*Annexe.*

**ANNEXE TO THE CENSUS RULES, 1945.**

*Instructions for filling up the Schedules of the Census of population.*

**Cage I. (Census No. of Building).**

This is the number marked, for the Census, on the building or group of buildings. It also appears in column 1 of the List of Buildings. The number must be repeated for each inmate in the same building.

**Cage II. (Name).**

Enter in the first column the name of the chief resident member of the family, whether male or female; and in the other columns the names of the other members of the family and the names of the resident servants, and on the date of the final census, the names of the visitors, if any. If a child has not been named write ‘not named’; Ge names need not be entered. If the building is ‘empty’, write “empty” in this cage. “Institutions” on your List of Buildings should have the number of the building entered in cage I. and the word “Institution” in cage II.

**Cage 1 (Sex).**

For Males enter M in this cage, and for Females F.

**Cage 2 (Race).**

Enter the race of each person as Low-country Sinhalese, Kandyan Sinhalese, Ceylon Tamil, Indian Tamil, Ceylon Moor, Indian Moor, Malay, English, Scotch, Irish, &c. Do not use general terms such as British, Ceylonese, &c. As a general rule the offspring of parents of different races will follow the father's race, but Burghers and Eurasians or Euro-Ceylonese should be treated as separate races and described as Burghers and Eurasians or Euro-Ceylonese, according to the statement of the persons themselves. In the case of a Sinhalese, you must state whether the person is a Kandyan Sinhalese or a Low-country Sinhalese. In the case of a Tamil or Moor you must state whether the person is a Ceylon Tamil or Moor, or Indian Tamil or Moor. In the case of an Indian, who is neither Indian Tamil nor Indian Moor, state the particular race, such as Malayalee, Borah, Parsee. Similarly, in the case of an European the particular race should be stated, whether English, French, German, Russian, &c. A person from the Dominions or from the United States may be allowed to describe himself as a Canadian, an Australian, a New Zealander, a South African, or an American, as the case may be, if he prefers this to giving his original racial stock. Where a foreigner has been naturalized as a British Subject, note to add in brackets after his race the letters N. B. S. thus: German (N. B. S.).

**Cage 3 (Religion).**

Enter in this cage the personal, individual religion professed by the person. Examples are Buddhist, Hindu, Muslim, Zoroastrian, &c. In the case of Christians, enter the Sect thus: Church of Ceylon, Roman Catholic, Methodist, Dutch Presbyterian, Scotch Presbyterian, Independent Catholic, Salvationist, &c. Write B for Buddhist, C for Christian (but the name of the Sect should be written in full) H for Hindu, M for Muslim. Do not use any other

abbreviations and write the names of other religions in full. If the person has no religion enter None, or Freethinker, or Agnostic, &c., according to the person's statement.

**Case 4 (Whether able to read and write mother tongue ; if not what other language).**

Enter in this case the language of the race to which his father belongs under each person who can read and write it. In the case of Ceylon Moors, Burghers and Eurasians or Euro-Ceylonese, the mother tongue should be regarded as the normal language of the home, whatever it be. The test of ability to read and write should be whether the person is able to write a short letter and read the reply to it. If the person cannot read and write this language, enter "No", but if he can read and write another language, add the name of that language after the word "No". The following abbreviations should be used, "E" for English, "S" for Sinhalese, "T" for Tamil. Do not use any other abbreviations and write the names of other languages in full. Enter "None" in case of inability to read and write any language.

**Case 5 (Whether able to read and write English).**

Enter in this case the word "Yes" if the person can both read and write English; otherwise enter "No". The test of ability to read and write should be the same as the test indicated for case 4.

**Case 6 (Whether able to speak English).**

"Able to speak English" means able to conduct a short conversation or understand and answer questions put in English. Enter "Yes" if the person satisfies this test; otherwise enter "No".

**Case 7 (Unmarried, married, widowed or divorced).**

Enter each person whether infant, child or adult as either "unmarried" "married" "widowed" or "divorced". The entry "married" should be made in the case of a person claiming to be "married" according to custom or repute, though the marriage has not been registered according to law. The entry "divorced" should only be made if a legal divorce has been obtained. Divorced persons who have married again should be entered as "married" and not as "divorced". A person who is not divorced but legally separated should be entered as "married". The following abbreviations should be used:—"U" for unmarried, "MR" for married where the marriage has been registered; "MC" for marriages according to custom or repute and not registered; "W" for widowed, "D" for divorced. Do not use any other abbreviations.

**Case 8 (Age last birthday).**

Enter the number of years completed at last birthday. Thus a person whose exact age on the census date is 17 years, 11 months, and 25 days should be entered as 17. In many cases persons will report the age in round numbers, like 30 or 45, or "about 30" or "about 45", when that is not the exact age. Therefore, when an age ending in 0 or 5 is reported, you should ascertain whether it is the exact age. For infants less than one year old enter "0". Obviously absurd replies about age should not be accepted. You should make every effort to find out the correct age of each person, e.g., by comparing ages of members of a family whose relative ages may be known or by reference to some important public event, &c., and enter in this case what appears to you to be the real age of each person.

**Case 9 (Birth District or Town).**

In the case of persons born in Ceylon outside a town, enter the name of the Revenue District (*not* the village) in which the person was born. In the case of persons born in towns, enter the name of the town in which the person was born, taking care to differentiate between the town and the district by adding the letter "T" in case where such differentiation is necessary, e.g., a person born in Colombo Town or Puttalam Town will have the entry "Colombo T" or "Puttalam T" against this case, but a person born in Moratuwa Town will have the entry "Moratuwa" only, as there is no separate Revenue District by this name. In the case of persons born in India, enter the name of the District as far as it can be ascertained, e.g., India, Tinnevely; India, Cochin. The district or Taluk (தாலுக) can be traced if the name of the nearest Post Office to the place where the person was born can be given. In the case of persons born out of Ceylon or India, enter the name of the country, thus: China, England, France, &c. If the person was born in the District or Town in which he is being enumerated, you should use the abbreviation "H". In all other cases write the full name of the District or Town or country according to the instructions given above.

- Cages 10 and 11 { (10) (Principal occupation or means of subsistence of earner).  
 (11) (If not earner, means of subsistence of person on whom dependent).

