Notifications under "The Patents Ordinance, 1906"

THE following specification has been accepted:—

No. 3,615 of March 23, 1949

Ronald Jayarasa Canagasabey

"String-hopper machine".

Abstract.—A machine is described incorporating devices for continuously mixing flour and water and extruding the paste in the form of strings to which a slight twist is given. Endless chain conveyors of sufficient length and number are fitted inside a steaming chamber to carry the strings which are cooked in the process. A cutter actuated by a cam and spring cuts the strings at regular intervals as they emerge from the exit thereby giving square string hoppers.

There are 5 claims and 2 sheets of drawings.

Registrar of Patents
