42. (1) The Chairman may, whenever he has reason to believe that the arrangement, size, position, nature, or condition of any pipe, tap, valve, meter, or other fitting forming part of the private water service on any premises connected with the Council's waterworks is likely to lead to waste, misuse, undue consumption, or contamination of the water supplied from the waterworks for public or private use, or is likely to be prejudicial to the proper control and distribution of water from the waterworks, serve a notice in the Form "D" set out in the schedule hereto upon the owner of the premises.

(3) In the event of the name or residence of the owner being unknown, the notice shall be deemed to be duly served on the owner if it is affixed in a conspicuous place upon the premises to which it relates.

43. The Chairman may withhold, suspend, or diminish the supply of water to any premises or disconnect the private service pipe on those premises from the Council's mains or waterworks—

- (a) at the request of the owner or occupier of such premises; or
- (b) if default be made in the payment of any money due under the provisions of these by-laws from the owner or the occupier of such premises; or
- (c) if the construction or laying of any such service pipe by the owner or occupier of such premises is not carried out or altered in accordance with the provisions of these by-laws; or
- (d) if any act or thing be done or omitted to be done by the owner or by the occupier of such premises contrary to the provisions of these by-laws relating to damage to or pollution of the waterworks or waste or abuse of the water.

The amount estimated by the Chairman as the cost of reconnecting to the Council's mains or waterworks any private service pipe disconnected on any of the grounds set out in by-law 42 shall be paid by the owner or occupier of such premises in advance to the Council. The unexpended balance, if any, shall be returned to the owner or occupier on the completion of the work. - (b) that such action is expedient or necessary for the purpose of extending, altering, or repairing the mains or waterworks or for the purpose of the connection of service pipes to mains; or
- (c) that such action is expedient or necessary by reason of any damage caused to a public standpipe or any pollution or waste of the water thereof; or

The stopcock or valve of each private service and the part of the service pipe between the stopcock or valve and the main shall be deemed to be the property of the Council, and the cost of the maintenance, repair, or renewal of that part shall be borne by the Council: Provided, however, that where any repair or renewal is necessitated by any damage caused to that part by any wilful act or negligence of the owner or of the occupier of the premises to which the service belongs the cost of such repair or renewal shall be paid to the Council by that owner or occupier as the case may be on demand made therefor by the Chairman.

49. The approval of any private service pipe or fittings under by-law 22, or the grant of any permission or concession under any of these by-laws to the owner or occupier of the premises on which that service pipe is laid, shall not be deemed for any purpose to attach to the Council any liability for any damage caused by the bursting of any part of the pipe or the overflow of water from any part of the pipe or fittings.

50. The Council shall not be liable in damages for failure on its part to supply water, whether under a contract or agreement or otherwise, if such failure is due to unusual drought, or to any temporary interference with the supply caused by carrying out any work, or to any other unavoidable cause or accident.

51. (1) The Chairman, or any officer of the Council authorized in that behalf by him in writing, may, after giving not less than one hour's notice of his intention to the occupier of any premises served by a private water service connected to the waterworks, enter such premises at any time between sunrise and sunset for the purpose of examining the condition of the pipes, works, and fittings relating to such service, and of ascertaining if there be any waste of water supplied by such service.

(2) When such notice cannot for any reason be given or served personally on the occupier of the premises, the affixing of such notice in a conspicuous place upon the premises shall be sufficient service of such notice for the purpose of this by-law.

52. All moneys payable to the Council under these by-laws shall be paid at the Office of the Council to the Chairman or the officer of the Council authorized to receive such payment.

53. Any person who contravenes any of the provisions of these by-laws shall be punished with a fine not exceeding fifty rupees and, in the case of a continuing offence, with an additional fine not exceeding ten rupees for every day during which the offence is continued after conviction or service of written notice from the Chairman of such contravention.

S. W. R. D. BANDARANAIKE,
Minister for Local Administration.

Colombo, November 27, 1939.

BY-LAWS.

By-laws regulating the Supply of Electricity.

1. In these by-laws—

“the Council” means the Badulla Urban District Council.

2. Any person desirous of obtaining the use of electrical energy from the Council shall make application therefor in such form as may, from time to time, be provided for the purpose by the Council.

3. Every consumer of electrical energy shall pay (a) the charges for consumption, (b) meter rent, and (c) other connected charges at the rates set out in the schedule hereto: Provided that in the case of any consumer whose monthly consumption exceeds 50 units, the Council may with the prior written sanction of the Chief Engineer and Manager, Government Electrical Undertakings, fix such other rate as to it may seem reasonable.