Cage 10. (*Principal occupation or means of subsistence of earner*).— This cage must be filled in every column recording the particulars of a person who is an "earner". By "earner" is meant not only a worker, but also a person who derives income from, say, shares, pensions, rents, the work of others, &c. Enter in this cage the occupation of every person who is gainfully occupied, that is, of every person who earns money or money equivalent by pursuing an occupation. If a person has more than one such occupation the principal occupation, that is, that which is regularly followed and brings in the largest income to the earner, should be entered in this cage. If a person is *both* gainfully occupied *and* also possesses other means of subsistence, the occupation only should be entered. The "means of subsistence" should be entered in this cage only if the person has no gainful occupation but possesses other means of subsistence. In such a case the entry should record the person's *principal* means of subsistence that is that on which the person depends most for his livelihood. When recording the occupation or means of subsistence, enter the *exact* occupation or means of subsistence. Do not enter such general terms as "office worker", "mechanic", "labourer", "merchant", "planter", "engineer", "inspector", "clerk", &c. An "office worker" may be a book-keeper, stenographer, messenger, &c. A person who calls himself a "mechanic" may be found on further inquiry to have some more definite occupation, as boiler fireman, steamfitter, machine setter. Similarly, an "engineer" may be a civil engineer, a locomotive engineer, an irrigation engineer, &c. A "planter" running his own estate should be entered as "proprietary planter in tea or rubber", &c. A "planter" managing or superintending an estate for someone else and being paid a wage or salary should be recorded as "Tea or rubber estate Superintendent", or as the case may be. A "merchant" should be described more definitely as a "rice merchant", "piece goods merchant", "general merchant", &c., by adding the kind of merchandise dealt with by him. A person who makes the articles he sells should be entered as "maker and seller of baskets, combs, &c.". Remember that a beggar is an "earner" and his gainful occupation is "begging". A person temporarily out of employment and seeking employment should be regarded as an "earner" and entered as following the occupation in which he was last regularly employed, but in such cases the letter "U" should be added at the end in brackets, thus, "Stenographer (U)". In the case of persons who have been recently demobilized from His Majesty's Forces and are unemployed but are seeking employment, the occupation to be entered in this cage should be that followed prior to joining the Forces, with the letter U in brackets as explained above. A person formerly employed and now retired with a pension on account of old age, permanent physical disability or other reason should be entered as following the last regular employment with the letter "R" in brackets, thus, "Government General Clerical Servant (R)".

Cage 11. (*If not earner, means of subsistence of person on whom dependent*).— This cage deals with "non-earners", as cage 10 dealt with "earners". It must be noted that cages 10 and 11 are exclusive, and cannot be filled up for the same person. If cage 10 is entered, cage 11 will be blank, and *vice versa*. A person is a "non-earner" if he neither follows a gainful occupation nor possesses means of subsistence of his own. Thus, a woman who does housework in her own home, without salary or wages, and has no other regular employment but being responsible for the domestic management of the home, and has no independent means of subsistence of her own, is a "non-earner", and cage 11 will be entered in her case. But if a woman, in addition to doing housework in her own home, regularly earns money at some other occupation, whether carried on at her home or outside or derives means of subsistence from her shares or lands or other property, cage 10 and not this cage will be entered for her. A young person or child regularly attending school or college or working at home merely on general household duties without salary or wages is a "non-earner", and this cage will be entered for such person, if the person has no independent means of subsistence of his own. If, however, the person is possessed of such independent means of subsistence, cage 10 and not this cage will be entered for such persons. Enter in this cage the principal occupation or means of subsistence of the person on whom the "non-earner" is most dependent for his maintenance. A housewife should have the letter "H" in brackets prefixed to the entry. Thus, a wife of a lawyer who has no independent occupation or means of subsistence, will have cage 11 filled up for her thus: "(H) Advocate", or "(H) Proctor", as the case may be. Similarly, students will be distinguished by the letter "S" in brackets. Thus, an Advocate's daughter who is attending the University and has no independent means of subsistence will have this entry recorded in cage 11: "(S) Advocate".

**Cage 12 (District letter and Circle No.).**

You should enter here the code letter appropriate to the District in which you are working, as shown in the subjoined table :—

Province.	District or Municipality.	Code letter.
<i>Western Province.</i>	Colombo District	A
	Kalutara District	B
<i>Central Province</i>	Colombo Municipality	C

	Nuwara Eliya District	F
<i>Southern Province</i>	Kandy Municipality	G

<i>North-Central Province</i>	Anuradhapura District	T
<i>Province of Uva</i>	Badulla District	U
<i>Province of Sabaragamuwa</i>	Ratnapura District	V
	Kegalla District	W

You also ask the Supervisor for the Circle No. and enter it in this cage in each column. Thus, an Enumerator working in Horana in Circle No. 5 will enter in this cage "B5" (Kalutara District, Circle No. 5) and repeat it in each column.

**Cage 13 (Book No.).**

In this cage you should enter the Enumeration Book No. as soon as the schedules are stitched into the book, and you should repeat this number in each column.

**Cage 14 (Serial No. of person in Book).**

You should fill this in after the Final Census. Then, the first person in the book will be numbered 1, the second 2, and so on, right through to the end of the book without any break for the different schedules.

*On the reverse of the Schedule :—*

**Cage 15 (Dwelling).**

Sub-cage (1) (*No. of rooms*).—Enter in this sub-cage the total number of rooms occupied in the building by the household of which the person is a member. The following should not be counted as 'rooms': bathrooms, closets, pantries, basements, stables, stalls and rooms used as store-rooms, garages, boutiques, or shops. A verandah may be counted as a room if finished off for living purposes at all times.

Sub-cage (2) (*Material of roof*).—Enter in this sub-cage the material of construction of the roof of the building in which the person resides. Use the code figures given in the subjoined table :—

Tile	..	..	1
Thatch	..	..	2
Asbestos	..	..	3
Shingle	..	..	4
Zinc	..	..	5
Other	..	..	6

if the roof is constructed of more than one material enter the code figures in sequence, e.g., a roof of both tile and thatch will be entered '12': a roof of zinc and thatch will be entered '25'.

Sub-cage (3) (*Material of walls*).—Enter in this sub-cage the material of the outer walls of the building in which the person resides whether they are built of stone, brick, cadjan, &c. Use the code figures given in the subjoined table :—

Brick	..	..	7
Cadjan	..	..	8
Concrete	..	..	9
Mud	..	..	10
Palmyrah	..	..	11
Stone	..	..	12
Wood	..	..	13
Zinc	..	..	14
Other	..	..	15

If the outer walls are of more than one material, enter the code figures in sequence. Thus, if the walls are of brick and wood, the entry will be 713; if of mud and wood, the entry will be 1013.

**Cage 16 (Tenure).**

This cage should be entered only in the column recording the particulars of the person who is the head of the household.

