(iii.) The successful tenderer shall within ten days of receipt of notice in writing that his tender has been accepted, enter into necessary contract after depositing Rs. 1,000 as security for the due and punctual performance of the contract. He shall also supply at his own cost a stamp of the value of Rs. 10 to be affixed to the original of the contract. Should he fail to comply with these requirements his tender form deposit may be forfeited to the Crown; he may render himself liable to be included in the list of defaulting contractors precluded from having any concern in a Government contract in future and to make good any resultant loss; further the service may be offered to another tenderer in which case no claim for any profit that may accrue to Government by such offer will be entertained.

Notice of acceptance will be deemed to have been received by the tenderer if it has been sent by post addressed to, or left at, the address given by the tenderer. All other tender form deposits will be returned upon signature of a contract.

8. A tenderer shall, before making his tender, preferably at the time of obtaining a tender form, examine in the office, at which he obtains his tender form, a copy of the agreement he will be required to execute in the event of his tender being accepted and shall sign and deliver a statement to the effect that he has fully acquainted himself with the terms of such agreement and that in the event of his tender being accepted he will, within the time fixed in condition 7 above execute an agreement in terms of the specimen agreement. The Tender Board will give preference other things being equal, to the tenderer who undertakes to employ only Ceylonese labour and failing that to the tenderer who specifies the lowest percentage of non-Ceylonese labour which he proposes to employ for the work which appears to the Tender Board to be unnecessarily high.

The employment of Ceylonese labour only to carry out the work tendered for or the employment of a definite percentage only of non-Ceylonese labour for such work will be made a condition of the contract, and the failure on the part of the successful tenderer to fulfil this condition will be treated as a breach of the terms of the contract and will render the contractor liable to have the contract cancelled, and in addition to pay a penalty of Re. 1.50 a day for each non-Ceylonese labourer employed by him on work or for each non-Ceylonese labourer employed by him over and above the percentage of non-Ceylonese labour which he is permitted to employ on the work in terms of his contract. The word "Ceylonese" shall mean and include all persons born in Ceylon and no others.

21. For any further information, application should be made to the officer issuing the Tender form.

Schedule.

1. To fell, transport, and deliver neatly stacked not further than 30 ft. from the nearest rail at the Polonnaruwa Railway Station Yard or at approved points on the railway line close by to the area of exploitation suitable to the Railway Department at an average of 5,000 cubic yards more or less per month from the bed of the proposed Sea of Parakrama. A sketch of the area of exploitation can be seen at the Office of the Conservator of Forests or at any of the Divisional Offices at Jaffna, Kurunegala and Nuwara Eliya. The following conditions shall be complied with in carrying out the work:—

(a) The first delivery of 5,000 cubic yards shall be made not later than November 30, 1939. Final delivery shall be made on or before March 15, 1941. No felling operations shall be carried out after February 28, 1941. The distance of transport is from about 4 (minimum) to 7 (maximum) miles by gravelled road from Angamedilla to Topawewa and thence by metalled road to Polonnaruwa Railway Station.

(b) All trees shall be felled except trees which emit milky exudation such as ficus species, Kaduru, Lunumidella, Rukkattana, Kapu, Kottan, Erabadu, Dadap, Ehdemata, Kekuna, Amba, Gedumba, Walkaduru, Imbul, Del, and Pulun.

(c) The contractor shall not exploit any area selected by the Construction Engineer in charge, as not to be felled. The contractor shall consult the Construction Engineer, Irrigation Department, in regard to such areas before he starts felling.

(d) All felled trees or other fallen trees shall be cut and split into firewood of billets of 3 ft. in length and not less than 2 in. or more than 9 in. in diameter.

(e) Firewood shall be stacked in the railway yard or on the approved railway line side in rows convenient for loading the firewood into railway trucks. To economize ground space and to allow space between the stacks for inspection, stacks shall be either 3 ft., 4½ ft. or 6 ft. in height as the Forest Officer in charge may direct from time to time. Walking space should be left between any two stacks.

(f) The contractor shall be responsible for the safety of the firewood either in the forests or in transit or on the railway line side until taken over by the Railway Department.

(g) The contractor may be required to increase or decrease the output of firewood at the instance of the Railway Department.

(h) A penalty of a sum not exceeding 25 cents for every cubic yard of firewood not stacked or delivered at the monthly rate stipulated will be exacted from the contractor at the discretion of the Divisional Forest Officer, Jaffna.

(i) The contractor is to be paid monthly at the convenience of the Railway Department for firewood, supplied as above and accepted, at the tendered rate per cubic yard on production of formal receipts signed by a responsible officer of the Railway Department, deductions being made for any fine or penalty imposed under this contract. Rejected material will not be paid for but will lapse to Government. In the event of a dispute arising owing to deduction for bad stacking, &c., the wood is liable to be restacked by the contractor and the measurement made after such restacks shall be considered as final for purposes of payment. No payment or certificate shall protect or be deemed to protect the contractor in the case of any overpayment.

