(2) The first reading shall, in the case of a newly-fixed meter, be the reading taken when such meter is fixed, and in any other case, the last reading taken for the quarter immediately preceding. (3) Where the quantity recorded by the meter differs from the actual quantity of water supplied by more than two per centum of the actual quantity supplied, the testing fee prepaid under paragraph (1) shall be refunded to the occupier.

If the Chairman or such other person is without reasonable cause refused admittance into such premises or is prevented without reasonable cause from making such examination, the Chairman may stop the supply of water to such premises.

38. (1) The Chairman may, whenever he has reason to believe that the arrangement, size, position, nature or condition of any pipe, tap or valve or other fittings forming part of a private service, is likely to lead to waste, misuse, undue consumption or contamination of the water supplied from the Council's waterworks, or is likely to be prejudicial to the proper control and distribution of water from the waterworks, serve a notice in Form E set out in the Schedule hereto on the owner or occupier of the premises provided with such service, directing him to make such alterations as may be specified in such notice, and in the event of such alteration not being made or caused to be made by the owner or occupier to the satisfaction of the Chairman within the period prescribed in such notice, it shall be lawful for the Chairman forthwith to disconnect such service from the waterworks of the Council.

- (c) that such action is expedient or necessary by reason of any damage caused to any public stand-pipe or any pollution or waste of the water thereof; or
- (d) that damage is caused or likely to be caused to the waterworks by an outbreak of fire.

46. In all cases in which the Council is by these by-laws authorized to cut off or stop the supply of water to any premises, any person thereto authorized by the Council and his workmen may, after giving six hours' notice to the owner or occupier, enter such premises between the hours of eight of the clock in the morning and five of the clock in the evening, and cut off the supply of water to the premises and remove any pipe, meter or fitting which is the property of the Council.