Sub-cage 1. (Is home owned or rented?). If the home is owned by the head or some other member of the household occupying it, enter "O" in the column of the person who is the head of the household. To be considered as "owned" it is not necessary that the home be paid for in full. The home will be considered "as owned" even if there is a mortgage on it. If the home is not

owned, but is occupied on a lease or monthly tenancy or usufructuary mortgage, it should be enumerated as rented by entering "R". Where a money rent is paid, the monthly rent in rupees or to the nearest rupee should be entered in brackets. Thus, if a household occupies a rented home paying Rs. 100 a month the entry in this sub-cage that will be made in the column of the person who is the head of the household is as follows: "R (100)". Or, if the person has leased the home at Rs. 1,325 a year the entry will be "R (110)". If the rent includes furniture, write the simple letter F after the figure, thus, "R (110F)". Note that what is required is information as to the nature of the tenure of each home. Thus, if a dwelling is occupied by two or more households, there will be two or more "homes" in the same dwelling, and the information must be entered in this sub-cage in respect of each household. If the home is occupied free of any rent the entry in this sub-cage should be "FR".

Sub-cage 2. (*If owned and mortgaged, race of mortgagee*).—This sub-cage will be filled in only in respect of a home which is owned but is encumbered with a first or primary mortgage. The exact race of the mortgagee, if an individual, should be entered, so far as it can be ascertained. If the mortgagee is a corporation, the place of incorporation should be entered, so far as it can be ascertained. Write "NK" if this is not known or cannot be ascertained.

**Cage 17 (1) (Relationship to head of Household).**

In this cage, enter the word 'head' in the column relating to the particulars of the person who is regarded as the chief occupant or the head of the household. For other members of the household write *wife, father, mother, son, daughter, grandson, daughter-in-law, uncle, aunt, nephew, niece, boarder, lodger, servant, &c.*, according to the particular relationship which the person bears to the head of the household. If several unrelated persons share housekeeping facilities on a partnership basis, enumerate one of them as "head" and others as "partners".

**Cage 17 (2) (Whether both parents, or either, living).**

This sub-cage should be entered only for young persons and children under 21 years of age (*see* cage 8). In this sub-cage write "B. P. L." for both parents living; "FL" where the father is living, but the mother is dead or her whereabouts are not known; "ML" where the mother is living but the father is dead or where his whereabouts are not known; "BD" where both parents are dead; and "NK" where particulars are not known. Do not use any other abbreviations.

**Cage 18 (1) Date of marriage).**

**Cage 18 (2) (If previously married, date of first marriage).**

**Cage 19 (Number of children and age at birth of first child live or dead).**

Entries in these cages are to be made only in respect of females, and only married, widowed and divorced females entered as such in cage 7. Unless you have been specially authorised to enter these cages, you should leave a blank to be filled up later by the female enumerator whose duty it will be to record these particulars. If, however, you have this special authority, bear in mind the following instructions:—

- (1) Try to ascertain the particulars from the female concerned or, failing her, from her husband, father, mother, or other male or female relative.
- (2) "The date of marriage" will be the date of the existing marriage, and should be entered in cage 18 (1) by date, month and year, thus: "21st March 1899."

Marriage means not only a union of a man and woman registered according to law, but includes a union recognised by custom or repute, and the date will be the date on which the existing union was first entered into. If the date and the month are not known, enter the year, as accurately as you can ascertain it.

- (3) In the case of women who have been previously married, and have either contracted a subsequent marriage, or are now divorced, or widowed, the date or at least the year, of the *first* marriage should be ascertained and entered in cage 18 (2).
- (4) In cage 19, enter the total number of children the female person has had, whether such children are still alive or not, or whether they were born by her in the existing marriage, in a previous one, or out of wedlock. The entry should be '0' for a woman who has never borne children. Enter next in brackets the number of surviving children. Finally, enter the age (in years) of the person at the time her first child was born. The exact age (computed to the last completed year) should be entered, but, if this is not known and you are obliged to make an estimate, prefix the word "about" to the estimated age in order to distinguish such entries from the entries of

exact ages. Since the entries in this cage would be all in figures, add the abbreviation ' yrs ' to denote the age of the person. A specimen entry would be as follows: in sub-cage (1): " 6. (4) ;" in sub-cage (2): " 24 yrs. "

#### Cage 20 (Length of residence in Ceylon).

**Sub-cage 1. (Self).**—This sub-cage should be filled in respect of every person whose birthplace is recorded in cage 9 as being outside Ceylon. It should be left blank in the case of all other persons. By the expression "length of residence" is meant the continuous period of residence in Ceylon from the date of arrival to the date of census, less the aggregate of absences from Ceylon where each such absence exceeded five months but was less than twelve months at a time. Continued absence from the Island for twelve months or more would be considered a "break" in the continuous period of residence, and in this case 'the length of residence' would be computed from the date of return to the Island after the last 'break'. Enter period in the number of completed years only.

**Sub-cage 2 (Family).**—This sub-cage should be filled only in respect of persons for whom sub-cage 1 has been filled, and who are recorded in cage 7 as 'married, widowed, or divorced'. It will record the length of residence in the Island, computed as above, of the wife, or if there is no wife, of the youngest dependent child under 21 years of age.

#### Cage 21 (Whether able to speak Sinhalese and/or Tamil).

Enter "ST" if the person can speak both Sinhalese and Tamil, "S" if he can speak Sinhalese only, and "T" if he can speak Tamil only. The test of ability to speak a language is whether the person is able to conduct a short conversation, or understand and answer questions put, in that language.

#### Cage 22 (1) (Industry or business in which engaged or employed).

This cage must be entered in the case of each person for whom an entry of 'occupation' has been recorded in cage 10. The purpose of cages 10 and 22 (1) is to bring out, on the one hand, in cage 10 the specific occupation or work performed, if any, by the person enumerated and the other in cage 22 (1) the character of the industry or place in which such work is performed. If cage 10 is blank, cage 22 (1) will also be left blank. The entry in this cage, when made, should be the name of the industry, or the business, or the place in which the person works, as glass factory, rubber estate, insurance office, bank, copra store, &c. Never enter in this cage such indefinite terms as "factory", "estate", "office", "Grindlay & Co.", "Store", &c.

#### Cage 22 (2) (Whether employer, employee, or working on own account).

Note these definitions carefully:—

- (1) *An employer* is one who employs helpers, other than domestic servants, in transacting his *own* business. For instance, the term will not include a superintendent or agent, a manager, or other person *employed* to manage an establishment or business. All such should be entered as employees because, while anyone of them may employ persons, none of them does so in transacting his *own* business.
- (2) *An employee* is a person who works for a salary or wages, and is subject to the control and direction of an employer.
- (3) A person will be entered as *working on own account* if he has a gainful occupation and is neither an employer nor a salary or wage worker. Examples are:—professional men who work for *fees* and employ no helpers, small boutique-keepers who do not employ helpers, and, generally speaking, basket-women, pingo-carriers, &c.

