A. E. CHRISTOFFELSZ,
Commissioner of Labour.

Colombo, November 4, 1946.

Report.

On October 8, 1946, I received a letter from the Commissioner of Labour, appointing me a Board of Conciliation for the purpose of investigating certain disputes that had arisen between the Ceylon Bank Clerks' Union and the various Exchange Banks, forming the Exchange Banks Association, as well as the Imperial Bank of India, which is not a member of that Association.

I commenced proceedings on October 12, 1946, and thereafter sittings were held on October 14, October 15, October 17, October 18 and October 25, 1946.

The demands made by the Bank Clerks' Union are set out in a letter dated September 6, 1946, and are as follows :—

- (1) Reinstatement of the two clerks victimized by the Hongkong & Shanghai Banking Corporation.
- (2) Withdrawal of notices of dismissal served on all strikers.
- (3) The Exchange Banks Association's offer of an increase of Rs. 30 all round on the basic salary is acceptable, provided the increase applies to all supervisors, members of the clerical staff, shroffs, &c., irrespective of the salary they draw at present, and provided also that the maximum of each grade is increased by the said amount and payable as from August 1, 1946.
- (4) Refund of seven days' pay and allowance deducted on the occasion of the last strike.
- (5) Full payment of salaries and allowances for all members of the Union in the respective banks who may be out on strike for whatever period of time.

(6) Pension and Provident Fund Schemes to be formulated by mutual agreement. The existing scheme of the Hongkong & Shanghai Corporation Provident Fund to remain the same.

(7) Awards made by the respective Conciliation Boards to be implemented and all payments to be made immediately.

(8) All Assistant Shroffs should be paid Rs. 20 in addition to their basic salary as per agreement of November 7, 1945. This agreement inadvertently excluded a fair number of clerks. The margin of Rs. 20 above the Clerical Scale should be maintained all throughout their service.

(9) All Deputy Shroffs should be placed on the Special Grade.

(10) (a) *Peons*.—All peons, money testers and minor staff to receive a general increase of Rs. 10 on their present basic salary.

(b) Peons drawing a minimum basic salary of Rs. 50 be granted Provident Fund rights.

(c) Peons doing Sunday and Holiday duty should be paid double their day's pay as overtime.

(11) Split turns given to labourers which necessitate their being in the premises for over 12 hours. Demand continuous eight hour work only. These men were working on a monthly basis but since the last agreement was signed they had been told that they are put on a daily-paid basis. The demand is made that they be reverted to their former terms of employment.

(12) No victimization.

On October 18 a settlement was arrived at between the parties with regard to demands (1), (2), (3) and (5) and a memorandum of settlement was duly signed by Mr. Scroggie on behalf of the Exchange Banks Association, Mr. H. A. Harden on behalf of the Imperial Bank of India, and Mr. A. E. Goonesinha on behalf of the Bank Clerks' Union *vide* Schedule "A". Demands (4) and (5) were withdrawn.

I have therefore to submit my recommendations with regard to the other demands which were subsequently investigated.

At a sitting on October 25, 1946, an understanding was arrived at with regard to demand No. (7). It was alleged that the National Bank was not implementing the recommendations made by Mr. T. W. Roberts. Mr. Gratiaen, appearing on behalf of the Banks stated that the adjustments with regard to salary went as far back as 1941, and those adjustments took some time to calculate. He gave the assurance that as soon as the necessary calculations were made the amounts due to the various clerks would be paid and in view of the assurance, the President of the Bank Clerks' Union was satisfied.

With regard to demand No. (8) it was alleged that the Rs. 20 which had been recommended by Mr. T. W. Roberts as an increase of salary had been treated by the Imperial Bank as an allowance. The Agent of the Imperial Bank assured me that the matter had been put right and the President of the Union was satisfied. With regard to demand No. (8) the Bank Clerks' Union submitted that even those shroffs which did not actually "pay in" and "pay out" money but still handled money were entitled to receive the Rs. 20 increase in salary as recommended by Mr. T. W. Roberts. Mr. Gratiaen on behalf of the Banks submitted that the addition of Rs. 20 was recommended because of the risk and responsibility involved in the duty of paying out and receiving cash. It was agreed that whenever an Assistant Shroff acted as "paying-in" or "paying-out" shroff he would receive the additional Rs. 20 for the period for which he was called upon to act. The President of the Bank Clerks' Union was satisfied.