4. (1) That portion of the service cable which is on the consumer's premises, the transformers, the main fuses, the meter and the board remain the property of the Council and on no account shall they be moved or handled by any person other than an employee of the Council.

(2) Any installation is liable to be disconnected from the Council's main on discovery that the Council's seals on the meter or the fuse have been broken or that any part of the Council's apparatus or wires has been tampered with.

(3) No consumer shall break, or tamper with, or permit any person other than an employee of the Council to break or tamper with, any seal or any part of the Council's apparatus or wires.

5. (1) Every consumer wishing, at any time after his installation has been connected, to use any lamp, fan, or motor of greater size, or to instal any additional lamp or other apparatus consuming energy, either temporarily or permanently or in any way to alter or extend the wiring on his premises shall notify his wish to the Council in writing, and if he desires that an electrical contractor should do the work, he shall at the same time notify the name and address of such contractor.

(2) Failure on the consumer's part to notify to the Council the matters referred to in paragraph (1) shall render the whole installation liable to disconnection from the Council's mains without further notice.

(3) No person shall connect any extension to the main installation until such extension has been inspected and tested and found to be satisfactory by the Superintendent of the Council's Electricity Department.

6. Every consumer shall permit the Council's inspectors and employees at all reasonable times to enter any of his premises to which energy is supplied for the purpose of reading the meter or inspecting any apparatus or of disconnecting or reconnecting the supply to such premises, or of removing or replacing any apparatus belonging to the Council.

7. (1) In the event of the melting of the Council's main fuse in any premises the consumer shall forthwith inform the Superintendent of the Council's Electricity Department.

(2) No person other than one of the Council's authorized officers or workmen shall replace any melted fuse, which is the property of the Council.

(3) Where the services of any officer or workman of the Council are required to replace any fuse which is the property of the consumer, or where the melting of any fuse, which is the property of the Council is found to have been caused by a defect in the consumer's wiring or apparatus, a charge of one rupee will be made for replacing the fuse.

8. (1) The Council does not hold itself liable to the consumer for any loss or damage occasioned, directly or indirectly, by the total or partial interruption of supply.

(2) In the case of electrical energy being used or dealt with by any consumer in such manner as unduly or improperly to interfere with the efficient supply of energy to any other person, the Council reserves to itself the right to disconnect such consumer's supply of energy without notice.

(3) Where the installation is reconnected after having been disconnected under paragraph (2) a fee of five rupees for testing and reconnecting will be charged and shall be paid in advance by the consumer.

9. (1) All charges shall be deemed to be due on the date on which an account is presented.

(2) Where any account is not paid within seven days of its presentation, the Council may, after giving seven days notice in writing to the consumer, disconnect such defaulting consumer's installation without prejudice to the right of the Council to recover all arrears.

(3) Any installation disconnected under paragraph (2) shall not be reconnected until the amount of arrears due is paid together with a reconnection fee of five rupees.

10. (1) The Council reserves to itself the right to demand a deposit as security against the supply of energy in any case.

(2) In particular, the Council reserves to itself the right to demand as a condition of the supply of energy the deposit in cash of the equivalent of two months' probable consumption as estimated by the Chairman, but the deposit of such security shall not prejudice the right of the Council to disconnect an installation for non-payment of accounts rendered as provided by by-law 9.

11. The Council will not entertain any complaint against the accuracy of an account unless such complaint is made within a week after the presentation of the account.

12. (1) Every consumer about to vacate his premises shall give in writing three clear days' notice of his intention to do so.

(2) Where the notice referred to in paragraph (1) is not given, the consumer shall be held responsible for all energy consumed on such premises until the lapse of three days from the date on which the Council receives notice of the fact that the premises have been vacated: Provided that if the supply to the premises is disconnected by the Council before the lapse of the said three days, the consumer shall be responsible for the energy consumed on the premises up to the time of disconnection.

13. (1) If a consumer or the Council at any time considers that any meter is not in proper working order, the Superintendent of the Council's Electricity Department may, of his own motion or on receipt of a notice to that effect from the consumer, take the necessary steps to have the meter tested.

(2) If it is found as a result of any test made at the request of a consumer that the supply registered by the meter is not more than $2\frac{1}{2}$ per cent. fast or $2\frac{1}{2}$ per cent. slow, the consumer shall pay on demand the testing fee of five rupees.

(3) If it is found as a result of any test made at the request of a consumer that the supply registered by the meter is more than $2\frac{1}{2}$ per cent. fast, no testing fee shall be charged and the Council shall refund to the consumer any amount paid by him in excess of the value of the quantity actually consumed by him during the previous three months.