Use "Em" for "employer"; "W" for employee on wages or salary; "OA" for working on own account. Do not use any other abbreviations.

#### \* Cage 22 (3) (If employee, salary or wages per month).

If the person receives a salary or wages on a monthly basis, enter here in rupees (to the nearest rupee) the amount of such salary or wages. If the person receives a salary or wages on other than a monthly basis, for example, on daily pay, convert the amount received to a monthly rate.

**4. Buffaloes.**—All stock below 3 years of age should be classified as "calves".

**12. Dairy Produce.—**

(i.) The total amount of milk produced from cows, goats, and buffaloes, whether owned or tended by the estate, or by individuals resident within it, should be recorded after due inquiry, if necessary. The amount of milk produced could without much difficulty and with a fair degree of approximation be ascertained by asking the owner of a milking cow what size pails he used for milking it, and how many pailfuls it gave daily, and making the necessary calculations on this information. As a guide for the enumerator the range of production of milk may be taken as from 3 to 6 bottles per day for an average country-bred cow, and from 15 to 22 bottles per day for one of the best breeds. The average lactation period varies from 200 to 300 days.

(ii.) **Butter and (iii.) Ghee made.**—Give in lbs. the quantity of butter and ghee made on the estate for commercial sale only, and NOT for consumption on the estate.

**13. Poultry Products.—**

**Eggs Produced**—In this cage should be recorded the number of eggs produced in 1945 and January, 1946, on the estate for commercial sale only, and NOT for consumption at home.

**IV.—CHENAS SCHEDULE.**

**1. Name of Chena.**—Give the name and alternative name if any.

**2. Whether Crown or private.**—If there is any doubt as to ownership, enter what is probable and the word "doubtful" within brackets.

**3. If Crown, to whom granted or leased.**—In inserting the grantee's or lessee's name the last name of the person should be recorded first in *block capitals*, and the initials of other names should follow.

**4. If private, name of owner.**—Enter name as required in 3 above. If there is more than one name enter the name of the person who should, in your opinion, be given priority and add "and others". If owner's name is not known, state so and enter name of cultivator or person responsible.

**5. If leased, name of lessee.**—Write name as required in 3 above. If lease has been assigned enter assignee's name. If lessee's name is not known, state so and enter name of cultivator or person responsible.

6. **Total extent of Chena.**—Give extent in acres, rood and perches. Any portion of the Chena bearing a permanent cultivation, e.g., coconuts, should be excluded.

7. **Crop Returns.**—Acreage under cultivation in 1946. The acreage as on February 18, 1946, should be stated. The crop entered under "others" should be described by a foot-note thus:

\* Italian Millet

The figures and the description in foot-note being connected by an asterisk.

When the crop is mixed or associated, the total acreage under cultivation should be entered against each crop and bracketed.

#### V.—ASWEDDUMIZED PADDY LANDS SCHEDULE.

This schedule is intended for all lands listed as "paddy lands" in column 3 in the List of Agricultural Holdings. "Asweddumized" means "prepared for the cultivation of paddy".

Make sure that all the headings are correctly filled.

1. **Name of field.**—Enter the name by which the particular field is commonly known. If there are more than one name in general use, give them all.

2. **Name of chief cultivator.**—Enter here the name of the person whether owner or not, who is principally responsible for the working of the field at or about the time of the census.

3. **Status.**—Enter here whether the person named at 2 above is the owner of the paddy field, or is a lessee, or an "ande" tenant. An usufructuary mortgagee should be entered as such. An owner of an undivided share who works the entire field under the *tattumaru* system should be entered as "tattumaru owner".

4. **Serial No. of person in Population Schedule.**—Leave this blank.

5. **If not owner, name and address of owner.**—If the field is owned by more than one, name and address of one only should be given. The address should in all cases give the postal town or village.

6. **Total extent of land.**—This should be given in acres, roods and perches, and should include the area covered by bunds or ridges.

7. **Extent (i.) uncultivated in 1946.**—Enter here the extent, in acres, roods and perches, which is lying fallow or uncultivated at or about the time of the census. Area covered by bunds or ridges should be entered here as "uncultivated", even though it may carry another agricultural product. An area which carried cultivation in 1946, and from which the crop has been harvested sometime in 1946 preceding the time of the census will not of course be included, although at the time of the census there is no cultivation existing on the land.

(ii.) **Extent cultivated but failed in 1946.**—Give here the extent, in acres, roods and perches, sown in August to October, 1945, but the crop of which failed altogether.

*Note.*—Extents given in 7 (i.) and 7 (ii.), and in 9 for Maha 1945-46, should in the aggregate be equivalent to the extent given in 6.

8. (i.) **Is land (a) Exclusively rain-fed?**—This question is self-explanatory.

(b) **Irrigated?**—That is directly or indirectly from an irrigation work.

(ii) **If irrigated, name and nature of irrigation work.**—Enter here the name and the description of the irrigation work by which the land is irrigated.

#### 9. Area and quantity harvested.

**Acreage under cultivation in 1945.**—Enter in acres, roods and perches. "Maha 1944-45" means the season (by whatever name it is locally known) the crop of which was sown from about August to October, 1944, and harvested in February-March, 1945. "Yala 1945" is the season which commenced with sowing in March-April, 1945, the harvest being reaped in July-September, 1945. The "Meda" 1945 is the season in which sowings took place between "Maha" and "Yala" as explained above. "Maha 1945-46" means the season in which the sowings took place, between August and October, 1945, and the crop is still standing at the time of the census or has only lately been harvested.

10. **Variety and Age of Paddy.**—The name of the variety under cultivation in this field in 1946 (*i.e.*, for "Maha 1945-46" as indicated above) should be entered here. If not under cultivation for Maha 1945-46, the variety grown for the last harvested crop should be stated here. By "age" is meant the period in which the variety takes to mature.

11. **Method of Preparation : Whether (1) Mudding, (2) Ploughing, (3) by Mamoty.**—This is self-explanatory.

12. **Whether Buffaloes or Cattle (used for Ploughing) owned or hired**—If some are owned, and others are hired, write the word "both".

13. **Extent of Broadcasting or Transplanting.**—The extents should be given with a clear indication as to what they respectively refer to, whether broadcasting or transplanting.

14. **Whether any labour employed on hire; if so, Number hired each Season.**—"Hired" means "for payment of remuneration whether monetary or in kind".

