, No. 6 of 1910.

(12) Q.—Would it not be practicable to convert the street sweepings into compost manure? and would that not be more profitable to the Council than its present use? A.—This question was previously considered by the Council and the papers on the subject are tabled.

Arising out of the above replies the following supplementary questions were asked and replied to by the Mayor:—

Mr. E. de S. Wijeratne: With regard to the reply to question 1 (b), will the Council do the analyses? Mayor: Yes, if a motion on the subject is brought up in Council and passed.

Mr. T. W. Roberts: With regard to the reply to question 2, does not the Mayor consider it a dereliction of duty on the part of the Council's Health Officers? Mayor: No.

Mr. T. W. Roberts: With regard to the reply to question 4, how soon will the Works Committee consider the matter? Mayor: At its next Meeting at the end of the month.

Mr. T. W. Roberts: With regard to the reply to question 5, will the Mayor kindly make a further personal investigation into the matter? Mayor: Yes, I will.

Mr. T. W. Roberts: With regard to the reply to question 6, will the Mayor state when he expects the Madola Augmentation Scheme to be completed? Mayor: At the end of August.

Mr. T. W. Roberts: With regard to the replies to questions 7 and 8, will the Mayor consider the question of providing syphon traps? Mayor: The matter will be submitted to the Sanitation Committee for consideration.

Mr. T. W. Roberts: With regard to the reply to question 9, will the Mayor see that the surplus funds of the Council are better invested? Mayor: Yes, I will place the matter before the Finance Committee.

4. Pursuant to notice Mr. D. S. Goonesekera asked the following questions which the Mayor answered:—

(1) Q.—(a) What is the annual expenditure on the conservancy service? (b) What is the annual income on it? (c) What is the present scale of conservancy charged? (d) Will the Mayor please consider the possibility of doing away entirely with the conservancy fee as it causes untold hardship to the poor? A.—(a) The total expenditure for 1938 was Rs. 36,144.97. (b) The total income for 1938 was Rs. 37,662.13. (c) Premises assessed at Rs. 51 and under, 50 cents per bucket; Rs. 52 to Rs. 102, Re. 1 per bucket; Rs. 103 to Rs. 202, Re. 1.50 per bucket; Rs. 203 and over, Rs. 2 per bucket. (d) I agree with the member that the conservancy fees cause untold hardship to the poor. I have asked the M. O. H. to submit to me a scheme whereby relief may be granted to the poor. When that report is ready, I shall submit it to the Finance Committee for consideration.

(2) Q.—(a) What parts of the town are now served by Municipal midwives and what parts are not? What parts are inadequately served? (b) To what parts should the service be extended in the opinion of the Medical Officer of Health? A.—The Council has sanctioned the appointment of six midwives for the town, but one of these posts has not yet been filled, and applications for it are now being considered. All parts of the town, with the exception of an area in Wards 6 and 7 comprising Hirimbure, Batagalwila, Madawalamulla, and Maitipe, are now served by the Municipal midwives. This area also will be served when the 6th midwife is appointed. For the present the midwives closest to the area have been instructed to answer calls. The M. O. H. is of opinion that the service already provided for is adequate for the present.

Arising out of the above replies the following supplementary question was asked by Mr. D. S. Goonesekera and replied to by the Mayor:—Is there any possibility of including the Conservancy fee in the assessment rate? Mayor: The Finance Committee will consider this matter.

5. Pursuant to notice Mr. P. Dahanayake presented two petitions protesting against the adoption of the eastern trace for the proposed new road through Bope.

6. Pursuant to notice Mr. W. William Wijeratne moved:—(1) That with a view to getting an increased number of electricity consumers, the S. E. D. be requested to submit a report on the lanes that are suitable for electricity extension. (As the mover began to speak on the motion in Sinhalese Mr. E. de S. Wijeratne asked for a ruling from the Chair as to whether it was in order for a Member to address the Council in Sinhalese when there was a by-law to the effect that all business shall be conducted in the English language. The Mayor explained that at present the Council did not appear to have the power to enlarge its limits. The Attorney-General had been consulted on the matter but his reply had not yet been received. The mover thereupon, with the permission of Council, withdrew the motion for the time being, on the understanding that he would bring it up again at a later date, if necessary.