With regard to demand No. (9), the Union submitted that a new salary scale should be fixed for Assistant Shroffs. In the Roberts Award there were two grades, Grade 1 from Rs. 50 to Rs. 204 by certain annual increments; Grade 2 from Rs. 120 to Rs. 300, also by certain annual increments. The Banks, however, at their discretion had been placing certain employees on a special grade. The contention of the Union was that the Assistant Shroffs should be admitted to that exclusive circle. Mr. Gratiaen on behalf of the Banks stated that the Assistant Shroffs would in the discretion of the management of the respective Banks be placed on a special grade if their services merited such treatment. It was ultimately agreed that the President of the Bank Clerks' Union should negotiate with each bank with regard to any particular individual who thought he had right to be placed on the special grade. If no agreement could be arrived at with each bank with regard to any particular employee, the matter could be considered by the Conciliation Board.

Demand No. (11), too, was adjusted. Mr. Gratiaen stated that conditions varied in the several banks and that the President of the Union should discuss the question with each bank and if no agreement could be arrived at the matter should be referred to the Board. Mr. Goonesinha, on behalf of the Union, consented to the proposal.

It therefore remains for me to make my recommendations with regard to demands (6) and (10), on which there was no agreement and which seemed incapable of adjustment. I shall first deal with demand No. (10).

The Union asked (a) that all peons, money testers and minor staff should receive a general increase of Rs. 10 on their present basic salary, (b) that peons drawing a minimum basic salary of Rs. 50 be granted Provident Fund rights; (c) peons doing Sunday and Holiday duty should be paid double their day's pay as overtime.

With regard to (c) it was pointed out that the usual rate of overtime pay was $1\frac{1}{2}$, and the President of the Union after some discussion agreed that that rate should continue and the demand for double pay for overtime was withdrawn. With regard to (10) (b), I can make no recommendation because each individual bank has its own rules and regulations with regard to its Provident Fund. The Local Agents are powerless to make any alteration thereto unless they receive the necessary authority from their various Head Offices.

With regard to demand No. (10) (a), according to the Roberts Award, peons and other minor staff were put on a salary scale of Rs. 420 per annum rising to Rs. 1,140 by certain annual increments. I do not consider the increase of Rs. 10 on the basic salary a reasonable demand. It was brought to my notice that the employees of the Bank of Ceylon had adopted a salary scale which the President of the Bank Clerks' Union stated would be acceptable to the Union. That scale appears to me exceedingly reasonable and I would therefore recommend that it should be adopted by the Exchange Banks as well as the Imperial Bank of India. That scale is as follows:—

Counters or Money Testers	Rs.	600—1,500 per annum
		20 of Rs. 2 and then Rs. 3.50 per month
Peons	Rs.	480—1,140 per annum
		26 of Rs. 2 and one of Rs. 3 per month
Labourers	Rs.	35—75.50 per month
		Re. 1 up to 10 years Re. 1.50 up to 19th year Rs. 2 thereafter
Watchers	Rs.	42—87 per month
		10 of Re. 1; 10 of Rs. 1.50 Re. 2 thereafter

I shall now deal with demand No. (6). It appears that only certain banks have a Pension Scheme. The demand of the Union is that all the banks who have no such scheme should immediately provide for pensions for their staff. All the banks appear to have Provident Fund Schemes. The existing scheme of the Hongkong & Shanghai Banking Corporation with regard to the Provident Fund seems to be the best of all. There each employee contributes 5 per cent. of his salary each month and the employer adds 20 per cent. of the employee's salary each half-year and on the termination of the employee's services he receives the amount with accumulated interest. That is undoubtedly a very generous scheme. The contribution made by the other banks is on a very much smaller scale. The Union demands that all the other banks should follow the scheme of the Hongkong & Shanghai Banking Corporation. I make no recommendation in this matter for the reasons which I will set out when I presently come to deal with the demand for pension rights.

