PART V published with this Issue contains Notice to revoke or Suspend Private Carriers' Permits under Regulation 12, &c.

Trade Mark Notices

Trade Marks Office

All communications relating to Trade Marks should be addressed to the Registrar of Trade Marks, Department of the Registrar of Companies, Block 5, Echelon Square, Colombo 1.

Hours of Inspection

The office shall be open to the public every week day, except Saturday, between the hours of ten to four, and on Saturdays between the hours of ten to one, except on public holidays. Applications for inspections will however be accepted up to 3 p.m. on week days and 12 noon on Saturdays.

Trade Marks limited to colours

Where it is stated in the advertisement of an application that the mark upon its registration is to be limited to

certain colours, the colours are, as far as possible, indicated in the accompanying representation of the mark in the usual heraldic manner.

Association

Where it is stated that an advertised mark is to be associated (under Section 22 of the Trade Marks Ordinance (Cap. 121)), with another mark, it is indicated by its official number.

Applications in Part A or Part B

Applications for registration in Part A of the Register are shown with the official number unaccompanied by any letter. Applications for Part B of the Register are distinguished by the letter B prefixed to the official number.

OPPOSITION

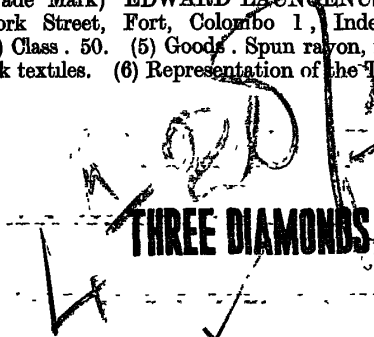

NOTICE is hereby given that any person who has grounds of objection to the registration of the following trade marks may, within two months from the date of this Gazette, lodge Notice of Opposition on form T. M. No. 7 bearing an uncanceled or impressed stamp of Rs. 25. The period of lodging Notice of Opposition may be enlarged by the Registrar if he thinks fit and upon such terms as he may direct.

Formal opposition should not be lodged until after reasonable notice has been given by letter to the Applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice will be taken into account in considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

TRADE MARK APPLICATIONS ADVERTISED BEFORE REGISTRATION

Notifications under "The Patents Ordinance"

THE following specification has been accepted :—

No. 4,252 of July 16, 1955.

ARTHUR CYRIL KEMPITIYA.

"Improvements in string-hopper moulds or presses."

Abstract—The nature of the improvements can be ascertained from Claim 1 which is as follows.—

1. An improved string-hopper mould or press made of wood and/or any suitable metal in which the cup like dough container is held in position in the wooden handle by means of a rim on the top of the container enabling the container to be easily detached from the handle for cleaning purposes

There are two sheets of drawings

(1) Trade Mark No. 16,928. (2) Date of Receipt March 2, 1956. (3) Applicant (Proprietor of the Trade Mark) · KUKULEGE ARTHUR GRENIER PERERA trading as ARTHUR & SONS, 321, Grandpass Road, Colombo 14, manufacturer of toffees, sweets, papadams,

S L. DE SILVA,
Registrar of Patents.

Colombo. June 21, 1956

THE following specifications have been accepted.—

No. 4,264 of September 19, 1955. (Convention application claiming priority date, December 13, 1954).

WILLIAM B. McCREADY.

“Shingles”.

Abstract.—This invention relates to improvements in metallic shingles. The nature of the invention can be ascertained from claim (1) which reads as follows:—

1. The method of making a metallic shingle by pressing a plane blank in rectangular shape and cutting from two diagonally opposite corners triangles of predetermined size, cutting a portion simulating a keystone of predetermined size from a third corner of the blank, pressing concave grooves in one plane face of the blank adjacent the edges of the blank, folding the marginal portions of two sides of the blank adjacent to the fourth corner of the blank to underlie one face of the blank and then folding the remaining marginal portions of the blank to overlie the other face of the blank.

There are 7 claims and 2 sheets of drawings

No. 4,267 of September 30, 1955.

THE BRITISH BATA SHOE COMPANY LIMITED.
“Improvements relating to rubber footwear”.

Abstract.—This invention relates to articles of footwear formed of rubber or the like with insoles incorporating sponge rubber. The nature of the invention can be ascertained from Claim 1 which reads as follows:—

1. A method of making shoes comprising building together the following components, namely, a sole incorporating vulcanisable rubber, an upper also incorporating vulcanisable rubber and an insole incorporating a top layer of porous fabric and an under layer composed of a composition of vulcanisable rubber containing a sponging agent, and subjecting said components on a last to heat and pressure by an exterior medium to vulcanise the rubber constituents and to convert said composition into vulcanised sponge rubber, the procedure being such that gases produced in the insole during sponging escape through and under the control of said fabric and the components are under the exterior pressure of said medium, the reactive interior pressure of the last and the internal pressure due to said gases, so that the components are united as an integral whole.

There are 13 claims and 1 sheet of drawing.

No. 4,268 of September 30, 1955. (Convention application claiming priority date, October 14, 1954).

BRISTOL LABORATORIES INC.

“Antibiotic product.”

Abstract.—This invention relates to new therapeutically useful complexes of tetracycline.

It is the object of the present invention to provide a therapeutic form of tetracycline which is stable for prolonged periods of time when formulated as an aqueous suspension for oral or parenteral use. This object is attained and it is now provided by the present invention crystalline tetracycline-calcium chloride complex and further a crystalline complex containing four molecules of tetracycline per molecule of calcium chloride.

There are 12 claims and 1 example.

S. L. DE SILVA,
Registrar of Patents.

Colombo, June 19, 1956.

THE following specification has been accepted:—

No. 4,270 of October 18, 1955. (Convention application under Section 48, claiming priority date, October 20, 1954).

Imperial Chemical Industries Ltd

“A new halohydrocarbon and methods of making the same”.

Abstract.—This invention relates to a new halohydrocarbon viz. 1:1:1—trifluoro-2-bromo-2-chloroethane of the formula $CF_3-CHBrCl$.

The nature of the invention can be ascertained from Claims 1, 2 and 3 which read as follows:—

1. The new chemical compound 1:1:1—trifluoro-2-bromo-2-chloroethane.

2. Process for the manufacture of the new compound 1:1:1—trifluoro-2-bromo-2-chloroethane which comprises brominating 1:1:1—trifluoro-2-chloroethane or chlorinating 1:1:1—trifluoro-2-bromoethane.

3. Process as claimed in Claim 2 wherein the bromination of 1:1:1—trifluoro-2-chloroethane is carried out in the gaseous phase at a temperature in the range 350°-600°C., preferably 425°-475°C.

There are 3 Examples and 6 Claims,

S. L. DE SILVA,
Registrar of Patents.

June 23, 1956.
