Registrar of Trade Marks.

## Notifications under "The Patents Ordinance, 1906"

### NOTICE

THE following specifications have been accepted —  
*No 4,079 of January 22, 1954 (Registration of British Patent No 683,405 of November 1, 1950, under Section 46 of the Ordinance)*

"Shell" Refining & Marketing Company Limited

"Improvements in and relating to Fuels for Internal Combustion Engines"

*Abstract*—This invention relates to fuels for internal combustion engines. The nature of the invention can be ascertained from Claim 1 which reads as follows —

1 A fuel for internal combustion engines which comprises hydrocarbons of the gasoline boiling range containing a minor proportion of a tetra-alkyl lead, a minor proportion of a completely esterified organic ester of an oxyacid of phosphorus or arsenic containing at least one carbocyclic radical and a minor proportion of a halohydrocarbon scavenger.

There are 15 claims.

*No 4,080 of January 25, 1954 (Convention application claiming priority date January 27, 1953, under Section 48 of the Ordinance)*

Altiobolaget Bofors

"Initiating device for a projectile preferably with hollow charge effect"

*Abstract*—The present invention relates to an initiating device for a projectile. The nature of the invention can be ascertained from Claims 1 and 2 which read as follows —

1 Initiating device for a projectile, preferably with hollow charge effect, comprising a front member

subject to external actuation and a rear member containing an igniting composition, characterised in that the said members are electrically joined to each other and that they contain electrical means of such a kind that the said igniting composition will be electrically ignited upon the front member being subjected to external actuation

2 Initiating device according to claim 1, characterised in that the front member houses a crystal or the like gives rise to electrical voltages when subjected to mechanical strains and stresses

There are 19 claims and 5 sheets of drawings.

*No. 4,095 of March 4, 1954*

R. G. Bartholomeusz

"A composition for surfacing roads, roofs, floors and the like and its bye-product (thinner)"

*Abstract*.—The nature of the invention can be ascertained from claims 1 and 2 which read as follows:—

1 A composition for surfacing roads, roofs, floors and the like characterized in liquidising scrap rubber and vulcanising same with a proportionate percentage of flower of sulphur as described in my specification.

2 A thinner for mixing paints and for use as wood preservative distilled through a still in the process of liquidising scrap rubber for the composition as described and claimed in claim 1 above

There are 2 claims and 1 sheet of drawing

S L DE SILVA,  
 Registrar of Patents

Colombo, October 19, 1954
