TEXTILES CONTROL NOTICE No. 253.

Notice to Textile Dealers.

DEALERS are requested to note the following :—

- (1) Within the premises licensed as a shop there was found recently 107½ yds. of unused regulated textiles in two suit cases said to belong to employees. All dealers are informed that if I find in any part of a shop any regulated textiles in whatever quantity other than the stock-in-trade available for sale and exposed for sale, I shall consider such dealer to be unfit to hold a textile licence. The excuse that any part of the premises mentioned in the licence is used as a dwelling house will not be accepted.
- (2) In the same case the dealer and his employees refused to make a statement explaining the position. If any dealer, suspected of being guilty of a contravention, fails to make a full statement in his own handwriting in the pocket diary of the official making the detection, I shall hold such dealer unfit to hold a licence. All dealers have the right to ask the inspecting officer for the note book and write any complaint and make any explanation in it. This requirement applies not only to dealers but to salesmen employed in the shop.
- (3) A retail dealer whose textiles were found in the possession of another in 5 pieces of 30 yds. each, pleaded that he wrote out several bills in small quantities for one transaction. Dealers who do not write one bill for the total quantity sold to any one person in one transaction may be considered by me unfit to hold a textile dealer's licence.
- (4) A dealer amongst whose textiles bought for his trade there were 3 pieces of other goods, pleaded that these had been obtained by him on approval for the use of his family. Any dealer who mixes up with the shop goods—whether in the shop or in transit—any goods that do not form part of his stock-in-trade or goods purchased on wholesale bills for his shop will be considered to be unfit to hold a textile licence.
- (5) In connection with (4) above, the law does not allow a dealer to send out of his shop any goods other than what he sells on bills as prescribed by the regulations. No plea whatever will be accepted if goods are found otherwise than exposed for sale in the shop in the ordinary course.

Colombo, June 18, 1946. E. RODRIGO,
Controller of Textiles.

TEXTILES CONTROL NOTICE No. 254.

WITH reference to the Textiles Control Notice No. 241, the sale date of the wholesale distributor Mr. G. P. H. Vincent Silva, Beliatta, will hereafter be on Fridays at 2 P.M. and not on Saturdays at 9 A.M. as already published. Textiles Control Notice No. 241 must be treated as cancelled.

Colombo, June 24, 1946. E. RODRIGO,
Controller of Textiles.

TEXTILES CONTROL NOTICE No. 255.

Special Coupons.

SPECIAL coupons are printed on the same kind of security paper as coupons in the ordinary Clothing Books.

2. *Non-transferability of Special Coupons.*—No dealer shall sell textiles on the surrender of special coupons or coupon equivalent document except to the holder of such coupons or document. The name of the holder will be found on the

back of every special coupon issued by this Office, and the holder must sign the coupon at the appropriate place before a purchase may be made.

3. When a dealer sells textiles on a special coupon he shall get the holder of the coupon to sign the sales bill issued under Regulation 31. If the signature differs from the signature on the back of the coupon the dealer shall not accept such coupon.

Validity.—Where on the back of the coupon a period of validity has been entered up, no dealer may sell cloth on such coupon after the stated period has expired.

Colombo, June 25, 1946. E. RODRIGO,
Controller of Textiles.

TEXTILES CONTROL NOTICE No. 256.

TRADE DISPUTE—SYSTON ESTATE, ALAWATUGODA.

THE Ceylon Indian Congress Labour Union presented a petition to me under section 6 of the Essential Services (Avoidance of Strikes and Lockouts) Order 1942, with regard to a trade dispute that had arisen between the said Union and the Proprietor, Syston Bungalow Division, Syston Estate, Alawatugoda. The petition was referred to a Special Tribunal appointed by H. E. the Governor under the proviso to section 5 of the said Order for adjudication.

2. The following findings dated June 1, 1946, made by the Special Tribunal are published for general information in terms of section 8 (4) of the above-mentioned Order :—

I am not satisfied that Ramasami trespassed late at night in Omeru's bedroom in pursuit of Omeru's daughter. The evidence of that episode is thin and the daughter has not appeared.

