(Convention application under section 48 claiming priority date May 15, 1951)

Naamlooze Vennootschap Valevefa

‘ Method of and apparatus for making metal drums ’ Colombo, May 5, 1953

Abstract — This invention relates to the manufacture of steel containers or drums commonly used in the shipment of oil. The invention has for an important object the provision of apparatus by means of which the initially formed cylindrical body is operated upon in two stages— first to reduce it to a collapsed or flattened condition and second to restore it to the cylindrical form.

There are seven sheets of drawings and 36 claims
