

# THE CEYLON GOVERNMENT GAZETTE

No. 9,973 — FRIDAY, MAY 6, 1949

Published by Authority

## PART X

(Separate paging is given to each Part in order that it may be filed separately)

### TRADE MARK NOTIFICATIONS

NOTICE is hereby given that any person who has grounds of objection to the registration of the following Trade Mark may, within two months from the date of this Gazette, lodge Notice of Opposition on Form T M No 7 bearing an uncanceled or impressed stamp of Rs. 20. The period for lodging Notice of Opposition may be enlarged by the Registrar if he thinks fit and upon such terms as he may direct.

(1) Trade Mark No 11,123 (2) Date of Receipt January 13, 1949 (3) Applicant (Proprietor of the Trade Mark) EDITH SARFIELD RIORDAN trading as KOLBERG AND COMPANY, 146-148, First Cross Street, Pettah, Colombo, import and export merchants, commission agents and manufacturers' representatives (4) Address for service in the Island C/o Abeyratne & Abeyratne, Negus Building, Fort, Colombo (5) Class 17 (6) Goods Cement (7) Representation of the Trade Mark

Registrar-General's Office,  
Colombo, April 8, 1949.

W M SELLAYAH,  
By order,  
for Registrar of Trade Marks

NOTICE is hereby given that any person who has grounds of objection to the registration of the following Trade Mark may, within two months from the date of this Gazette, lodge Notice of Opposition on Form T M No 7 bearing an uncanceled or impressed stamp of Rs 20. The period for lodging Notice of Opposition may be enlarged by the Registrar if he thinks fit and upon such terms as he may direct.

(1) Trade Mark No 11,256 (2) Date of Receipt March 25, 1949 (3) Applicant (Proprietor of the Trade Mark) Mawanna Ayesha Beevi, Mawanna Ahamed Pathumal Beevi, Mawanna Kathira Beevi, Mawanna Mohamed Masthan Kavanna Peer Mohamed, Koovalanna Chena Mohamed Abdulcader, trading as MAWANNA OONA & CO, 118, 2nd Cross Street, Colombo 11, general cloth merchants (4) Class 24 (5) Goods

49—J. N. A. 88733—284 (4/49)

M 1

Cotton piece goods including sarongs and cambouys (6)  
Representation of the Trade Mark

TRADE MARK

W M SELLAYAH,  
By order,  
for Registrar of Trade Marks

Registrar-General's Office,  
Colombo, April 4, 1949.

NOTICE is hereby given that any person who has grounds of objection to the registration of the following Trade Mark may, within two months from the date of this Gazette, lodge Notice of Opposition on Form T M No. 7 bearing an uncanceled or impressed stamp of Rs 20. The period for lodging Notice of Opposition may be enlarged by the Registrar if he thinks fit and upon such terms as he may direct.

(1) Trade Mark No 11,224 (2) Date of Receipt March 9, 1949 (3) Applicant (Proprietor of the Trade Mark) Stanley Sagner and Helen Sagner, trading as A. SAGNER'S SON, Frederick, Maryland, United States of America, manufacturers of men's and women's coats and suits, men's trousers, dress and work shirts and neckties (4) Address for service in the Island C/o J M Pereira, Proctor & Notary, 51, Queen Street, Fort, Colombo (5) Class 38 (6) Goods Men's and women's coats and suits, men's trousers dress and work shirts, and neckties (7) Representation of the Trade Mark

Registrar-General's Office,  
Colombo April 4, 1949

W M SELLAYAH,  
By order,  
for Registrar of Trade Marks

### NOTIFICATIONS UNDER "THE PATENTS ORDINANCE, 1906"

THE following specifications have been accepted—

No 3,551 of June 7, 1948

Victor William Garwood.

"Improvements in and relating to machines for cutting paper webs or strips".

*Abstract*—The nature of the invention can be ascertained from claims 1 and 2 which are as follows—

- 1 A self-contained cutting unit adapted for dealing with continuous stationery packs of the kind referred to and comprising means for automatically and intermittently feeding the web from a pack of stationery beneath a guillotine cutter and means for operating the cutter in synchronism with the web feed so that the cutter operates upon the web when the latter is stationary at the points at which the cuts are to be made
- 2 A self-contained cutting unit according to claim 1 wherein means are provided for automatically and positively holding the strips, or some of them, together at or about the cutting point while each cut is made and flattening the creases and subsequently releasing them after the cut has been made

There are 16 claims and four sheets of drawings

No 3,552 of June 8, 1948 (Date applied for under section 46 of the Ordinance, April 19, 1945)

*Imperial Chemical Industries Limited*

"Improvements in or relating to means for fumigating with Pesticidal Compounds"

*Abstract*—The inventors claim a safety fuse cord in which one or more of the textile yarn coverings around the powder core are coated or impregnated with a thermally vapourisable pesticidal compound. Preferably the coverings so treated are prevented from direct contact with the powder core by at least another wrapping of textile yarn covering. The pesticidal compound used may be a solid compound of organic nature for instance a benzene hydrochloride or a chlorinated aromatic hydrocarbon derivative