But I believe Mahat and Hussain and Manikkam, and find that Ramasami drinks and has been quarrelsome. That fact is the only fact explaining why the 5 rooms in Ramasami's lines were vacant so long, i.e., 9 months according to Ramasami and 2 months according to his wife. Lines are not built for fun. There is no victimization. I hold that Ramasami's conduct was unsatisfactory and he was rightly sacked.

His wife Kadirai, however, has done no wrong. Nothing has been said against her.

Doubtless, she would rather go with her husband, but one month's pay is not notice enough in her case. I award her Rs. 75 damages.

Colombo, June 18, 1946. A. E. CHRISTOFFELSZ,
Commissioner of Labour.

TRADE DISPUTE—EMBULDENIYA ESTATE, RATNAPURA.

THE Ceylon Estates Staffs' Union, Kandy, presented a petition to me under section 6 (1) of the Essential Services (Avoidance of Strikes and Lockouts) Order 1942, with regard to a Trade Dispute that had arisen, between the said Union and Messrs. Muller & Cooray, 69, Queen street, Colombo, Managing Agents of Embuldeniya estate, Ratnapura. The petition was referred to the District Judge, Ratnapura, by me in terms of section 6 (2) of the said Order for adjudication.

2. The following award dated May 31, 1946, in terms of a settlement arrived at, with the consent of both parties, is published for general information in terms of section 8 (4) of the above-mentioned Order :—

Mr. R. Arasaratnam is to receive—

- (a) Rs. 441.65 being payment of dearness allowance on Government scale from October 15, 1944, to March 31, 1945, and the difference between the Government scale and that on which he was actually paid. This sum also includes the restoration of the allowance complained of between March 31, 1945, and December 31, 1945, and also the balance amount due as salary.
- (b) He is to receive a further sum of Rs. 200 on the ground of alleged wrongful dismissal.
- (c) Each side to bear its own costs.

Commissioner of Labour.

MOTOR CAR ORDINANCE, No. 45 OF 1938.

List of Applications for Licences for Lorries for 1946.

IN terms of section 46 of the Motor Car Ordinance, No. 45 of 1938, a list of applications for licences for lorries for the rest of the year, 1946, is published below for general information.

The following extract from the Ordinance applies to objections against the issue of licences, &c. :—

“ 46 (2). (a) Any licensing authority within whose area any part of the area of operation proposed by any applicant for a licence for a lorry, is situated, may make objection against the issue of that licence. (b) Any person who is the holder of a valid licence, or who is himself an applicant for a licence, for a lorry in respect of the whole or any part of the area of operation which is proposed by any other applicant may on payment of the prescribed fee, make objection against the issue of the licence to such other person.

46 (4). Any person, who is entitled under sub-section (2) to make objection to the issue of any licence, may, on payment of the prescribed fee*, inspect the application for that licence at any reasonable time at the Office of the Commissioner. Provided, however, that no fee shall be payable by any licensing authority in respect of the inspection of any application.”

Objects must be made in the manner stated below to the Commissioner of Motor Transport, Colombo, so as to be received by him not later than 2 p.m. ON WEDNESDAY, JULY 17, 1946.

1. Every objection in respect of an application for a licence for a lorry shall be made by a written statement on good and suitable paper which shall be signed by the person making the objection. Where the objection is made by any body corporate or firm, it shall be signed by a person duly authorised in that behalf by such body or a partner of the firm, as the case may be.

2. Every objection shall be made in duplicate and the original shall, where the objection is made by any person other than a licensing authority, bear stamps (uncancelled) to the value of Rs. 2.50.

3. Every statement of objection shall set out the specific grounds on which the objection is based and shall indicate, by reference to the name of the applicant for the licence and to the distinctive number of the motor car, the application in respect of which the objection is made.

4. No objection relating to more than one motor car shall be made in any one statement of objection. Any objections not conforming to these requirements will be of no avail.