15. **Whether usually worked (i.) in *Tattumaru* : that is, worked in entirety in turns by owners of undivided shares; (ii.) on *ande* : that is, by a cultivator who has taken the field to be worked on payment of a ground share (in kind or money) to the owner. The word "usually" means in the current and preceding three seasons at least.**

16. **Implements used : (i.) Wooden Ploughs.**—Number used in the Maha season 1945-46, or, if not cultivated for that season, in the season immediately preceding.

(ii.) **Iron Ploughs.**—Number used in the Maha season 1945-46, or if not cultivated for that season in the season immediately preceding.

(iii.) **Other.**—Total number of miscellaneous implements used in the Maha season 1945-46, or, if not cultivated for that season, in the season immediately preceding.

**Signature of Chief Cultivator.**—The enumerator should get the signature of the person named at 2 to the schedule.

**Signature of Enumerator.**—The enumerator should sign his own name here.

TRADE DISPUTE—THE CEYLON MERCANTILE UNION *vs.* (1) MESSRS. THE SHELL COMPANY OF CEYLON, LTD.; (2) MESSRS. CALTEX CEYLON, LTD.; (3) MESSRS. STANDARD VACUUM OIL COMPANY, AND (4) MESSRS. C. C. WAKEFIELD & CO., LTD.

THE Ceylon Mercantile Union presented to me petitions under section 6 of the Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, in regard to trade disputes that had arisen between the Union and (1) Messrs. The Shell Company of Ceylon, Ltd.; (2) Messrs. Caltex Ceylon, Ltd.; (3) Messrs. Standard Vacuum Oil Co., and (4) Messrs. C. C. Wakefield & Co., Ltd. The petitions were referred to a Special Tribunal appointed by H. E. the Governor under the proviso to section 5 of the said Order, for adjudication.

The following findings and award dated January 17, 1946, made by the Special Tribunal are published for general information in terms of section 8 (4) of the above-mentioned Order:—

The President of the Ceylon Mercantile Union acting on behalf of certain mercantile clerks and other employees who are members of the said Union having presented petitions to the Commissioner of Labour demanding certain scales of salaries and wages which their employers, *viz.*—the Shell Company, the Standard Vacuum Oil Company, the Caltex Company and Wakefield and Company—were not prepared to pay, the existing trade dispute between the parties has been referred to me for settlement and decision.

Counsel representing the employers submitted that, in view of the provisions of sections 9, 10, and 11 of the Essential Services (Avoidance of Strikes and Lock-outs) Order, 1942, the award made by the Special Tribunal on September 24, 1945, in the matter of a Trade Dispute between the Mercantile clerks and other employees, who are members of the Ceylon Mercantile Union *vs.* Messrs. George Steuart and Company and other employers is binding upon the Petitioner, which is the Ceylon Mercantile Union as regards the present Trade Dispute and that the above award cannot be reopened for a period of six months from the date of the Award unless there has been, in the meanwhile, a change in labour or economic conditions in the district which fact is certified by the Commissioner of Labour as provided by section 9 of the Order. The petitioners have not obtained a certificate in terms of this section from the Commissioner of Labour. It is common ground between the parties that in order that the Tribunal may award more favourable terms to these employees it is necessary that they should be able to prove that they are employed in the performance of duties which require more tact, initiative and greater responsibility than is required from the clerks employed by Messrs. George Steuart and Co. and other Mercantile Employers in respect of whose dispute the award of September 24, 1945, was made by the Special Tribunal. Evidence of certain clerks employed in the service of these oil companies was placed before me for the purpose of proving that these clerks are employed in the performance of more responsible and onerous duties than other Mercantile clerks in regard to whom a salary scale has been framed by the Tribunal.

The evidence produced does not prove nor satisfy me that the duties performed by the clerks employed by the Oil Companies is in any respect more difficult, responsible or onerous than the duties ordinarily performed by Mercantile clerks. On this finding of fact the question arises whether in view of the provisions contained in section 9 of the Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, it is open to the present petitioner to re-agitate the question relating to the salaries of Mercantile clerks and other minor employees to whom the award of the Special Tribunal above referred to applies within a period of six months.

The Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, is an order made by the Governor by virtue of the powers vested in him under section 43c of the Defence (Miscellaneous) Regulations which corresponds to section 58AA of the United Kingdom Defence (General) Regulations. Section 43c (1) C empowers the Governor to make provision for requiring employers in essential services to observe such terms and conditions of employment as may be determined in accordance with the order to be, or to be not less favourable than, the recognized terms and conditions of employment. The Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, has by section 11 provided that no employer shall in any district employ any workman in any essential services in that district on terms and conditions of employment less favourable than the recognized terms and conditions of employment for that district. Section 11, subsection 2, gives a definition of the expression "recognized terms and conditions of employment". The terms and conditions as set out in an award of a Special Tribunal is regarded as the recognized terms and conditions of employment in that district. The representative of the Ceylon Mercantile Union sought to argue before me that in section 43c (1) C the expression "order to be" in the third line of that clause must be interpreted to refer to any order which at any time may be made by a Special Tribunal regarding the recognized terms and conditions. This argument is based upon an obvious mis-reading. The word "order" in subsection 1 clause C refers to the order which the Governor has made in promulgating the Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, and has no application to any order which at any time might be made by a Special Tribunal. Under the order an employer cannot employ any workman in any district on terms and conditions of employment less favourable than the recognized terms and conditions of employment in that district. The question relating to the right for demands which an employee can make for terms and conditions more favourable than the recognized terms and conditions obtaining in that district is limited by the Essential Services (Avoidance of Strikes and Lockouts) Order, 1942, to this extent, that such demands cannot be made by persons employed in the same or similar capacity as those to whom the recognized terms and conditions apply (as stated in section 11) for a period of 6 months.

The object of the Order as stated in Defence (Miscellaneous) Regulations 43(c) being to prevent work being interrupted by Trade Disputes in Essential Services, the framers of the regulation thought it expedient to prevent incessant and increasing demands being made by employees, unless there has been a change in labour and economic conditions within the period of six months as provided therein.

My finding is that clerks and other employees employed in these oil companies are bound as regards their scales of salaries by the award of September 24, 1945, even although they may not have been parties to the proceedings had before the earlier Tribunal—and they cannot agitate the question of their salaries for a period of six months from that date.

The salaries payable to Inspectors and Lorry Drivers and Motor Car Drivers with regard to whose salaries no award has been previously made will be dealt with by me in my award. As regards labourers, both skilled and unskilled, and their scales of wages certain agreements have been arrived at between the parties as regards the initial salaries and I shall make order with regard to their annual increments and maximum salaries in my award. I shall likewise deal with the other disputes referred to in the petition in my award.