There are 12 claims

No 3,553 of June 15, 1948 (Date applied for under section 46 of the Ordinance, June 4, 1945)

*Imperial Chemical Industries Limited*

"Improvements in or relating to Fumigation and Fumigating Charges"

*Abstract*—The invention is based on the principle that when a mass of ammonium nitrate mixed with a salt of chromic acid, e.g. potassium bichromate is strongly heated at a point by means of a red hot object, a self-sustained flameless gas producing exothermic reaction progresses through the mass at ordinary pressure. The temperatures produced are generally speaking much below those experienced in ordinary combustion

The invention consists in adding pesticidal compounds, e.g., D D T to the above mixture, with china clay and binding compound and compressing the mixture in the form of a candle. A small piece of igniting composition is stuck on the top of the candles. When such a candle is ignited it emits a fume comprising an aerosol of the condensed vapour of the pesticide. This candle is safe to use in confined space even when other ignitable articles are present

There are 6 claims

Patent Office,  
Colombo, April 29, 1949

R H PAUL,  
Registrar of Patents

THE following specifications have been accepted —

No 3,558 of July 21, 1948 (Date applied for under section 48 of the Ordinance, July 16, 1947)

*Electric & Musical Industries Limited*

"Improvements relating to Gramophone Records"

*Abstract*—The nature of the invention can be ascertained from claims 1 and 2 which are as follows —

- 1 A gramophone record which comprises shellac as a thermoplastic ingredient, and a bituminous substance whereby wax separation from the shellac which is liable to occur during manufacture of the record, is substantially prevented

- 2 Material for manufacturing gramophone records which comprises from about 20 to about 30 per cent by weight of shellac, and a bituminous substance to an amount not exceeding 1 per cent by weight of the material, said bituminous substance being capable of substantially preventing wax separation from the shellac which is liable to occur during the manufacture of the records

There are 6 claims

No 3,567 of August 12, 1948

*Stanley William Tomkins.*

"Double headed Match"

*Abstract*—The nature of the invention can be ascertained from claims 1, 2 and 3 which are as follows.—

- 1 A double headed match of approximately normal match length characterised in that the match stick is shaped to provide an enlarged centre part notched or scored midway for easy severance of the chaired portion after ignition, the said enlarged centre part being rendered non-inflammable by impregnation with fireproofing chemicals
- 2 Double headed match as claimed in claim 1 wherein the enlargement of the centre part is obtained by passage through pressure rollers which may also serve to apply non-inflammable material thereto
- 3 Double headed matches as claimed in claims 1 & 2 produced from a blank with the enlarged parts in staggered relationship to save wastage of material, the lateral edges of the enlarged centre part being bent over to strengthen the longitudinal median part of the match

There are 7 claims and one sheet of drawings

No 3,568 of August 12, 1948 (Date applied for under section 48 of the Ordinance, May 10, 1944)

*Imperial Chemical Industries Limited*

"Biguanide Derivatives"

*Abstract*—The inventors claim a process for the manufacture of new substituted biguanides of the formula —

A — NX — C (NH) — NH — C (NH) — NRR' wherein A represents an aryl group, X represents hydrogen or an alkyl group, R represents a hydrocarbon radical and R' represents hydrogen or a hydrocarbon radical and also R and R' may be joined together to form a divalent aliphatic hydrocarbon chain, and further any or all of the groups A, R and R' may bear one or more non-acidic substituents which comprises the interaction of an arylidicyandiamide of the formula A — NX — C (NH) — NH — CN with an amine NRR', the symbols A, X, R, and R' in these formulae having the same meanings as before

The inventors state that the new compounds are useful as chemotherapeutic agents or as intermediates for chemotherapeutic agents, many of them being valuable as anti-malarial agents

There are 3 claims

Patent Office,  
Colombo, April 29, 1949

THE following specifications have been accepted —

No 3,569 of August 19, 1948

*Gestetner Limited*

"Improvements in and relating to collapsible tubes"

*Abstract*—The invention relates to the discharging ends of collapsible tubes. Such tubes are provided with a nozzle which has a screw-threaded portion for engagement with a cap. According to the invention a recess or a plurality of recesses is provided in the nozzle at a point remote from the discharge end of such a depth that they provide shoulder or shoulders whereby engagement of the tube may be secured with an element which

may be a bifurcated arm forming part of the dispensing device in order to enable a fluid-tight joint to be secured between the nozzle element and a member of such device provided with a passage through which fluid may be delivered. The fluid-tight joint is obtained by pressing the sharp peripheral edge of a hollow element which is part of the dispensing device into the face of the nozzle which is provided with a seating of sufficient area and thickness for the purpose. Suitable arrangements are described for clamping the dispensing device to the end of the tube. The dispensing device comprises a pump for exhausting the tube. An adapter is also described and claimed for attachment to a tube not provided with a nozzle of the manner described.

There are 5 claims and two sheets of drawings.