This demand was previously made by the Union and was referred to a Conciliation Board consisting of Mr. G. Crossette

Thambyah. He dealt with the matter exhaustively and made his recommendations in his report dated October 26, 1945, published in *Ceylon Government Gazette Extraordinary* No. 9,478 of October 27, 1945. I can only say that I am in complete agreement with those recommendations. The demands by the Union are not unreasonable and the recommendations made by Mr. Crossette Thambyah are recommendations which I myself would make if I felt that the local banks would have the authority to implement my recommendations. After Mr. Thambyah made his report an agreement was entered into between the Exchange Banks and the Imperial Bank of India on the one hand and the Ceylon Bank Clerks' Union on the other. That was an agreement arrived at as a result of the exertions of the then Minister of Labour. It was there agreed that a certain scheme for pensions for all employees of the various banks should be referred immediately by the various Local Agents of the banks to their respective Principals for a decision on or before January 31, 1946. The Principals however, have not accepted the scheme and in the circumstances the Local Agents are powerless in the matter. Even Mr. Thambyah when he made his recommendations with regard to the Pension Scheme said that he strongly recommended to the Exchange Banks and the Imperial Bank of India the desirability of communicating his recommendations to their respective Head Offices with a view to their ultimate adoption. He added, however, that beyond doing that he could not embody the recommendations as forming part of an award on the basis of which the employer was bound to act. Those recommendations have now been considered by the Principals of the Local Agents and rejected. The President of the Union said that until satisfactory Pension Schemes were adopted by the various banks there would be discontentment among the staff. I would point out to him and all the employees of the banks that in the absence of legislation imposing on the employer a legal obligation to pay pensions, the matter must remain one entirely within the discretion of each individual employer.

As required by section 6 (5) of the Ordinance, I nominate Mr. J. G. Scroggie, Chairman of the Colombo Exchange Banks Association as representative of the banks represented by that Association, Mr. H. A. Harden as representative of the Imperial Bank of India, and Mr. A. E. Goonesinha as representative of the Bank Clerks' Union, to take notice of my report and my recommendations.

(Sgd.) V. L. ST. CLAIR SWAN,
Colombo, October 31, 1946. Conciliation Board.

MEMORANDUM OF SETTLEMENT.

Schedule "A".

1. The Hongkong Bank repudiates the charge of victimization and states that an offer of Rs 5,924 including Provident Fund and interest was made to I. J. R. de Silva on the basis that his case was one of retrenchment and not of victimization. It has been ascertained from the Controller of Labour that in similar cases of retrenchment a Government servant would have received a sum of Rs. 384 more than the amount offered by the Bank and in the circumstances in order to avoid further inconvenience to the public the Bank is willing to increase this offer to this extent. This offer which works out at Rs. 6,308 in total is not to be understood as in any way creating a precedent.

The Hongkong Bank desires to clear itself of the charges of victimization and would welcome a finding by the Tribunal on this issue after all the evidence has been recorded. As, however, Ivor de Silva withdraws the allegation of victimization and accepts the compensation offered the Union agrees that the issues with regard to alleged victimization do not arise.

2. All strikers other than de Silva and Peiris to resume work on October 21, 1946. Those who do not return on or before October 23, 1946, without good cause to be regarded as having left the services of their employers who are to be at liberty to replace them.

3. In the case of employees of the Hongkong Bank who resume work in terms of the above the notices of discontinuance served on them will be withdrawn by the Bank. The terms and conditions of employment of those who resume work in terms hereof will be the same as those obtaining when they went on strike subject to the provisions regarding the increase of Rs. 30 referred to later.

