Notifications under "The Patents Ordinance, 1906"

The following specifications have been accepted —

No 3923 of June 14, 1952 (Convention application under Section 48 claiming priority date June 16, 1951)

AKTIEBOLAGET BOFORS

" Remote control device with a coupling appliance "

Abstract — This invention relates to remote control devices. The nature of the invention can be ascertained from Claim 1 which reads as follows —

1 A remote control device comprising a controlling and a controlled unit, each connected to its position indicator, said indicators in co operation producing an electric signal, the character of which is dependent on the positions of the controlling and the controlled unit in relation to each other, and which is fed to an amplifier or an amplifier chain containing at least one filter network, the signal obtained from the amplifier or amplifier chain being applied to a device regulating the

movements of a driving unit for the controlled unit, characterized by a coupling appliance which, responding to variations in the strength of the signal applied to said amplifier or amplifier chain switches on, or switches off one or more of certain elements in the said filter network.