No 3,570 of August 19, 1948 (Date applied for under section 48 of the Ordinance, August 22, 1947)

Imperial Chemical Industries Limited

"New Quinoline Derivatives"

**Abstract**—The inventors describe a process for the manufacture of new pyrimidylamino-quinoline derivatives of the formula  $Pq-NH-Qq$  in which P stands for a 2-, 4-, (or 6-) amino-substituted pyrimidine nucleus which is attached to the linking  $-NH-$  group at another of the 2-, 4-, (or 6-) positions and which may be further substituted in the remaining 2-, 4-, (or 6-) position by a lower alkyl radical or an amino group, Q stands for a quinoline nucleus which is substituted in the 2- or 4-position by an amino group and which may be further substituted by a lower alkyl group or groups, and which bears the linking  $-NH-$  group in the 6-position, and the symbols q indicate that the preceding nuclei.

P and Q respectively are present in the form of their quaternary salts, which comprises reacting one or more of the substances  $P-NH-Q$ ,  $Pq-NH-Q$  and  $P-NH-Q$ , with a quaternary salt-forming agent.

There are 3 claims.

No 3,573 of August 20, 1948 (Date applied for under section 48 of the Ordinance, August 22, 1947)

Imperial Chemical Industries Limited

"Quinoline Derivatives"

**Abstract**—The inventors describe a process for the manufacture of new pyrimidylamino quinoline derivatives of the formula  $PqNHA$  wherein P stands for a 2-, 4- (or 6-) amino-substituted pyrimidine nucleus which is attached to the linking  $-NH-$  group at another of the 2-, 4- (or 6-) positions and which may be further substituted in the remaining 2-, 4- (or 6-) position by a lower alkyl radical or by an amino group, A stands for Q or for Qq, wherein Q stands for a quinoline nucleus which is substituted in the 2- or 4- position by an amino group and which may be further substituted by a lower alkyl group or groups and which bears the linking  $-NH-$  group in the 6- position, and the symbols q indicate that the preceding nuclei P and Q respectively, are present in the form of their quaternary salts, which comprises reacting a compound of the formula  $PqX$ , wherein P and q have the significance stated above and X stands for a halogen atom or the group  $-SR$ , wherein R stands for a hydrocarbon radical, with a compound of the formula  $NH_2A$  wherein A has the significance stated above.

There are 4 claims.

## The "Ceylon Government Gazette".

PUBLISHED EVERY FRIDAY.

**Notice.**—All Notices and Advertisements are published in the "Ceylon Government Gazette" at the risk of the Advertisers.

All notices and Advertisements by Private Advertisers may be tendered at or sent direct by post to the Office of the Ceylon Government Gazette, Government Press, Colombo, for insertion at the authorised rates of payment. The office hours are from 9 a.m. to 4 p.m., closing at 1 o'clock on Saturdays.

All Notices and Advertisements must be prepaid. To save delay Notices and Advertisements sent direct by post should be accompanied by Money Order, Postal Order, or Cheque made payable to the Government Printer.

To avoid errors and delay "copy" should be on one side of the paper only and preferably typewritten. All signatures should be repeated in block letters below the written signature.

Trade Advertisements or Notices re change of name are not admissible for publication in the Ceylon Government Gazette.

Advertisements purporting to be issued under orders of Courts will not be inserted unless signed or attested by a Proctor of the Supreme Court.

### Authorised Scale of Charges for Notices and Advertisements as from November 1, 1942.

	Rs	c
For notices not exceeding 18 lines of single column	13	0
19 lines to 36 lines	20	0
37 lines to 45 lines	25	0
46 lines to 54 lines	30	0
55 lines to 63 lines	35	0
64 lines to 72 lines	40	0
73 lines to 81 lines	45	0
82 lines to 90 lines (one column)	50	0
One page	100	0

For second consecutive insertion, two-thirds of the above rates; for third, fourth, fifth, and following consecutive insertions one-half of the above rates.

The Ceylon Government Gazette is published every Friday. Day of publication is subject to alteration in any week where Public Holidays intervene.

All Notices and Advertisements should reach the Office of the Ceylon Government Gazette, Government Press, Colombo, by noon two working days previous to publication.

Notices and Advertisements received after that time will be inserted, if circumstances permit, on payment of a late fee for each Notice or Advertisement at the following rates.—

	Rs.	c
Up to 4 P.M. two days previous to day of publication	1	25
Up to noon on the day previous to day of publication	2	50
Up to 4 P.M. on the day previous to day of publication	5	0
Up to noon on the day of publication	10	0

Subscription to the Ceylon Government Gazette, Rs 12 per annum for any separate Part; by post Rs. 15. Copy of each Part 25 cents, by post 31 cents.

Subscriptions are booked in advance by the Superintendent, Government Publications Bureau, Colombo, to the end of a year or half-year only.

Past issues of the Ceylon Government Gazette, when available, will be charged for at double rates. Application should be made to the Superintendent, Government Publications Bureau, Colombo.