4. With regard to the problem of retrenchment which has arisen through the recruitment of new hands the Agent of the Hongkong Bank agrees, when it became necessary to effect retrenchment, that he will reach a decision only after negotiation with the Union. It is also agreed that either party may refer the matter in issue in any particular case to the Controller of Labour for consultation and advice.

5. Demand for strike-pay are withdrawn.

6. Each striker returning to work in terms of the above will receive an advance of one month's pay with war allowance.

He will in addition receive pay earned before the strike. If current work and work accumulated as a result of the strike are cleared up to the satisfaction of the management within six weeks from October 23, 1946, the advance will in the case of each striker be treated as commuted overtime. During this time clerks will work overtime as required and no overtime will be paid.

It is understood that all members of the staff will co-operate in clearing off the arrears of work, that is, those who have no work of their own to do after hours will be required to assist those who have.

7. The discontinuance of K. A. Peiris to stand but he should be paid up to September 30, 1946, in terms of the Bank's letter of August 10, 1946, at the agreed higher rate mentioned in Clause 8.

8. Agreed that the Rs. 30 increase already approved for members of the clerical staff including supervisors and shroffs to be effective in respect of the days worked from August 1, 1946, for all strikers of those classes who returned as above.

9. With regard to other demands of the Union in respect of which there is no agreement namely, demands C, 7, 8, 9, 10 and 11, the Conciliation Board will proceed to make its recommendations after hearing the submission of both parties.

NOTIFICATIONS UNDER "THE PATENTS ORDINANCE, 1906."

The following specifications have been accepted :—

No. 3,358 of December 17, 1945.

Carl William Zies (The V. D. Anderson Company).

"Impregnating Machine".

Abstract.—The invention relates to a screw press specially adapted for use in impregnating certain cellulosic materials with acid for the purpose of hydrolysis in processes for the production of sugar or alcohol. Such presses are used, for instance, to apply pressure to corn cobs suitably wetted with acid, while at the same time the material is subjected to heat or cold by steam or water in order to maintain the desired temperature.

The press comprises a vertical jacketed cylinder, inside of which is a hollow shaft adapted to rotate concentrically. The shaft has sets of helical vanes which decrease in pitch from top downwards to allow for the decrease in vertical velocity of the material that is being compressed. Screw studs are fixed through the outer casing of the jacket through the barrel so as to project in the intervening space between barrel and shaft positioned between each set of vanes. This prevents the material rotating with the shaft. Heat is applied by the outer jacket. Provision is also made for the circulation of steam of water up the hollow shaft and down a concentric stationary tube about which it rotates.

Suitable apparatus is described.

There are 14 claims and 4 sheets of drawings.

No. 3,359 of December 17, 1945. (Date applied for under Section 48 of the Ordinance, December 14, 1944.)

Nelson Corey Cahoon (The National Carbon Company Inc.)
"Primary Galvanic Cell".

Abstract.—The object of the invention is to eliminate the layer of cereal paste in dry cells. As the layer of paste has to be thick enough to prevent contact of the zinc electrode and depolariser, the amount of depolariser that can be used is unduly limited.

The inventors describe a diaphragm to be used in place of the cereal paste. This diaphragm is composed of non-fibrous, non-porous, organic film-forming material chemically inert to the electrolyte. The surface adjacent to the wet electrode is such as to form a viscous solution with the electrolyte thereby ensuring a good contact with the electrode and the surface adjacent to the depolariser mix is sufficiently resistant to the electrolyte to prevent dispersion of the viscous solution. Suitable films for such a purpose are made of alkyl cellulose either, e.g., methyl cellulose, the surface adjacent to the depolariser mix being at least partially immobilised by treatment with an organic polybasic acid for example citric or tannic acid. If necessary two films one treated and the other untreated can be used.

The inventors claim that cells manufactured in accordance with above have a larger useful life and better storage properties than cells made with cereal paste.

There are 12 claims and one sheet of drawings.
