The Census of Agriculture.

THE tables given below present statistics of Agriculture (including livestock statistics) for the Southern Province.

3. Table I. shows the distribution of cultivation by products including the interplanted areas. Particulars relating to "A" Estates and Town and Village Gardens have been excluded from this table.

Table II. shows the distribution of cultivation by products on "A" Estates.

Table III. classifies Agricultural Holdings other than "A" Estates and shows their number, the extent cultivated and extent cultivable but not cultivated.

Table IV. shows the percentage of cultivated, and uncultivated but cultivable lands, to the total cultivable extent and to the total land area by Divisional Revenue Officers' Divisions.

Table V. shows the distribution of livestock.

4. The extent shown under column 4, Table I. and sub-column 2 of column IV., Table III. is the area under paddy cultivation during the period of the Census which was taken in these areas about the time of the Maha (or Kalapokam) season, 1945-46. The extents shown as "uncultivated"—sub-column 3 of column IV., Table III.—include areas cultivated in the Meda and Yala seasons immediately preceding.