(4) If as a result of any test made at the request of a consumer, it is found that the supply registered by the meter is more than $2\frac{1}{2}$ per cent. slow, no testing fee shall be charged but the consumer shall pay on demand the charges for the difference between the quantity registered by the meter and the quantity actually consumed during the previous three months.

(5) For any period during which the meter is found to have been out of order or to have registered incorrectly, the consumer shall not be liable to pay meter rent.

(6) No testing fee shall in any case be recovered where the test is made on the initiative of the Council or the Superintendent of its Electricity Department.

14. No consumer shall wilfully or negligently cause any electrical energy to be diverted or wasted, or maliciously injure any meter or wilfully alter the index of any meter fixed to his premises, or prevent any such meter from duly registering.

15. (1) No person who is not the holder, or a workman employed by the holder, of a certificate of competence to act as electrical contractor issued by the Council shall—

(a) undertake or carry out any work in connexion with the wiring or the electrical fittings or fixtures of any new installation which is intended to be connected to the Council's mains, or

(2) No electrical work described in paragraph (i.), carried out by a person who does not hold a valid certificate of competency or by the workman of such person, shall be connected to the Council's supply mains.

16. No person shall be granted a certificate of competency to act as electrical contractor unless he is the holder of a certificate of recommendation from the Chief Engineer and Manager, Government Electrical Undertakings, or unless he has—

(a) had at least three years' practical experience in a recognized electrical engineering workshop or firm or electrical power station, and

(b) been regularly engaged for a period of not less than two years in the practice of electrical engineering: Provided that the Council may in its discretion refuse to grant a certificate of competency to any person to act as electrical contractor whatever his qualification may be, without assigning any reason or excuse for such refusal.

17. (1) No electrical contractor shall carry out or perform any electrical work, such as installation work, including additions, alterations, and adjustments to existing installations, except after notice of not less than two days to the Superintendent of the Council's Electricity Department to enable such Superintendent to inspect the proposed work.

(2) If the Superintendent of the Council's Electricity Department approves of the intended work, he shall settle with the contractor the position of the meter, and the contractor shall carry out the work in accordance with the latest regulations of the Institution of Electrical Engineers.

18. On the completion of any electrical work referred to in by-law 17, such work shall be inspected and tested by the Superintendent of the Council's Electricity Department, and—

(a) if the installation is found to comply with the regulations laid down, a supply of electrical energy to the premises shall be given;

(b) if the installation does not comply with the regulations laid down, the certificate of competency issued to the contractor shall be liable to cancellation or suspension, and a supply of electrical energy to the premises shall not be given until such time as the installation has been made to comply with such regulations.

NOTICES CALLING FOR TENDERS.

TENDERS are invited for the supply of Green Coconut Husks, Large, to Bogambara Prison, Kandy, for a period of nine months commencing from January 1, 1940, to September 30, 1940. Tenders under sealed cover marked on the outside "Tender for the Supply of Green Coconut Husks" together with a Treasury or Kachcheri receipt for Rs. 5 as tender deposit (which amount will be forfeited to Government in the event of failure to enter into contract by the successful tenderer or will be refunded on the tender not being accepted) should reach the Superintendent of Prison (Branch Prison Industries), Kandy, not later than 12 noon on December 16, 1939. The successful tenderer will be required to make a cash deposit of Rs. 25 as security and enter into a contract by affixing a Stamp Duty of Rs. 10 for the service.

The successful tenderer will, except as stated below, be required to employ only Ceylonese labour in carrying out the work tendered for. If for any reason the tenderer is unable to employ only Ceylonese labour for the work, he shall state in his tender the maximum percentage of non-Ceylonese labour which he proposes to employ on the work. The Inspector-General of Prisons will give preference, other things being equal, to the tenderer who undertakes to employ only Ceylonese labour and failing that to the tenderer who specifies the lowest percentage of non-Ceylonese labour which he proposes to employ for the work and will normally reject the tenders of the tenderers who specify the percentage of non-Ceylonese labour which he proposes to employ for the work which appears to the Inspector-General of Prisons, to be unnecessarily high.

The employment of Ceylonese labour only to carry out the work tendered for or the employment of a definite percentage only of non-Ceylonese labour for such work will be made a condition of the contract, and the failure on the part of the successful tenderer to fulfil this condition will be treated as a breach of the terms of the contract and will render the contractor liable to have the contract cancelled and in addition to pay a penalty of cents 50 a day for each non-Ceylonese labourer employed by him over and above the percentage of non-Ceylonese labour which he is permitted to employ on the work in terms of this contract.

The word "Ceylonese" shall mean and include all persons born in Ceylon and no others.
