Objects and Reasons.

Under section 6 (b) of the Rent Restriction Ordinance. No. 60 of 1942, an increase in the amount of the rates payable per annum in respect of any premises enables the standard rent of those premises to be proportionately increased. The increase in the amount of the rates may occur in three cases, namely, where there is an increase in the annual value of the premises, or where there is an increase in the percentage at which the rates are calculated, or where there is an increase both in such annual value and in such percentage. In the first case, the increase of the rent permitted by the existing law will make the rent per annum equal to the aggregate of the annual value assessed for the time being and of the amount for the time being payable per annum by way of rates. In the second and third cases, the increase of the rent now permitted will make the rent per annum exceed the aggregate of the annual value assessed for the time being and of the amount for the time being payable per annum by way of rates; but such an increase is inequitable. This defect is to be removed by the new paragraph (b) which is to be inserted in section 6 (1) of the Ordinance by Clause 2 of this Bill.

2. In view of the high cost of maintenance of buildings, it is proposed to permit a ten per centum increase in the standard rent. The new paragraph (e) which is to be added at the end of sub-section (1) of section 6 of the Ordinance is designed to implement this proposal. (Clause 2).

3. A new section will be inserted in the Ordinance in order to provide that, where an action to eject a tenant from any premises is dismissed by reason of the provisions of the Ordinance, his occupation of those premises for any period prior or subsequent to the dismissal of such action shall be deemed to have been or to be under the original contract of tenancy. Since disputes as to rights and obligations usually arise between landlords and tenants in such cases, the new section is intended to prevent further trouble by keeping alive the rights and obligations that existed prior to the attempted ejectment. (Clause 3).

4. As it is only occasionally that any person who is on the panel referred to in sub-section (2) of section 11 of the Ordinance can become a member of the Board mentioned in that sub-section and as only members of the Board are permitted under sub-section (3) of that section to elect the Chairman of the Board, all the persons on the panel cannot participate in the election of the Chairman, and a permanent Chairman cannot be elected from the panel. It is proposed to remove this difficulty by the new sub-section (2) which is to be inserted in section 11 of the Ordinance. (Clause 4).

5. The existing law does not permit the awarding of costs by Rent Assessment Boards when disposing of applications made to them under the Ordinance. The new sub-sections (3A) and (3B) which are to be inserted in section 12 of the Ordinance are intended to enable such costs to be awarded and recovered. (Clause 5).

6. In the absence of the Chairman of a Rent Assessment Board, documents, notices, or summonses cannot be issued by any other person on behlaf of the Board as only the Chairman is now authorised to issue them. Sub-section (4) of section 12 of the Ordinance is therefore to be amended so as to empower the Secretary of every such Board to issue documents, notices, and summonses. (Clause 5).

7. There is no power now to provide by regulation for the remuneration of such of the persons mentioned in sub-section (2) of section 11 of the Ordinance as may attend any meeting for the election of the Chairman referred to in that sub-section and for the payment of travelling expenses to witnesses appearing on summons before Rent Assessment Boards. That power is to be taken by the amendment of section 13 of the Ordinance. (Clause 6).