*Salary Scale for Inspectors.*—I find from the evidence that the Inspectors employed by some of the oil companies are required to perform arduous duties. These duties involve considerable travelling throughout the Island. These Inspectors must be persons who are possessed of a higher degree of business acumen, tact and initiative than is ordinarily required of a Mercantile clerk who performs routine duties. I find that some of the oil companies give these Inspectors a monthly salary and a commission based upon the sales put through by their efforts. The representative of the Mercantile Union has in the demand formulated by him confined it merely to the payment of an adequate salary without the payment of any further commission. In these circumstances the monthly salary paid to them must be on a higher scale. Mr. Siebel, an Inspector employed by the Shell Company, has stated that a sum of Rs. 150 would be a fair initial salary for an Inspector. I also agree with this view as to what the initial salary should be. As regards the scale upon which annual increments should be given to these Inspectors, I direct that the following scale be adopted by all Companies. These Inspectors should receive annual increments of Rs. 10 per year until they reach a salary of Rs. 350 a month. Promotion of an Inspector to a salary scale above Rs. 350 will depend upon his efficiency and usefulness to the Company. A decision as to the suitability of an Inspector for promotion to the higher grade, *viz.*, Rs. 360 — Rs. 450 will no-doubt rest with the employer who will, I feel confident, promote every deserving Inspector to the higher grade. On such promotion being given the Inspector will receive an increment of Rs. 10 each year till he reaches a salary of Rs. 450. As stated before, these Inspectors travel out of Colombo and have to remain for several days out of their home station. During their tours they should be paid a subsistence allowance of Rs. 8.50 for each complete day and Rs. 4.25 for day tours out of Colombo when they can return to their home stations for the night.

*War Allowance to Inspectors.*—I award that these Inspectors be paid War Allowance as at Government rates now obtaining.

*Unskilled Labourers.*—As regards unskilled labourers, in view of the agreement arrived at between the parties I award that the minimum basic wage paid to these labourers be fixed at Re. 1.24 per day. In view of the award of the Special Tribunal relating to the wages and increments of unskilled labourers employed by the Colombo Gas and Water Company within six months prior to this date and in view of the fact that it has not been shown that the labourers employed by the Oil Companies

do perform more arduous and difficult duties than the labourers in the Gas Company, I am bound to make the same award with regard to annual increments and the maximum daily wage which should be paid to these labourers. I award accordingly that these labourers be paid an initial daily wage of Re. 1.24 rising by similar increments as awarded to the labourers of the Gas Company. These labourers will also be paid a special allowance at the rates determined by the Wages Board for the Engineering Trade as published in *Government Gazette* No. 9,347 of December 19, 1944. It would appear that the dearness allowance now paid to these labourers is higher than the sum payable under the Engineering Trade Wages Board decision. I therefore award that no unskilled labourer, who is at present employed, should receive as wages and special allowance a sum less than what he would have drawn according to the existing methods of payment. The employer should accordingly pay to each labourer such further sum as is necessary to make up the sum total which is now paid to him by his employer on account of his daily wage and the dearness allowance.

*Wages of Semi-skilled and Skilled Labourers*—From the petition embodying the demands it does not appear that any class of labourers performing particular types of work claims to be classified among labourers who perform a more skilled type of work. An agreement however has been arrived at as to the basic minimum wage which should be paid to the various classes of labourers. In terms of the agreement arrived at I award that fitters' and blacksmiths' mates should receive a minimum daily wage of Re. 1.28 for a working day of 8 hours. A mate, it was stated, ought to become fit to be a fitter or a blacksmith after five years of training as a mate. A fitter's or blacksmith's mate should receive annual increment of 4 cents on his daily wages for four years till he reaches a daily wage of Re. 1.44. A four-year period of apprenticeship is sufficient to qualify a mate to become a skilled fitter or a skilled blacksmith. At the end of the four years the question of his promotion as a skilled workman arises. If at the end of the four years the mate has acquired sufficient skill, as in most cases he is bound to do, he must necessarily be treated as a skilled labourer and should be paid at least the minimum wage payable to a skilled labourer in terms of the decision of the Wages Board relating to the Engineering Trade which has fixed the amount at Re. 1.80 per day. I therefore award that a fitter's mate or a blacksmith's mate should after a period of 4 years training be treated as a skilled labourer and be paid his minimum wages accordingly. In view of the agreement between the parties I award that all the classes of workmen shown in the 8th group in the document R 1 (reproduced below) should be paid an initial minimum wage of Re. 1.32 a day. Those in group 7 in R 1 should be paid a minimum wage of Re. 1.44 per diem. Those in group 5 a minimum wage of Re. 1.52 per diem. Those in group 3 be paid an initial minimum wage of Re. 1.60 per diem. Turners in group 1 should be paid an initial minimum wage of Re. 1.80 per diem. Those falling under groups 2 and 9 in R 1 should receive for their daily wage a sum calculated at the hourly rates shown in R 1.

Now, as to the question of the maximum wage and the annual increments which should be paid to these various classes of labourers my award is that they should receive as their maximum 40 per cent. more than the initial wage now fixed for the various classes of labourers. This is in accord with the award of the Special Tribunal in regard to the labourers employed in the Gas Company. The annual increments payable to these various classes of labourers will be paid during the same number of years as was awarded to the unskilled, semi-skilled and skilled labourers respectively in the award relating to the Gas Company till each class of labourer reaches his maximum wage. In giving effect to this award the employer will see that no employee receives as his salary or wage a less sum than he is at present receiving on account of his aggregate basic wage and dearness allowance, which sum they will continue to receive until such time when the companies accountants in consultation with the check-roll clerks of each company are satisfied that payments under this award will be more favourable to the employees, in which case payments will be made under this award.

*Salaries of Storekeepers and Assistant Storekeepers*.—This class of workers should be paid their salaries in terms of the award made by the Special Tribunal in regard to the salaries of Storekeepers and their Assistants employed by the Mercantile firms in Colombo. It should however be noted that only such persons who are employed in the performance of duties normally assigned to a Storekeeper or his Assistant will receive salaries provided for that class of employees. A person employed in a store solely to perform the duties of a clerk will be paid his salary as provided for a clerk in the appropriate grade provided by the award of the Special Tribunal relating to Mercantile clerks.

*Salaries of Fuelling Superintendents*.—With regard to this class of employees, whose employment was more or less a war-time job, I find that they are paid in addition to their salaries certain sums as responsibility allowances and get certain other privileges. No case has been made out nor any scheme submitted for the improvement of their conditions of service. I am satisfied that this class of employees, who is taken on for employment without any previous experience and is trained by the Company to do their job, is paid an adequate wage and receives other privileges. I therefore see no reason to make any award with regard to any improvement in their salaries.