Objectors under section 46 (2) are requested, to state clearly in their objections the facts entitling them to object, i.e., whether they are holders of valid licences or are themselves applicants for licences for lorries in respect of the whole or any part of the area of operation and additional services proposed by any applicant. They are also requested to give the registered number of their vehicles in the area applied for or cite the serial numbers of their applications as listed in the Gazette.

If the objection is in respect of any application for a lorry “ under construction ” the serial number given to the application in the list should be quoted.

"A gas Generator".

Abstract :—A device for producing carburetted petrol vapour comprising a vertical perforated tube, a reservoir, a separating chamber and a chamber for carburation.

THE following Specifications have been accepted :—

No. 3,338 of August 23, 1945.

Joseph Francis Martyn.

"Improvement in Refrigeration".

Abstract :—The invention relates to two pressure absorption refrigeration systems, and is particularly concerned with improvements in the evaporator tubes of such systems. The liquid that flows along the bottom portions of these tubes changes from the liquid phase to gas phase due to transfer of heat from the walls of the tube.

According to the invention, helical grooves are cut on the inside of the tubes and swaged internally from the walls. As liquid trickles through the tubes, it climbs up the grooves on the walls by capillary action, so that not only is the whole of the interior surface wetted but a large surface is provided for the transfer of heat.

The inventor states that with such construction undesirable phenomena such as superheating cannot occur. There are 10 claims and one sheet of drawings.

"Improvement in Refrigeration".

Abstract :—The invention relates to two pressure refrigerating systems and its object is to vary the concentration of the absorption solution so as to keep the evaporator temperature constant irrespective of working conditions.

The device consists of a storage vessel fitted between the generator and evaporator, sensitive to the pressure difference between the two. Midway between the end connections of this vessel is another connection leading to the evaporator tubes. The device operates as follows :—

An increase of temperature of the circulating water will increase the pressure differential between the high and low pressure sides of the systems. Under such conditions, some of the liquid refrigerant which spills over from the evaporator tubes is diverted from the normal closed path into the storage reservoir. The resulting concentration of the absorbent produces a sufficiently low temperature in the evaporator in spite of the rise in temperature of the circulating water. Conversely, when the circulating water temperature drops, the pressure differential is low, and under such condition liquid refrigerant which was stored in the storage vessel is returned to the circulating system. The resulting dilution of the absorption solution prevents freezing of the refrigerant, blowing out of the evaporator tubes, or crystallisation of the salts in the solution.

There are 16 claims and one sheet of drawings.

No. 3,341 of September 11, 1945 (Date applied for under Section 48 of the Ordinance, April 19, 1945).

"Improvements in or relating to the production of structures composed of or comprising pre-cast members".

Abstract :—The specification describes a precast member of T cross section suitable for the construction of walls, floors and the like made of concrete or similar material. The members are reinforced by bars placed at the junction of the flange and the web, and at the end of the web, these bars being connected together by suitable links embedded in the material of the web. The webs themselves may be imperforate or may be perforate so as to lighten the construction.

In the construction of a wall, the members are arranged in inverted relationship to each other so that the web of one member is interposed between the flanges of the two adjacent members. The flanges are suitably bevelled, and the ends of the webs grooved so that the units may be grouted satisfactorily *in situ*. The bottom and top of the wall have angle members, instead of T members.

In the construction of a floor the T members are all placed with flanges side by side so as to form a continuous surface with the ribs projecting downwards. Suitable methods are described of anchoring the reinforcing bars at the bottom of the webs to the wall. Fillets of wood are provided in the webs for fixing the ceiling boards.

There are 10 claims and one sheet of drawings.

The deposits of the successful tenderers or bidders will be refunded after the sale conditions have been signed by the successful purchaser, and security of the two months' rent of the privilege is deposited.

3. No person is permitted to send in more than one tender for any one tavern.

4. Every tender must be enclosed in a sealed envelope clearly marked on the top left-hand corner with the name of the tavern in respect of which the tender is made.