(j) Nothing in this contract shall preclude the Divisional Forest Officer from taking action in accordance with the provisions of the Forest Ordinance, No. 16 of 1907, against the contractor for felling or allowing labourers to fell any tree outside his area of contract which should not be felled in accordance with the conditions of the said contract or without the necessary permit prescribed by the said Ordinance.

(k) The contractor shall at his own cost and charges furnish labour, transport, implements, tools, wire-shoots, and material necessary for carrying on the work under this contract.

(l) If the contractor shall not have completely finished the said work within the time hereinbefore specified, then and in that case the contractor shall pay or cause to be paid to the Divisional Forest Officer, Dry Zone Division, a sum not exceeding Rs. 5,000 as the Conservator of Forests may deem adequate for every week or part of a week's delay as liquidated damages; and it shall be lawful for the Divisional Forest Officer to deduct and retain from the sum or sums which shall become due as aforesaid to the contractor a sum due as liquidated damages in pursuance of this contract or otherwise.

(m) If while doing any act connected with the exploitation of the area or removal of materials therefrom the contractor or his agents or workmen cause any damage to any irrigation work or structure the contractor shall pay to the Irrigation Construction Engineer through the Divisional Forest Officer such sum as may be estimated by the former as required to repair and make good such damage. Payment shall be made within ten days of demand by the Divisional Forest Officer. Should payment not be made within this time it shall be lawful for the Divisional Forest Officer to recover the amount due from the security deposited under this contract and any monies that may become due to the contractor under this contract and remit the amount to the Irrigation Construction Engineer.

(n) If the contractor shall fail to make fair and reasonable progress towards completing the work within the time hereinbefore specified, it shall be further lawful for the

Divisional Forest Officer (if it shall appear to him expedient to do so), to take the work into his own hands, after giving one week's notice in writing to the contractor that the said work will be completed by the Divisional Forest Officer and thereupon to employ sufficient workmen, overseers, and materials to finish and complete the same and the contractor shall be liable to pay and make good such sum or sums of money, if any, as may be spent by the Divisional Forest Officer in the completion as aforesaid of the said work over and above what may have been payable to the contractor if he had completed the work within the time specified.

(o) The contractor shall not in any manner do cause, or procure to be done any act, matter, or thing whatsoever to delay or impede the completion of the said work by the Divisional Forest Officer under preceding clause (n) or to obstruct the person or persons so employed by the Divisional Forest Officer or to prevent them from using the plant, implement, tools, wire-shoots, and other materials which shall have been or shall be provided for the execution of the said work; and shall not in any way molest or cause to be molested, the Divisional Forest Officer or any person or persons employed by him.

(p) The contractor or his agent or agents, whose names shall be given to the Divisional Forest Officer and the Range Forest Officer, in charge of the work, in writing at the commencement of work under the contract and who shall hold a written authority from the contractor, shall at all times and without fail be at the working centres to supervise and control workmen and to take orders from inspecting Forest Officers. Should this condition not be complied with the inspecting officer shall have the power to eject such workmen. Further the Divisional Forest Officer shall have the power to reject without question, any of the contractor's agents or employees. The contractor will be at liberty to change his agents, provided the changes are duly communicated to the Divisional Forest Officer and the Range Forest Officer in writing and provided that each new agent holds a written authority from the contractor to act on his behalf.

(q) The Divisional Forest Officer shall have power to impose fines not exceeding Rs. 100 for any breach of the conditions or for any delinquencies on the part of the contractor in carrying out this contract. Such fines shall be subject to the approval of the Conservator of Forests and will not affect or prejudice the right of the Divisional Forest Officer to claim in addition liquidated damages as provided for in clause 13 above.

(r) All notices to be served upon the contractor shall be deemed to have been served if given to him or to his agent personally or left at his address given in the tender.

(s) Applications for extensions of time will not be entertained under any circumstances whatsoever.

NOTIFICATIONS UNDER "THE PATENTS ORDINANCE, 1906."

THE following Specification has been accepted :—

No. 3,056 of October 5, 1938 (Date applied for under Section 50 of the Ordinance, October 8, 1937).

Hendrik Johannes van der Meer.

"Method and device for mechanically removing the stalks or stems from dry factory tea during the sorting thereof."

Abstract.—The inventor states that the stems in manufactured tea have to be removed by hand, before the product is screened and separated into grades for the market. The picking of stems by hand is an expensive process, and the present invention is designed to overcome this defect by removing the stems mechanically.

According to the invention, instead of cutting manufactured tea (which causes cutting of stems also), the tea is cautiously crushed between a roller and a supported canvas belt. The linear velocity of belt must be equal to the circumferential velocity of the roller, so that only crushing takes place. This operation breaks down the tea but leaves the stems intact. By repeated crushings and screenings finally a product which is mostly composed of stems is left.

There are 7 Claims and one sheet of drawings.