*Salaries of Lorry Drivers*.—As regards their salaries an agreement was arrived as recorded in the proceedings of November 16, 1945, that their salaries be paid in accordance with the rates fixed by the regulations made under the Motor Car Ordinance, No. 45 of 1938, published in the *Gazette* No. 9,142 of July 2, 1943, or in any other amended notification. These lorry drivers are paid batta when their work takes them out of Colombo at the rate of Rs. 2 or Rs. 2.50 per day. I award that these drivers be paid batta at the rate of Rs. 3 per diem when they can get back to their home stations for the night and Rs. 6 for a whole day when they have to stay out for the night.

*Salaries of Motor Car Drivers*.—I find from the document R 15\* that the various oil companies are making payments on account of basic salary and dearness allowance which are adequate in comparison to the salaries normally earned by motor car drivers. It seems unnecessary therefore to make any award with regard to their scales of pay except to state that no driver be paid a less amount as salary than is prescribed by the Motor Car Ordinance.

*Batta to Motor Car Drivers*.—They will be paid batta when they go out of their home stations at the same rate as has been provided for lorry drivers by this award.

*Salary Scales of Peons, Bicycle Orderlies, and Messenger Boys*.—This class of employees should be paid their salaries in terms of the award made by the Special Tribunal on September 24, 1945.

*Salaries of Stenographers*.—They will be paid their salaries in terms of the scheme prescribed for Mercantile clerks by the Special Tribunal award dated September 24, 1945.

*Annual Holiday and Casual Leave*.—Each employee should be given an annual holiday with pay not exceeding 14 days excluding Sundays and he should also be given casual leave not exceeding 7 days in all during a year. The period of casual leave should not immediately precede or follow the period of privilege leave granted. The casual leave taken by an employee should not as a rule exceed two days at a time unless a longer period is granted by agreement with the employer.

*Five Statutory Holidays*.—This demand was made on behalf of all the employees of these companies. I was informed that the members of the clerical staff and the Inspectors are given these holidays. The difficulty however arises with regard to the grant of these holidays to the various classes of unskilled and skilled labourers. Considering the nature of the work performed by these oil companies, which are a utility service, it is difficult to conceive the possibility of closing down the entire business on these days without great inconvenience to the public. It should therefore be possible for the companies to grant the religious holidays only to such persons professing the respective faiths. If any employee is required and is willing to work on a holiday observed by him in view of his religion he should be paid  $1\frac{1}{2}$  times his normal daily pay.

*Sick Benefits*.—Under this demand the petitioner union only claimed that the employees should be granted leave on full pay on the ground of illness for such period as may be prescribed by this award. My award is that on the ground of proved illness certified by a qualified medical practitioner an employee should be given leave on full pay up to a period of 6 weeks at a time for any year. It should however be open to the employer in special circumstances to grant such leave on full pay for such longer period as may be necessary. The claim that the employer should also pay the fees for the medical attendance of the employee was withdrawn and I therefore make no award on the matter.

*Pension Scheme and Provident Fund*.—The demand of the union was merely for the inauguration of a pension scheme. I find that the Shell Co. had a Provident Fund Scheme from the year 1921 and Wakefield & Co. from the date of the commencement of their business in Ceylon in 1933. The amounts accumulated to the credit of the various employees of the Shell Company

seem to be substantial sums. Mr. Goonesinha on behalf of the Mercantile Clerks Union expressed his satisfaction with these Provident Fund Schemes and did not press for a Pension Scheme. I would therefore award that as regards these two companies the schemes of their Provident Funds be continued as at present. As these schemes are satisfactory I do not see the necessity of imposing on them the obligation of inaugurating Pension Schemes as well. The Standard Vacuum Oil Co. and Caltex, Limited, have certain Pension Schemes applicable to all their branches throughout the world. As it will not be possible for the local branches to alter these Pension Schemes without reference to their Head Offices I would award that they should continue to pay pensions in terms of the existing schemes. I would however strongly recommend that the Managers of these two companies should request their respective Head Offices to make payment of pensions in accordance with the recommendations *re* companies made by the Conciliation Board in respect of Bank Clerks employed in Colombo. These recommendations are set out in the Annexure marked A. I find that the modern trend in all industrial enterprises is to make provision for Provident Funds for the benefit of all employees. I would accordingly recommend that the Standard Vacuum Oil Co. and Caltex, Limited, should inaugurate Provident Funds similar to the Provident Fund Schemes now in operation in the Shell Co.

**Dearness Allowance.**—I award that dearness allowance be paid to all employees at the rates specified and paid by Government to its employees.

Before concluding my award I wish to make certain observations which have become necessary in view of what transpired in the proceedings. Mr. Goonesinha complained that employers in mercantile firms have in the matter of promotions of clerks from grade to grade been withholding their promotions in certain cases on the basis of the inefficiency of the clerk. I am unable to say whether this complaint is well founded or not without investigation of such cases. I would however express the hope that employers would in all deserving cases give promotion to their clerks so that the Mercantile Clerical Service would be a career to those joining it. It was however agreed that if any dispute arises between an employer and an employee with regard to his non-promotion to the higher grade that this dispute should, after prior investigation by the parties interested, by agreement, be referred in the first instance to the Commissioner of Labour for settlement or adjudication by him.

There was also an agreement that in the matter of a dismissal of a clerk who is dissatisfied with the grounds upon which his dismissal was based, his complaint should likewise be referred to the Commissioner of Labour for investigation and decision by him. For facility of reference I make the following summary of my

#### AWARD.

1. Clerks, Stenographers, Storekeepers, Assistant Storekeepers, Peons, Bicycle Orderlies, and Messenger Boys should be paid their salaries on the scales provided by the award of the Special Tribunal of September 24 1945, to these classes of employees.
  2. Inspectors will receive an initial salary of Rs. 150 a month rising by annual increments of Rs. 10 a year up to a maximum of Rs. 350. There will be a higher grade of Inspectors on a salary scale of Rs. 360 to Rs. 450. Promotion to this higher grade will depend upon merit. Batta will be paid to Inspectors when they travel on duty out of their station at the rate of Rs. 8.50 for a complete day and Rs. 4.25 when they return to their station for the night.
  3. **Salary of Lorry Drivers.**—They should be paid salaries according to the rates fixed by the regulations made under the Motor Car Ordinance.  
*Batta.*—They should be paid batta when travelling out of their station at the rate of Rs. 5 for a whole day when they have to stay out for the night and Rs. 3 when they can get back to their station for the night.
  4. **Salary of Motor Car Drivers.**—Their salaries will remain the same as at present, subject no doubt to any increments which the employers may award. Batta to motor car drivers will be on the same scale and terms as is awarded to lorry drivers.
  5. **Salaries of Labourers.**—Unskilled labourers should be paid a minimum daily wage of Re. 1.24. Their maximum should be 40 per cent. more than their initial wage rising by similar annual increments as was awarded by the Special Tribunal to the unskilled labourers employed by the Gas Co.  
*Semi-skilled and skilled labourers.*—(a) Fitters' and blacksmiths' mates should get an initial minimum wage of Re. 1.28 a day rising by annual increments of 4 cents each year for four years, after which period they would normally be regarded as skilled labourers and be paid Re. 1.80 per diem.  
(b) The workmen shown in the 8th group of R 1 should be paid an initial minimum wage of Re. 1.32 p.d.; those in group 7 of R 1 Re. 1.44 p.d.; those in group 5 Re. 1.52 p.d.; those in group 3 Rs. 1.60 p.d.; those in group 1 Re. 1.80 p.d.; those in groups 2 and 9, a minimum wage calculated at the hourly rates shown in R 1. These labourers should receive for their maxima 40 per cent. more than the initial wage now fixed; by annual increments during the same period of years as was fixed for the various classes of labourers by the award of the Special Tribunal relating to the Gas Co.
- Dearness Allowance.**—Should be paid to all these labourers at the rates fixed by the Wages Board relating to the Engineering Trade.
- Note.**—No labourer should receive as the aggregate of his basic wage and dearness allowance a sum less than what he now receives.
6. **Annual Holiday and Casual Leave.**—Each employee should be given an annual holiday with pay not exceeding 14 days excluding Sundays and Casual leave not exceeding 7 days.  
*Sick leave.*—Leave with full pay on the ground of proved illness certified by a qualified medical practitioner up to a period of 6 weeks at a time for any year should be granted. The employer can at his discretion give such leave for a further period.
  7. **Five Statutory Holidays.**—These days are now regarded as holidays for the clerical staff, and Inspectors. Any holiday connected with religious observance should be granted to all other employees professing that particular religion. If any such person is required and is willing to work on a holiday observed by him in view of his religion he should be paid  $1\frac{1}{2}$  times his normal daily wage.
  8. **Pension Scheme and Provident Fund.**—The demand for a pension scheme to be inaugurated by the Shell Company and Wakefield & Co. was withdrawn. The schemes relating to the Provident Funds in these companies are considered satisfactory and I award that they be continued as at present. I likewise award that the Standard Vacuum Oil Company and Caltex, Ltd., should continue to pay pensions in terms of their existing schemes. I also recommend that these two companies should request their Head Offices to make payment of pensions in accordance with the recent recommendations made by the Conciliation Board in respect of Bank Clerks employed in Colombo. I also recommend that these Companies should inaugurate Provident Funds similar to the Provident Fund Scheme now in operation in the Shell Company.
  9. **Dearness Allowance.**—For all other employees should be at the rates specified and paid by Government to its employees.
  10. I would place on record the agreement arrived at between the parties to refer in the first instance any complaint regarding the matters of non-promotion and wrongful dismissal of employees to the Commissioner of Labour for settlement or adjudication by him.

The President of the Ceylon Mercantile Union has by his letter dated December 19, 1945, addressed to the Commissioner of Labour requested that payments in terms of my award should be made as from March 1, 1945. I consider that it will be fair to make payments in terms of the award commencing from the date when the inquiry was concluded, viz., December 5, 1945, and I make award accordingly.

## ANNEXURE A.

## Pension Scheme.

With regard to a Pension Scheme to be adopted by all banks, I find on my investigation that most of the banks have a Pension Scheme, and that all the banks have schemes for payments arising from a Provident Fund.

The Bank Clerks' Union has made certain demands with regard to the basis on which pensions should be paid. They are as follows:—

- (1) Pension to be reckoned at the rate of two-thirds of the last salary drawn after 30 years' service in the bank.
- (2) Service to be counted for purposes of pension as from the date when an employee joins the bank.
- (3) Employees should not be called upon to make any contributions towards the pension as is done in the Imperial Bank.
- (4) The Imperial Bank should be called upon to refund the monies collected.
- (5) Half pension should be paid after 25 years' service.
- (6) Service should be counted for purposes of pension from the date an employee joins the bank.
- (7) One-third pension should be paid after 20 years' service when an employee retires on medical grounds.
- (8) A medical certificate from a British-qualified medical practitioner must be accepted for this purpose.
- (9) A gratuity on the basis of one year's salary in the event of death after 10 years' service should be paid as in the case of Government Service.

I have inspected the Rules relating to the payment of pensions by the National Bank of India, and find that those rules provide for the payment of pensions on an equitable basis. The position taken up by the banks with regard to the modification of any scheme for the payment of pensions is that the local branches of the banks have no power by themselves to alter, modify or amend the rules of the schemes regulating pensions which have been framed by the Head Offices and are applicable generally to all the branches.

In these circumstances it becomes necessary for me to consider what recommendation I should make with regard to the demands made by the Bank Clerks' Union.

With regard to the first demand, I would recommend that two-thirds of the last salary drawn by an employee be paid to him by way of pension after 35 years' service.

With regard to demand 2, I agree that service for pension purposes should be reckoned from the date when an employee joins the bank (except any period of service as an apprentice).

Demand 3 raises the very large question as to the basis upon which an employer should be called upon to inaugurate a Pension Scheme for the benefit of his employees and the extent of the employer's liability to create a Fund solely out of his resources for the payment of pensions. In most countries where provision is made for the payment of Old Age Pensions the employer, the State and the employee make contributions towards the Fund created for the payment of pensions. I am therefore unable to say that I can unhesitatingly recommend that no employee should be called upon to make any contribution towards a Pension Fund as is now done in the Imperial Bank of India.

Such banks as have provision for a Pension Fund based upon contributions made by the employees will continue to levy those contributions as heretofore. Other banks which do not demand a contribution from the employee will continue to operate on their Pension Schemes without making any such demands.

Demand 4, which relates to the Imperial Bank being called upon to refund the monies collected from its employees is rejected as being unreasonable.

Demand 5, which relates to half pension being payable after 25 years' service, is recommended as being reasonable.

Demand 6 has already been dealt with.

Demand 7 seems also reasonable and is recommended.

Demand 8 is recommended.

Demand 9 is recommended.

With regard to these demands, I would strongly recommend to the Exchange Banks and the Imperial Bank of India the desirability of communicating these recommendations to their Head Offices with a view to their ultimate adoption. But beyond doing that I cannot embody these recommendations as forming part of an award on the basis of which the employer is bound to act.
